Lynch in a Critical Condition Through the Effects of a Most Deliberate Blow Received on the Head From Micky Connors.

The Peterborough senior lacrosse team met with defeat in Orillia yesterday by a score of five goals to one, but although the figures would give the impression that the game was one-sided, it was only so in one sense of the word, and that was in roughness. Orillia had it all its own way as far as slugging went. Ample evidence of this fact can be had by a glance at any of the Peterborough players. Of the entire twelve men, Dobbin was the only one who come through the ordeal unscathed. Poor Lynch is hurt the worst. He received a most deliberate crack over the head from the famous Micky Connors, one of whose victims Irving, of the Toronto Elms, is now in the General Hospital maimed for life.

CONNORS' ATTACK

on Peterborough's great defence man was one of the most dastardly acts ever seen on a lacrosse field. Lynch was trying to get away from Wilkinson with the ball when Connors ran up from behind and cut him down so deliberately as to sicken the spectators. So horrified by the act were Armstrong and Wilkinson, of the Orillias, that to their credit be it said, they were on the point of leaving the field. The Peterboroughs offered to give the game to the Orillias, if they would be allowed to leave the field, but the Orillias would not listen to argument and the match had to be continued. Lynch was taken in a hack to Dr. Gilchrist's office, when it was ascertained that his eye was not injured as was greatly feared. He was afterwards taken to the station in a hack and on the arrival of the train at Peterborough had to be driven to the Oriental hotel, being too weak from loss of blood to be taken home directly. All the men, as stated before, are more or less hurt, with the exception of Dobbin, but Referee O'Loughlin contented himself with warning the men, only in a few instances going as far as to

INFLICT ANY PENALTY.

This treatment at the hands of the Orillias comes hard when it will be remembered that not one of their team was hurt in the least in Peterborough on June 2nd, nor was one of the local men even warned for rough play.

Peterborough seemed to have the best of the match all the way through. The defence did grand work and fed the home well. Neat combination plays were going on all the time and the ball was carried in on the Orillia flags again and again, but the shooting was decidedly off colour. The home men attribute this to the fact that when they came into close quarters with the Orillia defense, they could not watch the ball and their check at the same time, and knowing that when they came within reach of an opponent's stick they were liable to feel its weight, they preferred to take chances on shooting from a distance to carrying the ball in close and receiving an injury which might mark them for life. Those who saw the game have not a word of blame for the home men, realizing exactly the position in which they were placed.

THE GAME.

The game began at 2.29 p. m., the teams lining up as follows :

Peterborough.		*Orillia.*
F Dobbin	goal	Hawley
F Lynch	point	Quinn
J Brown	cover point	Churchill
J Mein	1st defence	D O'Connor
Jim McCabe	2nd defence	Watson
T Robinson	3rd defence	Thompson
P Rubidge	centre	Dunn
L King	3rd home	Boyd
R Glover	2nd home	Wilkinson
Jack McCabe	1st home	Armstrong
M McDonough	outside home	Grant
G Lipsett	inside home	M O'Connor
Bert Dolan	field capt	M J Yeats
Harry King	umpires	B Kean

Referee—H O'Loughlin, St Catharines.

After the ball was drawn it went straight in on the Peterborough flags and Armstrong scored for Orillia in ½ minute, the ball never being touched by the Peterborough defense.

The second game started out with another attack on the Peterborough flags, but the defense was not to be caught napping a second time and the ball was soon passed out to the home field and Jack McCabe made a couple of close shots. Up and down the field the ball was carried, the Peterborough combination working in splendid style until it reached the Orillia flags, where there were several good openings to score, but the shots went a little too high. Lipsett put in two very hot shots, but both were gathered in by Hanley, who a moment afterwards had to stop one from King and another Jack McCabe. For fully ten minutes this fusillade on the Orillia goal was kept up before operations were carried to the other end of the field, when Wilkinson by a neat side shot scored for Orillia. Time—21 minutes.

Orillia opened the third game by a rally on the Peterborough sticks, but

LYNCH RELIEVED

and passed the ball out to Glover. A pretty piece of running combination work then took place, in which Glover, Jack McCabe, King and Lipsett figured. Glover got the shot on goal and it was a close one, but was gathered in by Churchill. The effects of the treatment they were receiving by the Orillias now began to show its affects on the Peterborough's. They played their opponents to a stand still and their combination was set going time and again by the neatly passed out balls from the defence, but the players would not risk close work and their shooting from the field was not effective, being easily blocked. The play continued for 34 minutes when Armstrong scored for Orillia. Score, 3-0.

Orillia also took the fourth game, Grant doing the necessary in 3 minutes.

The choicest piece of combination work of the day was seen in the fifth game when Rubidge took the ball

FROM THE FACE OFF

and passed to Jack McCabe. Quickly the sphere passed to King and was transferred to Lipsett who scored in less [illegible] minutes, the ball not having touched the ground once or the stick of an Orillia player.

Afraid that they might yet be beaten out the Orillia men recommenced their rough play with renewed vigour and in a few minutes after play commenced Lynch was laid out and an effort was made to have the game called before more serious injury was done any of the players, but the referee decided the match must go on, if Orillia would not consent to the proposition, and the slaughter continued for 13 minutes longer, the Peterborough players endeavouring to get rid of the ball as quickly as possible to give the Orillias no opportunity for close checking. At the end of this time Orillia scored again and the score stood at 5—1, no more games being scored before time was called.

NOTES.

The standing of the district series is now as follows :

	Won.	*Lost.*	*To Play.*
Beaverton	1	0	5
Peterborough	1	1	4
Orillia	1	1	4
Midland	0	1	5

In the event of Peterborough and Orillia each winning the same number of games, the two teams will have to play off the tie on neutral grounds. Lindsay would probably be the point selected for the game.

If the Peterboroughs had left the field yesterday they would have forfeited their fifty-dollar bond.

The Grand Trunk authorities agreed to hold their regular train at Orillia from 4 40 until 5 15 yesterday afternoon in order to give the boys time to finish the match. But even then Lynch and Terrill, who were at the doctor's, would have missed connections if the train had not been kindly held for another fifteen minutes to oblige them. The boys will not soon forget this courtesy on the part of the Grand Trunk and wish to extend thanks to Mr. Bunton, the local agent, who accompanied the excursion.

Every man who played on the Peterborough team yesterday was born in the town. The Orillia twelve included Hanley, of Varsity ; Boyd, of Gravenhurst ; Wilkinson and Armstrong, of last year's Markham's, and Churchill and O'Connor, of last year's Stouffvilles.

Ask Mein, Brown and King how their ribs feel to-day.

The next game is with Perth on the morning of July 1st—just two weeks from to-day.

Mr. O'Loughlin is far too easy going a referee for a game in Orillia. He was all right in Peterborough, but it needs a strict man to hold down the northern team on its own grounds.

What team ever played on the Peterborough grounds and went away complaining of rough treatment and what team ever complained of anything else in Orillia.

It is not a case of making a howl about rough play because Peterborough was beaten. When the Tecumsehs won from Peterborough last year and Brampton repeated the trick this year just credit was given both teams for superior play.

OUR SUFFERING IRISH BROTHERS.

Hon. Edward Blake's Confirmation of the Existence of Destitution—Peterboroughs Liberal Contribution to the Relief Fund.

Yesterday's Globe has a cablegram from Hon. Edward Blake to Hon Solicitor General Fitzpatrick, confirming the existence of utter destitution in large sections of the south and west of Ireland. In view of this fact, now affirmed by Mr. Blake, it is expected that Irishmen in Canada, indeed all men holding sympathy with a suffering people will not delay in affording relief to the distressed.

In the last issue of the New York Irish World, June 11th, it is noticed that Peterborough, through Mr. J. W. Fitzgerald, has already, quietly but practically, moved in the matter, and that the generous sum of $120, in the names of the contributors to the Famine Fund, has been acknowledged in its columns as follows :

Per James W Fitzgerald, $120. Peterborough, Ont., Can. Contributions : R A O'Connor, $10 ; Rev. Daniel O'Connell, $5 ; Rev W J Kelly, P P, Douro, $5 ; Rev M F Fitzpatrick, $5 ; Rev Father McColl, $5 ; Rev Father Conway, $5 ; Rev Father Lynch, $5 ; Rev Father Scanlan, $2 ; Mrs (Dr) O'Sullivan, $5 ; Dr McGrath, $5 ; John C Sullivan, $5 ; James Dolan, $5 ; Gough Brothers, $5 ; Martin Conner, $5 ; L M Hayes, $3 ; Daniel O'Connell $2 ; John Moloney, $2 ; James Murty, $2 ; Anthony Murty, $1 ; Michael Murty, $1 ; H LeBrun, $1 ; Richard Sheehy, $1 ; J W Fitzgerald, jr. $3 ; A Friend, 90c ; J W Fitzgerald, $10 ; collected by Mr Michael O'Reilly : Michael O'Reilly, $1 ; Gus Corcoran, $2 ; James Londergan, $1 ; Edward Lynch, $1 ; Phil Heffernan, 50c ; James Hickey, 50c ; William Heffernan, 50c ; Frank Murray, 50c ; William Thorne, 50c ; C Clancy, 50c ; Miles McDonough, 25c ; William Lynch, 25c ; A Weatherhead, 25c ; Jack Dannard, 25c ; A LeHaise, 25c ; George Dannard, 25c ; Fred Guerin, 25c ; Michael Daly, 25c ; collected by Mr William Rudkins : Wm Rudkins, $3 ; E R Ward, $1 ; John S Judge, $2 ; William McAuliffe, $1 ; Denis Gleason, $1 ; Charles Grant, $1 ; John L O'Brien, $1.

It is to be noted that the Peterborough contribution is nearly three times larger than the largest in the three column list of contributions published in the issue mentioned.

A GOOD DICTIONARY FOR THREE CENTS.

A dictionary containing the definitions of 10,000 of the most useful and important words in the English language is published by the Dr. Williams' Medicine Co., Brockville, Ont. While it contains some advertising, it is a complete dictionary, concise and correct.

In compiling this book, care has been taken to omit none of those common words whose spelling or exact use occasions at times a momentary difficulty, even to well educated people. The main aim has been to give as much useful information as possible in a limited space. With this in view, where noun adjective and verb are all obviously connected in meaning, usually one only has been inserted. The volume will thus be found to contain the meaning of very many more words than it professes to explain.

To those who already have a dictionary, this book will commend itself, because it is compact, light and convenient ; to those who have no dictionary whatever, it will be invaluable. One may be secured by writing to the above concern mentioning this paper, and enclosing a three-cent stamp.

Weigh Yourself before Taking Them.

GAINED 22 POUNDS.

I have more faith in Dr. Ward's Blood and Nerve Pills than anything else I have ever used. Since using them I have recommended them to several of my friends who were troubled as I was, and now they are in splendid health. I had been a sufferer, like a great many other women, with a disease peculiar to my sex. I tried everything I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color and my friends were alarmed. I consulted a doctor of this town and he said I would never get better; that I would always be sickly and delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others, I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and eighteen pounds, and now I have a constitution that is hard to beat. I have not suffered any pain in months, and earnestly hope that Dr. Ward's Blood and Nerve Pills will reach every woman suffering as I did. Sincerely yours, MAY COLE, Simcoe, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

FATAL FIRE AT FORT WILLIAM.

McDougal Block Entirely Destroyed—A Child Fatally Injured.

Fort William, June 16.—Fire completely destroyed the McDougal block, corner of Cumming and Simpson streets, at 2 30 o'clock yesterday morning. It was occupied by Mrs. Mary Spooner as a men's furnishing store, and Lyon & Co., fruiters, and the second storey as dwellings and a lodge room. None of the contents was saved.

The occupants barely escaped with their lives. Of these, two women are badly injured. Hollan, his wife and child were injured in jumping from the second storey window. The child has since died.

Central Prison Convicts Escape.

Toronto, June 16.—Two of the convicts incarcerated at the Central Prison made a break for liberty early yesterday morning. One was recaptured half an hour later, but the other is still at large, and, from the knowledge of his character, it is not likely that he will be recaptured for some time to come. Thomas Carlyle, the pickpocket, is the one who is still at liberty. Park Ludlum, alias Paul Lawrence, another pickpocket, was taken half an hour after he had left the prison premises.

The Meanest of Misers.

The confirmed money miser may be the most despicable of stingy men, but the man who hoards his knowledge, his skill, his experience or the potency of his social and mercantile influence and is stingy with it when it might be immeasurably helpful to others is a miser of hardly less contemptible proportions.—Boston Globe.

CANADIAN PULP.

The First Full Cargo of 2,200 Tons Shipped Direct to Glasgow—Our Product the Best.

Montreal, June 16. — The steamer Louisiana of Glasgow has just sailed from the port of Chicoutimi with 2,200 tons of pulp from the Chicoutimi Pulp Co.'s mills, and which is the first full cargo of pulp ever exported from Canada The mill, which has only been in operation a short time, employs 80 hands day and night, uses 900 logs every 24 hours and has a daily output of 60 tons wet weight and a monthly pay roll of $2,000. The company has spruce limits to the extent of 800 square miles and during last winter 200,000 logs were cut for the mill.

Our Pulp the Best.

Mr. Dubuc, the managing director, says that Canadian pulp wood is so much better than the American that their orders are three times in excess of the present supply, which, however, will be increased to 70 tons daily in a short time.

THE RATE WAR.

Canadian Pacific Making Money While Western Roads Lose.

Chicago, June 16.—The Western Passenger Association was in session all day today, considering the passenger rate situation, and will meet again to-morrow. The general sentiment among passenger men now seems to be in favor of putting rates down to bottom figures, in the hope of forcing a settlement of the rate war. The Baltimore & Ohio to-day announced that it would apply the low rates between St. Paul and the East on westbound business as well as eastbound, a move which will tend to still further disturb rate conditions. Meantime the Canadian Pacific is making money, while the American lines are suffering losses. The situation appears hopeless unless some compromise can be reached with the Canadian road.

CONSUMPTION.

Importance of Proper Diet In the Treatment of the Disease.

Next to a life in the open air, perhaps even more than that, the question of food is of the utmost importance in the prevention of tuberculosis as well as in the treatment of the disease. One of the ways in which an open air life is curative, indeed, is that it increases the appetite.

People with consumption almost invariably eat too little, even less than those in health, whereas they should eat vastly more than the well. Nature seems to be aware of this, for usually a tuberculous patient can assimilate a much larger quantity of food than a healthy person.

The food should be taken in fairly large quantities and at frequent intervals. Not more than three or at most four hours should pass without the eating of something, if it is only a milk biscuit, a sandwich or a banana. A pitcher containing two glassfuls of milk should stand on a table near the bed so that a glass may be taken in the night if the patient wakes and again before dressing in the morning.

As much milk as possible should also be taken at intervals throughout the day. This is of course if the patient is able to drink milk; most people are, even when they think they are not, yet there are some to whom this excellent food is repulsive or who really cannot digest it. Such will have to substitute broths, jellies and the like for the milk. Often ice cream can be taken when milk cannot.

The food taken at mealtime should be of the most nourishing character—meat, eggs, fish, peas and beans, varied with salads dressed with oil, but no pastry. The tea and coffee should be chiefly cream, the bread and butter should be chiefly butter and the salad dressing should be chiefly oil. Every particle of fat taken and digested is so much pure gain, and even when cod liver oil is being used as a medicine as much butter and cream as possible should be taken as well.

Plenty of water should be drunk—four or five glasses a day at least, unless a great abundance of milk is used—in order to promote the assimilation of the large amount of food consumed and also to wash away the necessarily increased quantity of waste products.—Youth's Companion.

WEAKENING DIARRHŒA.

Promptly Checked and the Weakened System Strengthened by Dr. Fowler's Extract of Wild Strawberry.

Diarrhœa does not need to persist for any length of time until the whole system is weakened and debilitated. No other disease so quickly undermines the strength and brings about a condition of prostration and often collapse.

Dr. Fowler's Extrabt of Wild Strawberry is not only prompt and effectual in checking the diarrhœa, but at the same time it stimulates and strengthens the heart and braces up the system.

Mrs. Soshua Stevenson, Owen Sound, Ont., says that her little girl was weak and almost run to nothing through a severe attack of summer complaint. Nothing would check it till she gave her Dr. Fowler's Extract of Wild Strawberry which acted like a charm. She considers no household should be without this valuable remedy. Wise parents should take to heart this advice of Mrs. Stevenson's, as they do not know when they themselves or one of their children may be attacked by Diarrhœa, Dysentery, Cholera, Colic or Cramps.

Dr. Fowler's Extract of Wild Strawberry is not an expensive remedy—only 35c. a bottle, and the doses are so small that it goes a long way.

Don't accept a substitute or imitation. Many of them are dangerous compounds.

Baby Brightness

Soon fades when diarrhœa seizes on the little form. Dr. Fowler's Extract of Wild Strawberry has saved many infants' as well as adults' lives. Mrs. W. Walters, Richmond Street, Hamilton, Ont., Says:—"I cured my baby of a bad attack of cholera by using Dr. Fowler's Extract of Wild Strawberry. Nothing else did any good, but the baby improved from the first dose of the Wild Strawberry."

LIFE REDUCED TO 20 YEARS.

The Government Will Release Some of the Irish Dynamiters This Year.

London, June 16.—The Government has notified Mr. John Redmond, Parnellite member of Parliament for Waterford, that in the coming revision of the sentences passed upon the Irish dynamiters implicated in the alleged conspiracy of 1883, when there were numerous explosions or attempts at explosions in London, Liverpool, Glasgow, Birmingham and elsewhere, life sentences will be regarded as 20-year terms. This means that H. H. Wilson, Timothy Featherstone, H. Dalton, Terence McDermott and Flanagan will be liberated during the present year if their prison records are clean.

RATE WAR IS SUICIDAL.

English Shareholders of the C.P.R. Urged to Object to Van Horne.

London, June 16.—The Daily Globe says the presence of Sir William Van Horne in London affords a favorable opportunity for shareholders here to make known how strongly they feel regarding the suicidal policy which the Canadian Pacific Railway is pursuing in keeping up the rate war.

The English artillery team which is to visit Canada will probably sail on August 18. Money has not been subscribed as freely as was expected. While £2,000 is needed to cover the expenses of the trip, only £600 has come into the hands of the treasurer.

Death of H. B. Western.

Hamilton, June 16.—H. B. Western, who tried to commit suicide on Sunday afternoon last in his office in the Canada Life building, by shooting himself in the left breast, died at 1 o'clock yesterday morning at St. Joseph's Hospital. Western was conscious for about 12 hours after shooting himself, but was anxious to die, and would do nothing to help prolong his life. He was 42 years of age and leaves a widow and one child. Western was comparatively wealthy and held considerable stock in financial institutions.

The Missing Books Recovered.

Toronto, June 16.—The missing books of the Standard Fuel Company, which are wanted in the charges against Noel Marshall and Edmund Preston, have been recovered. Acting on information received, Sergeant Reburn, of the detective department, paid a visit to a stable at the corner of Ontario and Coatsworth streets yesterday, and there recovered the books. Richard Curphey, whose stable they were in, has been arrested and charged with illegally receiving and attempting to conceal stolen property.

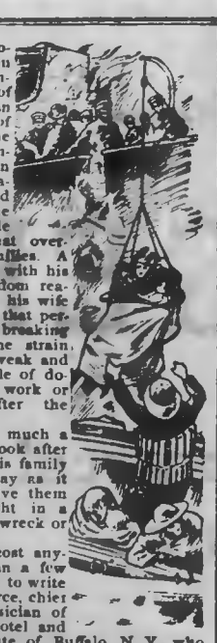
Painters and Decorators. Nos. 2 and 4 Reliable Material and Workmanship. 283 King Street. P. O. Box 657

"Save the women and children first!" is the instinctive cry of every brave man in a moment of peril, but in the every day concerns of life men who are ordinarily brave and kind forget the perils of trouble and disease that overhang their families. A man engrossed with his own affairs seldom realizes how hard his wife is working and that perhaps she is breaking down under the strain, and becoming weak and sickly; incapable of doing the family work or of looking after the children.



It is just as much a man's duty to look after the health of his family from day to day as it would be to give them the first thought in a moment of shipwreck or peril.

It does not cost anything more than a few minutes of time to write to Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who will give the best professional advice free of charge with suggestions for inexpensive home-treatment whereby any of the family who are weak and ill may be put on their feet again well and strong and hearty.

For thirty years Dr. Pierce has successfully treated many of the most obstinate and apparently hopeless cases of severe chronic disease. His medicines are known throughout the whole world for their astonishing efficacy. His "Golden Medical Discovery" is the most perfect remedy for all weak and debilitated conditions of the system. It gives power to the digestive organism to transmute the food into muscular flesh and active energy. His "Favorite Prescription" is the most successful medicine ever devised for the delicate ailments peculiar to women.

His "Pleasant Pellets" are the best mild and natural laxative for constipation.

A ROMANTIC ENGLISHMAN.

Sir Edwin Arnold's Life In the Flowery Kingdom.

Sir Edwin Arnold, who legalized his union with a fascinating Japanese widow by an English marriage service in London, was always cosmopolitan in his ideas. Surely no Englishman born and bred has ever succeeded in merging his own individuality into that of other people's as the author of "The Light of Asia" and "The Light of the World" has done. When he was in India in his young days, his work showed his intense sympathy with the Buddhists, and in the preface to "The Light of Asia" he wrote, "This book was written by one who loved India and the Indian people."

For twoscore of years he was English to the core of his heart in the editorials he wrote for the London Telegraph, and in 1890 he came to America, seemed quite able to understand us, as few of his countrymen could do, and then he went on to Japan and immediately began to live a la Japonais.

He lived in a native house, left his shoes at his door, slept on a thick quilt, and, they say, ate in true Japanese style. In his bedroom he had a cheap European washstand, two Japanese chests of drawers of whitewood and black ironwork and the usual sliding cupboards, into which his bed was put when it was rolled up in the daytime.

The walls of the room were of tissue paper panels, powdered with silver maple leaves, and a clear glass belt ran around the room "at a height inconducive to propriety," as our correspondent of the day remarked.

The drawing room was glass paneled from floor to ceiling, and the only thing in the whole house that hinted at other civilization was an American stove, which stood in one of the corners.

With such surroundings it is not much wonder that the impressionable poet found himself going through the ceremony of tea drinking with his charming companion of the hour, and that he was content to accept the ceremony as a bona fide marriage a tribute to his kinship with genius that since the world began has ever flaunted a little the staid laws and regulations that ordinary folk find necessary to comfortable existence.

It was in Japan, by the way, that Sir Edwin began "The Light of the World," and indeed completed it, too, during his stay of several years.

He says himself that he was in a tea garden one night, surrounded by music, flowers, handsome dressing and all the delicate luxuries which Japan knows so well how to combine, when suddenly he began to write. So absorbed was he that he was unconscious of his companions until one said, "Be quiet; Dana Sama is writing," and then he found he had put on paper the first lines of his beautiful lyric:

Peace beginning to be
Deep as the sleep of the sea,
When the stars their radiance glass
In its blue tranquillity.

—Philadelphia Record.

ONE WOMAN'S WIT.

How an Idea Added Materially to Her Success In Business.

A Washington modiste, who enjoys the patronage of many fashionable women in the official set, let a reporter into the secret of her success a few days ago. Said she: "No, I don't claim to have begun business with more perseverance or genius for dressmaking that the average professional. I date my success exactly from the time I hit upon a little idea that being a novelty immediately won for me a reputation. Am I French? No, indeed; yet my idea was sufficiently Frenchy to go with my customers. One night I was finishing up a gown for a senator's daughter, and though I had tried hard to please my young lady, knowing if I succeeded it would be the means of increasing my business, the thought came to me that if I could make up the package and send it home with some stamp of individuality about it it would be a feather in my cap.

"At that moment I was sewing hang loops on the waist, and the great idea flashed through my brain. I jumped up, seized a candle and made for the cellar. Arrived there, I grasped a hatchet and knocked off a barrel hoop. Dividing the hoop in half, I hurried back up stairs with my embryonic waist holder. It did not take me long to cover the curved stick with some pieces of material left from the gown and attach a ribbon and bow. It made a very dainty and useful accompaniment to the gown, and my customer was delighted. Wasn't it a happy idea? Why, I never send a gown home now without a pretty waist holder to match, and I put sachet powder in the hangers to increase their attractiveness. You have no idea how quickly the news spread that 'Miss —— was such a clever dressmaker, with such original ideas.' I honestly believe my little barrel hoop creation procured me my present large business."—Washington Star.

True Hospitality.

The Washington Post prints a "true story," told by a retired army officer. The occurrence happened in New Mexico. Colonel X. was making a long march and the provision wagons had gone astray. He was hot and tired and hungry when he met Major B., who invited him home—presumably to some fort—to breakfast.

The major's fortunes were at a low ebb, and when the breakfast was brought on it proved to consist entirely of rice—rice cooked in the wonderful southern fashion, with every kernel perfect. The hungry guest ate a spoonful. He detests rice. Then he waited for a second course.

"Have some rice, colonel," said the major, whom nothing ever disconcerts, quite as if the rice had but that moment appeared.

"No!" snapped the colonel. "I'm a Kentuckian, sir, and I don't eat rice. I don't eat rice, sir. Give me something else."

"Why, certainly, colonel, certainly," said the host. "Try some of the mustard. It's very fine, sir; very fine."

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

The English School System.

The English "board school" system, which corresponds to our public schools, is as yet far inferior in most essentials.

The board schools are not, to begin with, free. Tuition fees, varying from 6 to 12 cents a week, according to the location of the schools, are exacted from pupils, and parents who are unable or unwilling to pay get into very serious trouble.

The teaching is primitive indeed. Little boys are set at sewing or knitting to keep them quiet. Sir John Lubbock has just made widely public the fact that thousands of youngsters pass through the curriculum of the London school board without learning one iota of geography except as a special subject. History is no better, and English is practically nonexistent.

Germany sends over to England every year hundreds of young men who can hold their own in commerce, and who are thoroughly well equipped in the subjects that might be taught in the board schools.

Some Englishmen are beginning to think that the strides Germany is making in trade are mainly due to superior intelligence and the better general education of her people.—New York World.

How She Was Troubled

I was afflicted with that tired feeling and had no appetite. A friend advised me to try Hood's Sarsaparilla which I did and in a short time my appetite was better and the tired feeling was gone. Since then we always take Hood's when we need a blood purifier." MRS. S. KINCH, Beatric, Ontario.

Hood's Pills cures sick headache, nausea, biliousness and all liver ills. Price 25 cents.

The Quest of Fortune.

"The longer I live the more firmly I am convinced," said Mr. Gozzleton, "that a man who wants a fortune has got to do something besides wish for it. Fortunes, large and small, are shy, very shy. In one form and another they are passing by all the time, but they won't stop for the mere asking, however polite and graceful and earnest the invitation may be. We might sit out on the veranda from now till doomsday and rise and bow and scrape at every one of 'em that came along and ask 'em all in, but never one of 'em would stop. They might want to come in, but nothing short of actual collaring would bring 'em in. The fact is that if we want a fortune we've got to work for it.

"Men have made fortunes, to be sure, without working. Oil may spout up out of the ground one owns and cover him with riches. Another man may find iron ore in his land, and so on.

"But such cases are so few in number that they don't count. The chances of our getting rich in that way are really not worth considering. If we would be rich, we must work for it, and work early and late, all the time; plug at it and keep plugging at it. There is practically no other way.

"The man who idles away his time or fails to make the best possible use of it stays poor. The man that works for all he knows how and keeps forever at it is bound to get ahead."—New York Sun.

An Incentive to Early Rising.

A good story is told of the Rev. W. L. Watkinson at Plymouth. Some time ago he was staying with a good lady who was yearning for the good old times and mourning the degeneracy of modern Wesleyan ministers. On being asked for the grounds of her jeremiade she said that Wesleyan ministers of the earlier part of this century rose early in the morning, and that dear Mr. Wesley was in his study at 4 o'clock in the morning. "It is not to be wondered at," was Mr. Watkinson's dry reply. "Were Mrs. Watkinson anything like Mrs. Wesley I should be up at 2 o'clock."—Westminster Gazette.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

HAUNTED BY A NUMBER.

Figures Scribbled by a Schoolboy Finally Brought Fortune.

"My brother William, who died a few years ago," said Colonel Andrew Freeman the other night, "from his boyhood days had a curious habit of scribbling on every piece of blank paper he picked up.

"When he was first able to form figures with a pen or pencil, he would trace the meaningless number '15,174' on everything that had a blank space of sufficient size. On the whitewashed walls of the little old red schoolhouse down in my home county in the Pennyrile that boy wrote '15,174' ten thousand times or more.

"On the fly leaf of his textbooks, on the margins of the newspapers my father was a subscriber for, on the envelopes and on the unused bits of papers in all of the letters that came to our house he traced those figures in every idle moment without being able to tell why he did so. My father gave the lad some pretty severe thrashings and countless reprimands for indulging in the senseless habit, but Will never stopped it for a day.

"When I was 27 and Will was 22, I told him one day that I was going to play the numbers he was so devoted to in the Louisiana lottery and if I drew anything I would divide up with him. I had been throwing away a dollar in the gift enterprise for five or six years and had never drawn a cent. I didn't get the number I wanted that month, but the next month I got two tenth tickets, number 15,174, and I struck the $10,000 capital prize. Will got one-half of the cash, and till the day of his death, eight years ago, never quit talking about the luck his hobby brought me. It was the most remarkable incident in my life and the most notable occurrence in the history of our family."—Louisville Post.

A ROW OF CURRANT BUSHES.

A little brown horse with a portico,
A rosebush, all in a flaming glow,
And at the side a long green row,
A row of currant bushes—

Beautiful gems as ever seen,
Rich enough for a stately queen,
Tangled up in the blowing green
Of the row of currant bushes.

With garden hat on her graceful head
Comes Annette with a springing tread
To pluck the jewels, ruby red,
From the row of currant bushes.

Down in the field where the corn blades blow
Sunburned Richard drops his hoe,
Travels straight as his feet can go
To the row of currant bushes.

THE GOOD TEMPLARS FINISH BUSINESS.

A HARMONIOUS, SUCCESSFUL AND ENTHUSIASTIC MEETING.

Closing Business of the Session—The Officers Appointed—Votes of Thanks for Hospitalities.

After a most harmonious, enthusiastic and successful conference, the sessions of the Grand Lodge of Good Templars of Canada came to a close late last night. Following is a report of the last sittings:

THURSDAY MORNING SESSION.

The Grand Lodge was opened in due form in the subordinate degree, Bro J. W. Andrews, Grand Councillor in the chair.

Minutes of the afternoon session read and passed.

A letter was received from Bro. Geo Spence, G.C.T., expressing his regrets at being unable to be present as his medical adviser had forbidden him to attend.

The report of the Committee on Prohibition was read by Bro. D. Marshall;

1st. It commended the reply to the Synod of the Church of England, refusing to assist in extending the Gottenburg system.

2nd. That we agree with the stand of the G.C.T. that the desirability of the plebiscite is not a question to be considered, the opportunity is given us to record our approval of a prohibition law, and our duty is to grasp that opportunity and make the best possible use of it, and we would recommend the following:

3rd. That the Good Templars, individually as well as lodges, assist as far as possible in the plebiscite campaign work.

4th. That the Templars initiate the work of calling organization meetings.

5th. That all be organized effectively and thoroughly.

6th. Literature be distributed.

7th. Congratulate Presbyterian church on the clear stand taken on prohibition, Principal Grant being defeated.

8th. Also other churches.

9th. That the Grand Lodge appoint four delegates to Ontario and Dominion Alliance.

10th. That each subordinate lodge be requested to send delegates.

Dr. Mann in speaking of the unwritten work, emphasized need of being exact in saluting, insisting that this should b. exact.

On the solicitation of the P. R. W. Grand Templar, a Propogation Fund was raised. Bro. Dr. Oronhayeteka offered $10 for each of the first 25 lodges organized. Bro. Thos. Lawless offered $10 for the second 25 lodges. Bro. Huckle, for District No. 12, offered $2 per lodge for the second 25 lodges. Bro. J. D. Andrews offered $1 for each of the first 25 lodges. Bro. F. S. Spence offered $1 for each lodge organized before the 1st of October. Bro. S. S. Luckey repeated Bro, Spence's offer of $1. Bro. J. A. Hewitt 25c for each of 1st 25. Sister Graham, 25c for each of 1st 25. Bro. F. S. Morrison, 25c for all up to Oct 1st. Bro. Holland, 25c up to end of Grand Lodge year. Bro. Powell, 25c up to 1st October (all lodges.) Bro. D. Rose, $1 for each of 3rd 25. Bros. Hewitt, F. S. Spence, J. D. Anderson and Sister W. H. Moore, each offered 25c for each of the 3rd 25. Lifeboat Lodge, Sister Munn, Bro. Farnham, Evergreen Lodge, City Lodge, Peterborough, each offered 20c for each of the 3rd 25. Oronhyatekha and Lawless, $2 per lodge for 3rd 25. Rev. W. L. Scott, $2 per lodge on 3rd 25.

Bro. Dr. D. H. Mann offered to contribute 10 sets of supplies to this Grand Lodge.

Dr. Mann then exemplified the Marshall's drill. This very beautiful feature of Good Templary was illustrated by the initiation of six candidates under the direction of P. R. W. G. T. Several questions were asked and answered by Dr. Mann.

A vote of thanks was moved by Bro. F. S. Spence, seconded by Sister Mrs. Scott, to Dr. Mann and carried with great enthusiasm.

Moved by Dr. Oronhyatekha, seconded by Bro. J. D. Andrews, that a very hearty invitation be extended to Dr. Mann to be present at the next session of this Grand Lodge.—Carried.

THURSDAY AFTERNOON.

After routine the Grand Lodge entered upon the work of electing officers. There was a contest for most of the offices, several nominations being made in some cases. The result of the elections were as follows:

Grand Chief Templar—Bro. Geo. Spence, Toronto, (re-elected.)

Grand Vice-Templar—Sister Scott, Ottawa.

Grand Counsellor—Rev. J. W. Andrews, Londesboro, (re elected.)

Grand Superintendent, Juvenile Templars—Bro. F. Morrison, Hamilton, (re-elected.)

Grand Secretary—Bro. Duncan Marshall, Toronto.

Grand Treasurer—Bro. Geo. W. Powell, (re-elected by acclamation.)

Grand Auditors — Bros. Farrer and Farnham.

District Deputy Right Worthy Grand Templar—Sister R. M. Storr, Ottawa.

Past Grand Chief Templar—Bro. W. F. Brockenshire, London.

Representatives to International Supreme Grand Lodge—Bros. J. D. Andrews, and F. S. Spence; Bros. F. Roger and Rev. J. W. Andrews alternates.

There was a contest between Ottawa and Toronto for the honour of entertaining the next grand session. Toronto won and the date of the meeting of next Grand Lodge was fixed for June 29th and 30th, 1899. The International Supreme Grand Lodge meets at the same place and during the same week, which will permit an opportunity of exchanging fraternal courtesies.

The report of the Committee on the State of the Order was received and adopted. The report was very encouraging as, though it showed only a slight increase, the importance of it was emphasized by the fact that for the recent past there had been decreases. The corner of retrogade movement has turned and the advance movement again begun.

THURSDAY EVENING.

After the reading of the minutes a telegram was read from Bro. Geo. Spence, thanking the Grand Lodge for the honour shown in re-electing him as Grand Chief Templar in his absence.

Appointment of officers:

G Chap.—Bro J Stubbs, Peterborough.
G Marshall—Bro J A Hewitt, Grimsby.
G Guard—Sis M E Sturdy, Manchester.
G Sentinel—Bro Lucky.
G Asst Sec—Bro W N Ostrom, Ottawa.
G D Marshall—Sis E Munro.
G Messenger—Bro W J Sinden, Toronto.

All the officers were then installed by Bro. F. S. Spence.

Moved by Bro. Birdswhistle, of Ottawa, seconded by Bro. Perkins, Port Ryerse, that a hearty vote of thanks be extended to the Peterborough Brethren and Sisters for their hospitality towards the delegates.

Bro. Stubbs acknowledged the vote of thanks.

Votes of thanks were also tendered to the trustees of the Y.M.C.A. building for their courtesy, and also to the retiring officers.

The forty-fifth session closed in the most happy manner by singing "Blest be the Tie that Binds" and "God Save the Queen." The meeting then broke up, the delegates all regretting the breaking of ties of friendship formed so shortly before.

MUNYON'S HEADACHE CURE

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

CRICKET.

The Colts will play the return match with the Grove team in Lakefield tomorrow. The team will be:—Frank Bradburn (capt.), Harry McKee, Stanley Bradd, Douglas Hammond, Willie Macdonell, Harold Armstrong, Hubert McBain, Harry and Claude Rogers, Clayton Stapleton and Art. Boucher spare. 'Bus will leave post office corner at one o'clock sharp.

The local senior cricket team goes to Ottaway on Wednesday to play. The Ottawa eleven won yesterday from Upper Canada College by nine wickets and ten runs and has not been defeated this year.

LACROSSE.

The Toronto Telegram says: All is not harmony in the Toronto lacrosse club; in fact there is serious trouble in the camp. The management and players are disgusted at the outcome of Saturday's game. One player was seen on the street this morning and was asked when he was going out to practice. "Not till I get notice from the captain. I'm not going to waste any more car tickets riding up to Rosedale unless things are arranged differently." The team and directors will *hold* a meeting this week to discuss plans for the future. The team should either play the game or get out of business. Planting grass seed would just about catch the outfit at present.

HAS GONE FROM CADIZ

Religious Ceremonies Send Camara's Squadron to Sea.

THE 15 SHIPS PASS GIBRALTAR.

There Has Been Warm Fighting Around Manila, and the Insurgents Have Captured 3,000 Spanish Prisoners in Two Weeks—Almost in Possession of the City—War News.

Madrid, June 18.—There is a feeling of great optimism in official circles here and in the lobbies of the Cortes, owing to the departure of Admiral Camara's fleet. It is said in Madrid that it consists of over 20 ships, including auxiliary cruisers, and it is added that it has enormous quantities of war material on board, including a mysterious new explosive. It is also whispered that the squadron, when at sea, was to be divided and to proceed to different destinations.

Ceremonies of Departure.

The ceremonies attending the departure of the squadron were characteristic. The ladies of Cadiz embroidered a flag, which the Bishop solemnly blessed aboard the Emperador Carlos V., for which vessel the flag had been prepared as a gift. The prelate arrived and departed accompanied by a procession of priests and choristers and youths bearing censers. The ceremony was marked with all the pomp of the Roman Catholic Church. The choristers led the crew of the warship in singing "Mary, Star of the Sea."

An Ear-Tingling Speech.

The Minister of Marine delivered a lyrical, ear-tingling, patriotic speech. He said that the reserve squadron would no longer be reserved, but would brave danger for the country's sake. It was a privilege to be placed in a situation that must ennoble the humblest sailor, transforming him into a hero. The auxiliary cruisers accompanying the squadron are laden with coal. They also carry a considerable number of soldiers, who form the expeditionary corps. It is announced that a third squadron is being fitted out at Cadiz. This will comprise the Cardinal Cisneros, Lepanto, Alfonso XIII., and nine auxiliary cruisers.

First News at Washington.

New York, June 18. — Washington special to the Herald: Positive information has reached the Department of State through official sources that Camara's fleet, comprising 15 warships, had passed through the Straits of Gibraltar bound east. The make-up of the fleet is two battleships, four cruisers and four torpedo boat destroyers. The others are transports. The Minister of Marine is abroad the Pelayo, flagship. It is predicted at the Navy Department that instead of stopping at Cartagena, the fleet will proceed to the Canary Islands.

The Despatch Confirmed.

Washington, June 18.—The State Department has received the following despatch from its agent at Gibraltar:

"Carlos V., Pelayo, Rapiolo, Patriota, Audaz, Osado, Prosperina, Giralda, Prelajo, Colon, with the Minister on board, Alfonso Doce, Canadogna, Antonio Lopez, Isla Pinos, Buenos Ayres and San Francisco left Cadiz yesterday. The first eleven passed the rock bound for Cartagena for orders; the last three with troops on board."

This is Admiral Camara's Cadiz squadron and appears to be in the Mediterranean, bound for African shores.

Is He Heading for Boston?

Madrid, June 18.—Among the rumors current here yesterday was one to the effect that Admiral Camara's fleet is heading for Boston, to bombard coast towns.

SPAIN WILL TRIUMPH.

Archbishop of Manila Has a Communication to That Effect From God.

London, June 18.—The Hong-Kong correspondent of the Daily Mail says:

"The Archbishop of Manila, Mgr. Nozaloda, announces that he has had a communication from God, Who has promised him that the Yankee pigs will be driven out of the island, and that Spain will be triumphant in the end."

UNDER GEN. AGUINALDO

The Insurgents Almost Gain Entrance to Manila—3,000 Prisoners Taken in Two Weeks.

New York, June 18.—The Journal has the following from Hong-Kong: The most severe and important battle since Admiral Dewey's annihilation of the Spanish fleet has occurred at Manila. One thousand insurgents attacked 2,000 Spanish, inflicting heavy losses and almost forcing the entrance to the city. The insurgents under General Aguinaldo and the American sailors and marines of Admiral Dewey's fleet completely surround Manila. The foreign residents have fled to the ships. Admiral Montejo and Governor-General Augusti have placed the women, children and the priests in the forts for safety.

Governor General Augusti is reported to be willing to surrender to the Americans in order to prevent the insurgents from capturing the capital, setting it on fire and killing the Spaniards. The Archbishop, however, is opposed to the surrender, and has overruled Augusti.

A Spanish spy has attempted to poison General Aguinaldo, but the plot was abortive. Aguinaldo was made very sick, but has completely recovered. A Spanish prisoner was caught trying to assassinate Aguinaldo. When his plot was discovered he attempted to escape, but was shot dead.

The success of the insurgents is wonderful. The Spaniards taken prisoners in the two weeks' campaign aggregate 3,000, including 2,000 soldiers of the regular army. Prominent among them are Generals Garcia and Cordoba. The Governors of the Provinces of Cavite, Baluean and Bataan were also made prisoners. Two million rounds of cartridges were seized in the fortified cathedral of old Cavite. The large garrison of old Cavite has surrendered, thus giving the insurgents command of the shore of the entire bay. All interior sources of supplies are now cut off from the Spanish forces in Manila.

The increase in the number of German warships in this port excites comment in view of the relations between Spain and Germany. Everything is in readiness for the arrival of the American troops on the transport ships which left San Francisco May 25, and which are hourly expected.

The Americans can take Manila within 24 hours after the arrival of the troops.

A great fire is raging north of Manila. The insurgents have captured the waterworks on which the supply of the city depends. General Augusti has issued orders declaring that all males above the age of 18 shall join the army and do military duty.

Augusti's Family Captured.

London, June 18.—The Hong-Kong correspondent of the Times says:

According to Manila advices, dated June 13, and brought here by H.M.S. Linnet, the rebels have captured the family of Captain-General Augusti.

Spanish Power Crumbling.

Manila, June 6.—(Via Hong-Kong, June 18).—The Spanish power is crumbling in the Philippine Islands. Gen. Pena and a thousand Spanish soldiers have surrendered at Santa Cruz, and similar surrenders have occurred at other places.

The insurgents propose to form a republic, under Anglo-American tutelage.

The Latest Santiago Bombardment.

Madrid, June 18.—The Governor of Santiago de Cuba has sent a cable despatch to the Government, describing the bombardment of yesterday, in which he says:

"The Americans fired one thousand shots. Several Spanish shells hit the enemy's vessels. Our losses are 3 killed and 21 wounded, including two officers. The Spanish squadron was not damaged."

Havana to Be Bombarded.

Key West, June 18.—Sampson's recommendation made about the time the torpedo boat Winslow was crippled at Cardenas—that Havana would be bombarded without delay—has at last received departmental endorsement, and within a fortnight all the crack ironclads that can be spared from Santiago and Guantanamo will assemble off Havana and throw heavy shells into the forts. Naval officers are convinced that the bombardment will last three or four days, owing to the strength of the batteries about Havana.

SHELBURNE PERJURY CASES.

Simmons and Small Were on Hand, But Others Are Yet Wanted.

Brampton, June 18.—The perjury cases were continued here yesterday before Judge McGibbon. Simmons and Small, who had been arrested on a bench warrant by Detective Greer at Shelburne, reached court in charge of Deputy Sheriff Duggan, Greer remaining behind to look up Loudon and Hamilton, who could not be found.

Mr. Walsh of Orangeville worked hard in the interests of the accused, but the evidence was so strong that a conviction was obtained against Small. Sentence was deferred. Simmons pleaded guilty, asking the clemency of the court. Coleman, who was convicted at the last court, is here with an application for renewal of bail, pending a reserve case, to be argued in Toronto some time in the near future. The judge announced that court would adjourn for a week to give the detectives time to locate Hamilton and Loudon.

Navigable for Shallow Draughts.

Victoria, B.C., June 18.—Mr. J. C. Roy, division engineer for the Dominion Government, returned last evening from Glenora, where he has been with Chief Engineer Coste of the Public Works Department, examining the all-Canadian route to the Yukon. Mr. Roy reports the Stikine to be a fine body of water, which steamers drawing not more than 30 to 40 inches of water and having powerful enough engines may navigate for six months in the year.

Deserted in Toronto.

Toronto, June 18.—Mrs. John Berry of Peterboro is in town looking for her husband, a painter, who came here in search of work a fortnight ago.

Richard McFadden, a 14-year-old youth from Peterboro, says his mother and father, who brought him here, got drunk on Thursday night and deserted him. He was sent to the Children's Shelter.

OUR FOREIGN TRADE.

Very Encouraging Comparison With Last Year.

THE NEW DEAD-LETTER OFFICES

Staffs Have Been Appointed for the Six Branch Dead-Letter Offices at Ottawa (P.O.D.), Toronto, Montreal, Halifax, Winnipeg and Victoria—Some Letter-Writing Points to the Public.

Ottawa, June 18.—The official returns of Canada's foreign trade for the eleven months ending May 3rd are most encouraging compared with the same period in 1897. The figures are as follows:

	1897.	1898.
Total trade	$219,041,169	$262,576,729
Exports	116,795,741	143,671,963
Import	102,245,428	118,904,760
Dutiable	60,900,000	68,045,000
Duty collected	18,339,000	20,192,000
Free	41,345,000	49,859,000

The figures show an excess in total trade of $43,535,000 over 1897; in exports of $26,876,000, in imports of $16,659,000, of revenue $1,852,578. The May returns alone give the following results:

	1897.	1898.
Total trade	$19,202,403	$21,739,841
Exports	10,455,927	9,118,596
Imports	8,746,476	12,624,245
Duty	1,398,261	1,852,878

The feature of the month's trade is the enormous increase in imports, a considerable part of which is to be credited to the Yukon requirements.

DEAD-LETTER OFFICES.

Some Particulars Concerning the New Regime After July 1 Next.

Decentralization of the dead-letter office provision for which was made during the last session of Parliament, will go into effect on July 1. After that date there will be six branch dead-letter offices, at which letters and all other classes of unmailable matter may be treated, instead of one at Ottawa, as at present. The six are as follows: Ottawa (P.O.D.), Toronto, Montreal, Halifax, Winnipeg and Victoria.

In addition to these, there will be seven other offices at which all classes of dead matter other than letters will be disposed of. They are: Charlottetown, P.E.I., St. John, N.B., Quebec, Sherbrooke, Kingston, Hamilton and London.

The Changes in the Staff.

The staffs for the different offices have been arranged as follows:

Ottawa—Major Walsh, Mr. White, Mr. Banks, Mr. Knauf, Miss Sannels, Miss Corcoran, Mr. Gray, Mr. Poston and Mr. Green.

Toronto—J. A. Macdonald, J. Carter, Miss G. Clark and Miss Maud Clark.

Halifax—Mr. Moffatt, and L. J. Carter.

Montreal—Mr. Prendergast, Mr. Roy and Miss Tetu.

Winnipeg—Mr. Walker and Mr. Frochett.

Victoria—Mr. Mallene.

A Note to the Public.

It is expected that a great deal of the work now imposed upon the dead-letter office may be obviated if the public will pay attention to the request which the department is making by means of posters at all the post-offices, asking that the name and address of the writer or sender shall be placed on the upper left hand corner of all envelopes or wrappers.

If this is done, the postmaster will at once communicate with the sender, instead of sending the letter to the dead-letter office. In addition to the saving in time and labor, the public would in this be relieved of the unpaid postage charges now made for the return of mail matter through the dead-letter office.

Warning to Publishers.

The work which has hitherto been done at the dead-letter office at Ottawa will be very much simplified. Newspapers not called for or refused will, in future, be destroyed or otherwise disposed of by the postmaster, after the publisher has been notified.

Left for England.

Mr. Newcombe, Deputy Minister of Justice, left last night for Quebec, to accompany Solicitor-General Fitzpatrick to England, in connection with business that will come before the Judicial Committee of the Privy Council.

HIS DISMISSAL WARRANTED.

So Reports the Commissioner in the Case of W. D. Fairbrother.

Hamilton, June 18.—Magistrate Seager of Goderich, who was appointed a commissioner to enquire into the charges against W. D. Fairbrother, late postmaster of Beamsville, who was dismissed by the Postmaster-General, has sent copies of his reports here to the lawyers interested in the case. The principal charges against Fairbrother were:

1. That he made a constant practice of reading the postal cards going through the office.

2. Active political partisanship on his part on the day of the Dominion elections, June 23, 1896.

In his report the commissioner reviews the evidence and makes the following summing up:

"The conclusion, in my judgment, upon the balance of testimony must be that Fairbrother's official conduct was such as justified his removal from the office. In view of the above finding, it is not necessary to occupy time in pursuing the enquiry further."

Drowned in the Ottawa.

Ottawa, June 18.—Louis Fleury of Lower Letchafield, aged 18, was drowned in the Ottawa River at the foot of the Calumet Rapids while bathing last evening. He is supposed to have taken cramps and sunk before his companions could save him.

The Crisis in France.

Paris, June 18.—President Faure has invited M. Ribot, a former Premier and Minister of Finance, to form a Cabinet, to succeed the Meline Ministry, which resigned on Wednesday last.

FACTS ABOUT HEALTH

It is Easy to Keep Well if We Know How—Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such a record of cures as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail to do any good whatever.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Daily Examiner.

SATURDAY, JUNE 18, 1898.

CUBA'S FINANCIAL POSITION.

The announcement that the United States have decided to annex the Hawaiian Islands assuming their debt, to an amount not exceeding $4,000,000, draws attention to the present financial condition of Cuba, the cause of the present war. At the close of last year, the island was staggering under a load of debt amounting to the enormous sum of $522,020 200. The capacity of the island to raise revenue is limited to about $40,000,000 a year. Thirty years ago *the total debt was only $20,000,000 so that* it is apparent that the bulk of this debt has been created during the past few years. The question has been raised recently in Cuba as to the responsibility for the payment of this debt. Senor Moret thinks that Spain should wipe out part of it, and others go so far as to say that she should shoulder it all, as it was in her cause that it was contracted. If Spain loses the island who will then pay it, or will it be repudiated? In 1883 the Spanish Minister, Signor de Ultramar, diminished the debt by $7,388,468, but since then deficits have been recorded annually. The United States Government, under President Polk, offered $100,000,000, and gave $120,000,000 as the outside limit which it was willing to give for the island. Spain refused the offer then as she would now. Competent financiers place the value of Cuba at $200,000,000, an amount which would not pay half the debt. If Spain, as is now generally conceded, loses the island she will be unable to pay this large amount and it is not at all likely that the United States will trouble themselves much about it. Under these circumstances, then, it looks at present as though the Cuban creditors would be the principal losers; and if Cuba gains its independence and loses the island where is the gain for the present expenditure of a thousand millions which the war will cost? Cuba libre would seem to be dear at such costs.

WAR RESULTS WANTED.

It is beginning to dawn upon the consciousness of American jingoes what shape they would have been in had they gone to war with a first-class power like, say, England. They have been at war with an effete, weak, debt-crushed, fifth-rate power for two months, and they have not been able to set a safe and undisputed foot on the soil of Cuba that lies at their very door. The Spanish fleet is held very cheap, yet the army of invasion that has been sweltering in the holds of transports at Key West, daren't put to sea, though, as a mouthy jingo says, the United States has a fleet of 158 ships with which he defies the world. As Lord Wolsley told the United States before the war, the United States will not be ready for really offensive military operations before the end of a year of vigourous preparation. The war, which was so popular at the outset, is being so slowly managed that it is now becoming unpopular. Nothing succeeds like success, and if the United States authorities wish to keep their people quiet under an oppressive war tax they must soon begin to show that something can be done. It is estimated that the war tax will cost New York forty-five millions a year and Chicago some sixty millions, more damage than would have been done perhaps by the bombardment of a first-class war fleet. Taxation going on at this rate all over the Union, will create a demand for something to show for this burdensome impost and the military authorities have so far done little to show that they are at all capable of conducting belligerent operations. Of course there are tremenduous difficulties, but the popular mind is not inclined to take note of difficulties. It demands results and there does not seem to be much promise of such a demand being speedily honoured.

If the tone of the American press is a true indication, the idea of Lord Wolseley becoming Governor-General of Canada is popular across the line. The Brooklyn Eagle says "there are many reasons why the selection of Lord Wolseley should be especially gratifying, not only to England, but to Canada and the United States. His appointment would carry with it exceptional prestige and authority and would be a credit to the home government." The Eagle's argument seems to be that Lord Wolseley is entitled to the "admiration of the English-speaking race." It remains to be seen whether the Imperial authorities will see it in the same light.

ONTARIO'S MINES.

Great Increase Shown in the Bureau's Report—Gold Product in Three Months of 1898 Over Half That of Entire Product of 1897.

The second part of the seventh report of the Bureau of Mines has been published and contains an exhaustive account of the progress in mining during the past year, the investigations which have been made and the present conditions. The report contains the fourth report on the west Ontario gold region, by Dr. A. P. Coleman; notes on the petrology of Ontario, by Dr. A. P. Coleman; the elastic Huronian rocks of western Ontario, by Dr. A. P. Coleman; the geology of base and meridian lines in Rainy River district, with a map, by Wm. A. Parks, B.A.; the Michipicoton mining division, with a map, by Prof. Arthur B. Willmott.

Statistics of the metalliferous mines and works of the province have been collected for the three months ending March 31st of the current year, which are given in the following table, together with the statistics of the year 1897:

	1898 3 mos	1897 12 mos
Gold:		
Ore treated, net tons	13,979	27,589
Gold product, ounces	5,286	11,412
Value of gold	$ 4,175	$190,244
Silver:		
Ore treated, net tons	35	
Silver products, ounces	9,750	none.
Value of silver	$ 5,287	
Nickel and copper:		
Ore smelted, net tons	23,008*	96,094
Matte product, net tons	5,236	14,034
Nickel in matte, net tons	548	1,999
Copper in matte, net tons	1,202	2,750
Value of nickel	$ 119 910	$359,651
Value of copper	$ 75,369	$300,067
Iron ore, net tons	5,204	2,763
Value at mines	$ 9,486	$4,699
Pig iron:		
Ontario ores, net tons	4,208	2,770
Foreign ores, net tons	15,814	34,722
Mill cinder, etc., net tons	2,157	5 350
Pig iron product, net tons	12,987	24,011
Value of pig iron	$ 155,126	$288,128

*Incomplete.

SOLID ADVANCE MADE.

Summarized by values, the statistics of the first three months of the current year and of the twelve months of last year are as follows:

	1898 3 mos	1897 12 mos
Gold	$ 86,175	$190,244
Silver	5,287	
Nickel	119,910	359,651
Copper	75,369	300,067
Iron ore	9,486	4,699
Pig iron	155,126	288,128
Total	$ 451,355	$1,042,779

Comparing the production by percentages it is found that the value of the gold product in the three months of 1898 is 50 1-2 per cent. of the 12 months product of 1897; of nickel, 33¼ per cent.; of copper, 37 2-3 per cent.; of iron ore, 202 1-3 per cent.; of pig iron, 54 per cent.; and of all metals and ores, 43 per cent. These rates if maintained throughout 1898 should result in nearly doubling the values of 1897.

SALISBURY ON CHINA'S NAVY.

British Government in Communication With Celestial Empire.

London, June 18.—In the House of Lords yesterday, the Marquis of Salisbury, replying to Lord Connemara, Conservative, former Under-Secretary of State for Foreign Affairs, said Her Majesty's Government was communicating with the Chinese Government respecting the reorganization of the army and navy of China. The Premier added that negotiations respecting the navy reorganization were more advanced, and there was every hope that a distinguished British officer would make arrangements with the Chinese Government, whereby he would renew his help to reorganize the Chinese navy. China, the Marquis continued, had shown her willingness to accept British assistance, the difficulty lying in her reluctance to give a sufficient independent position to the officers to enable them to overcome traditional and deep-seated evils. In conclusion, the Premier remarked: "We do not anticipate a catastrophe, yet there can be but one end and issue of the present trend of events, so far as the Chinese Empire is concerned, unless the army and navy are developed on lines involving entire reform."

GIVEN THE LIMIT OF THE LAW.

Dave Irvine Sentenced to Fourteen Years at Kingston.

Guelph, June 18.—Judge Chadwick sentenced David Irvine yesterday morning, imposing the extreme penalty the law provides for burglary. The prisoner when asked if he had anything to say remained silent. Judge Chadwick then began his address, and when he accused Irvine of bringing Thompson to court to tell falsehoods, the prisoner broke in with an angry protest: "I never brought him here," he said, "he came here of his own accord; he volunteered to give evidence." The judge concluded by sentencing Irvine to fourteen years in the Kingston Penitentiary. On hearing the sentence the prisoner's face grew livid and he shouted, "Fourteen years for the innocent, one year for the guilty." He would probably have grown abusive had he not been hurried off to the jail.

ONLY 18 MAY BE TRIED

List of Election Petitions Now Arranged for Trial.

MANY WILL LIKELY BE DROPPED

Of the Sixty-Two Entered the Probability Is That at Least Two-Thirds of Them Will Never Come to Trial—The Trials Fixed for August and September.

Toronto, June 18.—The indications from the conference held at Osgoode Hall yesterday morning regarding the trial of the host of election petitions seem to be that at least two-thirds of the 62 on file will never come to trial. The proceedings took place in the Court of Appeal room, and the Judges present were Mr. Justice Osler of the Court of Appeal, Mr. Justice Rose and Mr. Justice Ferguson. A batch of four solicitors representing each party was also present: Messrs. W. D. McPherson, Edmund Bristol, James Baird and D. W. Saunders for the Conservatives; Messrs. R. A. Grant, C. J. Holman, George Ross and H. E. Irwin, for the Liberals.

In all, applications for the trial of only fifteen straight petitions and three cross petitions were put in, seven against Liberals, and eight against Conservatives, also three cross petitions against defeated Liberal candidates. The place of trial was fixed in each case for the convenience of the solicitors, but the dates will be fixed by the Judges for their convenience, having regard also to some extent to the convenience of counsel in each case. The trials, it is understood, will not begin before August, and will probably be concluded in that and the following month. The following is the list of constituencies and places of trial as filed:

North Perth (Lib.), Stratford.
East Lambton (Lib.), Sarnia.
Halton (Lib.,) Milton.
West York (Lib.), Toronto.
East Northumberland (Lib.), Colborne.
South Perth (Lib.), Mitchell.
Dufferin (cross), (Lib.), Orangeville.
West Elgin (cross,) (Lib.), St. Thomas.
South Ontario (cross), (Lib.), Whitby.
North Waterloo (Con.), Berlin.
North Renfrew (Con.), Pembroke.
Centre Simcoe (Con.), Barrie.
North Hastings (Con.), Belleville.
Dufferin (Con.), Orangeville.
East Elgin (Con.), St. Thomas.
South Ontario (Con.,) Whitby.
West Elgin (Con.), St. Thomas.

While these are all that it has been positively indicated would be tried, the solicitors state that there will be others in connection with the petitions filed so late that up to the present it has been impossible to find whether there is sufficient evidence to justify the cases going to trial.

IMPORTANT SALE

OF

LANDS

In Peterborough and Ashburnham.

PURSUANT TO THE ADMINISTRATION Order made by the High Court of Justice in the matter of the Estate of the late John Burnham, there will be offered for sale, by Public Auction, with the approbation of the Master at Peterborough, at the MORGAN HOUSE, in the Town of Peterborough, on

Monday, the 27th day of June, 1898

at 1 p.m., by Charles Stapleton, Auctioneer, the Lands following, namely:—

IN THE VILLAGE OF ASHBURNHAM.

PARCEL 1—Block 1, according to the Village Plan and Lot "B", north of Doure street, and west of Grand Trunk Railway track, according to Plan 15 of said village. Upon this property is a two story brick dwelling about 32x42 with a two story kitchen and shed with cellar under the whole house and kitchen. Dwelling is heated with hot air. The land contains about two acres. The property is occupied by a tenant whose lease is determinable on 2 months notice.

PARCEL 2—Lot "A" on Plan 15, Ashburnham, situate on the north side of Douro street and facing Brown street. On the property is a two story brick house. The property is occupied by a monthly tenant at a rental of $20 per month.

PARCEL 3—Part of lot 3, south of Elizabeth street, and east of Mark street, described as follows:—Commencing at a point on the northern limit of the lot 86½ links, east from the north west corner of the lot, thence southerly (along a line drawn from the said point to a point in the southern limit of the lot distant one chain twenty one and a half links from the south west corner of the lot) to where the northern boundary of a portion of the said lot belonging to one Dawson, being produced would strike the said described line, thence west along the said northern boundary produced to the eastern boundary of the land owned by the said Dawson, thence south, along the eastern limit of said land to the southern limit of said lot 3, thence easterly along such eastern limit to the south east corner of the lot, thence northerly along the eastern limit thereof to the north east corner thereof, thence west to the place of beginning. Upon this parcel is a two story 8 roomed brick dwelling. The property is now rented at $100 per annum, by lease determinable in 6 months notice. There is a stable, etc., on the property belonging to the tenant which could be acquired by the purchaser if required for $125.

PARCEL 4—The south west part of lot 126, north of Robinson street, containing about one third of an acre on which there is a small frame house.

IN THE TOWN OF PETERBOROUGH.

PARCEL 5—Park lots 1 and 2, in Township lot 14, in the 12th Concession of the Township of North Monaghan containing about 19 acres. The land is within the limits of the town and is immediately north of the "Driving Park." Upon the property is a dwelling house and stable, etc. Full possession to be given on the 1st October. The north 33 feet of Park lot 2, is subject to an agreement with the owner of Park lot 3 for the opening of a road from George street to Park street across said lot. Park lot 2 has been sub divided into small lots as shown by plan registered which may be altered or entirely dispensed with by the purchaser.

PARCEL 6—Lot number 45 south of Crescent street. On this lot is a frame dwelling house (street number 17). The property is held by a monthly tenant.

PARCEL 7—Lot number 51, north of Ware street. There is on the lot a frame dwelling house (street number 32), occupied by a monthly tenant.

PARCEL 8—Part of lot number 1, south of Sherbrooke street and west of George street, described as the north 48 feet thereof. Upon this Parcel is a two story frame building, occupied as a store and dwelling, by a monthly tenant.

PARCELS 9 and 10.—Building Lots 18 and 19, south of Sherbrooke street and west of Park street. These lots have each a frontage on Sherbrooke of 74 links and a depth of 3 chains and 33 links.

PARCEL 11.—Building Lot 46, south of Crescent street, having a frontage thereon of about 90 links and a depth of about 2 chains 90 links.

PARCELS 12, 13 14 and 15.—Building Lots Numbers 52, 54 (except the the west 35 feet), 55 and 57, north of Ware street. These lots have each a frontage of 50½ links and a depth of 2 chains and 80 links.

PARCELS 16, 17, 18 and 19—Lots 3, 4, 9 and 10, south of Ware street on Plan 62. These lots are 75 links wide and 2 chains 28 links deep.

Issue of Forty-Year Annuities.

Sealed tenders for the purchase of terminable annuities running for a period of 40 years, issued under authority of an act of the Ontario Parliament, 47 Vic., chapter 31, will be received by the undersigned at his office, Parliament buildings, Toronto, on or before 14th day of July next, at 2.30 p.m., when the tenders will be opened in the presence of such of the applicants, or their agents, as may attend.

The annuities will be in the form of certificates signed by the Provincial Treasurer, in which certificates the Provincial Treasurer will agree to make half-yearly payments at his office at Toronto or in London, England, of sums of $100, or larger sums, or their equivalent in sterling at the par of exchange (£20 10s 11½d), on the 30th day of June, and 31st day of December in each year, for forty years from 30th day of June instant, the first half-yearly certificates being payable on the 31st December next.

The total amount of annuities to be issued in 1898 is $5,700 annually, but tenders will be received for any part of the same not less than $200 annually.

Tenders may, if preferred, be upon condition that the annuities be payable in sterling in London, England. In such case the conversion will be at the par of exchange, $4 86 2-3 to the pound sterling. Tenders will be required to state the purchase money which will be paid for either the whole annuities offered or such portion as may be tendered for.

Notification of allotments will be given to tenderers on or before 20th July and payments from the persons whose tenders are accepted must be made within ten days thereafter at the office of the Provincial Treasurer in Toronto, but if, from any cause, the purchase money is not paid by the 1st day of August next, purchasers who have not then paid will be required to pay interest on their purchase money from that date to date of payment, at the rate of interest which the investment will yield, according to their respective tenders.

The annuity certificates will be delivered at the office of the Provincial Treasurer in Toronto, where, if desired, they may be specially registered.

The Provincial Treasurer reserves the right to determine what tender is most advantageous to the Province, but no tender will necessarily be accepted. Tenders should be on the accompanying form.

Envelops containing tenders should be endorsed "Tender for Province of Ontario Annuities."

Further information may be obtained on application to the Provincial Treasurer.

R. HARCOURT,
Provincial Treasurer.

Provincial Treasurer's Office, Toronto, 2nd June 1898.

NOTE.—Illustration of calculation on interest basis—at the rate of 3 per cent. per annum (or in strictness 1½ per cent. half-yearly) a present payment of $87 25 36 would represent an annuity of $100 for 40 years. $50 payable each half year.

The First Hill You Strike

will make you wish your mount was a Red Bird.

Almost any old wheel will run fast enough down hill.

It is on the uphill part of the journey that the easy running qualities tell.

In Red Bird Special bearings the balls never come in contact with each other.

They are separated by a ball retaining cage and each ball runs in a space by itself.

The result is there is an entire absence of friction, and climbing hills becomes the merest child's play.

CYCLISTS FOR PETERBOROUGH

FULL LIST OF WHEELMEN WHO WILL COMPETE IN THE PROVINCIAL MEET RACES.

History of the O.W.A. Meets—Preparations in Toronto and Other Cities for the Big Event in July.

(Toronto Star.)

Preparations are going on all over Ontario for the provincial championship bicycle races in Peterborough, commencing July 1st. In all the bustling towns and cities of Ontario, speedy riders are rounding in shape, and fun-loving cyclists are organizing for the trip to the Otonabee town. Nearly every cycling club will have an entry in one or the other of the events, and every club has promised a delegation, large or small. From present indications the fun will be fast and furious, and the racing the closest of the season.

The Canadian Wheelman's association was organized in 1882, and held its first championship meet in London on July 2, 1883. There were five events—1 mile championship, 5 mile championship, 2 mile novice, and 1 mile, best two in three heats. The attendance was 3,000. W. G. Ross, a dark horse horse from Montreal, captured the championship events, doing the mile in 4.10 and the 5 miles in in 22.56. It is interesting to note that Tuesday night, at the Island, Angus McLeod made 10 miles in 20.31 1 5, doing the five mile distance in 10.08, over twice as fast as Ross, the 1883 champion.

The annual meets added interest to the association, and instead of one day with four races on the card, two days are required for the events, a third day being devoted to sight-seeing and visiting. It is an unwritten law that the meet will be in the east and west alternately. In 1885 Woodstock had it; 1886, Montreal; 1887, Brantford; 1888, Belleville; 1889, St. Catharines; 1890, Ottawa; 1891, Hamilton; 1892, Kingston; 1893, Sarnia; 1894, Montreal; 1895, Waterloo; 1896, Quebec; 1897, Chatham, and in 1898 Peterborough.

This year it was proposed to have provincial championship meets, to be followed by the Dominion championship meet on Labour Day, the winners in the provincial championship events to be brough together at the Dominion meet.

In addition to this, the interest in the provincial championship races—the Quebec meet being held at Granby on the same day as the Peterborough affair—is intensified by the fact that the Canadian representation at the Vienna World's Championship races, must hold a place in the provincial championship events, thus securing an entry in the Dominion championship races.

This year the Athenaeums will lead the mirth provoking part of the Toronto contingent, and are putting the finishing touches on an elaborate programme, which includes bands, pantomine, tableaux, cook's parade, night dress parade, Calithumpian procession, and "other events to numerous too mention."

The Wanderers, usually in the swim when it comes to providing a hot time at a championship meet, will be more staid this year. In former years they spent money lavishly to entertain the bicyclists, but this year they are retrenching in the financial part of the show, and consequently they will not play so prominent a part as they did at Chatham and Quebec in past years.

The R. Q. T. combination, now the Royal Canadians and Tourists, will have a say in the noise and fun, but are maintaining the strictest secrecy regarding their copyrighted preparations to startle the natives and foreigners at Peterborough on Dominion Day.

The Tourists will send down a contingent forty strong to help keep the fun agoing. They will not be represented in the races.

Toronto's racing clubs, the Torontos, Ramblers, Royal Canadians and Queen City, will be represented as follows:

Royal Canadians: Shortt, Bounsall, Westrope, Stoner, Vennels, Anstey, Abbott, Simpson, Phillips, Blaylock and Parkins.

Toronto: French, Moore and Power.

Queen City: Smith, Hancock, Falconer, Lavack, Elrick, Wm. Greatrix and Chapman, late of Brockville—a corner, clubmates say.

The Ramblers have entered the following in the W. G. & R. Team Trophy Race, Barnett, Robinson, Snell, Colville, Arnold, Sullivan, Marshall, Coleman, Hutchinson, Oakley, Crone, Patterson, Porter, Armstrong.

In the novice: Maurice, Sinclair, Allcock, McCurry, Coleman, Kelly, Saulter, Roberts, Kemp, Highland, Knott, Collett, Ireland, Morrell, Migent and Wilson.

Tandem: The Coleman Brothers.

All the fast men are also entered for the championships.

From Brantford three amateur flyers, Axton and Sheritt, will come, and Sarnia has promised an eye-opener in the novice race, a youngster who was never heard of before this spring.

Ottawa claims to have several cards up its sleeve, and is hoping to clean off the board with their contingent of flyers.

But every little club in the country will have a say in the board cleaning proposal.

Summed up, the total will be a real, lively, jolly time in Peterborough on Dominion Day.

In the professional races, McLeod, McCarthy, the two Davidsons, Wills and all the Toronto professionals will take a prominent part.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

YEARS OF SUFFERING.

Brought about by a Fall in which the Back was Severely Injured—The Pain at Times Almost Unbearable.

Mr. Geo. F. Everett, a highly-respected and well known farmer of Four Falls, Victoria Co., N. B., makes the following statement: "Some years ago while working in a barn I lost my balance and fell from a beam, badly injuring my back. For years I suffered with the injury, at the same time doing all I could to remove it, but in vain. I at last gave up hopes and stopped doctoring. My back had got so bad that when I would stoop over it was almost impossible to get straighted up again. When I would mow with a scythe for a little time without stopping it would pain me so that it seemed that I could scarcely endure it, and I would lean on the handle of my scythe in order to get ease and straighten up. At other times I would be laid up entirely. After some years of intense suffering I was advised to use Dr. Williams' Pink Pills and decided to try one box. Before I had finished it I saw that the pills were helping me. I bought six boxes more and the seven boxes completely cured me. It is three years since I took them and my back has not troubled me since. Dr. Williams' Pink Pills are an invaluable medicine and I highly recommend them to any person suffering likewise. I consider that if I had paid $10 a box for them, they would be a cheap medicine."

Rheumatism, sciatica, neuralgia, partial paralysis, locomotor ataxia, nervous headache, nervous prostration and diseases depending upon humours of the blood, such as scrofula, chronic erysipelas, etc., all disappear before a fair treatment with Dr. Williams' Pink Pills. They give a healthy glow to pale and sallow complexions. Sold by all dealers and post paid at 50c. a box or six boxes for $2.50 by addressing the Dr. Williams Medicine Co., Brockville, Ont. Do not be persuaded to take some substitute.

PRINCE BISMARCK ILL.

His Daily Drive Suspended—Physicians Summoned in Attendance.

London, June 18.—A special despatch from Berlin says Prince Bismarck's health is causing renewed anxiety. He is reported to be suffering great pain from inflammation of the veins of his right leg, his daily drive has been suspended and his sleep is broken. Dr. Schweniger, the Prince's physician, it is asserted, had arrived at Friedrichsruhe, and Count Herbert Bismarck was expected there last night.

A GREAT BATTLE!

That is Being Fought by Canadians on Canadian Soil.

The Forces of Dyspepsia have Attacked Our People—But With the Assistance Dodd's Dyspepsia Tablets we can Easily Drive Them Back.

The war between the United States and Spain, if it continued for a thousand years, would not produce a battle so momentous, all its battles together would not be so important as the Battle of Life.

If you would win the Battle of Life you must have a clear brain, keen senses, perfect vigour, shrewdness, energy and ambition.

Dyspepsia kills these needful qualities. You can't succeed if you are constantly tortured by dyspepsia or indigestion.

But you can get rid of dyspepsia, indigestion, biliousness, sour stomach, or any other ailment of stomach or digestive organs by simply taking one or two of Dodd's Dyspepsia Tablets after each meal. Dodd's Dyspepsia Tablets banish indigestion and dyspepsia. They ensure perfect digestion.

With a perfect digestion go a strong, healthy body, a clear, capable brain, vigour, ambition, determination, energy, activity, keen, alert senses. Dodd's Dyspepsia Tablets ensure all these.

Dodd's Dyspepsia Tablets have never failed to cure any or all of the diseases named when they have been fairly tried. They cannot fail.

If you don't believe it—TEST THEM. They'll convince you by curing you.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

Economy of a Guaranteed Shoe

THERE is a price point in all shoes where quality must give place to **appearance.**

Shoe quality—the "Slater" kind—means two things:

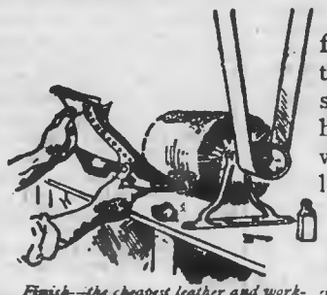
Durability, that is, leather, and workmanship with a proportion of profit fair to the **wearer.**

A "real foot" type, result of wearing "ideal" feet shapes.

Fit, that is, **real,** not **merely ideal,** foot shapes in sufficient range of sizes and widths to fit **all** feet.

"Slater Shoes" remain on the lasts six days and the shrink is forever taken **out** of them, while common shoes remain on the lasts but **one** day, leaving the shrink forever **in** them.

That's why "Slater Shoes" fit the first time they're worn (and always after) and why common shoes must be "broken in."



Finish—the cheapest leather and workmanship substitute in shoedom, capacity 1,500 pairs per day.

In most common shoes **finish**—the cheapest leather and workmanship substitute in shoedom—helps the dealer to sell when real **quality** is lacking.

The **outside** of a $2.00, $2.50, or $3.00 common shoe, may **look** as good as a "Slater" $3.00 shoe.

But what about the kind of leather there is under the finish?

—And the hidden pasteboard inner sole.

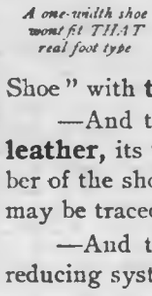
Extract from "The Canadian Shoe and Leather Journal" March 15, 1898.

Look Out For Them.—We have before us samples of the "leather" that is being put into cheap shoes by the ton. This paper imitation is made to resemble leather, not only in appearance, but even in taste. One sample has the appearance of a very fair piece of slaughter sole, and the paper has evidently been saturated with a solution of tannin, as it has the astringent taste. Retailers should be on the watch for the introduction of paper heels or insoles into the goods they buy.

—Or the cotton stitching that glistens like **real** linen.

—And the deftly stitched **imitation** Goodyear Welt—bought by the dealer as such, but sold to the uninitiated as **genuine.**

Pains—corns callosities.



A one-width shoe wont fit THAT real foot type

—While the lumps, threads, and knots of the **real** McKay stitching are hidden under the paper innersole.

—To cause pains, corns, and callosities.

—And the Goodyear Welt **flexibility** that **bends.**

—Is replaced by the McKay sewed **stiffness** that **cracks.**

—Causing a shortlived shoe of painy discomfort as long as it is worn.

—And the cheap shoe is made in only **one** width, and on lasts modelled to fit wooden mens' (**ideal**) feet.

But **all** "Slater" shoes are Goodyear Welted.

—In 14 real-feet shapes, 11 sizes, 6 half sizes, and 6 widths.

And the **makers** regulate the **dealers'** profit, by stamping "The Slater Shoe" with **their** price, $3.00, $4.00 and $5.00.

—And the makers' **tag** on each pair tells the **leather,** its **wear,** how **to care** for it, factory number of the shoe (like a watch), so that possible defects may be traced to the operative.

—And the shoe is made under the best cost-reducing system in the world—**specializing.**

—In a big factory where nothing but **one** kind of **men's** shoes is made all the year around.

Not where **all** kinds of shoes are made.

"One man can make fifty perfect pairs by the tireless Goodyear Welt process to one pair by hand."

—And the process (Goodyear Welt) by which they are made is the **best in the world,** because its iron arms never grow tired, never miss a stitch, draw as tightly at 5.50 p.m. as at 7 a.m., and makes fifty perfect pairs, when **one** could not be made **by hand,** and **better** than **any other known process.**

And the cost saving is put into **wear-quality** to make doubly sure the **makers' guarantee.**

Because they could not **afford** to guarantee a **weak** shoe or one not **faultless.**

These are reasons why a man can **save** money by wearing a "Slater Three Dollar Shoe" instead of the "cheap" kinds which are **not** guaranteed and for which a **salesman's** word must be taken about their **make, durability** and **leather.**

Lack of fit does THAT.

—To say nothing about their **lack of fit,** which the wearer finds out for himself.

So that **real** economy means added "Slater" guaranteed shoe wear and comfort, for a **small** additional expenditure.

A catalogue—"The Craft of St. Crispin"—telling all about how to fit feet, the kind of leather used in "Slater Shoes" and the information the wearer wants to know **without** asking, is given or mailed free from all Slater Shoe Agencies, or

MRS. VIAU GETS A NEW TRIAL.

Reasons Why the Court Gives the Condemned Woman Another Chance.

Montreal, June 18.—Cordelia Viau, widow of the murdered man Poirier of St. Canute, who was found guilty of the murder of her husband, has been given a new trial by the Court of Appeal, composed of Judges Bosse, Blanchet, Hall, Wurtele and Ouimet. The reserved points were as follows: 1. Should the evidence taken at the coroner's jury have been admitted in the trial. 2. Was it legal to put Samuel Parslow, an alleged accomplice, in the box at the trial? 3. Should the letters alleged to have been written to Ladouceur by Madame Viau, the defendant, be admitted at the trial?

The verdict of the court was that the verdict of the court of trial should be quashed and a new trial ordered, but without any restraint upon the judge as to the admission of Parslow's evidence.

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has influenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

For Men.

On Sunday afternoon at 4.15 p.m., Mr. J. H. Edmison, of Queen's College, Kingston, will give a short address. All men are welcome. Meeting lasts but fifteen minutes.

Funeral on Sunday.

The funeral of Austin Edward, the son of Mr. John Wharton, will take place on Sunday, at 2 30 o'clock, to the Little Lake Cemetery, and not on Tuesday, as incorrectly announced.

Card of Thanks.

Mrs. Anna McGarrity, widow of the late Arthur McGarrity wishes to thank the members of the I. M. U., of which her deceased husband was a member, for the prompt remittance of death benefits.

McCall Mission.

The regular quarterly meeting of the Peterborough Auxiliary of the McCall Missionary Society will be held at 3.30 p. m. on Monday, June 20th, in the Bible class room of the Y.M.C.A. All ladies cordially invited.

—Trade at "Spot Cash" and be happy.

Lost a Finger.

On Tuesday morning last Mr. Harry McNaughton, of Lakefield, met with a severe accident. He was engaged at the dam at Lock No. 3, in pulling up the stop logs, when his hand got caught in the cog wheels of the winch, mangling the little finger of his left hand so badly that he had to have it amputated. The other fingers were slightly cut.

Early Closing.

Commencing Monday, June 20th, and until Sept. 1st, the undermentioned Druggists agree to close at 7 p.m., Saturdays and evenings before public holidays excepted. For the convenience of the medical profession and the public, one of the drug stores will be open until 10 p.m. each evening, notice of which will be found in each evening's EXAMINER:

Detective Huckle's Lecture.

A good sized audience assembled in Association hall to hear Detective Huckle's lecture on "Twenty Years a Detective," last evening. Dr. Fife occupied the chair, and introduced the lecturer after the opening exercises had been conducted. The lecture was decidedly interesting, made up largely of incidents in connection with the life work of the lecturer as a detective, his efforts having been confined principally to bringing to justice those engaged in the liquor traffic who broke the law. Miss Roger contributed an instrumental to the programme which was much appreciated. The meeting closed with "God Save the Queen."

Thousands buy at Grafton & Co's., not because this is the only place in town where Suits are sold, not because our prices are lower than others, not because it is any more convenient to buy here than elsewhere, BUT BECAUSE THEY ARE SURE THEY CANNOT GO WRONG, because they know the qualities and prices are right—always right. Birds' Nests.

Mr. Elcome's paper on "Birds' Nests," read before the Natural Science Association last Tuesday night, is to be repeated on Tuesday evening. It is suggested that it be given in the rooms of the Victoria Museum and members of the Historical Society invited to be present. It would perhaps benefit both if the two societies would, in view of their aims running on nearly parallel lines, amalgamate for the present or future similar lectures, if not permanently. The museum would make an excellent depository for natural science specimens.

Manilla Menaced by Sea and Land—Germany is Considered Worth Watching—British Cruisers Propose to Watch the Watching Germans.

Special 3 p. m. dispatch to the Examiner.

Germany Will Stand Watching at Manilla.

London, June 18.—The Spectator, commenting on the significant assembling of German warships at Manilla, says:—Emperor William of course means nothing but friendly observation. Would it not be expedient, however, to send a couple of cruisers to Manilla to join in the friendly observation and to reinforce Dewey if attacked?

Manilla Beset by Sea and Land.

A special despatch from Madrid says:—That according to a despatch just received here from Hong Kong four warships, carrying the flag of the Philippine insurgents, have appeared at Manilla Bay and attacked the city from the sea in combination with the insurgent forces on the land.

Manilla Seems Doomed.

London, June 18th—Senor Sagasta replying in the Cortes yesterday to a question as to whether Manilla had fallen replied in the negative. But added that the situation there was of the gravest character. The despatches from Madrid agree that this statement, together with the report that the rebels are attacking the walled city, has caused intense depression. Japan is sending additional warships to Manilla, and it is reported at Shanghai that the American troops have arrived at Manilla.

Special despatches from Hong Kong confirm the despatches to the Associated Press from Manilla and add the rumour that Captain-General Augusti's wife and family are held as hostages at Cavite.

LAST NIGHT'S FIRE.

Arnott's Cheese Box Factory Totally Destroyed.

Fire broke out at about three o'clock this morning in the premises known as Arnott's cheese box factory. The structure is of frame and by the time the fire brigade arrived the building was so completely enwrapped in flames that it was impossible to save the factory which was speedily reduced to ashes. The barn of Councillor W. H. White was also badly scorched, as was a large quantity of Mr. Arnott's stock, which was piled in the vicinity.

A number of C.P.R. cars which were standing on the siding running in behind the C.P.R. depot to Mr. W. H. Wrighton's warehouse began to take fire in several places and had to be run off to a place of safety.

Mr. Arnott's loss is a heavy one, as this is his busy season, and besides the mill machinery a large stock of boxes were destroyed, of which 1000 were to be shipped this morning. The loss is estimated at about $3,000, with a very small insurance.

PERSONAL.

Senator Cox is in town to-day.

Mrs. R. J. McWilliams, of town is visiting friends in Lakefield.

Mrs. Wm. Neild is the guest of Mrs. W. H. Hunter, Norwood.

Mr. J. Coyle Brown, I.P.S., was in Norwood guring the week visiting the Public Schools.

Miss Lottie Purser has returned from Buckborn where she has been visiting friends for the last week or so.

Mr. Fred Lynch's condition is slightly improved to-day, but he is still confined to his home at No. 672 Stewart street.

Surgeon Major Poole and Mrs. Poole have arrived in town from London, Eng., and are visiting their son, Dr. Poole, No. 429 Water street.

Mr. H. R. H. Kenner, of the Collegiate Institute, sails on Saturday next for the old country. He intends making a tour of Great Britain, France and Germany.

Rev. Mr. and Mrs. W. L. Scott, of Ottawa, have been the guests of Mr. and Mrs. John Nugent during the week. Mrs. Scott is a former resident of Peterborough.

Mr. W. A. Shaw, the travelling agent for the Octavius Newcombe Pianoforte Co. of Toronto, arrived home after a most successful trip. Next week he starts on an extended eastern tour in the principal cities.

Mr. F. C. Armstrong's many friends in Peterborough will be pleased to learn that his Toronto friends gave him quite a send off last evening on the occasion of his leaving for London, Eng., to take a position with Dick, Kerr & Co. Mr. Armstrong has been general agent for the Canadian General Electric Co. for some years.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Promotion examinations in the Collegiate Institute begin next week.

—Fruit and groceries courteously served. Low prices at the "Spot Cash."

—Missionary collections will be taken at both services in St. Andrew's to-morrow.

—Mr. M. A. Sorsoleil will lead the conference on the Sunday school lesson to-night at 8 o'clock, Y.M.C.A. Subject, "The Risen Lord"—Matt. 28, 9 20.

—Don't forget the Y.M.C.A. anniversary "At Home" on Tuesday evening, June 21st. Musicale and refreshments. Admission 10 cents.

—The present generation in its infancy was soothed by Godfrey's Cordial. Now in their adult years they are soothed and delighted by the magnificent music of Godfrey's band.

—The bombardment of Cuba don't begin to raise any such talk in town as the bombardment of boss-prices at Geo. Ball's ladies' and gentlemen's tailoring parlours, 413½ George street. Those $10 suits, made to order, are levelling prices and demoralising high-renters.

Remember the sale of handsome household furniture of Mrs. R. H. Fortye at 235 Park street, on Thursday, June 23rd; also at the same time and place, the beautiful residence and grounds will be offered for sale. Both sales will take place at one o'clock p. m. JOHN HAGGART, Auctioneer.

—To-day, June 18th, is the eighty-third anniversary of the Battle of Waterloo. We may therefore expect that some heroic American general in charge of a mule corps in Cuba has performed some deed of desperate valour that wipes Wellington from the scroll of glory, as Dewey at Manilla, wiped out the glory of Lord Nelson. Can such things be an overpass as like a summer cloud!

LI HUNG CHANG COMING UP.

Probability of his Return to Power.

(Special to the Examiner.)

London, June 18,—Official circles at Pekin say: A despatch to the Daily Mail from Tien Tam foreshadows the return of of Li Hung Chang to power. His influence is predominant in the Tsing Li Yamen and he is strongly biased in favour of the Russians.

STEAM ROLLER ENDORSED.

Letters in its Praise Received From Galt and Stratford.

In response to inquiries as to the usefulness of a steam roller addressed to the mayors of Stratford and Galt, Mayor Davis has received the following communications:

A. L. Davis, Esq., Mayor of Peterborough:

STRATFORD, ONT, June 15th, 1898.

MY DEAR MR. MAYOR,—Re steam roller, your people need have no hesitancy in voting money for the purchase of this. In my municipal experience, covering many years, I can safely say that no investment we have made gives greater satisfaction. Our council met with strong opposition, and had we submitted a bylaw for the money it would have been defeated. I am pleased to say those who talked strongest against the purchase are now its most ardent admirers.

Sincerely yours,
JOHN C. DONOUGHUE,
Mayor.

GALT, JUNE 15th, 1898.

A. L. Davis, Esq., Mayor of Peterborough:

DEAR SIR,—In reply to your letter of the 13th inst., I may say that our steam roller has given us good satisfaction since the purchase of it.

I have no hesitation in saying that without the proper machinery it is impossible to make good roads and that our town would not part with our roller for twice what it cost, provided we could not replace it.

Yours truly,
J. H. RADFORD,
Mayor.

THE GALLANT CHARGE OF THE BOYS' BRIGADE.

The Enthusiastic Mobilization of the Youthful Soldiers of Peace.

The call to arms of the St. Andrew's Boys' Brigade resulted in a very enthusiastic rally around the old standard. Capt. Wm. Langford led the forces and after manoeuvring for about an hour the fort was stormed. Lieut. Waddell brought up the rear guard and after entering the fort they found that they were in for a hand to mouth engagement. The enemy were arranged along both sides of a level plateau and the red coats, which gave the appearance of a table of strawberries, aroused the spirit of war at once, which could scarcely be restrained by those in command. In the centre of the plateau were arranged, layer upon layer, the provisions for the host and the whole night was worthy of their best endeavours. Arranged in single file the sturdy warriors were ordered to surround the enemy and as the word 'charge,' the entire camp was routed, and in less than twenty minutes everything was demolished. With a spirit of good cheer at the conquest the brigade gave vent to expressions of joy and gratitude. To Captain Wm. Langford, Lieut. Waddell, Major Mallett and the Chaplain, votes of thanks were passed. Feeling somewhat elated over their victory it was moved by Private B. McFarlane and seconded by Private S. Alford, and carried amid rousing cheers that "we desire to thank Captain R. M. Dennistoun for his kindness in offering a Silver Cup to be competed for by the companies of the Boy's Brigade, and all, also desire to state that if such competition is arranged for St. Andrew's Boys' Brigade is "aye ready."

ANOTHER VICTIM OF THE KLONDYKE FLIER

MR. MICHAEL SMITH RUN DOWN TO-DAY.

He Tried to Cross the Track Ahead of the Train, but did not Quite get Clear Before the Locomotive was on Him.

As the west bound 1 18 p.m. C.P.R. Klondyke Flier was running through Ashburnham to-day it struck the hind wheels of one of the Dixon Co. wagons, which was crossing the track at the Mark street crossing, smashing the wagon into tinderwood and throwing out the driver, Mr. Michael Smith, on his head.

Smith was picked up in an unconscious condition and laid in the ditch, but soon recovered sufficiently to be able to recognize his friends. Drs. Boucher and Bell examined the injured man, and state that there are no symptoms of internal rupture, but as Smith fell on his head and bled profusely at the mouth and nose, they fear that there may be a concussion of the brain. A rude litter was improvised and the man was carried into Mrs. Bennett's residence on the corner and made as comfortable as possible under the circumstances.

It appears that Smith was driving south on Mark street and met Mr. Robt. Cow driving into town just north of the C. P. R. crossing. Smith got out of the wagon to talk to Mr. Cow about some business, neither of them noticing the train approaching from the east. Mr. Jack McWilliams saw the danger and shouted to them as a warning, but his voice was drowned in the shrill whistle of the incoming train and the crunching roar of the wheels as they were reversed. Mr. Cow whipped up his horse and Smith jumped into the wagon and tried to get across the track before the train came up. He almost succeeded in getting clear, but the cow-catcher struck the wheels of the wagon with the above-stated result.

Although Mr. Smith is badly cut about the head, his injuries will not necessarily prove fatal unless complications develop.

LIEUT. GODFREY'S FAMOUS BAND.

SOME OF THE NOTABLE MEN WHO ARE AMONG ITS MEMBERS.

Note the Musicians and Men who Have Won Medals and Decorations in the British Service—Their Concert in Peterborough.

The visit to Peterborough on Monday evening, June 27th, of Lieut. Dan Godfrey's famous band, is exciting great interest, for the reputation of this musical organization is world wide, and an opportunity to hear it only comes once in a lifetime to the majority of people. The concert, under the patronage of the officers of the 57th Battalion, will be held in the Charlotte street rink, where the most extensive arrangements will be made to accommodate a large crowd. The floor of the rink and the front row of the gallery will be occupied by seats. All these seats are reserved and will sell at $1.00. The general admission will be 50 cents. Lieut. Godfrey is known as the greatest bandmaster in the world, as the bandmaster of the Grenadier Guards. His band that will come to Peterborough is the finest in the world. Mr. Godfrey is emphatic in his statement that the present is the finest band he ever had under his baton, in or out of the Grenadier Guards. The men as a whole have played with him at hundreds of performances, everyone is a skilled musician, and the band comprises eight of the best soloists in England, as follows :—F. L. Kettlewell, who has succeeded Reynolds at Queen's hall, and J. Taylor, cornet soloists ; E. Mills, Saxophone ; Alex Smith, clarinet ; E. S. Redfern, flautist ; Handel Peasey, euphonium ; Philip Langdale and J. Groves, bassoonists. As regards the other members of the band everyone has been schooled in the finest army bands or orchestras in England, and every man has a record of some notability.

The only member left of that Grenadier Guards' band, which Lieut. Godfrey brought to the Boston Peace Jubilee in 1872 is E. H. Manners, who had then just joined the Grenadier Guards. He was in the Grenadier Guards for 25 years, and has never left them. He wears a long service medal. Phillip Langdale, the first bassoonist in England, was in the Coldstream Guards, and for the Canadian trip gave up a most lucrative engagement as first bassoon of the Royal Italian Opera, Covent garden, for the coming season. F. L. Kettlewell, the best known cornetist in England, was with Godfrey for a number of years in the Grenadiers Guards, having first made his reputation in the Yeoman Cavalry Band at Sheffield. He, too, wears a long service medal.

Brady, the trombone soloist of the Second Life Guards, wears four medals. He was in the charge at Cabul under General Roberts, and for his bravery he received a medal and two clasps ; in the march from Cabul to Kandahar he distinguished himself, and received the star medal for his gallant conduct. On his return to England after the war was over he won the Humane Society's medal for life-saving at home, and to add to his collection he carries also a long service medal.

E Bolton, fifteen years a Life Guardsman, the champion lightning drummer of the army, saw service in the Transvaal. He is the original drummer of the famous picture "Tommy," the drum horse of the Life Guards, presented by H. R. H. the Duke of Connaught to the regiment. The picture hangs in the galleries at Windsor castle and at Marlborough house. He has a long service medal. On state occasions Bolton on "Tommy" was escorted by a drum-major and two corporals of horse.

Besnak, the piccolo soloist (Grenadier Guards), has the star and medal for the Egyptian campaign under Lord Wolsley, Ketz Remity, the petit clarionette, also of the Grenadier Guards, has the star and medal for service in Egypt, and also the good conduct medal. Alec. Smith, the finest saxophone soloist, was in "the Blues." Handel Phasey is the greatest euphonium soloist to be found anywhere. His father practically invented that instrument, as he remodelled the saxhorn baritone and renamed it the euphonium.

In the North-West, where Godfrey's career and the records of the men are better known, as so many Englishmen are settled there, the band received tremendous ovations. Some friends of Mr. Godrey's come all the way from Victoria, B.C., to Winnipeg for the purpose of seeing him and hearing him again.

No one in Peterborough should miss hearing such a musical organization when the opportunity is offered. Plan of reserved seats opens on Monday at Ormond & Walsh's drug store.

ANKLE DEEP IN PAIN.

Sinking in Rheumatic Mire—South American Rheumatic Cure was the Saving Strong Arm.

W. F. Beggs, Vancouver, B.C., says :—"Five years ago I was afflicted with a very acute form of rheumatism, causing great pain in my ankles and feet. I tried everything I could read or hear of, and consulted many physicians, and a Toronto specialist, without receiving any benefit. I was induced to try South American Rheumatic Cure. The first dose gave me instant relief—the first bottle greatly helped—and two bottles brought me a complete cure." Sold by H. S. Macdonald.

THE LITTLE LAKE GIVES UP ITS DEAD.

The Body of Charles Phillips Found Floating.

SUPPOSED TO HAVE SUICIDED.

The Deceased Tried to Take His Own Life Once Before by Swallowing an Overdose of Laudanum, and in a Second Attempt he was Evidently Successful.

At about eight o'clock last evening a young son of Mr. George Patterson, Crescent street, whilst fishing in the Little Lake, discovered the body of a man wedged in between two booms. Hurriedly paddling ashore he notified his father who, in turn, telephoned to the police about the matter.

Mr. D. Belleghem, undertaker, was asked to take the matter in hand and, with Mr. W. H. Foord and Mr. J. W. Butcher, paddled out to the boom at about nine o'clock. Although a number of others were on the scene earlier in the evening no attempt had been made to remove the body, as it was feared it would sink at once if disturbed. By placing a rope around the neck and then pushing the remains down under the boom Mr. Belleghem was able to get the body out and it was then towed ashore.

As soon as the police received notice of the finding of the body they surmised that it

MIGHT BE CHARLES PHILLIPS,

as he has been reported missing since Monday last. A view of the body confirmed the suspicion, as it was soon recognized by the crowd which gathered at the spot.

Phillips tried to commit suicide some six weeks ago by taking an overdose of laudanum, and was taken to the Nicholls Hospital, where he recovered. Since then he has been living with Mr. Robert Bestard in Monaghan, just outside the town limits. On Monday evening he and Mr. Bestard came to town together and separated at the Royal Oak Hotel, Phillips stating that he felt unwell and would go and see a doctor. This was the last seen of him, and Mr. Bestard returned home without him, thinking that he had met some of his friends, and would remain in town for the night.

As nothing had been heard of Phillips by Wednesday, Mr. Bestard came into town and made enquiries concerning him, but

COULD LEARN NOTHING

of his whereabouts. Becoming alarmed he went around to the police station and communicated his fears concerning Phillips having committed suicide, stating his belief that the unfortunate man had thrown himself into the river.

As no facts whatever were in existence to confirm Mr. Bestard's suspicion, nothing was done in the matter, until the body was found last evening.

Charles Phillips came to Peterborough from England about fourteen years ago and since then has worked, off and on, at the butchering business, keeping a stand at one time on Simcoe street, below Oversend's. He received regular remittances from his family in the Old Country, who are reported to be very well-to-do. Not long ago the remittances were cut off and since then Phillips had become very despondent, stating that someone had written from town, making statements which caused the cutting off of his allowance from home. The deceased was a married man and some time ago his wife came out from England to see him but only remained a month or so before returning home again. His only known living relative in Canada is Mr. Tinney, of Cavanville, and he has been notified that the remains are at Mr. Belleghem's undertaking establishment.

Phillips was well known in town and had many friends who will regret the rash act which led him to take his own life. Despondency and continued ill health are stated to have been the cause of his expressing a wish at various times to the effect that he wished he was dead.

BEWDLEY'S NEW CHURCH.

A Baptist Congregation of Only Fifteen Members Erects a Handsome Structure.

Rev. O. C. Elliott, pastor of the Park street Baptist church, has returned from Bewdley, where the pastors of the district held a Recognition Conference and opened the new Baptist church at that village.

The church is a very neat structure, prettily finished and cost in the neighbourhood of $1,500. It was erected by the members of the church in Bewdley, of whom there are just fifteen. The hand some edifice is indeed a credit to them and would have cost a far larger sum if they had not given freely of their time and labour in hauling all the material to the ground, as well as assisting in the construction of the building.

During the Recognition Conference five new members were added to the congregation, which is in charge of Rev. Mr. Kirkpatrick, of the Bailliboro Baptist church.

In going to Bewdley Rev. Mr. Elliott took the boat to Gore's Landing and wheeled to the village from that point. He was to be joined at Gore's Landing by his assistant, Mr. Cornish, who was spending the day at Jubilee Point, but the latter unfortunately let his wheel to one of his friends and it came to grief on a hill.

Baby Eczema and Scald Head,

Infants and young children are peculiarly subject to this terrible disorder, and if not promptly arrested it will evidently become chronic. Dr. Chase made a special study of eczema and diseases of the skin, and we can confidently recommend Dr. Chase's Ointment to cure all forms of eczema. The first application soothes the irritation and gives the little sufferer rest.

—Fresh berries from the growers every day, low prices, "Spot Cash."

You can count on your Wedding Cakes being right if they come from McQUAY, COLLINS & CO., 406 George Street. Handsome decorations, delicious Icing and fine rich quality are making them very popular.

OBITUARY.

THE LATE THOMAS SHIELLS.

The death of Mr. Thos. Shiells occurred at his residence at Credit Forks, Ont., on on Thursday, June 16th, 1898, at the age of 44 years. The cause of death was pleurisy. Deceased has been a much respected resident of Credit Forks for a number of years. He is the second eldest son of Mrs. G. Shiells, 556 Aylmer street, town. He leaves behind a widow and three children. The funeral took place from his late residence to-day.

BAPTISTE LEFORT.

The death of Mr. Baptiste Lefort occurred this morning after many months of illness. The deceased has been a sufferer from catarrh of the stomach for some years and lately has been afflicted with dropsy, which latter disease was the cause of his death. He leaves a widow and one child. The funeral will take place from the family residence, George street, at 4 p.m. to-morrow.

MRS. BLOIS.

The death of Mrs. Blois, mother of Mr. Thos. Blois, No. 145 Park street, at an advanced age, took place this morning at the residence of the latter. The funeral will proceed from No. 145 Park street to the C.P.R. station on Monday morning, the remains being taken west on the 7.10 a.m. express for interment at Holland Landing.

THE LATE MRS. CHARLES HARRIS.

The Cobourg Sentinel Star records the death on June 9th of Mrs. Charles Harris, of Gore's Landing. She had been ill about a year, and succumbed to cancer after the most intense suffering, which was borne with Christian fortitude. Her maiden name was Julia McIlmoyle, being a daughter of John McIlmoyle, of Smith township. On January 13th, 1869, the deceased lady was united in marriage to Mr. Chas. Harris. The result of the union being three sons and two daughters, viz., Messrs. John Alfred Harris, who resides near Gore's Landing ; Jos. Edward Harris, Charlton Harris, Charlotte Jane Harris and Elizabeth Mildred Harris. The funeral services were conducted by Rev. Mr. Down, of Camborne. The interment took place at Plainville cemetery on Saturday, and the cortege was large, testifying to the high esteem in which the deceased was held. As a loving wife and devoted mother Mrs. Harris was a model, and the sympathy of the community is extended to the bereaved husband and family.

PURE WELL WATER.

The Dominion Analyist Looking to Peterborough for the Article.

Mr. Anthony McGill, one of the analysts in the Department of Inland Revenue, Ottawa, was in town giving evidence regarding the explosive found in the possession of McDonald, the burglar. During his stay in town he called upon Dr. Clarke, Medical Health Officer, and enlisted his services for the purpose of securing pure well or ground water, in order to establish a standard by which the purity of all other waters could be estimated in relation to the quantity of mineral salts or organic matter contained in them, Mr. McGill drove into Smith, in the vicinity of the town, and secured a dozen samples of water from wells which, from their situation in relation to possible sources of contamination, would indicate that the water was pure. Dr. Clarke is to secure about fifty more samples from similar sources to be forwarded to Mr. McGill for analysis. The latter hopes by this means to obtain a practically pure well or ground water which will be a standard by which to judge of the purity of the water of other wells, which may be under suspicion. Thus, if our local medical health officer had submitted to him a sample, by comparing its constituents with the standard furnished by Mr. McGill's investigations, he would be able to decide with less difficulty upon its fitness or unfitness as the case might be for domestic or personal use.

THE IRISH RELIEF FUND.

To the Editor of The Examiner :

Dear Sir,—In the list of contributors to our Irish Famine Fund, kindly published by you yesterday, the name of Mr. George Ball does not appear, although his contribution, $1, is included in the sum total.

I very much regret this oversight in the list you copied from (the Irish World), as no man more truly sympathises with suffering humanity, under any form or from any cause, than does Mr. Ball.

Asking a little space for this correction I am, dear sir,
Yours truly,
J. W. FITZGERALD.

THE DR. WARD CO., Toronto.

GENTLEMEN,—It gives me pleasure to endorse Dr. Ward's Blood and Nerve Pills. For years I have suffered from weak action of the heart and my nerves were treacherous. I was irritable, worried, easily alarmed, and suffered greatly at times, but since taking your Blood and Nerve Pills I have felt splendid. My nerves are strong and I am free from distress and have had no trouble with my heart since using your Blood and Nerve Pills. I gladly recommend these pills to all those who suffer from any heart or nerve trouble.

SWEET PEACE AGAIN.

Bishop Sweatman Accepts the Promises of the Synod and Withdraws Resignation—Discussion on Divorce.

Toronto, June 18.—When His Lordship Bishop Sweatman entered the Toronto Anglican Synod yesterday morning, Hon. Mr. Blake stepped out and read the resolutions of sympathy with the Bishop passed by the Synod the night before, and then, folding his hands behind his back, said that he had a few words more to speak. "I have never known the Synod, my lord," he began, "to have ever been so profoundly moved as it was yesterday. We have erred and come short of our duty. It was not right for us to have held back your salary. It was not right for us to have been so negligent of the mission fund. We crave your indulgence, and if your lordship will gracefully overlook our faults and withdraw your determination to retire, we will this day elect you afresh as our bishop."

His Lordship, when the prolonged applause had ended, said: "I confess that when I came here this morning it was to hand in my resignation. I, of course, saw the reports in the morning papers, and felt chilled by the want of confidence felt by certain of my clergy. The friendly tone of the resolution, however, is so strong that I feel it is my duty to remain."

The excitement at the Bishop's decision was extreme, and the Synod worked off their pent-up feeling by singing, "Praise God from Whom All Blessings Flow."

Discussed Divorce.

The question of the re-marriage of divorced persons split the Synod last night into two rival camps, who, after vainly trying to force through an endless number of resolutions, broke up to continue the fight in the morning.

The immediate cause of the discussion was the recent Ward-Matthews marriage in this city by Rev. Septimus Jones of the Church of the Redeemer, Mrs. Ward having previously obtained an American divorce after withdrawing her motion from the Canadian Senate.

Rev. Dr. Langtry, who led the high church party (holding that death alone can dissolve the marriage tie) moved:

That this Synod memoralize the Provincial Synod to enact that no clergyman of the Church of England in Canada be permitted to knowingly solemnize marriage between persons either of whom has been divorced during the lifetime of the divorced husband or wife, subject to the penalty of deprivation.

Speaking to the motion, Dr. Langtry said that the enactment he proposed had been suggested by a recent occurrence that had shocked the consciousness of the whole community—(loud applause)—and had lowered the clergyman in the eyes of all his brethren."

"The Popish View."

Principal Sheraton of Wycliffe exclaimed excitedly that Dr. Langtry had propounded the Popish view of the question. It didn't make allowance for the innocent party; it didn't recognize the cause for divorce, as laid down by Jesus himself, and put the law of the church before the law of the land.

Rev. J. P. Lewis said that one woman in every seven in the United States was divorced, and the Canadian church wouldn't keep silent on the matter.

Bishop Sweatman here pointed out that the Synod had no power to legislate on this question, and advised that the whole matter be referred to the Executive Committee.

Rev. T. C. Street-Macklem protested that the majority of the house wished to place a vote of censure on any clergyman performing such a marriage, and shouts from Dr. Langtry's camp supported him.

The fight again raged fiercely without victory to either side.

Bishop Sullivan now proposed, as an amendment:

The Synod, deeply realizing the social and domestic mischief wrought by the re-marriage of divorced persons, requests the Provincial Synod to authoritatively declare upon the question for the guidance of the clergy.

This pleased Dr. Langtry and Rev. Street-Macklem, but, in view of the fact that the house was not ready to vote upon the question, Bishop Sweatman adjourned the debate until this morning.

FOR THE NERVOUS

And Emaciated, South American Nervine is a Rich, Deep Health Fountain And Never Fails.

Nervous exhaustion, bad digestion, impoverished blood are the diseases imprinted on many a brow. South American Nervine has a marvellous power as a nerve tonic, a blood builder and stimulator. Tones the system, clears, regulates and dispels depression and restores the good spirits essential to good health. George Webster, of Forest, writes:—"For years I suffered much from sleeplessness, nervousness, twitching muscles and palpitation. All remedies failed but South American Nervine. The first bottle greatly helped, and five bottles cured me. I feel I owe my life to it." Sold by H. S. Macdonald.

Anti-Jewish Excesses.

Cracow, Austrian Galicia, June 18.—The situation in the District of Gorlice, in connection with the anti-Semitic excesses, is of the most serious character. Bands of men from other districts have reinforced the petroleum workers and peasants of Gorlice, and are attacking, plundering and burning public buildings. They have attacked the towns of Biecz and Gorlice, which had to be defended by troops.

The Trip of the Gresham.

Cornwall, June 18.—The bow and front part of the U. S. revenue cutter Gresham, which is being sent in sections from Ogdensburg through the St. Lawrence canals to the Atlantic seaboard to be used as a despatch boat in the present war with Spain, passed down the Cornwall canal yesterday afternoon on pontoons in tow of the tugs Curlew of Ogdensburg and Alaska of Prescott.

The Assembly Adjourned.

Montreal, June 18.—The Presbyterian General Assembly got through it's work yesterday afternoon. The attendance had dwindled down to about a dozen members, and only routine business was transacted. The assembly was then formally adjourned to meet next June in Central Church, Hamilton.

A New Forest Pest.

Toronto, June 18.—Mr. F. Hile, M.E., of Port Arthur, has written Mr. Thomas Southworth of the Bureau of Forestry, calling attention to a new pest that is attacking the Balm of Gilead trees in Port Arthur. The insect is the streaked cottonwood beetle. It looks like a potato bug, and succumbs to Paris green.

EXCITEMENT IN BERLIN.

Caretaker of the Post-Office Arrested—Theft of a Money Letter Traced—Edward Lynes in Jail.

Berlin, June 18.—The greatest excitement was created here yesterday morning when it was noised abroad that Mr. Edward Lynes, the caretaker of the post-office, had been arrested. The charge against him was stealing a registered letter addressed to Mrs. Sarah Mallinson. The post-office authorities have been missing registered letters from the post-office from time to time, but could get no clue to the thief. Finally Lynes was suspected. A decoy letter was prepared Thursday night and yesterday morning it was gone. On that information Postmaster Niehaus acted, and swore out a warrant for the man's arrest. The letter was found on him. It contained $4 in $1 bills, which had been marked.

Lynes was taken at once to jail by Detective Klippert. His arrest is a shock to the entire town. Besides being one of the best known and most popular men in town, he is a prominent member of Berlin's best society.

He "farmed" out the caretaking of the post-office to another man. He was appointed by the Conservative Government several years ago.

A JEWELLER'S CASE.

Mr. R. F. Colwell, of Windsor, Tells How Dodd's Kidney Pills

Cured Him of Bright's Disease, After Many Other Remedies had Utterly Failed—Dodd's Kidney Pills Helped Him From the Start.

Windsor, June 20.—In no city in Canada has that celebrated medicine, Dodd's Kidney Pills, won a brighter record than in Windsor. The number of persons cured of deadly Kidney diseases, by Dodd's Kidney Pills, in this city is surprisingly large and increases daily.

One of the latest to testify to the magic power of Dodd's Kidney Pills is Jeweller R. F. Colwell, No. 9 Ouellitte street. He says: "I have endured, for two years, the greatest torture, from back-ache and pains in the loins. A puffiness appeared under my eyes, my limbs bloated, and my urine was of a dark, unnatural colour and bad odor.

"I tried many remedies but all failed to help me. When I ascertained that I had Bright's Disease I became thoroughly alarmed. I was told of the efficiency of Dodd's Kidney Pills in all kidney diseases, and I began to use them.

"After the first few doses I began to improve. The pains left me, my sleep became sound, puffiness and bloating vanished, my urine resumed its normal condition, and my health gradually became all I could wish it to be. I used only a few bottles of Dodd's Kidney Pills but they cleansed my system thoroughly of that dread curse—Bright's Disease."

There is no case of Bright's Disease, Diabetes, Dropsy, Gout, Gravel, Stone in the Bladder, Rheumatism, Lumbago, Diseases of Women, or any other kidney disease that Dodd's Kidney Pills will not cure.

Dodd's Kidney Pills are sold by all druggists, at fifty cents a box, six boxes $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto, Ont.

TOWN OVER A GOLD MINE.

The Ground Under Ballarat, In Australia, Has Yielded £50,000,000.

The richest gold mine in the world is located under the thriving town of Ballarat, Victoria, Australia. The town has about 25,000 inhabitants, nearly all of whom are employed in the mine. There are more than 100 miles of tunnels under the city, some of them being at a depth of 2,000 feet. The entrance to the mine, which is controlled by a corporation and is known as the Band, Barton and Albion councils, is outside the city.

The region around Ballarat has been dug over several times by miners. It was formerly covered by a dense forest, but the trees have been chopped down, and the mark of the miner's shovel and pick is visible on all sides. Not one of these workers struck pay dirt, and the work was all done in vain.

The rock in which the gold is found beneath Ballarat is not rich in the yellow metal. It yields but half an ounce of standard gold to the ton, and yet the Band, Barton and Albion mine has yielded more than £50,000,000 of gold since it was opened 30 years ago. The work is done so systematically and so thoroughly that it is enormously profitable in spite of the low grade of the ore. The supply of paying quartz seems practically inexhaustible, and as the vein is extensive, being spread over much territory, the mine bids fair to last for centuries.

All of the paying veins of Australia run north and south, and have a dip of 25 degrees east and west. In working the mines a shaft is sunk until the vein is struck. Then the miners work upward, allowing the ore to fall backward and downward to the shaft, through which it is raised to the surface, where it is milled.

The workmen in the Band, Barton and Albion are much more comfortable than the workers in a coal mine. There are no noxious gases and no danger from explosions. Pure air is forced in through various shafts, and thus into the drivers. The tunnels are drilled far apart, so that there will be no danger to the city above, where all is trade and bustle.—London Tit-Bits.

The future is uncertain, but if you keep your blood pure with Hood's Sarsaparilla you may be sure of good health.

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.95, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6510.00, or a Life Annuity for $401.99, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

Makes and Keeps People Well and Strong in the Summer Time.

The Only Medicine That Can Meet Your Expectations.

Take No Substitute from Your Dealer.

"PAINE'S" is the Kind that Cures.

In the heart of every man and in the soul of every woman there is a vacuum that can only be filled by a child. In America there are too many childless homes. All the love and passion of courtship and all the kisses of the honeymoon turn to bitter dust upon the lips of the wedded couple to whose home there never comes the patter of childish feet.

One cause, more than any other, contributes to making the tens of thousands of childless, and consequently unhappy, homes all over this country. The cause is often the unconscious fault of the wife. A woman who suffers from weakness and disease of the distinctly feminine organism is unfitted for motherhood, and if she has children it will probably be at the sacrifice of her own life. Dr. Pierce's Favorite Prescription is a wonderful medicine for women who suffer in this way. It acts directly on the delicate and important organs concerned in wifehood and motherhood. It makes them strong, healthy, vigorous, virile and elastic. It banishes the squeamishness of the expectant period and makes baby's advent easy and almost painless. It insures the little new-comer's health and a bountiful supply of nourishment. Thousands of homes that were childless and unhappy now echo with the prattle of healthy babyhood, as the result of the use of this marvelous medicine.

"When I began taking Dr. Pierce's medicines I was very sick," writes Mrs. R. D. Moore, of Schuyler, Colfax Co., Nebr., (Box 173). "I could not keep anything on my stomach, and kept getting worse. My husband got me two bottles of Dr. Pierce's Golden Medical Discovery, two of his 'Favorite Prescription' and four of his 'Pleasant Pellets.' (At this time I had been pregnant about two months.) I began taking the medicines, and in less than a week I could eat anything. The 'Favorite Prescription' is the best medicine in the world for prospective mothers. My health is better now than it has been for twelve years. My little girl is now six months old and is well and healthy. I do not think I should have had my baby if we had not obtained something to build up my system and strengthen me."

Thirty-one one-cent stamps cover the customs and mailing of a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser. Cloth-bound, 50 stamps. Send to Dr. R. V. Pierce, Buffalo, N. Y.

WHEAT WEAKER.

The Rally of Wednesday Has Been Overcome by the Bears, Whom Crop Prospects Favor—Prices.

Thursday Evening, June 16.

Wheat accomplished a further small rally on the Chicago board at the opening this morning and a few transactions were made at a cent above Wednesday's close. The strong feeling of yesterday was, however, absent and the increasingly favorable crop and harvest reports caused nearly everyone to take the bear side. The fact that next Monday's statistics are considered sure to show another big decrease in the American visible supply does not seem to be a factor in making prices. At the close the June delivery showed a loss of 2c per bushel for the day, July a loss of ½c, September 1½c and December 1⅝c.

At Liverpool to-day wheat opened strong, but later spot declined 2d to 4d per cental and the July delivery went off 1⅝d. At the same time, however, the September option sold ⅝d higher than at yesterday's close, and the December futures ½d higher. In Paris wheat closed unchanged to 40 centimes lower than yesterday.

There is practically nothing doing in wheat at Toronto and prices are unchanged from yesterday.

Wheat Crop.

The world's wheat crop of 1897 is estimated at 2,258,400,000 bushels (1,129,200,000 bushels harvested in Europe and 1,650,200,000 bushels in other countries), against 2,402,200,000 bushels in 1896, and an average of 2,438,000,000 bushels for the past five years.

The run of live stock at the Cattle Market to-day was fairly large, 57 loads all told, composed of 850 cattle, 215 sheep and lambs, 50 calves and 1500 hogs.

The bulk of the cattle offered were exporters and stockers. Trade was very brisk; prices firm.

Exporters sold at $4.40 to $4.60, with two or three loads of extra choice cattle at 10c to 15c higher.

Butcher cattle very firm at Tuesday's quotations.

Stockers sold at $3.00 to $3.80 per cwt.

Heavy feeders firm at $4 to $4.12½.

Milk cows Prices unchanged.

Calves sold at $3 to $5 each for general run, 7 to $8 being paid for some extra heavy veals.

Spring lambs sold at $3 to $4.25 each.

Good calves and spring lambs wanted.

Sheep—Ewes sold at $3 to $3.25, bucks $2.50 to $3, yearlings $3.50 to $4 per cwt.

Hogs—Deliveries not so heavy; prices steady, too many light hogs coming forward, which are not wanted; best selections sold at $5.10 to $5.20, thick fats $4.90, light fats $4.50.

Montreal Live Stock.

Montreal, June 16.—There were about 550 head of butchers' cattle, 500 calves and 325 sheep and lambs offered for sale at the East End abattoir to-day. The butchers seemed to be out in full force and trade was good, with prices for good beeves slightly lower than on Monday, while the common and inferior stock were considerably lower than on that day, there being quite a number of grasshopper cattle on the market. Prime beeves sold at from 4½c to 4¾c per lb., pretty good stock at from 3½c to 4¼c per lb. and the common and inferior beasts at from 2½c to 3¼c per lb. Calves sold at from $1 to $7 each, there being a good demand and fair prices paid for good veals. Sheep sold at from a little less than 3c per lb. to 3¾c per lb. Lambs sold at from $2.50 to $4 each, very few bringing over $3.50. Fat hogs are plentiful and sell at about 5c per lb. Store hogs sell at from $6 to $9 each, and small pigs at from $1.25 to $2.50 each.

Cheese Markets.

Barrie, June 16.—At the meeting of the Cheese Board here to-day 1151 boxes of cheese, all let of June, were offered, and after much rivalry and spirited bidding 300 were sold at 7 3-16c, 115 at 7⅛c, 417 at 7 1-16c, and 7c refused for balance. Five buyers were in attendance, viz., Whitton, Blain, Gunn, Perkins and Bothwell. The board adjourned to Thursday, June 30, at 1 o'clock.

Kingston, Ont., June 16.—At the Cheese Board to-day 2200 boxes boarded. Sales, 150 at 7⅛c, 1500 at 7 3-16c.

Brockville, June 16. At the Cheese Board to-day 54 factories offered 1453 white and 2919 colored. All sold on board at 7¼c.

East Buffalo Live Stock.

East Buffalo, N.Y., June 16.—Cattle—Receipts, about all consigned through.

Veals and calves—Supply moderate, and for good to prime kind of fat veals the market ruled stronger, but other grades were about steady. Good tops brought $6 to $6.25, with a few fancy at $6.50; others sold at $5 to $5.75.

Stockers and feeders—The offerings this week were liberal, all of 90 cars, 44 of which were from Canada. Market ruled slow, all of 10c to 15c lower for the best ones, but common, coarse, or staggy lots were all of 25c to 40c per cwt. lower, and the latter kind were slow in cleaning up: Good to best stock steers, $4.15 to $4.50; common to fair, $3.70 to $4; good to best feeders, $4.20 to $4.50; fair to good $3.90 to $4.10; yearlings and stock calves $4.50 to $4.75.

Hogs—Receipts light; fair demand for the best grades of hogs, and prices for these kind ruled stronger, with pigs and common light lots no stronger than heretofore. Good to choice yorkers, $4.10 to $4.15; light to good yorkers, $4.05 to $4.10; mixed packers' grades, $4.15 to $4.17; medium weights, $4.17 to $4.20; heavy hogs, $4.20 to $4.22; roughs $3.50 to $3.70, stags, $2.75 to $3; pigs, $3.25 to $4.

Sheep and lambs—Receipts are exceedingly light. Market strong and firm for all offerings, especially good handy stock of either kind. Native lambs, choice to extra, $5.65 to $5.75; fair to good, $5.40 to $5.60; culls to common, $4.50 to $5.25; native clipped sheep, choice to selected, wethers, $4.75 to $4.85; good to choice mixed sheep, $4.50 to $4.70; common to fair, $4 to $4.25; culls to common sheep, $3.25 to $3.65.

British Markets.

Liverpool, June 16.—Spring wheat is quoted at 8s 4d; red winter, 7s 10d; No. 1 Cal., no stock; corn, 3s 4½d; peas, 5s 2d; pork, 57s 3d; lard, 30s; tallow, 19s 6d; heavy, Le., 31s 6d; light, 31s; do., short cut, 31s; cheese, white 34s 6d, colored 34s 6d.

Liverpool—Close—Spot wheat dull, with red winter at 7s 8d and No. 1 Northern at 8s; futures quiet at 7s 5d for July, 6s 4½d for Sept. and 6s 1¾d for Dec. Spot maize quiet at 3s 4½d; futures steady at 3s 4d for July and 3s 6⅛d for Sept. Flour 30s.

The Horse Fell on Him.

Galt, June 17.—A distressing accident occurred here about 6 o'clock last evening by which John Young, the seventeen-year-old son of Geo. Young, this town, may lose his life. He was riding a four-year-old colt without saddle or bridle from the blacksmith shop, when it slipped on the cement crossing, corner of Ainslie and Main streets, and fell on its rider. The lad was picked up insensible, and at 10 o'clock last night had not regained consciousness.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

A Ticklish Question.

G. M. writes to The Journal: "Should you say, 'I made him cough $5,' or 'I made him cough up $5?'"

This is a ticklish question. Unfortunately the slang dictionaries, even Farmer and Henley's, do not know the slang phrase. Nor is there any allusion to it in the great Oxford dictionary.

Three centuries ago there was a phrase "to cough (any one) a daw, fool, mome," meaning "to make a fool of," also "to prove oneself a fool," but this "cough" may have been the obsolete verb "cough" or "cuff," to purchase, acquire, get. And five centuries ago "to cough" also meant "to utter," "to disclose," as in this sentence, "To make her confess the things testified against her, and also to cough out the rest."

We do not find anywhere allusion to this modern slang. We ourselves regard "cough up" as the proper expression, and we use it when we are moving in the first and gilded circles.—Boston Journal.

Compensating Advantages.

Ferry—That isn't much of a tailor you are patronizing now.

Hargreaves—I know he isn't much of a fitter, but he is so shortsighted he can't recognize a man ten feet away.—Cincinnati Enquirer.

The rifle was introduced into the British service about the beginning of the present century. They were of such primitive make that mallets were served out with each rifle to ram the bullets home.

Before 1886 the average number of labor strikes of all kinds in this country was about 500 a year. Since that date the average has been 1,500.

IT WAS A LARGE FUNERAL.

Remains of Sir Adolphe Chapleau Laid Away in Cote des Neiges.

Montreal, June 17.—The funeral of Sir Adolphe Chapleau yesterday morning was one of the largest ever held in Montreal. It is a coincidence that the last funeral in Montreal of such magnitude was that of Mr. Mercier, whose residence was exactly opposite Laval University, whence the cortege started. The procession was a thoroughly representative one. The pall bearers were: Sir Wilfrid Laurier, Hon. F. G. Marchand, Prime Minister of Quebec; Sir A. A. Lacoste, Chief Justice Court of Queen's Bench; Judge Wurtele, Judge Loranger, Hon. G. A. Nantel, Hon. L. R. Masson and Sir William Hingston. All the Judges in the district were present, the Mayor and City Council, nearly every member of the bar, and representatives from nearly every municipality in the province. The funeral service in Notre Dame Church was a most impressive one, the large edifice being jammed to the doors. The Rev. Abbe Trole, parish priest of Notre Dame, officiated, assisted by deacon and sub-deacon. The remains were followed to Cote des Neiges Cemetery by a huge concourse of people.

Had Designs on Col. John Hay.

London, June 17.—In the Bow Street Police Court yesterday morning John Trodd, who shot Count Arco-Valley, the First Secretary of the German Embassy here, was remanded until Wednesday next. The police believe that Trodd is insane, and really intended to kill an American offical and not a German. He had a notion that he had been insulted by some Americans and papers found in his belongings after his arrest show that he intended to harm Colonel John Hay, the United States Ambassador, whose residence is situated near the German Embassy. Trodd mistook the latter place for Colonel John Hay's house. He found that it was an Embassy, and apparently concluded that it was the headquarters of the American Embassy.

CHEMONG PARK.

Out here at this leafy place where birds make music all the day and cool fragrant breezes sooth the feoverish flesh, is where one loves to linger throughout the summer days.

The park looks pretty now indeed. Its undulating sweep of green sward never looked more picturesque; strewed with groves and spreading trees beneath which and scattered here and there attractive cottages are assuming an appearance of habitation. Gnarly old oaks and lofty sparsely limbed pines standing venerably about you, should you seat yourself at the pavilion, will make you realize that you are really at Chemong, and looking down the steep bank you watch some sportsmen with their rods or see go skipping to and fro, the white sails on the lake, what more beautiful view could be had than this point commands, looking up the lake. The distance to the head is about four miles, and the air is so clear, the rising blue hills in the background stand out conspicuously, the club boat house on the island, the skirting trees, the rising fields and crowning uplands, the islands with their halos of light on the leeward side, make a picture sought by many a visitor's camera.

Passing from here to the bath grounds, where the velvety sand spreads its soft carpet far out, you may in the neighbouring shade—

Swing your hammock by the lakeside,
In the sunny afternoon,
Where the wavelets kiss the sand beach,
And wild flowers profusely bloom.

It is a pleasure to know that one will not be haunted by mosquitoes or impure odours from marshes or bogs while here, but rather from the rear crescent hill, a vast rising wood, mingling in ideal beauty, evergreens of different kinds and foliages of various tints, sends down on us constantly sweet tinctures, pleasing and invigorating to inhale.

The commodious hotel still retains its good name. Excellent order and accommodation, coupled with an able staff, Mr. L. G. Fobert has earned for himself and courteous family a creditable name for the manner in which this watering place has taken such a high standing among the leading Canadian resorts of to-day. A bright future is predicted for Chemong by many far-sighted men, and everyone knows who has visited the place that one will go a long distance before reaching a prettier or more healthy place, or even enjoy a cooler summer breeze than here at Chemong is found.

Guests are now arriving, and to readers of the EXAMINER many names will be familiar of those who find us year after year, especially of the Kelly-Kondolf party. The party has been coming twice a year for the last four or five years. They comprise as many as twenty and remain two weeks at a time. At present the following are registered with others to follow:—Mr. Mrs. M. Kondolf, Mr. and Mrs. J. Miller Kelly, Miss Kelly, Miss K. Kondolf, Mathias Kondolf, Miss Marion Kondolf, Mr. and Mrs. A. Sanderl, Rochester.

Fish have been quite gamey since the season opened, but we have not yet seen any twenty pounders. Stories, too, of the finny tribe are quite in season. One sport goes so far as to say that a monster lunge with a blind eye and its jaws full of hooks took after him but yesterday and tried to reach him out of the boat. Sport says he first made acquaintance with him some five years ago when he got the liveliest towing over the lake he ever got, but eventually his line broke.

Of the places of attraction at the Park this summer I do not think there is anyone more so that Mr. Pope's boathouse. He is credited with having one of the finest collections of boats to be found at any summer resort, the Thousand Islands not excepted. From the ordinary light basswood canoe up to the highly polished California cedar craft, you have a large selection to choose from. The skiffs and row boats are all principally new, and of the Wm. English Company best workmanship. Really it is delightful to sink into one of these beautifully cushioned boats and glide along the water. It is little wonder why we do not tire of boating at Chemong.

In one apartment, on a polished floor of ash and birch, are set up bagatelle tables and also shuffle tables for the amusement of ladies and children. Often manly sports are cancelled for a pleasant hour with the fair sex at these pleasing games.

A remarkable winged visitant has been with us for the last two weeks, and the cheerful bird in his splendid voice is attracting much attention. It is a robin redbreast. Nothing very strange about this, is there? He is a native, you know well; but here is the remarkable part. He will sing the whipperwill song just as accurately, if not more so, than that night bird itself would do, then he will turn on to his robin song again and vice versa through the day. Almost at any hour you may hear, and at times see, this sprightly robin.

COULD NOT TURN IN BED!

A Guelph Man's Pitiable Plight!

RESCUED BY DOAN'S KIDNEY PILLS.

The terrible pain that strikes you in the small of the back right over the kidneys, is nothing more than these disordered organs crying out for help.

Will you go to their assistance with the right remedy—Doan's Kidney Pills?

Mr. William Waller, Richmond Street, Guelph, Ont., did. They cured him, and this is what he says:

"For the past two years I have been troubled with a complication of kidney diseases, which caused various distressing symptoms, such as pain in the back, urinary difficulties, etc. I found it impossible to get restful sleep, my general health was miserable, and the pain in my back became so acute that I could not get off a chair or turn in bed without assistance.

"Some four months ago I began taking Doan's Kidney Pills. Two boxes removed the pain from my back, completely cured all the kidney trouble, and gave me health and strength again."

Price, 50c a box, or 3 boxes for $1.25, at all druggists.

Care of the Complexion.

It is a well known fact that a torpid liver produces a sallow hue and a dull yellow complexion. You need not expect a clear, beautiful complexion if the blood is rendered impure by a sluggish action of the liver, which cannot properly perform its function of purifying and filtering all impurities from the blood. Ladies, Dr. Chase's Kidney Liver Pills is an invaluable remedy, for their action on the liver and blood they promote true beauty by rendering the blood pure. This is the secret.

THE SANTIAGO EXPEDITION.

The Transports Reached Their Destination on Sunday.

CADIZ FLEET AT CARTAGENA.

Death and Destruction Meted Out by the American Warships—Appalling Result of the Bombardment of Santiago—Vultures Hovering Over the Scene—Shelling of Guantanamo.

Washington, June 20.—Officials of the War and Navy Departments agree in the belief that the fleet of transports and naval vessels arrived at Santiago de Cuba yesterday. Naval officers figured out that the ships reached their destination some time in the afternoon and they expect that the debarkation will begin this morning. Some of the troops will be landed at Camp McCalla, on Guantanamo Bay, which Lieut.-Col. Huntington's gallant band of marines hold. These troops will be used in operations against Guantanamo, while the larger number will go ashore at a point or points near Santiago and participate in the attack on that place. It is said at the Navy Department that the purpose in landing the marines at Camp McCalla was to hold Guantanamo harbor for the reception of the troopships after their passengers have disembarked. The harbor furnishes an easy and safe anchorage, and with the clearing out of the enemy in that vicinity will be an ideal place for the transports to remain. A's most of the transports now at or near Santiago are to be used in the Porto Rican campaign they will probably remain at Guantanamo until after Santiago has been taken.

Santiago Expedition Landed.

Madrid, June 19. 7 p.m.—A private despatch received here from New York says General Shafter's expedition has landed near Santiago de Cuba, and will attack the town immediately.

THE CADIZ FLEET.

Admiral Camara's Squadron Has Arrived at Cartagena.

Washington, June 20.—By means of the almost perfect system of obtaining information in regard to the whereabouts of Spanish vessels the Government has ascertained definitely that the Spanish reserve squadron under Admiral Camara, or rather the eleven vessels of the sixteen which left Cadiz last week, have arrived at Cartagena.

PRACTICING ON GUANTANAMO.

The Unfortunate Town Subjected to Further Destruction—Santiago Harbor Entered.

Mole St. Nicholas, Saturday, June 18, 6.30 p.m.—News from Guantanamo up to this morning shows that naval operations there continue most active and with the advantage on the side of the Americans. Yesterday morning at 9.30 o'clock the American vessels resumed the bombardment of Guantanamo town, and in the course of one and one-half hours threw into the town 75 shells, a great majority of which appeared to have been effective. Six of these shells were 13-inch projectiles, eight 8-inch, and the others were smaller. The men in the tree tops could see many of the shells strike in the very midst of the town, while others fell among the shipping and commercial buildings near the water's edge.

Smoke arose in dense clouds from the places where the shells fell, and it is believed that the damage, both by the impact of the missiles and consequent conflagration, was very great.

On Thursday evening the ships had thrown four 13-inch and nine 8-inch shells into the town. This bombardment began at 4 o clock and ended at 5. Much smoke and confusion were discerned in Guantanamo during the progress. Crowds of people and troops of soldiers were seen moving about and the vessels in port hurriedly changed their anchorage.

Ventured Into Santiago Harbor.

On Wednesday night the Texas penetrated into the Bay of Santiago, passed Morro Castle and poured a well-directed fire both upon that stronghold and the Castle Zocapa. This battle began about 1 o'clock and ended about midnight. There was very little response from the Spaniards, and such as there was did hardly any damage. Nobody was killed on the American ships in any of these actions.

Two Spanish officers captured on Wednesday in Guantanamo Bay are reported to be on board the Marblehead.

Work of the Vesuvius.

The news of the work on Wednesday night by the Vesuvius and New Orleans in Santiago Bay is confirmed. The Vesuvius put shells into the water to explode the mines, while the New Orleans engaged the fortifications along the shore.

The Marblehead has captured a Spanish sloop in Guantanamo harbor, and made eight soldiers who were on board prisoners.

Last night the Texas again fired on Santiago harbor, and inflicted much damage upon the fort on the east shore.

It is the general opinion among the naval officers that, beyond the capture of Guantanamo and the possible reduction of Santiago, there will be no more large operations during the summer.

DEATH AND DESTRUCTION.

Appalling Result of the Bombardment of Santiago—Vultures Hovering Over the Scene.

Off Santiago de Cuba, Saturday, June 18, noon, via Kingston, Jamaica, Sunday, June 19.—A careful inspection of the fortifications along the crest of the hills defending Santiago harbor since the bombardment Thursday morning, shows that the American gunners spread wreck and ruin everywhere. Some of the batteries were demolished beyond repair. The vultures which circled on level wings over the hills as thick as swallows around a chimney for hours after the firing ceased furnished gruesome evidence of the fatality among the Spanish soldiers. Hundreds of troops could be seen from the ships digging in mounds of earth, piled up by the explosion of the projectiles from the heavy guns, for bodies, while their heads were fanned by the wings of the black scavengers of the battlefield. There were two spots, one on the east and the other on the west of the harbor, which were denuded of foliage. The hilltops seemed literally blown away. These marked the places where the 500-pound charges of guncotton blown by the Vesuvius landed.

The most ominous tokens of death flew from Morro Castle. The saffron flag of Spain was half-masted for several hours. The significance of this is not known. It is not customary to half-mast flags, but possibly some Spanish leader was killed by the heavy fire of the American guns, though some officers of the squadron believe that the flag was half-masted as a notification to the Americans that Lieut. Hobson and his men were dead. If such is the case they must have been wantonly murdered. The Spanish might seek to lay their death to the bombardment, but not a shot from the American ships struck the fortress. Neither Admiral Sampson nor Commodore Schley believe that Lieut. Hobson and his party have been killed.

A dramatic incident of the bombardment was the act of a Spanish officer, who bravely ran along the parapet under a heavy fire, encouraging his men to stand by their guns. Shot and shell rained about him, and after one terrible explosion he was seen no more, and the parapet had disappeared. He could not have escaped death.

From the forestops of the Brooklyn, 200 yards distant, the men in the grounds could be noticed, but a minute later dust and flying debris would take their place, and when the smoke would clear away only a spot of red earth could be seen. Guns and gunners had been swept away.

It was the most deadly and destructive bombardment of the war thus far. Scarcely a shot from the big guns of the squadron went astray.

A BRUSH AT SANTIAGO.

Reconnoitering Party Get Within Range of a Blockhouse.

Off Santiago de Cuba, June 17, per the Associated Press despatch boat Wanda, Kingston, Ja., Saturday, June 18.—A hot brush between some Spanish troops and a reconnoitering party in steam cutters occurred at daylight this morning in a small cove west of Morro Castle. The Massachusetts' steam cutter, in charge of Lt. Parlow, entered the cove to take soundings and reconnoiter.

When well inside the inlet, a detachment of Spanish infantry opened fire upon the cutter from a blockhouse. The fire was vigorously returned by the marines who were in the Massachusetts' boat, and also by marines who were in the New York's cutter, which was in charge of Naval Cadet Powell, and which had followed in. The New York's cutter was hit ten times and a marine in the cutter of the Massachusetts had the stock of his rifle shattered, but by great good luck no one was hit.

The Texas opened fire with her six-pounders, and the Vixen steamed right into the cove and peppered the blockhouse with her rapid fire guns. Eventually the Spaniards retreated to the woods, and the two steam cutters withdrew.

YELLOW FEVER RAMPANT.

Spaniards Say It Has Broken Out Among American Marines.

Madrid, June 20.—According to private telegrams received here from Cuba, yellow fever is raging among the American marines encamped near the entrance to Guantanamo Bay, and several cases of the disease are reported to have occurred on the ships of the squadron. The telegram describes the heat as terrible, and says the swampy condition of the ground has prevented thus far the carrying on of military operations in the vicinity of Santiago.

In the Senate Senor Salmeron gave notice that he would interpolate the Government concerning the expulsion from Canada of Lieut. Carranza, late Spanish naval attache in Washington, and Senor Du Bosc, former Spanish Charge d'Affaires at Washington, and requested that the documents relating thereto be given to the Chamber.

STRIKERS IN CONTROL

Lumber Mill of W. C. Edwards & Co. Closed by Employes.

600 MEN OUT AT ROCKLAND.

More Pay, Payment Fortnightly Instead of Monthly and Shorter Hours Asked For—Could Not Be Granted Because Lumber Markets Are Depressed—The Police Were Driven Off.

Ottawa, June 20.—Six hundred men employed by W. C. Edwards & Co.'s lumber mills, Rockland, are idle as a result of a strike. The strikers are in control of all avenues leading to the mills and refuse to allow anyone to approach. Already there have been several acts of violence on the part of the strikers, a clerk of the company, named John Stevenson, and several Dominion policemen, who went down to Rockland Friday evening, having been badly injured.

The strike began Friday. In the morning Mr. W. C. Edwards, M.P., head of the company, was waited upon and asked to come out of the office and receive a petition from the men. He did so, and was presented with a petition asking for shorter hours, more pay and payment fortnightly. The men have been working 11 hours a day, but were paid for one hour extra. They have been receiving their wages monthly. Mr. Edwards promised the petitioners he would give them an answer at noon, and accordingly did so. They met him at the gate leading to the mills, and he informed them that on account of the depressed condition of the lumber market he could not grant their requests.

It is said the men greeted his announcement with hisses, and on his saying for those who were willing to work to go to the mills, about a hundred of the men lined up at the hill gate and refused to allow anyone to enter the mill. Any who were willing to go to work were quickly forced away.

The strikers nearly killed John Stevenson, a bookkeeper of the company. Stevenson attempted to reach the office, and was attacked by several of the men. He received severe blows on the back of the head and neck, and was so badly injured that Dr. Kennedy of Ottawa was summoned to hold a consultation with the local doctors. He returned to the city at noon, and said he thought Stevenson would recover. During the night a posse of 12 Dominion policemen were despatched to Rockland. Saturday morning, accompanied by several clerks and citizens of Rockland, they attempted to force a passage through the strikers to the mill. The strikers, who were lined up along the street leading to the mill, refused to give way, and immediately began an attack on the officers, using sticks and stones as weapons. The small body of police were helpless against the mob. In a short time, though they fired a fusillade of revolver shots, they were compelled to seek shelter. As a resident of Rockland put it, "They were chased." The strikers drove them to the river, when, fortunately for the police, they were able to secure shelter in some barges that were loading. All the rest of the day the police have been compelled to remain under cover. The men are in possession of the mill. Fully 50 shots were fired by the police during the fight, but none of the strikers were injured. It is said the police used blank cartridges.

Most of the police were injured by flying missiles, and reports from Rockland say a few of them are rather badly hurt.

Police Return to Ottawa.

Ottawa, June 20.—Sergt. Slade of the Dominion police and the ten policemen who went along with him to Rockland to prevent the strikers at W. C. Edwards & Co.'s mills doing injury to the property there, have returned to the city. The sergeant and two of his men are injured from being struck with missiles. They are not laid up, and the sergeant was on duty last night. The strike was not over when the men left, and if there is going to be any more trouble it is understood that the militia will be applied for and that a detachment from the 43rd Battalion or the Governor-General's Foot Guards will leave for Rockland this morning. No serious injury has as yet been done to property, but owing to the excited temper of the men, who seem to be under the control of two or three ringleaders, it is feared that something serious may happen.

AGAINST DIVORCE.

Toronto Synod Passes a Resolution That Divorced Persons Must Not Be Re-Married.

Toronto, June 20.—The Synod didn't lose any time Saturday morning in getting back into Friday night's hot fight on the question of divorce. Both Dr. Langtry's and Principal Sheraton's followers were as eager for the fray as ever, but from the very start it was apparent that the High Chancellor, while the enemy slept, had been refreshing their minds in canonical law. Accordingly, although Hon. S. H. Blake pointed out the dangers of preventing innocent-divorced persons from re-marrying, and although Bishop Sweatman begged the members to leave the delicate matter in the hands of the Provincial Synod, the house decided by a vote of 61 to 13 that divorced persons must not be re-married.

Loud cheering greeted this decision. The low churchmen were considerably crestfallen and will renew the battle on a wider field later on.

The Italian Ministry Resigns.

Rome, June 19.—In the Chamber of Deputies Saturday the Premier, the Marquis di Rudini, announced that the Ministry, which was only formed on May 31, has resigned.

The Italian Ministry, which has just resigned, only presented itself to the Chamber of Deputies on Thursday last.

M. Ribot Gives It Up.

Paris, June 20.—After consultation with MM. Peytral, Sarrien and Dupuy Saturday morning, M. Ribot informed President Faure that he is unable to form a Cabinet to succeed the Meline Ministry.

All Covered With Eruptions—Could Not Work, the Suffering Was So Great—Hood's Has Cured.

"I was all run down with complaints peculiar to my sex, and I broke out in sores on my body, head, limbs and hands, and my hair all came out. I was under the doctor's treatment a long time without benefit. They called my trouble eczema. Finally I began taking Hood's Sarsaparilla, and after I had used three or four bottles I found I was improving. I kept on until I had taken several more bottles and the sores and itching have disappeared and my hair has grown out." MRS. J. G. BROWN, Brantford, Ontario.

"I was all run down and had no appetite. I had a tired feeling all the time. I was advised to try Hood's Sarsaparilla. I did so and it benefited me so much that I would not be without it." MRS. G. I. BURNETT, Central Norton, N. B.

OUR PUBLIC SCHOOLS.

The Brockville school board, with singular courage, have appointed a committee to look into the possibility of teaching cooking in the public schools. That this course requires courage it will be admitted, when it is considered that the wives of the members may think that the action on the part of the board is a reflection on the quality of the cooking of their wives, and therefore nothing may come of it. But there is, as has been suggested, another reason why it cannot be done—there are so many subjects tauggt in the schools already that it is impracticable to add another branch to the already formidable curriculum of the public schools. It will be remembered that at a recent meeting of the Ontario Medical Association, resolutions were passed to the effect that the children of the public schools of Ontario were overworked, that the sanitary arrangements were generally bad, that lighting was generally defective; that too little physical exercise was taken; that the number of studies should be reduced, and that the curriculum should be so changed as to give the pupils the recreation and exercise demanded, It happened that Hon. G. W. Ross, Minister of Education, was present on the occasion. He admitted that there was perhaps more than a soupçon of truth in the charges implied in the resolutions. While generally upholding the school system, Mr. Ross admitted:

> "I believe we go too fast—our system is too fast and it is top heavy. If you gentlemen can help us to remedy these things, it would be a good thing. I should like to meet a committee from you ranks. I hope the matter will not stop here—it should eventually come to Parliament.

But is it true that we have too many studies? What could be lopped off to advantage. The fault seems to be in the tendency of the age—going at breakneck speed—affecting our school system. We do not, it seems, teach our children too much, but we teach them too much in a limited space of time. The tendency is to get on too fast. We set too long lessons in the attempt to cover a given ground in a given time. The consequence is that the health of pupils is affected and that they do not learn rudimentary or any other subjects with a thoroughness that is permanent. A sharp child will learn a lesson perfectly in a very short time for recitation purposes, and if that lesson is reviewed and impressed and reimpressed it will stay with him for life, but if it is allowed to pass with the first perfunctory learning for recitation purposes, some new and exacting task will crowd it out of mind. The fault seems to be in laying the foundation. The three Rs are often disparagingly spoken of; but if a child is thoroughly grounded in these—if say, for instance, he is taught facility and correctness in addition, subtraction, multiplication and division, and the cognate subject of reading, the foundation is laid, and if the pupil should fail to master the present curriculum or its equivalent at his leaving school, he will have the foundation upon which, if he has the will, he can build up the superstructure of useful training when he is thrown on his own resources. But if a boy or girl passes through the public school course with but a smattering of the many subjects, he or she will not be as well equipped for the battle of life as a boy or girl with a sound and thorough grounding in the three R.s, which in effect comprise what most of us put most into practice in the pursuit of most of the callings of life. None will disparage the graces our schools confers, but give us the solid courses first and the literary dessert afterward. And if circumstances prevent us from partaking of the dessert we are well equipped if we are well grounded in the substantials of a public school course. If short lessons be set and perfect thoroughness in them be demanded, progress may not be so pyrotechnic, but it will be solid and solid results will ensue.

It is now suspected that Admiral Dewey is a Canadian or of Canadian extraction. The geneologists are now said to be making researches with the view of establishing this fact. This established the secret of his pluck and daring is settled.

American newspapers are inclined to poke fun at the Spaniards over the fear by the latter of a threatened bombardment of Cadiz. We all remember well when the inhabitants of Boston and Portland took to their cellars when there seemed a possibility of a Spanish fleet shelling out a little of its spare amunition upon these cities. Civilians under any name or flag are justified in fearing the results of being made targets for an offensive fleet.

WIDE vs. NARROW TIRES.

A considerable saving can be made in the horsepower required for a nation's highway traffic, even upon comparatively bad roads, by simply using broader tires on the vehicles now employed for hauling heavy loads. Last year an unusually careful and detailed set of experiments was made at the University of Missouri to test the influence of the width of tire on the draft of wagons. Without going into details it is sufficient to say that on macadam and gravel roads the 6 inch tire with a uniform tractive force showed an advantage of from 25 to 30 per cent. in possible load over the standard 1½ inch tire. On dry, hard dirt roads, free from ruts and deep dust, the advantage was about the same; two or three inches of dust were unfavourable to the broad tire, and the same was the case on a clay road, muddy and sticky on the surface but firm beneath. But on clay roads, with mud deep and drying on top, a large number of tests showed an advantage of from 52 to 61 per cent. for the 6-inch over the 1½-inch tire. These experiments were intelligently conducted and exhaustive in the variety of road tested and in the condition of these roads. They confirm previous but less complete tests, and have a very important bearing when applied to all the roads of the country.—*Canadian Engineer.*

[The above is especially pertinent in view of one of the recommendations of the Grand Jury in reference to wide tires in their relation to good roads made in their presentment to His Honour Judge Weller last week.

SPREAD OF DOMESTIC ECONOMY.

The board of education in London have appointed a special committee of their number to consider the question of the adoption of the subject of domestic science into the school curriculum. The members of the committee are Dr. Teasdale, Dr. English, Mr. Bayley, Mr. Logan and Mrs. Boomer.

The success of the teaching of this subject in Montreal has been tried in one of the public schools only at first, classes going from the other schools near by for instruction; last year it was extended to three or more schools, the pupils, the teachers and parents all being much pleased with the results.

In Kingston sewing is now taught in the schools on a scientific basis, and it is hoped that in time the chemistry of food and practical cookery will also be added.

In Hamilton for the last two years special arrangements have been made whereby senior classes have the benefit of like instruction.

In Halifax also the girls of the public schools are taught domestic science.

It would appear that Toronto is likely to be left behind other cities of the Dominion in adopting a subject into the curriculum that has been in England, in Germany and in many cities of the United States for years, and which, as is shown, is also becoming general in the more progressive cities in Canada.

In Hamilton also, it may be added, sewing is taught in the primary classes to to both boys and girls, and they do say that the boys sew better than the girls, too.

GLENALDA.

From Our Own Correspondent.)

Rain has come at last which the crops were much in need of.

Mrs. Walter Kennedy and little daughter, Vera, of Battle Creek, Mich., are visiting her sister, Mrs Andrew Post. Mrs. Kennedy (formerly Miss Ada Huff, of this place,) will be welcomed home by her friends. She intends to remain several weeks and anticipates a good time. Her husband may join her later and accompany them home.

Mrs. W. Rusaw has just returned from Madoc where she has been visiting friends.

Charlie Doxsee has gone to Campbellford in search of employment.

There has been not a little excitement caused by two large moose weighing about nine hundred each which passed through Richard Hubbel's field on Friday.

Work on the new Methodist church, which has been delayed on account of a delay in lumber, has been resumed, and it is hoped it will be completed in a few weeks.

A GLOBE REPRESENTATIVE

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

Toronto, June 20.—(Special).—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

Regular action of the bowels is necessary to health. Laxa-Liver Pills are the best occasional cathartic for familiyor general use. Price 25c. Any druggist

THUNDER AND LIGHTNING.

Great Damage Done Around Elora and Comber—Lightning Burns a Barn and Valuable Stock.

Comber, Ont., June 20.—A very heavy thunder and windstorm passed over this section between 7 and 8 o'clock Friday night, carrying destruction in its wake. The tin roof on the large Sellars House Block was lifted like so much paper and carried across the street, landing upon the roof of the residence of Mr. A. Loyst. Strange to say. Mr. Loyst's residence escaped injury. The G.N.W. Telegraph Company's office is situated in the same block, and the wires were torn from the building. The roof of a freight car in the M.C.T. yards was torn off and carried some distance, and the residence of Mr. M. Laporte was struck by lightning. The fluid entered the chimney, but outside of upsetting the stove no further damage was done. Trees were uprooted and farmers' fences were levelled. Fields of wheat, which is a heavy crop in this section, are flattened down. Many fields are covered with water in the southern part of Tilbury West and in Rochester Townships and untold damage done.

Valuable Barn Burned.

Elora, June 20.—During a thunderstorm in this vicinity about 4 o'clock Saturday afternoon the large bank barn of Mr. W. L. Gordon, lot 14, concession 3, Pilkington Township, was struck by lightning and burned to the ground. The fire consumed 24 head of pigs, a large quantity of hay and nearly all his farm implements, the loss, a heavy one, being about $3,000; partly covered by insurance.

AN EXPLOSION OF DYNAMITE

Kills Three Men and Demolishes a Factory at Danville.

Danville, June 20.—The mining machinery belonging to the Asbestos Company here was completely destroyed by a fire which occurred on Thursday night. Four hoisting engines and a small locomotive are a total loss. Between 12 and 1 o'clock on Friday the dynamite in the compressor house exploded and completely wrecked the building. Three men named Morin, Rivard and Ratti were killed. The force of the explosion was felt for miles around. All the glass in the windows of the Asbestos & Asbestic Company's factory were broken. The factory is situated a quarter of a mile from the scene. The explosion would have been attended with great loss of life had it occurred during working hours.

Canada's Biggest Bicycle Factory.

The big demand for Brantford Red Bird bicycles throughout the present season clearly demonstrates that with at least one firm the bottom has not fallen out of the bicycle business.

Preparations are already under way for the season of 1899. The present factory will be doubled in size, making it by all odds the biggest bicycle factory in the Dominion.

With the increased facilities it will be possible to turn out wheels much more rapidly and give customers the Red Bird they desire in the exact way and at the exact hour they desire it. In the meantime every available inch of the present factory is in use and there is a mechanic at work wherever there is sufficient space for a man to work in.

ONTARIO'S CROPS.

Never Did They Promise Results Better in June.

Toronto, June 20.—During the past two weeks have been interviewed many of the cattle men who congregate here from all parts of Ontario, as to the crop prospects. And from one and all the same answer is received, that for all kinds of grain they have never seen such a prosperous outlook for a bountiful harvest as there is at the present time.

The hay crop, especially clover, of all kinds, is simply marvelous, and never in the history of the province has there been such a general report of a heavy yield as there is this season.

If present expectations be realized Canada will be blessed with a very bounteous harvest. The prospect of this has already put gladness into the farmers' hearts.

27,000 Men on the Trail.

San Francisco, Cal., June 20.—W. F. Berry of this city, who has just returned from a trip across White Pass trail, says he did not find conditions there nearly so bad as had been reported. Three miles of the railroad have been built, and it is to be completed to the lakes by September.

Mr. Berry says the number of prospectors between the head of Lindeman and Tagish Lakes is about 27,000. The forward movement to Dawson began May 27.

Alleged Mother Arrested.

Hamilton, June 20.—Detective Bleakley Saturday afternoon arrested Hannah Lister, 17 years old, on the charge of disposing of the dead body of a child. Prisoner is alleged to be the mother of the infant found by Solomon Hart in a barrel of nightsoil last Thursday. It is alleged she gave birth to the child on June 9. The magistrate has formally remanded her until Tuesday morning. On Tuesday evening Coroner Woolverton will hold an inquest on the death of the child.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

THE SOCIALIST VOTE

Largely Increased in the Current German Elections.

RE-BALLOTS IN 181 DISTRICTS.

The Centrists, as Heretofore, However, Will Hold the Balance of Power With 100 Seats—First Commercial City of the Empire Returns Three Socialists—Prince Bismarck Feeble.

Berlin, June 20.—*Reports of results in* the Reichstag elections from 891 districts show the return of 39 Conservatives, 9 Imperialists, 85 Centrists, 4 Reformers, 9 National Liberals, 2 Freisinnige Union candidates, 1 candidate of the Freisinnige People's party, 1 Agricultural League candidate, 34 Socialists, 14 Poles, 1 Dane, 9 Independents and 2 candidates of the Peasants' League. In 181 districts re-ballots will be necessary. In most of these the polling will take place on Friday next.

A few facts, however, stand out plainly. The first is that the Centrists will, as heretofore, hold the balance of power with 100 seats, enabling them to sway the Reichstag in either direction. The second is that a Cartel majority will be next to impossible, and the third is that the Socialists will, after all, not only largely increase their poll, which, it is estimated, will reach 2,000,000 votes, as against 1,786,000 in 1893, but will also increase their representation by 10 or 12 seats.

The increase in the Socialist vote is most marked at Wurtemburg. Already it is causing alarm among the Hamburgers, who are especially furious that the first commercial city of the empire should be represented in the Reichstag by three Socialists, who, their opponents say, have no understanding of the city's vital interests. All the Radical leaders, including Herren Richter, Rickert and Barth, will have to run the gauntlet of a second ballot. The extreme agrarians fared badly.

Owing to his feeble condition, Prince Bismarck did not vote.

"MISTRESS OF THE SEAS."

If Great Britain Is Not Supreme in Naval Equipment She Must Be Made So at Once.

New York, June 20.—The London correspondent of the Evening Post says: "The Government, apparently, has yielded to the importunities of the naval alarmists, like Lord Charles Beresford, and the forward section of the Ministerialists. To these r. Chamberlain's and Lord Salisbury's confessions that England dare not defy France and Russia in defence of the policy of an open door in China and West Africa, was bitterly humiliating. If, they argued, England is not capable of meeting France and Russia on the seas, she ought to be promptly made so. Supporting them, Lord Beresford struck the old familiar alarmist note of French and Russian naval activity, declaring that whereas in 1889 England stood, in the matter of ships, complete and building, with a superiority of 8 per cent. over France and Russia together, now she stands in an inferiority of 10 per cent.

"To this Mr. Goschen at last yielded. His statement in the House of Commons Friday night is accepted as meaning that the Government has decided on the new naval programme, which the Ministerial forwards declare should create 4 armored cruisers and 20 destroyers at a cost of not less than an extra $6,000,000 for 1898, to meet the Russian seven-year appropriation of $36,000,000."

SHY ON BROTHER JONATHAN.

Central American States Believe the American Government Will Intervene in Their Affairs.

Managua, Nicaragua, June 20.—The Nicaraguan Congress declines the treaty of peace signed between the commissioners of Costa Rico and Nicaragua, April 26 last, on board the United States warship Alert, unless the treaty is also agreed to by the Congresses of Salvador and Honduras, members with Nicaragua of the great republic of Central America, according to article five of the organization of the greater republic by the presidents of Nicaragua, Honduras and Salvador in 1895.

It is very doubtful whether Costa Rica will agree to the conditions demanded by the Nicaraguan Congress, but really inspired by the Executive of Nicaragua, because the consent of the Congresses of Honduras and Salvador to the recent treaty of peace between Costa Rica and Nicaragua would bind Honduras and Salvador to assist Nicaragua in case Nicaragua were involved in war.

The newspapers are loaded with reckless discussions of the Monroe doctrine, many declaring that the United States is unjust in going to war with Spain and expressing the fear that the American Government will ultimately intervene in the political affairs of Central America.

MANCHESTER IS PLEASED.

With the Enterprise Displayed by Our Government—Lord Strathcona Leases an Ancestral Seat.

Montreal, June 20.—A cable to the Star from London says that much satisfaction is expressed respecting the ratification of the agreement between Mr. Southern on behalf of the Manchester Liners, Limited, and the Canadian Government for an annual subsidy of forty thousand dollars for a fortnightly service between Manchester and Montreal in the summer and Manchester and St. John in the winter.

The Manchester Guardian says this illustrates Canada's enterprise and the immense possibilities of the ship canal.

Lord Strathcona and Mount Royal has entered the ranks of the English landed gentry. He has leased Knebworth House, Hertfordshire, the ancestral seat of the Earls of Lytton, together with the shooting privileges over the estate.

Wolseley Is Not Coming.

New York, June 20.—The London correspondent of the Tribune says: The rumor that the Duke of Connaught will be Viceroy of Canada is without foundation. The post has been at the disposal of Lord Wolseley, who is believed to have intimated that he would prefer to remain commander-in-chief. There is probably a secret chapter in current history, which will some day be related with authority.

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has influenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

NOTHING BUT NEGATIVE NEWS.

THE INVADING ARMY HAS NOT YET REACHED SANTIAGO.

Camara's Fleet is on the Briny Deep—German Interference in the Philippines not Feared by Sagasta—Ex-Queen Natalie to go out as a Nurse.

Special 3 p. m. dispatch to the Examiner.

Sagasta Denies German Interference

London, June 20th.—The Madrid correspondent of the Times says: Official circles attach little importance to the rumours of German interference. Questioned privately with reference to the reported remark of the captain of the German ship Irene at a champagne luncheon with Spanish staff officers in the Philippines a few days ago to the effect that the Americans would never own the Philippines while William remains emperor, Senor Sagasta made the sensible remark that German officers do not make publicly such crude statements, and that the German Government when it wishes to reveal its intentions will choose other channels.

Camara's Fleet Sighted.

Gibraltar, June 20—The captain of a British steamer, which arrived here yesterday, reports that he sighted the Spanish squadron off Cape Gata, a promontory of Spain, on the coast of Granada, forming the eastern limit of the Gulf of Almeria.

Peru is Happy.

Lima, Peru, June 20—The news that the United States Senate has given its approval to the project for an international bank, involving Peru and other South American countries, has been received here with much enthusiasm.

Practical Queenly Sympathy.

London, June 20—A special despatch from Belgrades, Servia, says: Ex Queen Natalie is organizing an expedition to the seat of the war between Spain and the United States, in order to nurse both Americans and Spaniards.

The Troops not yet at Santiago.

Washington, D.C., June 20—No word up to 10.20 o'clock this morning was received by either the army or navy departments regarding the expected arrival of the troops at Santiago.

The Troops Have Arrived.

Mole St. Nicholas, June 20th—General Shafter's army of 17,500 men has arrived off Santiago and Guantanamo. The landing of the troops will probably be accomplished to-day. There will be no concerted move on the city of Santiago until late.

Refuses to Exchange Prisoners.

Washington, June 20th.—Commodore Watson notifies the Government that the Spanish Government refuses to exchange prisoners. Hobson and his men are the prisoners referred to.

All Quiet along the Line.

Key West, June 20th.—A vessel arrived here from the blockade this morning and reported all quiet along the line.

ANGLO-RUSSIAN-CHINESE SITUATION.

Russia Suspicious of England's Movements—Will Demand a Voice in Settling the Ownership of the Philippines.

(Special to the Examiner.)

London, June 20.—The Pekin correspondent of the Times says:—Russia has declined China's request that she should allow the new Chinese cruisers from Germany to dock at Port Arthur unless the foreign officers aboard are dispensed with.

The Odessa correspondent of the Times says:—The government will station temporarily volunteer fleet cruisers at Valadivostock and Port Arthur, with a view, it is believed, of giving due weight to Russia's voice in the ultimate ownership of the Philippines.

ANOTHER BULGARIAN ATROCITY.

Servia Accused of Hatching Trouble.

(Special to The Examiner.)

LONDON, June 20.—The Constantinople correspondent of the Daily News says: Great anxiety is felt in this city because of a report that former King Milan of Servia intends to provoke a quarrel with Bulgaria in order to bring about internal changes in Servia.

PISCATORIAL.

Last night Mr. John Frost and mate caught a beauty of a 'lunge in Little Lake, weighing 9½ lbs. If you could have seen the smile.

Mr. Lock Works landed one also at the C.P.R. spur line.

Mr. Stevenson landed a daisy this morning.

There is a lot of talk of others caught, but there's quite a few bought.

R. J. Lane, A. Stethem and Edg. Hartley landed four 'lunge and three bass at Hale's Thursday.

There is something in the wind as to the building of a summer resort on Little Lake, as the fishing is good, and it is the best protected fishing ground in the vicinity. The community at large watches the protection till open season.

Apenta.

The London Sportsman says: "It is essential to the comfort and speed of the cyclist that he should feel light and apt for exertions and free from that difficulty in 'getting wind' which so many wheelmen complain of at starting. To secure the best bodily conditions for this health-giving exercise, it has been found than an eliminant dose of Apenta natural aperient water taken early in the morning is of the greatest value. The body thus lightened and cleansed of all impurities, feels active and alert and infinitely better fitted than it would otherwise be to make a record spin."

The Plan for Godfrey's Band Concert Now Open.

When you buy your ticket for Godfrey's band concert you know that you are going to get your money's worth. The famous leader and his band of noted Guardsmen are known all over England, acknowledged to be the finest bandsmen in the world, and they have maintained this reputation all over Canada. No musical organization ever created so much enthusiasm or ever played to such immense audiences as Godfrey's band has since coming to Canada. This is because people all over recognise the fact that they cannot afford to lose an opportunity of hearing the finest band in the world. Peterborough will undoubtedly give the celebrated band as warm a reception as it has received in other places. The date of the concert is Monday evening, June 27th.

The plan of the rink, where the concert will be held, is now open at Ormond & Walsh's, and all desiring seats should mark them at once. All the seats in the building will be reserved, and will sell at $1.00. General admission is 50 cents.

PERSONAL.

"Skip" Reid, of Bobcaygeon, was in town to-day.

Mr. and Mrs. John Sawers have taken possession of their Stony Lake cottage.

Miss Ada McBain has returned home for the holidays from Whitby Ladies' College.

Miss Gertie Kendry, who is attending school in Natick, Massachusets, is home for the holidays.

Rev. A. H. Ranton, the evangelist, was in Belleville yesterday and preached in the Bridge street Methodist church there.

The Lindsay Post says: Messrs. D. O. LeGendre and W. H. Hall, of Peterborough, were guests at the Benson House yesterday.

Mr. and Mrs. W. D. Parker returned on Saturday evening from their wedding tour, and have taken residence at 265 Aylmer street, corner Dalhousie.

Mrs. Fitzgerald, of La Crosse, Kansas, daughter of the late Hon. Heath Haviland, Lieut.-Governor of Prince Edward Island, is visiting her cousin, Mr. R. W. Grubbe, McDonel street.

—Delicious Coffees and Teas served well and delivered promptly by the "Spot Cash."

SHORT COUNCIL MEETING.

A Bylaw Passed Granting Mr. B. F. Ackerman Exemption From Taxes for Ten Years.

A special meeting of the council was held on Saturday evening with the Mayor in the chair and the following councillors in attendance: Messrs. Best, W. H. White, Allen, Hamilton, Dawson, Cobb, McWilliams, Meldrum and Langford.

The reading of the minutes was dispensed with.

Councillors Meldrum and Langford introduced the by-law granting Mr. B. F. Ackerman tax exemption on his harness factory premises for ten years. The by-law passed its several readings and was passed.

On motion of Councillors Best and White the treasurer was authorized to issue the corporation cheque in favour of the Rathbun Co., for $314.17, being balance due on Portland cement account.

Moved by Counillor McWilliams and Cobb, that the tax collector be authorised to write off the sum of $18 70, being the taxes and interest thereon on part of lot 13, south of McDonel and west of George streets, No 305 McDonel street, for the year 1896, the same having been paid on the 1896 roll.—Carried.

On motion of Councillors Dawson and Cobb, A. McFarlane will be paid $10.62 for taking Ernest Lawrence's place in the fire hall during the latter's illness.

Councillors W. H. White and H. Best moved that Mr. Sabine's account of $5.85 be paid.—Carried.

The council then adjourned.

SWALLOWED A QUARTER.

A Young Son of Mr. John Armstrong Performs the Feat.

Master Oswald Armstrong, son of Mr. John Armstrong, Water street, is a very scared little boy these days on account of having made a savings bank out of himself, by swallowing a quarter of a dollar.

It seems that he had a quarter given him one evening last week, and for safe keeping placed it in his mouth when he went to bed. During the night he swallowed it and the quarter is now slowly working out its own destiny, no serious danger being apprehended.

ANOTHER JUNE WEDDING.

The Nuptials of Mr. Frank E. Pethick, of Rochester, and Miss May Nelson, of Lakefield.

On Wednesday evening Lakefield was called upon to give up another of her fairest and most accomplished daughters in the person of Miss May Nelson, youngest daughter of Mr. and Mrs. Samuel Nelson, who was married to Mr. Frank E. Pethick, of Rochester, N. Y., the ceremony being preformed by Rev. Geo. Warren, M. A., incumbent of St. John the Baptist church.

"Victoria Lodge," the beautiful home of the bride, was most tatefully decorated for the occasion, the large drawing room being festooned with wreathing of woodbine; a floral bell composed of ferns and roses hung over the bridal pair during the ceremony, and a profusion of roses, pink and white peonies, and German Iris ornamented various parts of the room.

The dining room was decorated with festooning of woodbine, embellished with field daisies and ferns, and to these were added, on the tempting refreshment tables, pink and white peonies and roses.

The bride, who was given away by her father, Mr. Samuel Nelson, looked charming in a cream satin and wool gown, trimmed with cream chiffon and satin ribbon, and wore the conventional veil and orange blossoms and carried an exquisite bouquet of bridal roses and smilax. Miss Stella Smith of Montreal, the bride's niece acted as maid of honour and wore cream wool with large cream silk sash; Miss Annie Scrimger in white organdie over pink, and Miss Hendricks of Toronto, in cream bangaline, attended as bridesmaies, while Mr. W. Wilson and Master Frank Trude, nephew of the bride, ably assisted the bridegroom.

About sixty relatives and friends witnessed the nuptials and afterwards showered congratulations upon the happy pair and enjoyed together a delightful social evening, during which delicious refreshments were served. Shortly after midnight Mr. and Mrs. Pethick drove to Peterborough en route to their new home in Rochester, and were followed by showers of rice and hosts of good wishes for a perpetual honeymoon and all the happiness and prosperity they deserve.

Mrs. Pethick was a most useful member of society and will be missed by her many warm friends, who, however, hold her in affectionate remembrance. She was a faithful and valued member of the choir and Chancel Guild of St. John the Baptist church, both of which organizations testified their esteem by giving her an exquisite leathern case, satin lined, and bearing the bride's monogram in sterling silver on the cover, and containing a set of sterling silver salt dishes and spoons. The bridegroom's gift was a handsome gold chain with heart slide set with pearls. An extensive array of beautiful presents bore witness to the long list of friends who wished to add tangible evidence of hearty and sincere good-will.—News.

COLTS WIN AGAIN.

Peterboroughs Fast Young Team of Cricketers Win at Lakefield.

The Colts won their third successive victory on Saturday by defeating the Grove team in Lakefield by 32 runs,

The Colts fielded in fine form, and the bowling of both teams was very good. In the first innings Bradburn got three wickets for six runs, Bradd 6 for 13, Stapleton 1 for 0. McBain headed the batting with 6 and 21. Harold Armstrong batted in fine form for 9 and 4. Harry Rogers carried his bat for 6 in the first, and ran up 8 in the second. Harry McKee as usual was lightning behind the wickets.

After the match the Colts were entertained at tea, and three cheers showed Rev. Mr. and Mrs. Mackenzie that the boys appreciate their kindness.

The manner in which the Colts are developing gives evidence of the fact that in the course of a year or so when they supersede the present seniors, Peterborough will be possessed of a cricket team of which the town may well be proud.

The Peterborough Colts are turning out to be a very hard hitting eleven as will be seen by the score, where some fives and sixes were made.

An Up-to-Date Catarrh Cure.

HOME FROM CAMP.

The Dragoons Had a Very Pleasant Outing at Belleville.

The local troop "C" of the Prince of Wales Dragoons arrived in town on Saturday evening from camp, presenting the appearance of veterans by their sunburnt appearance. The officers and men are unanimous in their praise of Belleville as a most suitable spot for a camp.

The following notes are made in the last day in camp by the Belleville Sun :

By train, by boat, on foot and on horse the troops left Belleville Saturday. Early this morning the tents were struck and folded, blankets packed and all returned to stores. Great coats were rolled and in a very short time all were ready to embark. Not one man was heard to have the slightest complaint in reference to the camp or the treatment he had received here. In fact, one and all were loud in their praises of Belleville and its citizens and all hope to return in the near future and that the camp will be permanently located here. The last night in camp was the scene of much fun; the commanding officers of the various corps were serenaded by bugle and other bands and the men and officers exchanged visits with those of their sister corps.

As each battalion marched out of the grounds the remaining men loudly cheered them.

Lieut. Col. Rogers and officers of the 3rd P. W. C. D., entertained a number of ladies at dinner last evening.

On the whole, the men were a well-behaved lot of fellows and, after the first day or so of mischief, they settled down to business.

Friday night each regiment heartily cheered each of the others and the good lungs of the men produced a noise that was heard far and near.

Major Lessard dubbed the fine black mare of Surgeon-Major Young, "the pride of the regiment." Capt. Brown's chestnut mare, he said, was a good second.

LAKEFIELD'S FALL FAIR.

The Date Fixed For Tuesday and Wednesday, Oct. 4th and 5th.

The annual fair of the Smith, Ennismore and Lakefield Agricultural Society will be held on the above dates and the fair this year promises to be more successful than ever.

The prize list has been revised by the directors, and the list of ladies work has been submitted to a committee of ladies, who have recommended a number of changes and additions, also that departments be added to it for children's work, one for children under 15 years, and another for children under 12 years of age.

The directors have also decided not to charge a fee for ladies entering work in classes 19 and 20, known as "Ladies' work."

The following is the amended list of ladies' work which is now published in order to give all the ladies an equal chance to have work done for the exhibition.

Ladies work—Netting, sofa cushion, mounted, fancy patchwork, table drape, worked linen table cover, scrap basket, fancy photo holder.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Fresh berries from the growers every day, low prices, "Spot Cash."

—The Hastings band has been re-organized with a membership of about twenty-five.

—St. Andrew's W. F. M. S. will hold their regular monthly meeting on Tuesday June 21st, at 3 30.

—The council of Tweed lately passed a bylaw to prohibit drunkenness. The penalty is $20 fine or imprisonment.

—The justices for the protests in the Ontario contested elections will be Just ces Osler, Falconbridge, Ferguson and Ross.

—Mr. T. Cavanagh shipped 34 horses today to Thompson & Co. of Winnipeg. The horses were all purchased since Tuesday.

—As to-day is the anniversary of the Queen's accession to the throne the flag is flying over the Sons of England Hall in recognition of the event.

—Rev. T. Watson, of Colborne, has been appointed a representative to the World's Sunday School Convention at London, Eng., and will sail about the end of the month.

—The High and Public schools will close for the summer vacation on June 30th. Rural schools will re-open on August 15th. Incorporated village schools will re-open on September 1st.

—There will be a partial Eclipse of the moon July 3rd, an annular eclipse of the sun July 18th, a partial eclipse of the sun December 14th, and a total eclipse of the moon December 25th.

—Twenty-seven thousand men, including the 32nd Michigan Volunteers (to which regiment Mr. Louis R. Cope, son of the late P. P. Cope, of Norwood, belongs) sailed from Tampa, Florida, for Cuba, last weeks.

—Mr. Wm. Hinchcliffe, who is in training for the 1st of July races, was taking a practice skim down George street on Friday and had a collision with Stephen Borrodale, damaging the latter's wheel badly.

—Mr. R. M. Roy has taken a number of double pictures of Mr. Dan Simons, representing that gentleman in his famous tramp act. The pictures are on view in the windows of Mr. Pete Simons and Mr. Bert Dolan and have attracted a great deal of attention.

—The bicycle nose is the latest development of the bicycle craze. The dust from the road accumulates in the top part of the nostril, being driven there by the rapid movement through the air, and in the end, it seems, the doctor's help has to be applied for.

—The bombardment of Cuba don't begin to raise any such talk in town as the bombardment of boss-prices at Geo. Ball's ladies' and gentlemen's tailoring parlours, 413½ George street. Those $10 suits, made to order, are levelling prices and demoralizing high-renters.

Remember the sale of handsome household furniture of Mrs. R. H. Fortye at 235 Park street, on Thursday, June 23rd; also at the same time and place, the beautiful residence and grounds will be offered for sale. Both sales will take place at one o'clock p. m. JOHN HAGGART, Auctioneer. 4d148

—The Madoc Smelting and Reduction Works, so long looked for in this village, is now an established fact. For the past few weeks the works have been nearing completion, and within the last few days the concern has been manufacturing and shipping mineral wool and arsenic, smelting gold ores, and Mr. Lee, who has charge of this branch of the work, also turned out a first class sample of paris green. Full capacity of course has not yet been attained, as the arrangement of some of the plant and machinery is yet more of an experimental nature, but enough has been demonstrated to show that the institution of this industry is likely prove one of the most important factors in the development of this mining section of the country than anything heretofore located in our midst.—Madoc Review.

A CRICKETER HONOURED.

Mr. Billy Hartley, the well-known cricketer, especially of the days of syne, was the recipient of a signal and graceful honour at the hands of the Peterborough cricket club. At its last meeting it was moved by Mr. Miles Hamilton, seconded by Mr. J. Hampden Burnham, and unanimously resolved, that honourary membership for 1898 in the cricket club, with full club privileges, be conferred upon Mr. Hartley as a mark of esteem. This honour, carrying with it, as it does, the freedom of the club, has never been before conferred upon any other person in Peterborough, and no doubt Mr. Hartley will, with the live cricket spirit he possesses, heartily appreciate it. He has been in the employ of the Dickson Company as teamster for many years, and there is no fear that his business connection with stumps will have destroyed his interest in the stumps on the crease, which, in his earlier days, he defended with a clever hand. In the palmy days of cricket in Peterborough, when the town had the best eleven in the district, Billy contributed a full share to the success achieved. He was a good bat, with an eye for the ball like a hawk's for a chicken; a good field and a good all-round cricketer with the proper spirit of enthusiasm. It is hoped that he doesn't consider his cricketting days over.

LACROSSE.

Lacrosse practice to-night. A full attendance is requested.

The Juniors need a couple of good practices before their game on Friday in Hastings.

A meeting of the Executive Committee is called for to-morrow evening, at nine o'clock, in THE EXAMINER office.

The Printers would like to challenge a combined team from the grocers and clothiers to a lacrosse game to be played any day except Wednesday, Thursday or Saturday.

THE WHEEL.

There will be a very important meeting of wheelmen in the Victoria Club rooms to-morrow night. All wheelmen are invited to attend and to meet the chairmen of the sub-committees having charge of decorations, rides, reception, etc., and make final preparation in these respects for the meet.

BASEBALL.

The first baseball game of the season was played in P. A. A. A. grounds, on Saturday, between teams respecting the Wm. Hamilton Co. and the Canadian General Electric Co. The game proved to be very exciting, as the close score indicates. The teams played but seven innings, as they were rather late in starting. Although neither team had any preliminary practice, a good article of ball was put up, some pretty plays being made on both sides and hard hitting was the order of the day. Connors pitching for the winners was a feature, and with better support would have done considerably better. O'Brien and D'Russia, the battery for the Canadian General team did first-class work. The finish of the game was very exciting, the Canadian General team having the game (13—10) at the end of their part of seventh, but by good stick work and daring base running the Wm. Hamilton team pulled the game out of the fire in their half and won out by the close score of 14—13. The teams and positions were as follows :—

Wm. Hamilton Co.		*Canadian General Co.*
Connors	Pitcher	O'Brien
Moyce	Catcher	F D'Russia
Delaire	1st base	J D'Russia
Garrow	2nd base	Buchanan
McDonough	3rd base	Watt
Stewart	short stop	Guerin
Morgan	left field	Breckenridge
McFarlane	centre field	O'Brien
Hall	right field	Graham

Next Saturday the Bachelors and Benedicts of the Wm. Hamilton Co. will strive for supremacy.

CATTLE YARD NUISANCE.

To the Editor of The Examiner :

DEAR SIR,—I wish to address through your journal a few words of complaint to the authorities, which permit a nuisance to remain in the vicinity of my residence. I refer to the cattle shipping yard on Perry and Aylmer streets. This nuisance would not be so great if proper care were taken in cleaning, but as a matter of fact, the stench is so unbearable that I am compelled this hot weather to close my windows. There is another feature of this same yard existing in a well-populated centre of the town, of even worse nature. I cannot, of course, speak exactly, but its nature is to contaminate the morals of the boys and girls in the vicinity. Can something be done to improve the cleanliness of this place so that people in the vicinity will not be compelled to remove to some other house? I have brought the matter before the Board of Health, but nothing has come of it. What am I to do? Am I to be required to pay taxes on a house that I cannot live in, owing to the vicinity of a nuisance which the town should see moved or improved?

Yours truly,
CITOYEN.

FOR WEAKNESS AND DEBILITY.

Consumption is often caused by a weak state of the blood, permitting the germs to obtain a foothold. That Dr. Ward's Blood and Nerve Pills cure disease and make the system safe, the following evidence amply proves:

I suffered for two years with what the family doctor claimed was an incurable case of consumption and debility, telling me that my life was but for a few months at the best. As I was about to give up, I picked up your advertisement and resolved thereupon to give Dr. Ward's Blood and Nerve Pills a trial. The first box of them worked such a wonderful change I felt that at last I had struck a medicine that would help me. I continued the use of the Pills, receiving from them day by day flesh, strength and vigor, in fact friends of mine that had not seen me for some time hardly knew me, so great was the change that Dr. Ward's Pills worked. Out of the fullness of my heart in the joy of my being rescued from the grave, comes this testimonial. I shall, as long as God permits me to live, herald forth their usefulness and life-saving power to all afflicted by that monster of disease that almost claimed me for its victim, thereby repaying you in a small measure for the grand, new lease of life Dr. Ward's Blood and Nerve Pills have given me. Yours truly, JOHN P. THORP, Cork St., Guelph, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

MAKE THE MEN MARKET.

A Woman Writer's Bold Suggestion to Help Weary Wives.

There are few things that exhaust a woman more than a day's shopping. The average man looks upon a woman's "purchasing day" as one of pleasure, but when he accompanies her on one of these shopping expeditions he goes home, after his patience has been all exhausted, with a different belief. He learns, too, that a woman can endure vexations and disappointments with much more equanimity than he can, and he mentally vows never to do it again.

The number of miles traversed is really what tires one, and it is little wonder that the woman who does the shopping for herself and her entire family, as well as the marketing and the bargaining with the "butcher and baker and candlestick maker," should feel the need of rest for her tired nerves.

The man of the house should always do the marketing. In the old days, when the butler was not the stately personage he is now, women were never troubled with the worries of household purchasing, for the head of the house did the entire buying, and "James" carried the parcels and was not ashamed to do it.

No mother who has the care of little children should give the precious morning hours to anything else but the nursery, nor should she let butchers' and grocers' boys call for and deliver orders, because there is sure to be dissatisfaction if she does. Some wealthy families allow their chef to take charge of the household, and he collects a large percentage from the tradesmen, which, of course, is added to the monthly bill. Reputable storekeepers will not do this kind of business, however, and the chef "patronage" is controlled entirely by a few men. On the whole, it is much more satisfactory for the man of the house to do the marketing. He will get the best meat, have his orders promptly attended to and save about 15 per cent in the transaction, as well as the health of his wife.—Chicago Times-Herald.

Is Your Daughter In School?

There are thousands of sickly school girls dragging their way through school who might be enjoying the full vigor of their youth by taking Scott's Emulsion.

Geological Deductions.

Geology was once defined by Lord Salisbury as "the science of the what might have been." Some American geologists prefer to regard it as the science of the what may be. Pictures have often been drawn of the destruction of Toronto and the devastation of southern Ontario and Quebec by a flood let loose when the great lakes are emptied owing to the continued recession of Niagara falls.

Professor G. K. Gilbert now tells us that long before this disaster is due Niagara will have been destroyed by other processes. Some slow changes of level are now taking place over the whole lake region. The eastern outlet will be closed and the lakes drained by discharging from the southern end of Lake Michigan into the basin of the Mississippi. The change in the river system will begin in about 1,000 years' time. The evidence adduced by Professor Gilbert in support of this prophecy is of great interest, although only his preliminary report has yet been published. —Spectator.

Followed Husbands Advice.

'I was troubled for a long time with sick headaches. At last my husband bought two bottles of Hood's Sarsaparilla telling me this medicine would cure me, as it had cured him of salt rheum. I began taking it and it made me feel like a new woman." MRS. ROBERT MCAFFER, Deerhurst, Ontario.

DOWN-GRADE FOR WHEAT.

The Usual Bullish Factors Had No Effect and All Deliveries Have Again Receded—The Quotations.

Friday Evening, June 17.

Despite the remarkable succession of breaks which have recently occurred, wheat does not seem to have touched bottom yet. The market continues very weak despite such ordinary bullish factors as largely diminished receipts in the west, a large falling off in the Argentine shipments and a probable large decrease in the American visible supply for the week. Weak cables helped the bears and on the Chicago board September wheat declined 2⅝c per bushel, the June and July deliveries receding 6c and 3⅝c respectively, and the December option 2⅜c. The close was at the lowest figures. Other American markets, both in the east and west, also reported striking declines. In view of the fact that recent exports to Europe have been drawn chiefly from the visible supply many think prices of wheat will rise before the new crop stuff is fit to mill.

Transatlantic markets showed renewed weakness. On the Liverpool board spot wheat declined 2d to 3d per cental, July 3½d, September 1⅝d and December 1½d. On the Paris market wheat was weak at sons of 10 to 40 centimes, and at Antwerp the decline was 50c to 1f.

At Toronto there was nothing doing in grains to-day and wheat was lower.

Toronto Live Stock.

The run of live stock at the Western Cattle Market was not large for a Friday—61 loads, composed of 1200 cattle, 200 sheep and lambs, 50 calves and 2500 hogs.

Trade was very active and prices firm, everything being sold early in the day.

Exporters sold all the way from $4.40 to $4.75, the bulk going at $4.55 to $4.65 per cwt. Light export bulls went at $3.50 to $3.60, heavy bulls at $3.75 to $4, and loads of exporters and good butchers' mixed at $4.37½ to $4.45.

Choice picked lots of butchers sold at $4.25 to $4.35, loads of good $4.12½ to $4.30, medium $4.10 to $4.20, common $3.80 to $4, inferior $3.60 to $3.75 and very inferior rough cows and bulls off the grass sold at $3.30 to $3.45.

Heavy and fat feeders, averaging from 1100 to 1200 lbs., sold at $4 to $4.25 per cwt.

Stockers sold well from $3.50 to $3.80.

Milk cows sold fairly well; 25 sold at $25 to $40 each.

Calves were in good demand, with prices unchanged at $3 to $6 each, with a few extras at $7 to $8 each.

Prices for sheep and spring lambs were unchanged, with supply about equal to the demand.

Hogs—Prices for hogs remain the same, with too many light coming in.

Cheese Markets.

Perth, Ont., June 17.—Business was very brisk on the Cheese Market here to-day, there being 1500 boxes of white cheese sold. Six hundred boxes were sold to Warrington, 450 to Alexander, and the same to Hodgson Bros. Highest price paid was 7⅞c.

Kemptville, Ont., June 17.—Total offerings, 1156, 190 of which were white, balance colored; 405 sold at 7¼c; balance unsold, offer rejected. The buyers were: Bissell, Howe and Webster.

Iroquois, Ont., June 17.—At the Cheese Board, 697 boxes were boarded; highest bid, 7¼c; no sales on board, but after adjournment all sold at 7 5-16c.

South Finch, June 17.—At the regular weekly meeting of the South Finch Board 1440 were boarded—1324 white, balance colored. Offer for both, 7 5-16c. Factory men will likely get more before board closes.

East Buffalo Live Stock.

East Buffalo, June 17.—Cattle—Receipts only a few odd head. Little or nothing doing.

Hogs—Receipts liberal to-day. The market opened with a slow demand from all sources, and it was well into the morning before buyers and sellers came together, when the latter, with lower reports from the west, were forced to accept a decline from yesterday's average sales. Choice Yorkers, $4.05 to $4.07; light to good Yorkers, $3.95 to $4; mixed packers' grades, $4.10; medium weights, $4.10 to $4.15; heavy hogs, nominal; roughs, $3.50 to $3.70; stags, $2.75 to $3; pigs, $3.20 to $3.90.

Sheep and Lambs—Receipts very light. The market ruled active and excited for the good fat kind of sheep on sale. Native lambs, choice to extra, $5.70 to $5.80; fair to good, $5.40 to $5.60; culls to common, $4.50 to $5.25. Native clipped sheep, choice to selected wethers, $4.75 to $4.85; good to choice mixed sheep, $4.50 to $4.70; common to fair, $4 to $4.25; culls to common sheep, $3.25 to $3.85.

British Markets.

Liverpool, June 17.—Spring wheat is quoted at 7s 10d; red winter, 7s 6d; No. 1 Cal., no stock; corn, 3s 3¼d; peas, 5s 2d; pork, 51s 3d; lard, 30s; tallow, 19s 6d; heavy, l.c., 31s 6d; light, 31s; do., short cut, 31s; cheese, white 34s 6d, colored 34s 6d.

Liverpool—Close—Spot wheat dull, with red winter at 7s 6d and No. 1 Northern at 7s 9d; futures quiet at 7s 1½d for July, 6s 2⅝d for Sept. and 6s 0⅝d for Dec. Spot maize quiet at 3s 3¼d; futures quiet at 3s 2⅝d for July and 3s 4½d for Sept. Flour 27s 6d.

The things that people see are inside of them and not outside of them. No two people see the same thing exactly alike. One woman may look at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look at the same scene and see nothing. The man who is perfectly well and vigourous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Medical Adviser," profusely illustrated.

A CHRISTIAN REVENGE.

Cause of the Outbreak on the Montenegrin Frontier.

Constantinople, June 18.—The outbreak of the Albanians at Berane, near the frontier of Montenegro, the gravity of which is comparable to the troubles preceding the Servia-Montenegro war against Turkey in 1876, is due to revenge taken by some Christians upon the Albanian murderers of a Christian notable last autumn. The Albanians in remote districts are participating in the present outrages. In consequence of the renewed representation of Montenegro, supported by Russia, the Sultan has despatched troops to the disturbed districts from Uskub. There was fighting all day Thursday, and many were killed or wounded on both sides. According to Cettnje advices, many women and children who were fleeing towards Montenegro have been killed by the Albanians.

Hon. William Harty has returned to Toronto improved in health after his holiday.

In the early days of the settlement of the Dakotas, the newspapers frequently contained stories of the hardships and sufferings and sometimes the death of the new settlers who were lost in the blizzards. The man or woman who is frozen to death in a winter's storm undergoes great sufferings, but they are mild compared with those daily borne by thousands of victims of that dread disease — consumption.

For centuries this relentless disease was considered incurable. It is now known to be distinctly curable. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption, bronchitis, asthma, laryngitis and diseases of the air-passages. It has stood the test for thirty years. It acts directly on the blood, nourishing it with the life-giving qualities of the food. It tears down old, half-dead tissues and builds up new ones in all parts of the body. Through the blood it acts directly on the lungs, driving out all impurities and disease germs. It soothes the cough, but facilitates expectoration. It deepens the breathing, supplying the system with life-giving oxygen. It stimulates the appetite, facilitates the flow of digestive juices, invigorates the liver and tones and builds up the nerves. It is the great blood-maker and flesh-builder. It does not make flabby flesh like cod liver oil, but firm, muscular, healthy tissues.

"I had been troubled with bronchitis for several years," writes Mrs. Orlin O'Hara, Box 114, Fergus Falls, Otter tail Co., Minn. "In the first place I had sore throat. I doctored with different doctors and took various medicines, but got no relief. I raised from my throat a sticky substance like the white of an egg. Could not sleep, and had made up my mind that I would not live through the winter. I took Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' alternately, and in a few days began to see that I was better. I took eight bottles. I have not felt as well in years."

BOBBING GOLD SHIPS

A DIFFICULT TASK OFTEN SUCCESSFULLY ACCOMPLISHED.

The Australian Coast the Favorite Field For These Daring Feats of Burglary. Some of the More Notable Thefts That Have Taken Place.

Several times in each year Australian newspapers announce the departure to England or San Francisco of vessels carrying hundreds of thousands of pounds value in gold. In 1896 the three colonies of Queensland, New South Wales and Victoria sent away over $40,000,000.

It is not a matter of surprise that such announcements excite the cupidity of a section of the community or that from time to time attempts are made to surreptitiously lay hands on some portion of the seductive treasure.

Robbing a ship's safe on the Australian coast is now conducted with the same silent and thoughtful deliberation as is the solving of a difficult chess problem. The first thing the rifler sets his heart upon is how to get the key. The theory, and indeed the general practice, is that the captain checks the boxes as they are stored in the bullion room, locks the door when the transaction is complete, and, sleeping or waking, carries the key in a leather pouch around his neck till he unlocks the door at the end of the voyage.

But theory and practice are often set aside. In the Tararua case, at Melbourne, in 1880, when $20,000 worth of gold bars were stolen, the police discovered that two keys, either of which opened the bullion room, used to hang against the wall in the public bar. It was also discovered that one of these keys mysteriously disappeared 12 months before the robbery and that no serious investigation was then made into the loss, nor was any alteration made in the lock of the bullion room.

This Tararua was running between New Zealand and Australia and had shipped boxes of gold at various ports. Altogether she was supposed to carry 11 boxes. On arriving at Melbourne it was found that one of these boxes was missing. Examination showed that some one had simply opened the door with a key, extracted the box and locked the door again.

The robbery from the Iberia, which left Melbourne for London in March, 1889, is supposed to have been also effected by means of a key surreptitiously procured. In that case the robbery was not discovered till the arrival of the vessel in London.

The robbery from the China developed in a remarkable way. Here the Oriental bank in Sydney placed the gold on board a coast steamer called the Avoca. At Melbourne the gold was transshipped to the China. The China touched at Adelaide and other ports, but it was only at Galle the discovery of the robbery was made. Detectives operated on all the ports simultaneously, but nowhere could a clew be found. The amount missing was the usual $20,000.

In 1878 a man named Welberg, who had been a carpenter on the China, took up a selection in the interior of Victoria. Before settling down he married a Melbourne barmaid and appears to have confided to her some shady particulars of his past history. The Samson and Delilah story was in part repeated, and the public laid themselves out to watch Welberg. The upshot was the arrest of the man as the safe rifler of the China.

One thousand sovereigns were found in a tin of fat stored away by him in Melbourne. In his hut was discovered a wooden plane stuffed with gold. The wood was hollowed out and the gold dropped in. In the hut was also discovered a bar of soap containing 200 sovereigns.

He told the detectives that he had 1,800 sovereigns concealed on his selection and offered if they accompanied him to point out where the booty lay. As may be surmised, he fooled the police into a wild, thick timbered region, took them suddenly off guard and made his escape. He was recaptured, however, some months later.

The mystery of the Iberia was cleared up in a still more singular manner. One day two boys playing at Williamstown saw a mouse run into a hole under the platform of the railway pier. One of the boys started to dig the mouse out with a stick and to his surprise unearthed a mass of sovereigns. The police were informed, and before the day was out 3,743 sovereigns were recovered.

The recovery of the Aredale gold was more satisfactory as far as amount is concerned. For nearly two years the police labored in vain. The mystery might never have been cleared up but for an accident. A wharf lumper fishing at Nelson pier, where the Aredale had been berthed, hooked on to something which excited his curiosity. Obtaining assistance, the lumper succeeded in bringing to the surface the missing box, with its treasure intact. The robber had evidently sunk the box, intending to return for it when opportunity offered.—Chambers' Journal.

DR. CHASE'S OINTMENT

MR. THOS. DOLPHIN, TARA, ONT., says: "I had Itching Piles for about ten or twelve years, and tried everything I could hear or read of, and found that nothing did me any good. Mr. Hilborn, the druggist, gave me a sample box of Chase's Ointment, and from the first application I found relief, and was able to go to bed and sleep. I then purchased one box and that one cured me so that I have not been afflicted since, and that is over a year ago."

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

The Other Man's Eyes.

An eloquent political speaker who attempted during the strike in some mills in Philadelphia to reconcile the conflicting claims of the capitalists and laborers stopped short in his impassioned speech and exclaimed:

"It could all be set right if you could each for only ten minutes look at the matter through the other man's eyes."

He had found the source of much of the injustice in the world—the lack of that power which enables us to see the "other side of the question."

A biographer of Chief Justice Marshall said his defect as a lawyer was that when the plaintiff was his client he perceived every point which could be brought on behalf of the defendant and with difficulty refrained from urging it. As a judge, however, this clear vision was of inestimable value to him.

An English critic who was a personal friend of Thomas Carlyle and his wife said lately: "Much of their unhappiness was the result of their absolute inability to look at any question except from their own point of view. Hence on every subject of morals, taste or opinion they were at odds with each other and usually with everybody else in the world."

A man or woman afflicted with this mental myopia may have a heart full of love for his family and friends, yet go through life wounding them at every turn. Most of the wars and dissensions in nations, communities and families are caused by inability to see that men may honestly view a subject from different standpoints.

The Scotch people once believed that certain men were endowed at birth with a vision that looked into the future. They called it the second sight.

The second sight which sees the present clearly is of infinitely more value, and most persons may hopefully strive to acquire it.—Youth's Companion.

Delicate Hint.

Dean Hole, in his "Little Tour In Ireland," says that when one of his party went a-fishing it was to come home in triumph, bearing a glorious salmon, its silver scales glittering in the sun. Naturally he was in good humor and well disposed to pay the fisherman who had accompanied him. This was the dialogue as the two men stepped on shore:

"Boatman," said the happy tourist, "how much is the boat?"

"Sure, your honor, the boat'll be in the bill. Your honor'll give the boatman what you please."

"But what is generally given?"

"Well, your honor, some'll give 2 shillings and some 18 pince. A tailor'd be for giving 18 pince."

How much the passenger gave is not known, but surely he was not inclined to be classed with stay at home tailors, not accustomed to "sport."

The Clever Expert.

"Is this the skull of a man or woman?" inquired the prosecuting attorney of the expert.

"It is a woman's skull," replied the anatomist.

"How do you know?"

"By the worn appearance of the jaws."—Cleveland Plain Dealer.

Fire Worshippers and Kerosene.

A knowledge of the existence of petroleum at Baku is so ancient that we find there the ruins of a temple to Zoroaster. The worship of fire—so easy to obtain that it was only necessary to prod the soil with a stick and set fire to the vapor that issued out of it—was continued until so recent a time as 20 years ago, when several Parsee priests were in Baku for the purpose of worshiping that which we of this iconoclastic time buy in the corner groceries to fill our lamps.—Julian Ralph in Harper's Magazine.

WESTWARD HO!

Many Manitoba People Being Cured of Heart and Nerve Troubles.

Mr. A. Wilson, of Clearwater, Relates His Experience.

Not only in the East, but also in the great Western provinces of the Dominion, Milburn's Heart and Nerve Pills are steadily gaining the confidence of the people.

Wherever there is a weak heart or shattered nervous system they restore them to perfect vigor; run-down, worn-out constitutions they build up, strengthen and renew, and give new hope to downcast, despairing, sickly men and women.

MILBURN'S HEART AND NERVE PILLS

"I can recommend Milburn's Heart and Nerve Pills as the best thing I know of for weak and nervous people. When I first commenced taking them I was in an extremely weak condition. I was nervous and easily startled, sometimes I would start in my sleep and it would be a long time before I could get asleep again.

"Shortness of breath and dizzy spells would come over me at times and often I thought my end was near.

"Milburn's Heart and Nerve Pills have changed all that. They have strengthened my nerves and built up my health so that I am a new man. I consider them simply wonderful." A. Wilson, Clearwater, Man.

Lived to Be Doctored.

When the new boy got into the schoolroom, he was of course pestered with numerous questions by the other scholars as to his name, his parents' profession, the amount of his pocket money and various other matters about which boys are curious.

"Who's your family doctor?" asked a big lad.

"Ain't got none," was the prompt if ungrammatical reply.

"How jolly!" responded the questioner. "Why, you don't have no medicine to take."

"Don't I!" was the sarcastic reply. "That's all you know. Why, my father's a homeopath, mother's an allopath, my sister Maggie's joined the ladies' ambulance corps, grandfather believes in massage, my Uncle Sandy's a horse doctor, and"—with a pathetic sigh—"they all of them experiment on me."

That boy got the sympathy he desired. —Strand Magazine.

An Inconvenient Parrot.

Young Hankinson (making a call)—You have had that parrot a long time, Miss Laura?

Miss Laura—Yes, we have had him several years.

"Quite intelligent, is he not?"

"Very. He can imitate almost anything."

They have a remarkably clever parrot over at the Casterlins, Miss Laura. It can imitate the sound of a kiss to perfection. Is that among the accomplishments of our feathered friend here in the corner?"

Miss Laura (indignantly)—No, sir. He does not attempt an imitation of a sound he is not accustomed to hear, Mr. Hankinson.

The Parrot—Wait, George, dear, till I take this bird out of the room.—London Tit-Bits.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

THE DANGER OF BEAUTY.

I never read the papers without feeling as content
That both my eyes are twisted and my nose is slightly bent.
I'm glad my mouth is out of line and that my teeth are few,
And if I had a "wealth of hair" I don't know what I'd do.

A "tiny foot" or "lily hand" would fill me with dismay,
And if I had a slender waist I'd sicken in a day,
For I have noticed from the first, as strange as it may seem,
The girl who gets the worst of it is "lovely as a dream."

The papers never tell about a woman being shot,
Or mangled by a trolley car, or married to a sot,
Or forced at point of pistol her last fifty cents to lose,
But that her eyes are "limpid" and her boots are number twos.

So I can live in sweet content, without the slightest fear
That trouble or calamity will ever hover near,
And when I see my misfit face it's some relief to know
That I'll outlive the beauties by a hundred years or so!

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,201.86, in settlement of my $2,000 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $3510.00, or a Life Annuity for $401.30, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

ABOUT HOTEL ACCOMMODATION.

Fred Loughead is Coming to Ride—Other Notes of Interest Concerning the Preparations Which are Going on—The Torontos' Engaged Rooms from June 20th.

The secretary is every day receiving entries for the races and numerous applications for all kinds of accommodation from the crowds of visitors. Present indications point to a meet unprecedented in numbers. The advance programme of the meet is being mailed this week and is being received by the wheelmen with many expressions of praise for the taste and neatness of workmanship displayed.

The team race at Peterborough promises to be a corker. I know of no less than four clubs who are already debating as to what particular places in their club houses will show the trophy off to best advantage. —Canadian Wheelman.

The amateur championships this season look to be more open than in previous years. Dark horses are reported from all sections of the country, while the old-timers—Moore, Axtos, Sheritt, Powers, D. Wilson, et al—are keeping very mum. Sarnia, the home of the '96 champions, Loughead and McLeod, claims to have another good thing bottled up, and promises a surprise for somebody at Peterborough.

The Oshawa boys are going to spread themselves in grand style. They go about preparing for their fun in a business-like way, as the following from the Oshawa Reformer will show:

"A large number of cyclists attended the meeting last Friday night in the rooms over the Reformer office to make arrangements for attending the big C. W. A. Meet in Peterborough on July 1st. It was decided attend the meet in a body, to charter a special car and wear a special uniform prepared for the occasion. Everybody was interested in the scheme. A committee appointed will look after the details and a good time is in store for all who go. The boys are making great preparations for the trip and intend to make a great spread at the meet. Anyone wishing to go with them should leave their names with Arthur Curtis. The following are the names of those on the committee and the particular part they have to attend to:—Geo. H. Pedley, transportation; C. M. Mandy, secretary; A Curtis, treasurer; Frank P Rea, music; H. Gregory, entertainment; A Chambers and C. Thomas, decorations.

A new attraction and one causing much interest through Canada has been secured for the great C. W. A. meet here on July 1st. Fred Loughead, of Sarnia, professional one mile champion of America, will be here for the great event of the year, and will go up against all records on both days, July 1st and 2nd. Loughead is the most famous rider in Canada to-day, having won the mile championship of America last year, defeating the best professional cracks among the American riders. He followed the L. A. W. circuit all last season, competing constantly with such men as Bald, Cooper, Gardiner, Johnston and others, and always showing up well. On account of being a Canadian he was the most observed man on American tracks, especially after winning the championship, this being the first time a Canadian ever won an American championship. Although Loughead might be said to have risen to fame in a day over there, he was well known in Canada before that and, by the best judges, was looked upon as the fastest Canadian rider. He ran a tie with Angus McLeod for the professional mile championship of Canada at the meet in Quebec in 1896. This was one of the most famous races in the C. W. A.

At the close of last season Loughead expressed his determination to retire from the racing field, and it will be, therefore, with much satisfaction that Canadians will learn that this speedy rider is about to again show his speed. He is expected to arrive in town probably on the Monday before the Meet with a big lot of pacers and pacing machines and will spend the week in training. He will go against all the records on both Friday and Saturday, and the result will be awaited with much interest. Doubtless the desire to see Loughead get in his fast work will draw many enthusiasts to the town.

The Torontos' of Toronto have engaged rooms at the Grand Central dating from June 20th.

BE READY FOR THE MEET.

Hotel Keepers Should Prepare their Best and Fullest Hospitality—The Council has also a Duty to Attend To.

In view of the large crowd of visitors expected on the occasion of the first Provincial Wheelmen's Meet in Peterborough on July 1st and 2nd, hotel keepers are reminded that it will be necessary for them to put forth every effort to furnish accommodation for the multitude. With forethought and timely preparation the normal accommodation of hotels can be largely increased for such a special occasion, and it will be well for preparations to be begun early. It is suggested that the resources of the town will be very much taxed to provide accommodation for the large number of visitors. It was urged as an objection to holding the meet here that the hotel accommodation was deficient. Our hotel keepers should show, as they can do with proper effort, that there is no ground for such objection. They should co-operate with the citizens generally to see that the town creditably discharges its duty to our Dominion Day guests.

At the same time our town council has a duty to perform. The condition of our streets is in no way satisfactory. The streets on the line of the street railway are particularly defective. In some places the rails stand up nearly their whole height above the adjacent roadbed. This should be remedied, not only for the sake of presenting a respectable appearance and condition to visitors, but for the sake of the local wheelmen, whose rights to good streets for wheeling seem to be pretty largely ignored. If our streets were as relatively bad for horse vehicles as for wheels, a pretty row would be raised. Yet the proportion of bicycles to horse vehicles, used in town is perhaps at a moderate computation, two or three to one, and therefore bicyclists should receive more consideration. Judge Weller in his reply to the presentment of the Grand Jury at the county court on Thursday morning, remarked that the bicycle had come to stay, and expressed surprise that the jury in their other references to the necessity of improved roads, had not included a recommendation for better roads or special roads for bicyclists.

Now the council, in view of the Meet, should make some little effort to have our streets put in the best possible shape. If the loose stones should be raked off the principal streets, a little patching done here and there and the roller run over them a great improvement, even if temporary, would be effected.

No effort should be spared by citizens and council to put the town in its very best condition in every respect for the Wheelmen's Meet.

—Trade at "Spot Cash" and be happy.

THE WHEELMEN'S MEET.

The advance programme for the wheelmen's meet, July 1st and 2nd, is issued. It is a neatly printed and attractive pamphlet of twenty long pages, and is as full of Meet matters as an egg is of meat. It contains the general meet programme and the names of the Executive Committee, who have the local management. It also contains a short sketch of Peterborough and its points of interest. These are plentifully illustrated with photo-gravures of George street and the numerous parks of the town, and of the tracks of the Nicholls and Driving Parks, and also a list of the principal public buildings, churches and industrial establishments, with a more detailed reference to the scene of the meet in the Driving Park, and also the intimation of the invitation of the directors of the Public Library and Y.M.C.A. extending to the visitors the privileges and freedom of these two institutions. The available summer resorts to visitors have special prominence—Stoney Lake, Chemong Park, Jubilee Point and Idyl Wyld, of which fine photo-gravures are given. Explicit and brief directions are also given of the best ways of reaching Peterborough and the Meet on July 1st and 2nd. In addition similar information respecting means of reaching Rochester, Kingston and Thousand Islands, Burleigh Falls, the Rice Lake district and the Bay of Quinte. In fact all possible information that can interest intending visitors to the Meet, as well as tempt all whole hearted wheelmen, is given in concise and intelligible shape in the handsome Advance Programme of the First Ontario Provincial Meet at Peterborough on July 1st and 2nd.

Saved From the Agonies of Diabetes, by Dodd's Kidney Pills.

Toronto, June 6—The Toronto Street Railway provides another case this week, to strengthen the mighty chain of proof that Dodd's Kidney Pills are the only cure on earth for Diabetes.

Mr. H. Hogg, 81 Fuller street, conductor No. 207, has been completely cured of an aggravated and long-standing case of Diabetes, by Dodd's Kidney Pills, after other so-called "cures" had utterly failed.

Mr. Hogg suffered for three years with Diabetes and impure blood. He had to quit work, on account of dizziness, loss of flesh and increasing weakness. All other remedies that he used having failed, he agreed, to please a friend, to try Dodd's Kidney Pills. Improvement began at once, and six boxes effected a thorough cure.

ASSESSMENT SOCIETIES.

In speaking at a meeting of a leading insurance company the other day, Mr. B. M. Britton, M.P., says the Brockville Recorder, was rather severe on assessment societies. Not a few of the members of parliament are deeply interested in insurance companies, as they have a perfect right to be, but they have no right, when representatives of the people in parliament, to allow their personal interests in such companies to prejudice their action in passing laws to curtail the influence of societies that are doing an immense amount of good, and relieving much suffering, simply because they make it harder work for the old companies to pay big dividends.

About ten years ago I felt the beginning of what is commonly known as eczema. The disease commenced in my ears and spread entirely over both sides of my head and also developed on my hands. During those ten years I was a great sufferer. Specialists on skin diseases treated me. As I write this I am just commencing on the fifth box of Dr. Chase's Ointment, and judging from the rapid improvement effected, I am certain that before the box is used I shall be completely cured.

HE SHOT GEN. BLANCO

Mariano Salva Attempts to Avenge His Brother's Death.

"DOWN WITH BLANCO!" THE CRY

Details of the Attempted Assassination—The Spanish Governor of Cuba Wounded in the Left Leg Above the Thigh—Shafter's Transports Not Yet at Santiago—War News.

Washington, June 21.—Information has just been received in Washington of the attempted assassination in Havana of Captain-General Blanco by Mariano Salva, a young member of the volunteer army, and of a condition of affairs in the Cuban capital almost bordering on revolution as a consequence. The volunteers parade the streets unofficered, crying "Viva Weyler," "Down with Blanco." The people, especially the autonomists, are leaving as rapidly as possible, and General Blanco, wounded as he is, holds daily conferences with the commanders of the volunteers, who are apparently powerless to bring about a more peaceful state of affairs.

The attempted killing of the Spanish General took place recently as he was leaving the palace, about to accompany some of the officers of his staff to inspect the earthworks on the outskirts of the city. Salva, the young Cuban who sent a rifle ball into General Blanco's left leg above the thigh, is a member of the volunteer guard on duty around the palace. His younger brother was also a volunteer and was recently arrested on a charge of conspiring with the enemies of Spain against the established Government. Young Salva was thrown into prison and recently was tried before a court-martial and condemned to death. His brother made every effort to save him, and a number of appeals were made to General Blanco for clemency, but without avail. When the findings of the Spanish court-martial were laid before him he unhesitatingly approved them, and the young volunteer was executed. There was considerable dissent among the volunteers at that time, but no open outbreak. Mariano Salva very quietly continued his duties at the palace and made no reference to his brother's death. In his heart, however, he harbored the idea of revenge, and he was seeking every opportunity to consummate it. His own post was usually in a part of the palace little frequented by Gen. Blanco and his opportunities for meeting the Captain-General were few.

On the day of the shooting, however, he succeeded in obtaining permission from his commanding officer to exchange with another soldier, and he secured the coveted post in front of the palace. Salva waited until the time Gen. Blanco usually came out in the afternoon, and took up his position on the outer steps of the palace, a short distance from a platoon of volunteers, also on guard. He had not been there long when the doors were thrown open and Gen. Blanco, surrounded by several gentlemen with whom he was talking, emerged. As he stepped out the young soldier moved forward a pace and raised his rifle as if to salute. Instead of doing so, however, he quickly brought the breech of the weapon to his shoulder and before those near him could spring forward had sent a bullet into the group. His aim was badly taken because of the officers who were near; its object was effective none the less, and Gen. Blanco, with an exclamation of pain, sank down. The utmost confusion reigned for a few moments until the nature of the wound was discovered, and the Governor-General was taken indoors again.

While all the confusion was going on around him Salva stood calmly aside from the group of his comrades, almost where he had stood when the shot was fired. He made no effort to repeat the shot nor to escape. His comrades held aloof from him a moment, but when one of the officers who had come out from the palace with Gen. Blanco rushed at him with drawn sword and with an evident determination to take summary vengeance for the shot, the other volunteers quickly surrounded him and warded off the strokes of the sword. Salva made no efforts to avoid the sword thrusts. "I have avenged the death of my brother," he said, "and that is all I had to live for." As soon as Gen. Blanco had been removed Salva was arrested and thrown into Morro Castle, where he still is, awaiting the death which will evidently be meted out to him. The news of the attempted assassination spread rapidly over the city, and long before nightfall the inhabitants were in a state of uproar. The volunteers, sympathizing with their dead comrade and his imprisoned brother, fomented the confusion, parading the streets and shouting "Down with Blanco," "Long live Weyler," and shouting loudly for the recall of the latter to Havana. Places of business were closed, and the peaceful residents vacated them and their houses and took refuge in the country. Gen. Blanco has few friends, and all the misfortunes of the war, past and present, are laid at his door.

Salva, the young man who fired the shot which came so near leaving Cuba without a Spanish Governor, is 27 years of age, and was born on Cuban soil. He was among the first to form a volunteer company, and with his brother had served faithfully until the latter fell under the suspicion of the authorities and was condemned to death. Salva is of good family and is intelligent. He is a typical Cuban, swarthy and of medium size, and of undoubted bravery and determination.

SHAFTER NOT AT SANTIAGO.

And Admiral Sampson Is Wondering What Is the Matter—General Garcia Is Coming On.

On board the Associated Press despatch boat Dauntless, off Santiago de Cuba, Sunday, June 19, 6 p.m., via Kingston, Jamaica, June 20.—The United States troops under General Shafter have not yet arrived. The delay is inexplicable. According to the latest information of Admiral Sampson the transports sailed last Wednesday, and they should have reached here this morning. Valuable time and favorable weather are lost by the delay. Though it is blistering hot, there has been no rain since the marines landed. The Cuban officers say that in this mountainous section of the southern forest the heavy rain has practically ceased until the end of July.

The Cubans are extremely active, and a cordon has been drawn around Santiago de Cuba.

General Garcia, with 4,000 troops, coming by forced marches from Canes, is now nearing Santiago. His troops are within 40 miles of the city. He left 3,000 men at Holguin to prevent the Spaniards there from effecting a juncture with General Toral at Santiago.

The Spanish troops at Guantanamo, under General Masso, are also cut off from General Toral, and are badly pinched for food. They wildly appealed for provisions and reinforcements, but the only reply they got was that both were impossible. General Masso said his men were even then at half rations, and that the supply was only sufficient to last during the present month.

General Garcia and his personal staff were picked up at General Rabi's camp, 18 miles west of Santiago, and brought to the flagship this afternoon by the gunboat Vixen. There the grizzled and wounded patriot had a long consultation with Admiral Sampson regarding the operations for the investment of Santiago and the co-operation of the American and Cuban troops.

General Garcia is very enthusiastic. He says the Spaniards are starving and cannot hold out long, and that the war in the island will end in a few months.

At Guantanamo.

Two regiments of troops will be landed at Guantanamo Bay, which will be held as a base until Santiago falls. There has been no sign of Spanish troops in the neighborhood of Camp McCalla for several days. It is estimated that over 300 have been killed or wounded since the landing. Fifty-eight bodies were found yesterday. The Spaniards seem satisfied that they cannot dislodge the Americans and have withdrawn.

The upper bay is to be occupied immediately. Lieut. Delehanty, with an expedition, is nightly at work removing mines from the river connecting the upper and lower bays. When this is clear the ships will move up the channel and take the town of Caimanera, whose forts were demolished by the Texas last Friday.

Kingston Cable Cut.

The auxiliary cruiser St. Louis cut the Kingston cable last night within a mile of El Morro.

Last night the dynamite cruiser Vesuvius discharged three more shells. A terrific uproar followed the second explosion, and it is thought a magazine was blown up

PRESIDENT AGUINALDO.

Philippine Insurgents Declare Their Independence—A Provisional Government Officially Proclaimed.

Chicago, June 21.—A special cable yesterday to the Record from John T. McCutcheon, a staff correspondent with Dewey's fleet, reads as follows:

Hong-Kong, June 20.—General Filipine officially proclaimed a provisional Government in old Cavite June 12. There were great ceremonies and a declaration of independence was read, renouncing Spanish authority. General Aguinaldo was elected President and Daniel Perindo Vice-President. The insurgent Government will not oppose an American protectorate or occupation.

The rebels have captured the Spanish Governor and the garrison of 300 men at Bulucan. The Governor and garrison at Pampanga are surrounded and the Governor and garrison of 450 men have been captured at Batangas. June 9 the family of Governor-General Augusti fled to the interior for safety.

The Spaniards in Manila are reported as having shot thirty carbineros for attempting to desert to the rebels. Aguinaldo sent an ultimatum to the Governor that if more were executed he would retaliate on Spanish prisoners.

The Baltimore sailed to-day to meet the Charleston and troopships. The French warship Pascal arrived June 15. The German warship Kaiser is expected daily.

The United States transport Zafiro brought the news.

General Monet Killed.

Hong-Kong, June 21.—According to advices from Manila, dated June 17, it was reported there then that General Monet, coming southward with 3,000 mixed troops from Salacan, 30 miles north of Manila, found the railway line blocked, and was taken by ambush by the insurgents. Fierce fighting ensued, and was carried on for three days, during which General Monet was killed. The native troops joined the insurgents and the Spaniards who were left, about 500, surrendered.

Augusti Within Manila's Walls.

London, June 21.—The Daily Mail's correspondent at Madrid says:

"Captain-General Augusti telegraphs that he has gone into the walled city, and will be unable to communicate further with the Government."

San Juan Refortified.

St. Thomas, Danish West Indies, June 21.—I can state positively that since Sampson bombarded San Juan the fortifications there have changed materially.

On the hill back of the railroad station there have been mounted three six-inch guns. They are unmasked and easily sighted, but they command the bay.

Morro Castle has undergone many changes since the bombardment. All guns are now trained down to point at any angle.

Will Not Give Up Hobson.

Washington, June 21. — Commodore Watson has notified the Navy Department that General Blanco refuses to give up Lieut. Hobson and his men.

Madrid, June 21.—Premier Sagasta, when questioned on the subject yesterday, said nothing had been decided, "in spite of the American reports," regarding the exchange of Naval Constructor Hobson and his companions, who were captured by the Spaniards after they sank the collier Merrimac in the narrow channel leading into the harbor of Santiago de Cuba.

ROCKLAND'S STRIKE.

Men Say They Will Hold Out for Months.

SAY THEY DID NOT FORCE STRIKE

Mr. W. C. Edwards Also Gives His Side of the Story—Will Not Treat With the Men Collectively But as Individuals—Will Give a Ten-Hour Day and Pay Fortnightly.

Rockland, Ont., June 21.—The 600 mill hands and lumbermen employed at the W. C. Edwards Lumber Mills, who went on strike Saturday, are still out.

The men cannot, however, hope to hold out long, as they would starve in less than a week. A Journal reporter went among the men this afternoon and heard their side. They say they struck work because their hours were too long and because they were not well paid. They also say they are prepared to stand out all summer and will prevent other men taking their places. They did not force the strike.

The strikers are keeping a strict watch about the premises and will allow no one to pass through their lines. Yesterday 200 men stood about the gates leading to the mill, but they remained quiet and no disturbance occurred.

In the forenoon a gang of 200 men, having heard that Mr. Edwards was sending some men to Ottawa on their way to the drive, went to the railway depot and searched all the cars before the train left. It is understood that the ten men drove across the country. There is no appearance of the strike ending. A large number of the workmen have little or no food, and it is feared that when they get hungry something serious will happen.

A Clerk Seriously Hurt.

Mr. Edwards says that the reason he sent for the police was that two of the clerks were assaulted, one so seriously that he had to send for a city doctor in addition to the local doctors.

Mr. Edwards attributes the strike to a few firebrands. He says: "Although this year's business in lumber has not been good owing to the Spanish American war, and to the competition of southern pine, I paid the men the same wages as last year. At first I thought the wages would have to be reduced, but decided to pay the same rates for this year, anyway. Twelve years ago I voluntarily reduced the hours from twelve per day to eleven. Three years ago I reduced them to ten, and since then have been paying the men on a ten-hour day basis.

No Cause for the Strike.

"The men now work a day and a tenth, or eleven hours, but they are paid for the extra hour. Compared with other mill hands, my employes are well off.

"Among the things contributing to their comfort are these: Rentals are nominal; they get their wood for the cost of cartage; no charges are made for their water supply. In these particulars they are very well off, and at the same time they get wages equal to those of the b paid mill hands in other places.

"The wages vary from $2 for the paid hands to $1.25 and $1 for other h The wages vary according to th and the variety of the work. Some men and old men may get less th amounts.

"I reviewed the situation to and then told them I decli with them collectively or wh on strike. The arrangement men and myself are made individuals, and only in deal with them.

The People's Faith

Firmly Grounded Upon Real Merit —They Know Hood's Sarsaparilla Absolutely and Permanently Cures When All Others Fail.

Hood's Sarsaparilla is not merely a simple preparation of Sarsaparilla, Dock, Stillingia and a little Iodide of Potassium.

Besides these excellent alteratives, it also contains those great anti-bilious and liver remedies, Mandrake and Dandelion. It also contains those great kidney remedies, Uva Ursi, Juniper Berries, and Pipsissewa.

Nor are these all. Other very valuable curative agents are harmoniously combined in Hood's Sarsaparilla and it is carefully prepared under the personal supervision of a regularly educated pharmacist.

Knowing these facts, is the abiding faith the people have in Hood's Sarsaparilla a matter of surprise? You can see why Hood's Sarsaparilla cures, when other medicines totally, absolutely fail.

CANADIAN PORK IN GREAT BRITAIN.

The Canadian Grocer feels warranted in declaring that Canadian bacon has attained a unique position in the British market. In addition to statistics showing that the trade has increased from $1,800,000 in 1893 to $5,000,000, it cites the Grocers' Journal of London as stating that "while the fall in price on continental and Irish bacon has been very heavy, Canadian has dropped only a shilling or so, and last week remained unmoved amid a scene of tumbling quotations everywhere. This is because buyers are turning to it at all centres, knowing that the quality is all that they require." This is, of course, very pleasant reading to our farmers. But in the matter of hogs, as in cheese and butter, the necessity must be held in view of keeping up the standard of quality. The EXAMINER has frequently pointed out that the British market is the best in the world; that it is a hard market to gain and a hard market to hold. It demands only the best, and for the best a good price will be paid. This is emphasized in the matter of Canadian pork because the William Davies Company has issued a circular calling attention to deterioration in Canadian pork through feeding corn and clover, thus depriving it of the distinctive firmness which has brought it into favour in the British market especially in comparison with American pork which had the flabby character of corn fed pork. If farmers wish to hold the pork market in the old country they will, as in the matter of cheese and butter, keep the quality up to the highest mark. It has a good name now and it will be ruinous economy for the sake of the economy of using such foods, as clover and corn to lower its quality and bring it into disfavour—it will be killing the goose that lays the golden eggs. Keep faith. Keep up the quality and the market in great Britain will keep itself safe for the Canadian producer of prime pork.

EDITORIAL NOTES.

THE mosquito is your true cosmopolitan. In sweltering Cuba the United States troops suffer much from the skirmishings of the active mosquitoes, and in the frozen Klondyke, where the frost never leaves the lower strata of soil, he presents his bill with the persistence and industry of an insurance agent. In Saturday's Globe there is a picture of "Faith Fenton," the Yukon corresponpent of the Globe. She has tourist attire—abbreviated skirt and trousers and gaiters, and the picture looks as though she had a halo surrounding her clever head; but it is not a halo, it is merely the prosaic frame work for a netting to keep off the industrious mosquito. From the equator to the pole the mosquito is in perforating evidence. He is your true cosmopolitan.

The unprepared condition of the United States for war is emphasized by present conditions. After great struggle a force has been mobilized—mob-ilise, speaking in the military sense is the proper form—

and now they have nothing to feed them. The commissariat department is in a wretched condition; even when there is food there are no cooks to prepare the food. Troops can have little stomach for fighting if the alimentary ingredient is absent. It is stated that Wellington regarded the feeding of his soldiers as of such primary importance that on a certain occasion he condoned the action of Sir Thomas Picton, who threatened to have a commissary shot if he did not have a supply of bullocks ready for his division in twenty-four hours. The Quartermaster complained to the Duke of the threat. "Said he would have you shot, did he" was th reply. "Well then I would advise you to have the bullocks ready for he is just the man to do it."

DISCUSSING the question of the right of constables to vote at Provincial elections. the Forest Free Press says: "A great danger to the obtaining of an honest verdict at the polls would be caused by preventing constables from voting. Returning officers have all the powers of Justices of the Peace and may appoint and swear in as many special constables as they deem necessary at any polling place. Partizan returning officers or deputy returning officers (and some of them have political leanings) could legally thereby disfranchise scores of the supporters of the opposite party or compel them to remain on duty all day at the polls without remuneration, because those who are appointed to act as special constables must do so or incur a severe penalty. Suppose in a riding of fifty polling subdivisions the returning officer appointed one of the most active supporters of the opposite party to act as constable in each division, these fifty voters would be compelled to accept one of the three indignities—lose their votes, serve all day all as constables without pay, or incur the penalty provided for refusal to act. The returning officer would, under such conditions, practically control fifty votes. Under the present custom there is no control. Whatever tends to the disfranchisement of voters is contrary to the principles of representative government."

CHEAP MONEY FOR FARMERS

To provide cheap money for farmers is the task which the Government of British Columbia has taken upon itself. The plan to be acted upon is described as one of co-operative credit. Farmers, traders and and artizans are to combine and pool their assets, and lend to each other, according to their wants and the security they can give. Each partner will become liable for about two and a half times the amount of his shares. There will be a number of associations, with local boards of directors, addition to a general committee of management. The Government, too, is to exercise some supervision, before it guarantees the debentures of an association. Different kinds of security will be taken from borrowers, personal security for small amounts, and real estate security for larger sums. Members of the Government represent the condition of the B. C. farmers as unenviable, most of the farms, owing to the shrinking in value, being mortgaged for all they are worth. One object of the measure is to provide the means of paying off existing mortgages, which bear high rates of interest, and substitute for them others bearing a low rate; another to improve the land by clearing and drainage. Care will be taken that the money is spent in useful, productive work. The Government will do well to move cautiously on this new road. The necessity for feeling the way is felt. The path is beset by dangers, mostly in the region of the unknown and the unforseen.

THE LEITER WHEAT DROP.

In the collapse of Leiter's wheat speculations is seen another proof that it is not in the power of anyone permanently to corner the bread supplies of the world. What Leiter did succeed in doing was to make smaller the loaf of the man who had the greatest difficulty in obtaining bread. For a while he raised the price of wheat, by which the grower, in the exceptional cases in which he had not parted with it, benefited. Finally, he appears to have paid abeut $2,500,000 for the exhilarating amusement in which he engaged, on the wheat market. If the cause of his failure, as he sees it, be correctly reported, it is plain that he was wanting in ordinary sagacity. The prices of futures, he is reported as saying, went down more rapidly than present real prices, when, he perversely reasoned, they should logically have advanced. Precedent and probability, if he could only have seen the facts as they are recorded and discerned the truth in the outlook, should have taught him a different lesson. The price of wheat is generally highest in May, and the growing harvest is one of great promise. To sell in May was his only chauce of salvation, but he lost his balance and fell, being buoyed up with hopes which had no rational basis. Other enthusiasts will walk in the path in which he met his fate, and it will be no cause for regret if their end be like his.

FOR HOME WORK

Only the Best Goods Give Satisfaction.

Diamond Dyes, the World's Leaders, Do the Best Work.

When you bake you must use the best brand of baking powder; when making a jelly or custard pudding you must make use of the best flavouring extracts; when you sew it is economy to use the best sewing cotton; when you have home dyeing to do you should also bear in mind that your success and the safety of your materials and garments depend upon the brand of dye you employ.

When the Diamond Dyes are used you achieve marvellous successes. Your old, faded and dingy looking goods, after a bath in the Diamond Dyes are made as good as new. The colours are always brilliant, fast, rich and full.

If you unfortunately made use of some one of the many weak, muddy and worthless dyes sold by some dealers for the sake of long profits—well, you must be prepared for cruel disappointments and losses. The Diamond Dyes saves time and money, and are solid guarantees of success and good work.

DON'T WHIP THE HOGS.

Bemford Bros., produce merchants of Liverpool, England, and who have branch offices in New York and Chicago, in writing to the Collingwood Meat Co., regarding the shipping of hogs, say: "Our attention has been drawn several times to the fact that many of the sides, even in the leanest selections, show blemishes, doubtless owing to the fact of the hogs having been struck very severely before being killed. Apart from the fact of these being put into the first brand, we offer as a suggestion that it might be useful to call the attention of your Government to what we think is, in many cases, unnecessary cruelty, as well as actual loss, because, in some instances, claims would have to be met on this account. We think the matter is one worthy of your attention, and that through the government their department of agriculture would be very likely to arrest or diminish the evil.

In referring this letter to Mr. F. J. Colvin, local hog buyer, the Collingwood Meat Co. say: "We may just add that our losses lately from this cause have been very heavy, and steps must be taken at once to put a stop to the abuse. Sides that are bruised or whip-marked have to be sold as seconds, although otherwise first-class stuff. We are getting so much of it that we have decided in future to call these the same as fats and lights. There is no excuse for it, and if the farmers will persist in ill-using their hogs to our serious disadvantage, they must be made to pay for it.

"We would also point out that it would be better if the farmers could be induced to grow more of their hogs up to 180 or 200 lbs., which is really the choice average for our use, and there is no doubt that it is more profitable to the farmers to keep the hogs until say eight months old, allowing them to reach this weight than to sell earlier, and when hurried out in less than eight months they have not time to grow the required amount of lean meat. Kindly impress this upon the farmers in every possible way, as the tendency of nearly all the hogs now is towards fat through being forced along too fast, and we must do everything in our power to stop it, otherwise we cannot keep up the standard of Canadian bacon."

THE FRUIT OUTLOOK.

A member of the Globe staff, who has spent a day or two this week in examining the peach, pear, apple and small fruit farms in the Niagara Peninsula, reports as follows:—Crawford peaches will be light, in consequence of the "curl leaf," but hardier varieties will yield a fair crop, in some cases heavy; plums, pears and apples only a partial yield, but cherries, raspberries and blacks promise an abundant crop. It may be added that meadows will return from two to four tons of hay per acre, and fall wheat, oats, peas, etc., cannot fail, if present prospects are realised, to make this year a record-breaker. In fact there never was a more hopeful prospect for the farmer if the prices are at all satisfactory.

SUMMER WISDOM.

How to Prevent Fainting Fits, Dizziness and Other Hot Weather Dangers.

Keep the Blood Cool and Pure by Using Dodd's Dyspepsia Tablets—They are the Only Perfect Blood Coolers Known.

The hot weather is upon us. The sultry, perspiring, sweltering days are here.

These are the days when people are sunstruck, when so many fall in fainting fits on the streets. Hot weather deaths are numbered by the thousands.

People exhaust their ingenuity trying to "keep cool." Yet the blood gets overheated, goes up to boiling point nearly.

The heart sends it at fever heat to the brain. The brain grows dizzy, reels, a fainting fit follows.

The great point is to keep the blood cool. Then we can defy the hottest weather.

But how can we do this? "Cooling drinks," so-called, only make matters worse. So do alcoholic liquors.

Then what will keep the blood cool?

Dodd's Dyspepsia Tablets will. They cool the blood; they check the deadly rapidity of the circulation; banish the throbbing in the head and temples.

Dodd's Dyspepsia Tablets stimulate the sluggish digestive organs, supply pure, cool blood to the brain and invigorate the whole body.

Dodd's Dyspepsia Tablets not only cool the blood—they also enrich and purify it, by ensuring prompt, perfect digestion. Thus they strengthen the body in every part.

Dodd's Dyspepsia Tablets are the most perfect and effective blood coolers and blood purifiers on earth. They are just the thing to keep you cool and comfortable in hot weather. You should try a box of them.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2 50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

You Would Not Buy Your Wife A Calico Dress

But the handsomest silk in the store, and you wouldn't haggle about the price with the salesman either.

Then why buy her a cheap bicycle? It will never be satisfactory and will constantly require repairs.

You spare no expense to make her home labours light. Why buy her a wheel that runs hard and robs her cycling trips of all pleasure?

You would not permit her to expose herself to needless danger. Then why buy her a wheel that is apt to give out at a critical moment?

If you would be absolutely safe, buy her a Lady's Red Bird Special. It is the best there is to be had, combining beauty, strength and easy running qualities rarely found in a bicycle.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.95, in settlement of my $3,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz: a Paid-up Life policy for $6510.00, or a Life Annuity for $404.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

A PROVINCIAL LOSS

Which Aggregates No Less a Sum Annually Than $651,576 Capitalized at 3 Per Cent.

Toronto, June 21.—The annual report of the Provincial Instructor in road-making was published yesterday afternoon.

The first part treats of the money annually lost by farmers through faulty roads.

The report says: It is doubtful if there is a mile of true macadam road in Ontario, outside of a few towns and cities.

Little Better Than Trails.

A century ago the roads of Ontario, such as existed, and they were very few, were mere trails. To-day, notwithstanding the amount of money and labor placed on them, the majority are little better than trails. The populous districts of Canada are covered with networks of steel, while other lines are being projected wherever opportunity presents itself. But while capital has exhibited so much enterprise in providing the great lines of commerce, the lesser routes have been overlooked and neglected. Common highways, while less in extent and cost, are not one whit less in importance. Over them must pass all the freight which feeds the greater railways, and it is this first cost of transportation which so enormously increases the cost of production and lessens our ability to compete in the markets of the world.

Loss Capitalized Is Annually $651,576.

At three per cent. the annual loss to the province represents a capital of $651,576.

The report goes on to deplore the lack of systematic management, whereby much honest effort has gone to waste. Gravel, or even broken stone roads, built cheaply and well, is the requirement, and once built should be kept in repair.

The report says: "The first and greatest need of any and every system of road construction is to have one man at the head of the work to act as a general supervisor," and further, "a great many townships buy gravel by the load. This is very much like buying water by the pailful instead of digging a well. Gravel should be bought by the pit or by the acre, and should be available at all times for any farmer who wants to increase the value of his land by improving the road past it. Especial care should be taken by councils to see that, prior to the performance of statute labor, the pit is stripped and the gravel otherwise treated if necessary."

One Cause of Waste.

Then follows detailed instructions as to how roads should be made, with illustrations, and in this section the report says: "When wide tires have universally replaced the narrow tires which are now found on farm wagons, a great deal of the road question will be solved. Narrow tires of two and one-half inches in width have only one-half of the bearing on the road which would be provided by tires of proper width."

At the conclusion are a number of "briefs," containing the gist of the report, and which every farmer would do well to study.

An encouraging phase of the report is that on the "good roads movement," which evidences the desire of those interested all over the province to secure good roads.

ENJOYED BRIEF LIBERTY.

Frank Osler Released From Jail Only to Be Re-Arrested.

Detroit, Mich., June 21.—Frank Osler was arrested in Port Huron last winter for smuggling, and Uncle Sam fined him $2.50, besides six months in the Detroit House of Correction. Osler's time was up yesterday and as he swore he couldn't pay his fine he was let go. Osler walked out of the court room a free man, but was immediately arrested on complaint of a Canadian officer, Detective Murray, charged with breaking into a store at Sarnia and stealing the goods that he smuggled.

DYING BY INCHES!

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They *have cured* thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of *people are dying on their feet, but do not realize it.* They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their only hope is Dodd's Kidney Pills. They won't fail. They never do.

THE YUKON REVENUE.

A Remittance of $125,000 From Lake Bennett.

NAPANEE ROBBERY RECALLED.

The St. Lawrence River Has Dropped a Foot Since This Time Last Year—Hon. Mr. Fisher Going to Paris—The P.O. Savings Bank Interest Not to Be Reduced Until October.

Ottawa, June 21.—The perpetrator of the big robbery of the Dominion Bank in Napanee last fall, or some of his confederates, are in Ottawa. Part of the spoils secured in the robbery was 1,000 unsigned $10 notes on the Dominion Bank. During the past few days quite a number of these bills have been circulated in Ottawa, with the signature of the manager of the bank at Napanee, Mr. E. H. Baines, forged.

Revenue From the Yukon.

The Customs Department yesterday morning received from Lake Bennett a remittance of $125,000, collected there on goods coming into Canadian territory since the post was established at the first of this season. Last season's customs returns at Tagish did not amount to more than one-sixth of this amount, so that it can be safely said that the number of parties going in by this route, which last season furnished the sole means of ingress outside of the Yukon River, can be calculated as six times what it was last year. In addition to the White and Chilcoot Passes, there are the Stikine and Dalton routes, the former of which is used largely by Canadians.

There will have been up to the end of the fiscal year not less than a quarter of a million dollars in customs revenue taken out of the Yukon, this being by far the lesser source of revenue when the moneys gathered by the Interior Department are taken into consideration.

Dropped a Foot a Year.

Mr. Tarte has made an exhaustive examination on the St. Lawrence, including the deepening of the channel from Quebec to Montreal. He states that the Montreal harbor commissioners find the depth of water one foot less than it was at this time last year. This is discouraging to shipping interests, and all dredging work will be extended as rapidly as possible. There was 30 feet of water in all the channels, but this is certain to fall.

Personal and General.

Hon. Sidney Fisher, who is at present on a visit to the eastern townships, Quebec, will leave on July 2 for England. He will spend some time in Paris, arranging for the Canadian exhibit at the exposition there, and for which a grant was made last session of Parliament.

In view of the unsettled condition of the money market in consequence of the Spanish war, Hon. Mr. Fielding, Minister of Finance, has decided to postpone the reduction of savings bank interest until the 1st of October.

Iroquois, June 21.—Hon. W. S. Fielding, Minister of Finance and acting Minister of Railways and Canals; Sir Louis Davies, Hon. R. W. Scott and Hon. Clifford Sifton, accompanied by Collingwood Schreiber, Chief Engineer, Tom S. Rubidge, Superintending Engineer, and others, arrived here on the steamer Alert at 1 p.m. yesterday and were met by the contractors and a large number of citizens, who received them in a very loyal way, the object of their visit being to inspect the work on the canal. The vicinity of the lock was gay with bunting.

The contractors, Messrs. Larkin & Sangster, had arranged to have the Hon. Mr. Fielding, the acting Minister of Railways and Canals, lay the first stone in the wall of the lock, and as soon as lunch had been despatched and a sort of impromptu reception got through with, the party descended to the bottom of the lock pit, some twenty feet below the surface of the water in the river.

The Hon. Mr Fielding, after performing the ceremony usually incident to such occasions, used the stone as a platform from which to deliver a very neat little speech. He congratulated the contractors on the progress so far made, said it was the intention of the Government to get the canals completed at as early a date as possible, so that we would have all the advantages accruing from a fourteen-foot channel through our whole system, and expressed the hope that this might be attained early in 1899. The party then repaired to their boat and departed amidst the cheers of the crowd assembled. This is the largest lock on the St. Lawrence, and except at Sault Ste. Marie the largest in Canada. It is 800 feet between the gates, and the side walls will be 38 feet in height from the bottom of the pit. About eighteen feet of the pit has been excavated from solid rock. The contractors, who have some 1,100 men employed, were congratulated on the progress made.

Large Flour Mill Burned.

Oxbow, N.W.T., June 21.—The Oxbow Milling Company's flour mill was burned to the ground at 12 o'clock last night. There was no insurance. The fire is thought to be the work of an incendiary, no fire having been in the mill for 30 hours.

NO STRENGTH IN WHEAT.

Further Declines in European Markets and Another Slump at Chicago Latest Quotations.

Monday Evening, June 20.

Transatlantic wheat markets met Saturday's American decline by another drop to-day. At Liverpool futures were flat, with July 5½d per cental lower for the day, and the September and December options each 3d lower. At Paris, wheat closed down 10 to 25 centimes, with flour 15 centimes to 1 franc 60 centimes lower. Antwerp wheat fell 50 centimes to 1f 15c.

On this week's foreign news the Chicago market opened weak this morning, and all deliveries sold down from 1½c to 3c per bushel below Saturday's closing figures. On the decline, there was covering by shorts, and as a result September wheat closed ¾c and the December option ½c higher than on Saturday. The June and July deliveries, however, wound up the day 2c and ¾c, respectively, per bushel lower than the previous close.

Other American markets declined, while at Toronto Ontario wheat was quoted around 80c per bushel, with No. 1 Manitoba hard at 92c per bushel, afloat at Fort William.

A TORONTO CONDUCTOR.

Saved From the Agonies of Diabetes by Dodd's Kidney Pills.

Toronto, June 6—The Toronto Street Railway provides another case this week, to strengthen the mighty chain of proof that Dodd's Kidney Pills are the only cure on earth for Diabetes.

Mr. H. Hogg, 81 Fuller street, conductor No. 207, has been completely cured of an aggravated and long-standing case of Diabetes, by Dodd's Kidney Pills, after other so called "cures" had utterly failed.

Mr. Hogg suffered for three years with Diabetes and impure blood. He had to quit work, on account of dizziness, loss of flesh and increasing weakness. All other remedies that he used having failed, he agreed, to please a friend, to try Dodd's Kidney Pills. Improvement began at once, and six boxes effected a thorough cure.

Nothing else did any good, but the baby improved from the first dose of the Wild Strawberry."

Unequalled

Mr. Thos. Brunt, Tyendinaga, Ont., writes:—"I have to thank you for recommending Dr. Thomas' Eclectric Oil for bleeding piles. I was troubled with them for nearly fifteen years and tried almost everything I could hear or think of. Some of them would give me temporary relief, but none would effect a cure. I have now been free from the distressing complaint for nearly eighteen months. I hope you will continue to recommend it."

A Matabele on a Train.

Matyama, a Matabele chief, thus describes his journey on a railroad train: "Never did I see such a thing before. I got very tired of sitting in the train, so I went to sleep, and when I woke I found myself each morning in some new country. I have seen lots of towns, and I do not know now where these towns have gone to. Yes, I have seen the carriages that move without noise. They are like the fire wagons, but more wonderful. They run all alone. How were the white people created? We natives were made in one mold and the white people in another. We shall only meet when we die. The white men are wonderful. When I go back and tell my people that there are carts that run along without being dragged, they will tell me I am saying what is not true. That is because they are still foolish. Their eyes are closed, the country is yet dark, and they are blind because they have not seen."

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has influenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

Completed the Contract.

The Hastings Star says:—Last week Messrs. Finny & Gordon, of Peterborough, contractors of the new Presbyterian church here, completed their job. Though built at much disadvantage, on account of the lateness of the season when they began, and the bad state of the weather, they have done their part satisfactorily to the congregation and with much credit to themselves. They have proved themselves good workmen and thoroughly reliable men. The additional work, in placing a platform and walk in front of church and to the street, as well as extending a sidewalk along the east side of church, adds much to its appearance and convenience.

CONCRETE PAVEMENTS.

Plans and Specifications for their Construction Submitted.

At a meeting of the Street and Bridge Committee last evening there were present Councillors Dawson, W. H. White, Best, Hamilton and Mayor Davis.

Plans and specifications for the construction of permanent pavements on George street from the C. P. R. crossing north to Brock street, and on Water street from Brock to Murray, were submitted by Town Engineer Belcher.

It was decided to have the specifications printed and to advertise for tenders for the work at once.

A petition was received from the Toronto Savings and Loan Co., and others, asking for the extension of the sewer system on Charlotte street from Stewart to Park streets; on Park street from Charlotte to Hunter, and on Hunter street from Belmont avenue to Reid street. The town engineer was instructed to prepare the specification for the work to be considered at a special meeting on Wednesday evening.

THE STEAM ROLLER QUESTION.

Further Testimony to the Satisfaction it Gives.

Mr. Mayor Davis has received the following additional letters in reply to inquiries sent out in regard to the advantage of steam rollers used on the streets of towns and cities which possess such articles:

WOODSTOCK, ONT., June 18th, 1898.

A. L. Davis, Esq., Mayor of Peterborough;

DEAR SIR:—In reply to yours of the 13th inst. I beg to say that we purchased a Buffalo Pitts Steam Roller this spring for $3,300.00.

The roller is doing excellent work and giving first class satisfaction.

We were not, financially, in a position this year to put sufficient metal on the streets to get the best results from its work. We have been using screened gravel, and not enough of that.

I do believe that broken or crushed stone is the best, and in the end, the cheapest material for road making.

In a couple of years I do not think we will have many kickers (as to the roller) in the town.

If you have the metal and can afford to put it on the streets, I say, get the steam roller by all means.

Yours truly,
ANDREW MACKAY,
Mayor.

BROCKVILLE, JUNE 16th, 1898.

A. L. Davis, Esq., Mayor of Peterborough:

DEAR SIR,— * * Brockville invested in a steam roller in 1894. All the people of our town are deeply impressed with its usefulness, and those more immediately concerned feel it to be an absolute necessity. Nothing could induce anyone here to dispense with its services.

The work we did last year in grading, macadamizing and rolling extended to 15,345 lineal feet, or 2 9-10 miles, covered by a period of nine weeks' operation. In 1896 we treated in the same way 12,515 feet, or 2¼ miles, occupying a like period.

We occasionally grade and roll, without macadam, short sections of streets but it is not profitable to indulge much in this work when in earth or clay material. We have no gravel here, and the use of the roller is for the most part limited to the quantity of broken stone we can afford to furnish per season.

The cost of repairs per year has been trifling.

Yours truly,
W. B. SMELLIE,
Town Engineer.

PROMPT BEGINNING OF HER DEADLY WORK.

DREADFUL DESTRUCTION BY A BRITISH WARSHIP.

The Wash From the Launch of a Warship Drowns Fifty Persons.

Special to the Examiner.

London, June 21.—During the launching of the new British first class battleship Albion of 12,950 tons at Blackwall to-day, by the Duchess of York, the displacement of water caused an immense mass of water to rise on all sides, completely submerging one of the lower stages of the yard, and immersing hundreds of people. Ten bodies have thus far been recovered. It is estimated that *fifty* persons were drowned.

BOBCAYGEON NUPTIALS.

Wedding of Miss Sarah Braden and Mr. Henry McNeil.

A happy event took place at the residence of Mr. John Braden, Bobcaygeon, last week, when his daughter, Miss Sarah and Mr. Henry McNeil, of Lindsay, were united in marriage. None but the intimate friends of the parties were present, the bride being supported by her cousin, Miss Nelson, of Lakefield, and the groom assisted by his brother in Winnipeg. The party took the afternoon boat for Lindsay, Mrs. McNeil carrying with her the good wishes of all her friends.

THE PLAN OPEN.

The Godfrey Band Concert Will be an Event None Should Miss.

No one should say that they cannot afford to pay the one dollar or the fifty cents to hear Lieut. Godfrey's famous band, No one can afford to miss hearing it. It is the finest band in the world. There is no risk to be taken in the way of the band not being as represented. Its leader is known by all the English speaking world as the conductor of the Grenadier Guards Band, and the members of this band are all noted soldiers and celebrated musicians from Guards bands. A chance to hear such a musical organization only comes to the people of this district once in fifty years, and no one can afford to miss it. The date is Monday evening, June 27th.

The plan of reserved seats is now open at Ormond & Walsh's drug store. The seats are all reserved, and are placed at $1.00. General admission 50 cents.

"FACES THAT FOLLOW."

THE EXAMINER has before it a beautifully printed and neatly illustrated volume, issued in Wm. Briggs' best style, and that is saying much. The book, of over 200 pages, is by a former Peterborough lady, Mrs. E. M. Mason, wife of Rev. Thomas Mason, formerly of Peterborough, at one time pastor of the Bible Christian church, before the union. The book consists of a score of short essays, chiefly on religious subjects, written in a plain, elegant style and imbued with a deeply devotional spirit and well adapted to quiet hours, when the devout spirit feels inclined to separate from the world and commune with higher and holier things. It closes with an eloquent and appreciative "tribute of love to the memory of the late Frances E. Willard. This volume is extensively illustrated by live engravings from drawings by Mr. J. W. Bengough.

FINE NEW OFFICES.

Mr. T. Fitzgerald's New Coal and Wood, Bicycle and Horse Livery Offices.

Mr. T. Fitzgerald, the great fisherman and well known coal, wood and bicycle and horse livery man, has so many strings to his bow that it takes a good many words to give a comprehensive title to his fine new offices, corner of Charlotte and Aylmer streets. One word, however, describes them and that is A 1. The new offices are in the north end of his carriage warerooms and are fitted up with every regard to elegance and convenience. The public entrance is from Charlotte street. On the right of this entrance is the private office of Mr. Fitzgerald, and on the left is the counting room department. The offices are tastefully and conveniently furnished. The counting room opens in the rear on acovered passage way, which is, by the way, the weigh-way also. The platform of the weigh scales, is the floor of this covered way, while the registering arm is inside the office. The offices are lighted by electricity and are in every way models of convenience, elegance and of the importance of Mr. Fitzgerald's many sided and growing business.

A CHILD ABDUCTED.

It Was Left at the Nicholls Hospital and Was Given to a Strange Man Who Called and Asked for It.

George Moncrief was arrested last evening at his residence, just outside the town limits, in Monaghan, on the charge of abducting a child from the Nicholls Hospital on May 16th.

The charge, if proven, is a serious one, the extreme penalty in such a case being seven years imprisonment.

The child which was abducted was the second one belonging to Sarah Rose which the Children's Aid Society has had to take over. It is over two years since the child has been in the possession of the Associa- and at the time it was taken the mother stated her intention of getting it back. After being in the Protestant Home for four months it was adopted by Mr. and Mrs. Frank Ascot a year ago last January. Becoming infected with some serious disease the little one was sent to the Nicholls Hospital about six weeks ago. Yesterday Mrs. Ascot telephoned to Children's Aid Officer Miller asking how the child was and how soon she could get it back. Mr. Miller in making enquiries at the Hospital was astonished to learn that on May 16th a man had called for the child and that it had been given to him without his name being asked.

A description of the man was procured from some of the nurses who had seen him and an arrest was made, but the police had taken the wrong man. Two nurses and the Lady Superintendent then accompanied the police to the residence of Moncrief and he was identified by them as the man who had taken the child.

Moncrief, on being brought before the magistrate this morning was remanded until Thursday.

Sarah Rose, who is one of the York gang, was also aroused out of her slumbers last night, the police hoping to find the child in her possession, but it could not be found and the woman denied all knowledge of it.

The Seamer "Golden City" will run a trip to Stony Lake on every Tuesday, Thursday and Saturday until the 1st of July, leaving Lakefield on arrival of morning train from Peterborough, and returning in time to connect with evening train for Peterborough.

AS TO HOW THE CANAL AFFECTS LAND VALUES.

CHIEF JUSTICE ARMOUR SUING FOR DAMAGES.

The Dominion Government Placed in the Position of Defendant—Evidence of the Witnesses in the Court of Exchequer.

A session of the Court of Exchequer is being held before Justice Burbidge to-day, in the Court room, for the purpose of taking evidence in the suit for damages brought against the Dominion Government by Chief Justice Armour for damages done to his property by reason of the canal being built through it.

Messrs. Allan Aylesworth, Q.C., and B. B. Osler, Q.C., appeared for plaintiff, Justice Armour; Messrs. E. B. Stone and R. M. Dennistoun for the tenant, Henry Cox, and Messrs. E. B. Edwards and J. Williams Bannet for the Government.

The land in question, which it is claimed is depreciated in value to the amount of $20,000, half of its value, is the large 241 acre farm lying just east of the village of Ashburnham, including and surrounding the property known as "Armours' Hill" The canal cuts through the hill on the east side.

On behalf of the Crown Mr. E. B. Edwards, before any evidence was taken, stated that it was proposed to connect the two portions of the farm, which were separated by the canal, by means of a tunnel beneath the canal, and he asked that all evidence taken as to the depreciation of the value of the property be taken on this understanding.

Mr. Osler objected to this proposition, claiming that Mr. Edwards had not the power to pledge the government to the work, but Justice Burbidge ruled that it was in order, and gave Mr. Edwards twenty-five minutes to put his statement in writing.

Chief Justice Armour, in taking the witness box, stated that there was 221 acres in the property—about 110 acres in each half. In 1856 he had been offered $20,000 for the property. He was made the same offer again in the seventies, but refused, valuing the property then at $30,000. For the last ten years he had held the property at $40,000, valuing the last half as farm property, at $100 an acre, and the next half as town lots at $300 per acre. Seven years ago he had erected farm buildings on the east half at a cost of $3,000. This, in his opinion, raised the value of the farm lands to $120 per acre. If he had been living in Peterborough he had no doubt that he could have sold the west half for town lots long ago. In his opinion the presence of the canal reduced the value of the land on the east half to half its value —$60 an acre. The canal took away all the value of being near the town and reduced it to the value of a farm lying a mile and a quarter from the village, the tenant having to go around by way of the bridge to get into town. At present the tenant sold milk in the town and the being so convenient had been valuable for pasturage of town cattle. The tennant had been able to raise the amount of his rent through his pasturage fees. The canal took in 19 54-100 acres of the farm. He was satisfied in his own mind that the whole property was damaged to the extent of one half its value, and he had asked Mr. Geo. A. Pope, the government valuator, for $20,000. There was now only 60 acres left in the front half. This portion was injured to the extent of more than one half. He had intended running a road through the property to connect with the Norwood road and divert the traffic so that it would pass through his property. The road would have been more convenient and an easier grade than the present one. The presence of the canal would now prevent such action. The lots would now have to be laid out from a street along the the canal, which would depreciate their value. Forty acres of town lots had been cut off from the village and he would either have to attach this portion to the other farm lots or erect farm buildings on them at an additional expense. He had been recently offered $1,000 for an acre of the land just across the street from St. Joseph's Hospital. Another offer had been made of $4,000 for four acres on the hill, but he had not wished to sell the land in lots, preferring to dispose of it en bloc. The land had risen in value by reason of the steady increase in the population and assessment of the village and town. From 1880 to 1897 the population of the village had grown from 1202 to 1700 and the assessed value of the land from $370,000 to $459,401. In 1883 the population of the town was 4620 and the assessed value of the land $1,256,000. In 1897 the population had increased to 10,932 and the assessed value of the land in the corporation to $4 350,255. The proposed subway under the canal would not alter the depreciation in value. There would be no way of getting through it in winter, unless the Government would undertake to make it snow in there as well as outside. He was under the impression that the subway was for the benefit of the canal and lift lock rather than for his convenience. It was proposed to make the tunnel 125 feet long on a level.

Mr. Osler interjected at this juncture that if this was a fact it would be necessary to have a ladder to get down into the tunnel on one side and a ladder to reach the surface from it on the other.

Chief Justice Armour continuing, stated that the land on the east side being below the level of the canal, would also be damaged by soakage.

On being cross examined by Mr. Edwards the witness stated in answering to a question as to whether or not the land was gravelly or not, that the land was the best in the county for farming purposes, the stone being easily desintergrated by the rain and fertilizing the ground. He had not received an offer of five or six thousand dollars for damages, nor did he know such an offer was contemplated.

Mr. G. A. Pope was called to give evidence as to the price paid for other lands sold to the Government for the canal in the vicinity, and gave the following figures :

Mark Burnham, estate, 1 14-100 acres, $700.
John Burnham, 33-100 acres. $200.
Burhnam estate, 3.295 acres, $3,375.
Mark Burnham, estate, 5 12-100 acres, $2,315.
David Conroy, 30-100 acres. $140.00.
Jos. May, 14-100 acres, $700.
Miss Mills, 7.53 acres, $5,100
J. Matthews, 1 acre with dwelling on it, $2 800.
Thos. A. Armstrong, 33-100 acres, $360.
Mrs. A. Erskine, 3 22-100 acres, $810.
Geo. T. Hoskins, 3 acres, $2,250.
R. S. Tivey, 92-100 acres. $820.
T. F. Ludgate, 253-100 acres, $1,270.

Mr. Edwards cross-examined the witness as to whether the price paid for the lands had not been over their actual value on account of cutting across the rear of the lots in a slanting direction, and went into the question of special damages to certain properties.

At the conclusion of Mr. Pope's evidence the Court adjourned for luncheon.

CATHOLIC ASSESSMENT COMPANIES.

Interesting Summary of their Beneficient Function.

Although there are many Catholic insurance companies on the assessment plan doing business in Canada, the only one appearing in the annual statement of the Superintendent of Insurance at Ottawa, Mr. W. Fitzgerald, is the Catholic Mutual Benefit Association. According to the abstract for 1897 just published, the total amount paid by members during the year under review was $211.521; the number of certificates reported as taken 1,372; the amount of certificates new and taken up $1,761.400; the number of certificates in force at date 11,848; the net amount in force $17,899,500; the number of certificates become claims 117; net amount of claims $195.500; claims paid $189,000. The total assets of the company amount to $95,995, largely cash in banks. The total liabilities (not including reserve) are given at $44,117, mostly in unsettled claims. The excess of income over expenditure for the year was $15.239.

In connection with this it may be stated that a special meeting of the local branch is called for this evening. Matters in regard to the meeting of the Grand Council in Quebec in August will be dealt with.

MANNING THE YARDS.

A Naval Ceremony That Is Not What It Used to Be.

In the old navy, when United States ships were actually ships with yards, the bos'n's mate's call, "All hands cheer ship!" was followed by a much more picturesque ceremony than is possible now, when the vessels of the navy are fitted with but a single yard and that only used for signaling. At the word of command "Man the yards!" there was an amount of acrobatic scurrying on the main decks of the old ships that was calculated to make the ship visitor hold his breath, the thing looked so dangerous. The men forward in bluejacket uniform would fairly leap up the rope ladders, and almost by the time the echoes of the command had died away every yard on each mast would support scores of men and boys, all standing erect, most of them only held up by the crossed arms of the men beside them. This representation of a cross was held by all of the men, and it was their business to stand thus with absolute statuesqueness. Then the command "Cheer ship!" would be bawled out on deck by the chief bos'n's mate, and there would be a yell from cathead to mizzen that couldn't help but warm the blood of everybody within hearing of it. When the men manned the yards with all sail except topsails and stunsails set, such a picture was really beautiful, the men's uniforms of blue standing out in sapphirelike contrast to the cameo whiteness of the shrouds. This was a ceremony on all formal occasions, such as the visit aboard the old ships of distinguished men. And "Man the yards!" and "Cheer ship!" were commands always given when one of the old clippers of the United States navy was either departing for or arriving from a foreign station.—Washington Star.

WOMAN.

THE HEALTH OF A NATION DEPENDS ON THE HEALTH OF ITS WOMEN.

22 POUNDS GAINED.

I had been a sufferer like a great many other women with a disease peculiar to my sex. I tried every thing I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color, and my friends were alarmed. I consulted a doctor of this town and he said I would never get better; that I would always be sickly and delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and eighteen pounds, and I now have a constitution that is hard to beat. I have not suffered any pain in months, and earnestly hope that Dr. Ward's Blood and Nerve Pills will reach every woman suffering as I did. Sincerely yours,

A BITTER CRY.

"Send Us Provisions or Boards to Make Coffins."

St. John's, Nfld., June 20.—The British steamer Aviona, bound for Pilley's Island, to load ore for Philadelphia, has arrived here, after four days confinement in northern ice floes. She reports that the ocean is covered with ice fields, and that there are thousands of icebergs along the coast.

She also reports that four tramp steamers are blockaded at Twillingate, and that the mail boat Virginia Lenke is also blockaded and is unable to reach White Bay with provisions for the destitute fishermen.

Heartrending reports of suffering and starvation are reaching this city from French shore settlements. Seven persons, it is said, have died of hunger in St. Anthony, where the poor are living on dry codfish, doled out by the residents. If a steamer does not reach there soon with food, it is feared scores will perish.

From Quirpon to Cape Norman there is not a barrel of flour. In a small cove at the bottom of White Bay six families are reduced to half a barrel of flour. Five men walked across the bay, looking for a trade schooner. When they found it they were like living skeletons and nearly dead. They informed the captain, who gave them some provisions. They said that if they failed to get back within a week all their families would be starved to death.

Another case is reported where a family had been existing on a loaf of bread for six days. The Rev. John Lynch, a Catholic priest, residing in Conche, despatched a messenger to Tilt Cove with a telegram couched in these appalling words: "Send on provisions at once; if not, boards to make coffins."

Destitution is also reported in Salmon Cove, Perry Cove and other places in the Bay de Verde district. The weather is bad and trade is unusually depressed.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 197) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

Cost of a Door Handle.

The esthetic person who desires a unique door handle for his favorite room must pay for the privilege. Forty, fifty, even seventy-five, dollars may be the cost of the first door handle made after a new pattern. The metal is worth perhaps only a few cents, but the labor comes high. First the architect draws the design and submits it to the manufacturer that is to finish the handle. He turns it over to his modeler, who makes an exact pattern of the handle and lock in clay or plaster. Every line that is flat in the design is raised in this pattern, and the more elaborate and intricate the decoration the more difficult his work. The pattern is then given to the man who makes the mold, or oftener several molds joined together, known as gates. These are usually of plaster, and the molten metal is poured into them without in anyway affecting the plaster.

When the metal is cool, the handle is taken out, a thing of beauty and expense, for the architect, the pattern maker, the mold maker and the man who pours in the metal must all be paid for their work. The first door handle only is thus costly. When the mold is once made, the price of a door handle decreases according to the number made, so that the five hundredth door handle costs scarcely more than the metal put into it.—New York Sun.

ECHO OF A TRAGEDY.

STORY OF A PORTRAIT AND THE MAN WHO STOOD UNDER IT.

The Man Belonged to a Noble French Family, but Was an Impoverished Exile—Original of the Portrait the Cause of His Family's Ruin.

The family had rented a house in the mountains not far from New York. The region had been settled as early as any in the country hereabout, and the houses were as fine specimens of old colonial residences as any available for summer occupancy. So the New York family settled themselves there with satisfaction. The house had been for a great many years the home of a family well known in the history of the United States.

The usual decorations of the house were not disturbed by the summer tenants. The family portraits hung about the walls, and over the mantel in one room was the picture of a woman. Just who she was the summer occupants of the house took no trouble to learn.

There came to this old country town a young foreigner who had an American wife. He was cultivated, refined, polite, everything that a man of old title and good position should be. But there were some qualifications for his place in the world that he did not possess. He was poor, desperately poor, with a threatening burden of debt. His wife had nothing beyond her beauty and her devotion to him. It was late in the autumn when they arrived, and the first of their visits to the country brought them to this old village. They knew the New Yorkers living in the old house and an invitation brought them to the place.

Pure accident led the young nobleman to stand after dinner with his elbow on the mantel under the portrait of the woman. The room was large and shadowy, and the lights were low. Probably he never saw the face.

Possibly he would not have recognized it. But it had, nevertheless, exercised a large influence upon his fortunes. It was through the influence of the woman whose portrait hung in the living room of the old New England house that this young man was an exile from his own land because he had not the fortune to live there, and this although she died before he was born.

One of the guests at dinner that night knew the original of the portrait and her history. He knew the young man, too, and when he saw him and the portrait so close together the "long arm of coincidence" seemed to have reached as far as it could stretch.

"The young man who was standing tonight under that woman's portrait," the guest said, "might have carried one of the most exalted titles in Europe today and might have had one of the largest private fortunes had it not been for that woman. She was perhaps the innocent cause of this young man's ill fortune, just as she was supposed to have borne no part in the evil that brought a famous tragedy on his ancestors. She was an English governess in the family of a French duke. He was rich and his family ranked with the oldest. His wife was as proud as he was, and when there came into her mind a distrust of the English woman's honesty and the duke's fidelity, it was not a matter which she allowed to pass with the lightness which people are accustomed to associate with matters of this kind in French society. She demanded that the girl be driven from the house, hurriedly and ignominiously, with no chance for question or justification. The duke defended her and himself from his wife's charges, and said that the woman could leave the house under circumstances in which she could carry her reputation with her. But he refused to turn her out at his wife's command. The duchess went, so long as the English woman was allowed to remain.

"After awhile the duchess returned to her home. It was understood that the English governess was to leave, now that her departure would not reflect on her good name. The night on which the duchess came back found her husband preparing to take his children out to an evening entertainment. They remained away late. When they returned, the duke asked the first footman he met at the door:

"'Is madame la duchesse at home?'

"'She is, sir.'

"'And where is she now?' the duke asked.

"'She went to her room early,' the man answered, 'and her maid just told me that she was sleeping.'

"The duke passed into the house and the children went to their rooms. It was known that the duchess was passionately in love with her husband, and her absence from the house had caused talk among the servants. The duke had every reason to love her, as a great fortune had come into the family through her. He went that night directly to his own rooms. His presence in the duchess' apartments during the whole of the afternoon had attracted the attention of the servants, although none of them had been admitted while he was there.

"Early in the morning the entire household was aroused by the shrieks of a woman. They came from the duchess' rooms. The servants rushed to them, and the duchess was discovered dead. She was covered with blood, and her murderer had hacked her body brutally. Her husband was one of the first to enter the room. The police were called, and in a few moments they were among the group standing about the murdered woman's bed. The first person to make any charge was the duke. He ordered the police to arrest one of his valets.

"'That man was the only one awake in the house when I retired,' he said, 'and that was late. Arrest him.'

"'Better go to the duke's rooms than arrest me,' cried the man, 'and see the bloody towel that I found there a moment ago.'

"The police ran into the room, and the evidence was there. When it came to moving the duchess' body, the heavy bed suddenly collapsed as soon as it was touched and the thick curtains fell down over the body. Then the duke's presence in the room that afternoon was explained. The bed had been arranged to collapse as soon as the duchess lay in it, and the weight with the draperies was enough to have suffocated her. The duke's visit to the circus and the eager inquiries about the duchess on his return became clear. He was arrested, his guilt was proved, and one week after his wife's death he poisoned himself.

"The police advised the governess to leave France. She came to the United States. She was the wife of the man who owned this house, and it is her portrait that hangs over the spot where that young man stood and smoked his cigarette. The family fortunes were lost through her indirect agency, and the family name was never so proud again. But I don't believe he knew whose the portrait was."—New York Sun.

NEWSPAPER RIGHTS IN NEWS.

Mr. F. R. Daldy Proposes a 24-Hours' Copyright Law.

London, June 20.—F. R. Daldy, the well-known copyright expert, has made an important proposal before the select committee on copyright. He urged that the vexed question of newspaper rights in news be fairly met by a 24 hours copyright. He promised that his views would be corroborated by the manager of the Times, whose demand for a perpetual copyright has been a great obstacle to this step. It seems probable that copyright in news will be established after nearly 60 years' agitation.

CHOKED BY A PIECE OF MEAT.

Louis Reid Meets With a Not Unusual Accident.

Milverton, June 20.—A fatal accident happened in the hotel at Brunner Station on Saturday, when Louis Reid, a laborer, about 40 years of age, choked on a piece of meat while eating his dinner. Assistance was obtained in vain. He died almost instantly. The body was interred in the cemetery here about 11 o'clock the same evening.

The things that people see are inside of them and not outside of them. No two people see the same thing exactly alike. One woman may look at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look at the same scene and see nothing. The man who is perfectly well and vigourous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Medical Adviser," profusely illustrated.

Why Did England Not Do It?

London, June 20.—It is announced that Great Britain will not hold her usual annual naval manoeuvres this year. This has caused much speculation as to the reason for this step. In some quarters it is said it is due to lack of coal, owing to the Welsh strike. But in other quarters it is believed that important events are in sight. The officials of the British Admiralty decline to give their reason for abandoning the manoeuvres, but say it is not because of lack of coal.

A Canadian Millionaire Dead.

Halifax, N.S., June 20.—William Miller, principal member of the wholesale drygoods firm of Murdochs' Nephews in Halifax, New York and London, died in London Sunday. He was one of the wealthiest men engaged in business in Canada, being, it is stated, worth many millions.

Thousands of men in lonely homes call up the pictures of the loved and lost ones, who might still be happy husbands with healthy babies prattling at their knees, if they had only been a little more observant and thoughtful. When a woman's complexion gets pale and sallow and her eyes look heavy; when she is evidently nervous and despondent, and complains of pains and aches and dragging down and burning sensations; a wise man should know that she is suffering from weakness or disease in a womanly way. The thoughtful man who realizes this will at once advise his wife to consult some eminent and skillful specialist. He will know that the average physician will insist upon the obnoxious examinations and local treatment so embarrassing to modest, sensitive women. He should know that these ordeals are unnecessary. Dr. R. V. Pierce is an eminent and skillful specialist, who has been for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. During that time, with the assistance of a staff of able physicians, he has prescribed for many thousands of women. He is the inventor of a wonderful medicine for the special weaknesses of women, that cures in the privacy of the home. It is known as Dr. Pierce's Favorite Prescription. It makes the delicate and important organs that bear the burdens of maternity strong, healthy and vigorous. It corrects all irregularities and stops all debilitating drains. Medicine dealers sell it and have nothing "just as good."

W. R. Malcolm, Esq., of Knobel, Clay Co., Ark., writes: "My wife for perhaps four months previous to the birth of our child took the 'Favorite Prescription.' This strengthened her entire system, and child-birth, to her, was very easy, being attended with little pain. Our baby Ruth is 13 months old and she has never been sick a day."

INDIAN MAGIC.

It Is Often Beyond the Power of the Wisest to Explain It.

One need not go to the realms of space, or time, or figures to meet with the incomprehensible. Despite modern science and ingenuity this word still remains the only applicable epithet for some of the achievements of Indian conjurers. We can smile at the lunrinous appearance of the beautiful face before which as the revelation of Osiris the old Egyptians prostrated themselves in awe—for the marvels of the magic lantern are familiar to us, the early existence of gunpowder gives an easy explanation of the oracle's lightning and thunder, the weird harmony of Memnon was merely the result of an ingenious mechanical contrivance—but shrewd travelers of later date, whose veracity is beyond dispute, tell of much more inexplicable things than these. One of the best known writers on occultism, Jacolliot, has left an account of certain things he saw during his official sojourn in India which, as they seem to defy explanation, may fairly be classed among things incomprehensible. The performer was one whom he accidentally met and who required some persuasion before he would exhibit feats which, he continually affirmed, were the work of other intelligences.

On some sticks fixed upright in flowerpots were placed some leaves from a tree, with holes in each sufficiently large to make them fall to the level of the mold. Standing at a considerable distance, the fakir made a gesture with his hands. A slight breeze seemed to pervade the room, then the leaves quivered and gradually worked upward on the sticks. Jacolliot placed himself between the flowerpots and the operator, placed the sticks in the flooring and adopted every means he could imagine to frustrate any trickery, but nothing he did made any difference to the movement of the leaves.

The more familiar feat of the seemingly supernatural growth of flowers was utterly eclipsed by another instance vouched for by the same narrator. His own servant brought him a score or so of seeds, from which he selected and marked one. The fakir planted it in a pot of earth, muttered some words over it and fell into a sort of trance, which lasted about 50 minutes. He then awoke, uncovered the pot and discovered a seedling two or three inches high. Jacolliot examined it and found it had sprung from the seed which he had marked.

With a touch of a peacock's feather the fakir depressed a balance of a common weighing machine in daily use in the household, though in the other was a weight of 12 stone, and with a distant motion of his hand he made shavings of wood to sink or move in water. Still more marvelous is the description of the manner in which this veritable eastern wizard was able to set at defiance the law of gravity. On this occasion, when leaving the room, he paused on the threshold, folded his arms, and, by a simple act of volition, raised himself from the floor and remained poised in air for some minutes.—London Standard.

TURGENEFF ABHORS SPORT.

How a Dying Pheasant Influenced His Whole Career.

The celebrated Russian novelist, Turgeneff, tells a most touching incident from his own life, which awakened in him sentiments that have colored all his writings with a deep and tender feeling.

When Turgeneff was a boy of 10, his father took him out one day bird shooting. As they tramped across the brown stubble a golden pheasant rose with a low whir from the ground at his feet, and with the joy of a sportsman throbbing his veins he raised his gun and fired, wild with excitement, when the creature fell fluttering at his side. Life was ebbing fast, but the instinct of the mother was stronger than death itself, and with a feeble flutter of her wings the mother bird reached the nest where her young brood were huddled, unconscious of danger. Then, with such a look of pleading and reproach that his heart stood still at the ruin he had wrought, and never to his dying day did he forget the feeling of cruelty and guilt that came to him in that moment, the little brown head toppled over, and only the dead body of the mother shielded her nestlings.

"Father, father," he cried, "what have I done?" as he turned his horror stricken face to his father. But not to his father's eye had this little tragedy been enacted, and he said: "Well done, my son. That was well done for your first shot. You will soon be a fine sportsman."

"Never, father, never again shall I destroy any living creature. If that is sport, I will have none of it. Life is more beautiful to me than death, and since I cannot give life I will not take it."—Atlanta Constitution.

A GLOBE REPRESENTATIVE

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

Toronto, June 20.—(Special).—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parnham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

THE FIRST COTTON MILL.

Washington's Diary Places Its Location In Massachusetts.

Several different towns in the United States claim the unique distinction of having erected the first American cotton mill, but from the best information that can be obtained it seems that the credit properly belongs to the town of Beverly, Mass.

The circumstances leading up to this discovery may be of interest to our readers. Some years ago Mayor Hantoul of Salem, Mass., was invited to Pawtucket, R. I., to attend the centennial exercises held at that place in commemoration of the opening of the famous Slater mill. In sending out invitations to this centennial event the owners of the mill claimed it to be the first establishment of its kind ever erected in the United States. For some reason Mayor Hantoul was unable to be present at the exercises; but, being deeply interested in historical researches, he decided at his leisure to investigate the claims of the Pawtucket mill owners. This investigation led to the discovery that the old cotton mill at Beverly, Mass., which was burned down in 1838, had been in operation for several years prior to the establishment of the mill at Pawtucket, and that no less a witness than General Washington himself could be cited in confirmation of the fact. It seems that General Washington, while on a tour of the New England states in 1789, made a visit to the old Beverly cotton mill and was so impressed with the novelty of the spectacle that he devoted several pages of his diary to its description. This old diary is still to be found among General Washington's papers.

As the researches of Mayor Hantoul seemed to settle the matter beyond all controversy the residents of Beverly, Mass., caused a handsome tablet to be erected on the site of the old mills, commemorating the establishment of the first enterprise of its kind ever inaugurated in the United States.—Pittsburg Dispatch.

An Arab Proverb.

Who can affirm that the mule entered the jug?

This proverb is frequently quoted to show that, though one may conscientiously believe in a thing which may seem extravagant in itself, it is better not to repent it from fear of being disbelieved. It arises from the following Arabic legend: An Arab who denied the existence of genii bought a mule and took it home. When performing his evening ablutions, he saw the mule enter a jug, and this so scared him that he ran shouting to the neighbors and told them what he had seen. They, thinking him mad, endeavored to appease him, but all in vain. He vociferated more and more, so that the authorities sent him to the madhouse. When the doctor came to see him, he repeated the account of what he had seen, whereupon the doctor ordered him to be detained. He continued upon each visit of the doctor to repeat his statement until his friends succeeded in persuading him that if he wished to regain his freedom he must recant. This he did, and the doctor set him at liberty, to the great joy of his family and friends. On making his ablutions as before he again saw the mule, this time peeping out of the jug, but on this occasion he contented himself with remarking to the mule: "Oh, yes, I see you well enough, but who would believe me? And I have had enough of the madhouse." Needless to say that the genii, to avenge themselves for his disbelief in them, had transformed one of themselves into a mule and as such entered the jug.—Cairo (Egypt) Sphinx.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

WHISTLING WELLS.

Natural Barometers Which Foretell Storms In Wisconsin.

A freak of nature which is attracting considerable attention is a series of blowing or "whistling" wells located in the northern part of the town of Eureka, in Polk county, Wis. There are six of these hysterical wells, ranging in depth from 120 to 160 feet. The one owned by James Coltin exhibits most remarkable features. This well is 120 feet deep and was dug 15 years ago. The first 20 feet was hardpan and the rest coarse gravel.

Before a rainstorm the wind blows out of this well with great force, making a roaring sound that can be heard a long distance. The wind is so hot that water placed on the cover of the well will boil. The wind blows out only before a storm, and the severity and duration of the storm are always in exact proportion to the force of this current and its duration before the storm commences. It is therefore an accurate and trustworthy barometer, or vice versa, with equal accuracy, but remains quiet in settled weather.

In winter a current of air is drawn in before a change of weather just as forcibly as it blows out in hot weather. This current will freeze the water 120 feet from the surface of the earth as quickly as it would at the surface, and, though many attempts have been made to use a pump in the well, they have all failed, and a number of pumps of different makes have been destroyed by the water freezing and bursting the cylinders and pipes.

The other five wells, which resemble this one in many respects, are all located within the radius of about one mile and vary in depth from 130 to 160 feet.

All sorts of theories have been advanced concerning an underground passage, but no outlet has ever been discovered, and if there is one it must be a great distance away in order to foretell the approach of storms so long a time in advance.—Philadelphia Record.

A Sarnia Shoemaker

The Pains and Aches all Driven from his Back by **Doan's Kidney Pills.**

The peculiar position that a shoemaker has to sit in while at his work is hard on the kidneys. They get cramped and strained by the constant bending over. Then the back begins to ache. No use trying to take out the aches with liniments and plasters. You must get at the kidneys, which are the cause of the trouble.

The remedy for sick kidneys is Doan's Kidney Pills. The best remedy for all kinds of bad backs—lame, weak and painful backs, is Doan's Kidney Pills. Mr Thos. Calladine, the well known shoemaker has found this out, and here's what he says about it:

"Some years ago I was attacked with pain in the back, which has constantly grown worse, and was especially severe in the morning.

"Since taking Doan's Kidney Pills I am perfectly cured. I have no more trouble with the pain and am greatly improved in general health."

Doan's Kidney Pills are the only remedy in the world for backache, Bright's disease, diabetes, dropsy, urinary troubles, rheumatism, lumbago, puffiness and dark circles under the eyes, urinary weakness in children, female complaints, severe headaches, feeling of languor, etc. Sold by all druggists or sent by mail on receipt of price, 50 cents a box or 3 for $1.25. Spanish Real Estate.

It is Mark Twain who observes, in one of his sketches of travel in foreign parts, that the reason there is comparatively little arable land in Spain is because the great majority of the Spanish people are in the habit of squandering it on their persons, and when they die it is buried with them.—Boston Herald.

A Significant Story.

A wealthy oculist giving some final directions to a patient frowned as he saw her tie a finely dotted veil over her face.

"Always buy that kind and wear it habitually," he exclaimed ironically. "Every dot in it is worth a sovereign to me and it will accustom you to floating black spots. Good morning."

Through his private office he watched the lady go out veilless.—London Standard.

Scott's Emulsion is not a "baby food," but is a most excellent food for babies who are not well nourished.

A part of a teaspoonful mixed in milk and given every three or four hours, will give the most happy results.

The cod-liver oil with the hypophosphites added, as in this palatable emulsion, not only to feeds the child, but also regulates its digestive functions.

THE JUNE SESSION OF THE COUNTY COUNCIL

THE READING OF THE WARDEN'S ADDRESS.

Numerous Topics Touched Upon—Referred to the Committee of the Whole Council.

Tuesday, June 21.

The June session of the County Council opened at the Council Chamber in the Court House this afternoon.

There were present, the Warden presiding, and Messrs. Hawthorne, Casement, Middleton, Fitzgerald, Brown, Shaw, Eastland, Anderson and Peck.

After routine, the first business was the reading of

WARDEN'S ADDRESS.

To the Members of the County Council of Peterborough in Council assembled:

GENTLEMEN,—In accordance with an established precedent, I will ask your indulgence for a few minutes. I first feel there are happily ample reasons whereby I can offer you and the residents of our county my most hearty congratulations that the era of long-deferred better times is now apparently becoming fully consummated. It would be impossible for you not to have noticed with pleasure the general and remarkable advance in the values of most farm products beyond the anticipation of many of our farmers, who constitute by far the greater proportion in the population of our county. This result must have been eminently satisfactory. It has been estimated by experts that at least eight millions of dollars extra have been realized on the grain delivered at the advanced value in the Dominion of Canada. This great boon has not come any too soon. The long depression of farm products would have proved more disastrous to many who have incurred liabilities in purchasing or improvements of their farms were it not for the practice of the most frugal economy and industry, and I trust they may now be enabled to

REDUCE THEIR LIABILITIES

and purchase more freely and pay for their varied requirements promptly, thus stimulating and extending in many directions the trade of the country. With the most promising and encouraging prospects of the most abundant harvest that has greeted us for many years, and with remunerative prices for most farm products, the present is most encouraging, with the exception of cheese, which, unfortunately, appears depressed on account of the surplus at present on the English market—a product which has been of incalculable benefit to a great number of the farmers in our county during the depression in prices of other farm products, I trust there may be hopes for improvement in prices as the season advances.

Among the manufacturers and other industries there is also a marked improvement and business generally is reported over the country as more satisfactory.

I am fully convinced we have within the boundaries of our own county vast and varied mineral resources, including gold, silver, lead, mica, corundum and iron, and I hope the day is not far distant when more attention will be given to this important source of mineral wealth at our very door. It may not be generally known we have now on lot 20, in the 1st concession of Belmont, the Cordova Gold Mining Company, of English capitalists,

SUCCESSFULLY OPERATING

their gold reducing mill. The machinery, together with all the plant, was built in our county town by that old and reliable firm, the Wm. Hamilton Company, Limited, who have distinguished themselves by their enterprise in producing the most modern and up-to-date mining machinery in the market. Such manufacturers as this, also the Peter Hamilton Company, Limited, so long and favourably known for the variety and excellence of their products of agricultural implements, give prominence to our town and county, the length and breadth of the Dominion. A county relying solely on its producing agricultural products can never become self-reliant and prosperous. Manufacturing, mining and the varied kindred industries which give employment to skilled and unskilled labour build up towns and villages, and create a market for the product of the farm with more remunerative prices than can be obtained if sent abroad. The nearer the producer to the consumer the better.

The declaration of war upon Spain by the United States for the avowed purpose of terminating the insurrection in Cuba caused by the iniquitous oppression of Spain, and demanding that Cuba may become a free Republic, has caused a rude awakening among our neighbours in realising the great horror of war which may cause the

LOSS OF THE LIVES

of many of their citizens and the expenditure of hundreds of millions of dollars. I most truly trust our friends and neighbours to the south of us may in their pronounced recognition of kin, and sudden growth of a kindlier feeling towards us, and more particularly our Mother country, be sincere and lasting; still one cannot but smile in contrasting those sentiments with the newspaper thunderings of war with England over the Venezuela question but recently, and ask oneself can it be a case of a great and powerful nation making a virtue of necessity in recognising the indisputable fact that our Mother Country, to whom we are so loyally and lovingly attached, is mistress of the seas. But in recognition of this kindlier feeling towards us and the Mother Country, we may express our sincere desire for the speedy restoration of the blessing of peace to our friends and neighbours of the United States, and pray that the evidence of good will and peace may long continue as now evinced towards us and our beloved England.

In now referring to the important business that will require your consideration at this, the most important meeting of the year, will be the equalization of the assessment rolls, receiving and passing the auditors' report, which shows our finances in a satisfactory condition. I have pleasure in reporting the completion of Steele's bridge in Asphodel, which has been accepted by our county engineer, and on his certificate

I HAVE GIVEN AN ORDER

for payment to the Dominion Bridge Co. It is a substantial structure. The pier and boom at Hale's bridge have been completed satisfactorily to the joint committee of Northumberland and Durham, the plans were submitted and re-located approved by Mr. R. B. Rogers, superintendent of the Trent Valley Canal. This improvement of the navigation will be of advantage to steamships passing through the swing bridge.

The bridge known as Comstock's bridge in Asphodel is about worn out, and it is a question I would like you to decide, whether it would not be economy to erect a new bridge and straighten the course of the stream, thereby shortening the bridge and filling the approaches rather than making temporary repair, as you have authorised me to do. The Burns bridge in Douro has been reported to me to be in a dangerous condition. The County Engineer has recently had temporary strengthening placed under it, and made measurements which he will submit to you, as he believes you will have to consider the matter of a new bridge this season. The floating bridge at Chemong Lake has escaped without injury the breaking up of the ice this spring, and therefore there has not been any expenditure by either the county or town, who in recognition of your claim that they should bear a portion of the cost of rebuilding and maintaining the same,

APPROPRIATED THE SUM OF $250

towards keeping the bridge open for traffic until such time as the matter under discussion with your committee with reference to a new bridge is definitly settled between the county and town, as you have decided, and I believe justly, unless assistance is given toward the necessarily large expenditure incurred in rebuilding and maintaining this bridge, it must be closed. Mr. Costello, Reeve of Ennismore, has furnished me with an accurate account of the number of vehicles crossing this bridge for seven consecutive days last month which shows the necessity of keeping the bridge open for traffic to the town of Peterborough and its markets. As no final decision was arrived at between your joint committee and the town as to the erection of a bridge, for which your engineer Mr. Belcher made measurements, plans and specifications, he recommended a partial filling of the lake, the expenditure of which would be considerable. It was suggested that application to the Dominion and Provincial Governments be made for grants towards the cost of rebuilding a portion of the bridge and filling the remainder of the lake. Mayor Davis arranged for an interview with the Hon. Mr. Blair, Minister of Railways and Canals, for the 11th of May last, when the joint committee of the town and county, accompanied by Mr. Belcher, Mr. J. R. Stratton, M. P. P., with other members of the committees ably pressed our case before the Minister, who appeared to be favourably impressed with the arguments adduced, and promised the deputation that upon receiving

A REPORT FROM HIS ENGINEERS

he would give the matter his careful consideration and advise us of his decision. As yet we have no reply.

Messrs. Anderson, Casement and myself have had two meetings with Mayor Davis and Messrs. McWilliams and Langford of the town council, with reference to that long-deferred question of a House of Industry and Refuge for the aged and otherwise destitute residents of the county and town. We assured the town committee of the county's willingness to comply with the terms of a resolution passed by the county council on the 15th June, 1894, wherein it was expressly stated the county's willingness to erect and maintain such an institution if the town of Peterborough will join with the county in such erection and maintenance, the proportion of the town's expense, if not mutually agreed upon, to be decided by arbitration. Much discussion has taken place but I am sorry your committee are unable to report any material progress towards consummating this desirable object. Until such time as the town can decide it is expedient and desirable to join with the county for this purpose, I do not see that anything further can be done. It was only last week his honour Judge Weller, in his address to the Grand Jurors, again referred to the necessity for such an institution, and the jurors in their presentment fully concurred. Reference was also made to that important

QUESTION OF GOOD ROADS.

The recommendation will doubtless be laid before you, and I bespeak your thoughtful consideration of it in furtherance of so desirable a purpose. Evidence is not wanting that the system of statute labour has outlived its usefulness, particularly in the older ownships, I hope to see some tangible results, though it may have been long deferred, on the recommendations of the committee who, at my request, inspected the system of county roads in the county of Hastings in 1894, and favourably reported the adoption of similar road making in our county. I believe fruit is now being borne as a result. It was only last week the Massey Harris Co., of Hamilton, shipped one of their road grading machines into the township of Asphodel, and it has been thoroughly tested upon several of the road divisions of the township in order to demonstrate its utility and labour saving, therefore economy, before the council were required to purchase it. All who have seen the working of the machine speak most highly of it as being a perfect road maker and a success, and recommend its purchase by the municipality.

I will now conclude this address, which is much longer than I intended inflicting upon you, by thanking you for your courteous attention.

J. B. PEARCE,
Warden.

PRAYED FOR THE JUDGE.

Prisoner Farwell would Rather Pray than Plead Guilty.

James Farwell, a convict in the Kingston penitentiary has truly missed his calling when he has done that which takes him from the stage or pulpit. An amusing incident occurred on Tuesday last, which indicates that he is a religious fanatic, or an actor who desires to work on the sympathy of his audience. At the county court in the afternoon Judge Wilkinson asked him if he pleaded guilty or not guilty to a charge of larceny of four horses in the County of Middlesex. Farwell, who had occupied his seat in the prisoners' box, stood up, and turning his eyes heavenward, said, "Let us pray!" The solemn request somewhat startled the court, and the officials sat with puzzled looks on their faces, while some smiled as the prisoner in reverent tones repeated the Lord's prayer. Finishing that, he sent up an earnest supplication to a Higher Power for the welfare of the judge, the jury, the court and all mankind. He waxed eloquent in his pleadings until His Honour could stand it no longer, and he repeated his question again. Farwell, however, was not inclined to answer. J. L. Whiting also endeavoured to pick a reply from him, but he had apparently lost the use of his tongue. The judge preferred to waste no further time with him, and ordered the clerk to enter a plea of not guilty, and remanded the prisoner for trial. Farwell is evidently a religious crank, and his unruly actions at the penitentiary have so impressed the officials there.

Rev. Chas. Fish, Methodist Minister, 192 Dunn Ave., Toronto, Cured of Eczema.

About ten years ago I felt the beginning of what is commonly known as eczema. The disease commenced in my ears and spread entirely over both sides of my head and also developed on my hands. During those ten years I was a great sufferer. Specialists on skin diseases treated me. As I write this I am just commencing on the fifth box of Dr. Chase's Ointment, and judging from the rapid improvement effected, I am certain that before the box is used I shall be completely cured.

ARMY INVADING CUBA

Details of the Voyage of the Santiago Transports.

THE TROOPS NOT LANDED YET.

There May Be Some Delay in This as the Date and Place Is Not Yet Decided On — Generals Shafter and Garcia Meet and Confer —A Hot Fight in Sight.

Off Santiago de Cuba, June 20 (noon), via Mole St. Nicholas, Tuesday, June 21.—The fleet of the United States transports, having on board 16,000 men, under the command of General Shafter, arrived off Santiago de Cuba at noon to-day, being exactly six days out from Port Tampa.

The army of invasion left Egmont Key at noon on Tuesday, June 14. The progress was necessarily slow, as two big water barges and the schooner Stevens, also used for water, had to be towed. When the transport fleet left Port Tampa it was the intention of those in authority to take the western course around Cape Antonio, but later it was decided to go via Florida Straits, that being a shorter route.

After the fleet got into the rough waters of the straits the transports were formed into three lines about 1,000 yards apart, while six hundred yards separated the ships. The easily advancing transports presented a very impressive spectacle, stretching for miles over the blue waters, the grim looking men of war hovering like watch dogs on the outskirts of the human freighted ships.

Typhoid and Measles.

The weather throughout the voyage was excellent and there was little seasickness. But 14 cases of typhoid and some measles developed, the former being especially on the boats carrying animals. Surgeons, however, say the health of the men is unexpectedly good.

The first sight of land was obtained in the vicinity of Santiago de Cuba, and when the topmasts of the blockading ships were seen they sent a thrill of enthusiasm through the soldiers, and they are now eagerly awaiting the landing in Cuba.

The heat and long confinement in the holds of the transports have told very severely on the horses and mules, and many of them died during the last two days of the voyage.

So soon as the fleet of transports had arrived at a point about 20 miles off Santiago de Cuba, the steamer Seguranca, having on board General Shafter and his staff, left the other vessels lying to, and steamed to the flagship of the American fleet in order to visit Rear-Admiral Sampson.

Shafter and Sampson Went Ashore.

The General went on board the flagship and the Seguranca then went to Aserradero, a little over 17 miles west of Santiago de Cuba, near which General Garcia is encamped with 3,000 Cuban soldiers. General Shafter and his staff and Rear-Admiral Sampson went ashore and proceeded to General Garcia's headquarters, about a mile inland, where they spent several hours in consultation with the Cuban General. At the conclusion of the conference, General Shafter and the other officers had little or nothing to say regarding the plans for landing the American troops or for the co-operation of the Cubans. The best information obtainable is that there will be no attempt to make a general landing for two or three days, but small bodies will be put ashore, probably to-morrow, at several points, both east and west of Santiago de Cuba, including Aserradero. This will give General Shafter an opportunity to become more familiar with the work before him, and to ascertain the best place for a general landing.

The transports and the warships which convoyed them here came close to shore this afternoon in full view of the lookouts on Morro Castle, and they will lay to-night 15 miles out from Admiral Sampson's fleet guarding the entrance to the harbor of Santiago de Cuba.

Results of the Investigation.

The result of Rear-Admiral Sampson's investigation of the various proposed landing places was also laid before the army officers, but General Shafter is not prepared to announce a definite selection without investigating the matter further himself.

Garcia's Assurances.

General Garcia gave the Americans assurances that they need have no fear of contracting diseases on the southeastern coast of Cuba, as the climate there is not unhealthy, only extremely hot at this time of the year. The Cuban general declared that his own troops, ill-fed and clothed as they were, were in good health, and, therefore, the Americans need not fear fevers or other serious ailments.

General Shafter examined the condition of the Cuban soldiers during his visit, and was impressed with their hardy and soldierly appearance, though he recognized the fact that they need clothes and provisions, both of which were given them during the day. The interview closed with the understanding on the part of both generals that small bodies of troops are to be landed at once at several points along the coast, where they will be safe from any serious attack by the Spaniards, and will be able to keep the enemy in doubt, for the present, as to their ultimate intentions.

Engineers to Be Landed First.

Among the troops that will be landed first are a number of men from the engineer corps, who will begin work at once, preparing for the movement of the main body of troops.

Generals Shafter and Garcia will consult further to-morrow. It was nearly dark before the officers returned to the Seguranca, and then she steamed back to the flagship and took up a position for the night.

Before nightfall all the other transports and the convoying warships had drifted nearer to the shore, and the Spanish soldiers, watching from the bluffs on both sides of the entrance of Santiago harbor, must have been impressed by the great array of vessels standing off shore. There were nearly sixty of them, including the troopships and the men-of-war comprising Rear-Admiral Sampson's fleet and the squadron of Commodore Schley.

The Shooting of Blanco.

New York, June 22.—It transpired to-day that the story of the shooting of Gen. Blanco by a young Cuban volunteer in Havana emanates from the Washington office of the Cuban Junta. The story gives details that the volunteer, who was acting as sentry, fired into a group of officers, of whom Blanco was one, the bullet hitting him in the thigh.

EXTENSION OF THE BLOCKADE.

It Is Proposed to Stop the Smuggling of Supplies Into Havana.

Washington, June 22.—The advisability of extending the blockade of Cuba to ports through which supplies are being shipped to Havana is being seriously considered by the Administration. Batabano, on the south coast, is one of these ports. It is well known that shipments of supplies are landed on Isle of Pines, and thence transferred in small boats to Batabano, which has direct railway communication with Havana.

Sampson Will Not Force the Harbor.

Although Admiral Sampson has reported that the collier Merrimac does not completely close the channel, it is positively asserted by naval officials that American armorclads will not attempt to force the harbor of Santiago when a land attack is made by Shafter's men on the city.

A Delay in Landing.

Mole St. Nicholas, June 22.—Rear-Admiral Sampson says that the general landing of the troops of General Shafter's expedition on the coast of the Province of Santiago de Cuba will be necessarily delayed several days.

Spanish Civilians Held.

Key West, Fla., June 22.—United States Marshal Horr received instructions from Attorney-General Griggs to-day to hold all persons captured on Spanish prize ships until further orders. The message created much surprise among officials here, as all but military prisoners were to have sailed for Spain this week. The prisoners concerned have been penned up on the prize ships in the harbor ever since chartered. There are more than 200.

Heavy Fighting Expected.

Port Antonio, Jamaica, June 22.—The opinion of the highest naval officers on the spot is that there will be severe fighting on land and sea before the present week has passed. The Spaniards are entirely outnumbered, but have the advantage of holding their own positions, and Cervera's fleet commands almost every approach to the city, while all the batteries overlooking the sea have been greatly strengthened recently, notwithstanding the damage they suffered during the bombardments.

Queen Regent's Jewels at Vienna.

London, June 22.—The Vienna correspondent of the Daily Telegraph says:

The Spanish Queen Regent's jewels and valuables were brought to Vienna, but it is declared in official quarters here that, though the situation is precarious, she will remain in Spain till her post becomes untenable.

Rumors as to abdication are quite baseless. It is said, however, that Emperor Francis Joseph has recently written to the Pope on the subject of intervention.

Bombarded for Three Hours.

Madrid, June 22.—An official despatch from Havana says:

An American vessel bombarded the town of Casilda, Province of Santa Clara (about five miles south of Trinidad, with which it is connected by rail), for three hours. She fired 150 big shells. The troops and the gunboat Dependiente co-operated in a brilliant defence, and the American vessel was obliged to retire after damaging some houses and shops.

Foolhardy Swimmer Drowned.

Barrie, June 22.—Last Sunday a resident of Nottawasaga Valley called Richardson went in bathing in the river. Two other men were with him. He swam across the river and back again. Despite the warnings of his companions he attempted to cross again, but sank when halfway over. He leaves wife and family.

A WARSHIP'S BAPTISM

Many Lives Lost at the Launching of H.M.S. Albion.

34 BODIES NOW RECOVERED.

When the Mighty Splash of the Great Iron Hull of 12,950 Tons Displacement Came It Swept Over the Staging and Precipitated 200 Persons Into the Water.

London, June 22.—The launching of the battleship Albion at Blackwell yesterday was accompanied by disaster, in which it is estimated that 50 persons lost their lives. Already 34 bodies have been recovered, five men, 18 women and 11 children. It is thought that some bodies have been carried out to sea by the tide. Sixty persons were also more or less injured and required medical attendance.

The launching of the hull of the first-class battleship Albion was made the occasion of a holiday at Blackwell, and the navy yard was crowded with spectators eager to see the iron monster take its first dip into the water.

The Duchess of York, attended by a host of fashionable friends, christened the boat the Albion, after the conventional manner. The notable guests viewed the ceremony in comfort and safety from convenient stands and balconies, which the ship's company had provided. The populace, however, were left to hunt vantage ground for themselves, and took up positions at every point at which view could be obtained. The crowd was enormous, and the police protection altogether inadequate. The people swarmed all over the navy yard and crowded upon a staging, a light structure 50 feet long, that had been erected for workmen near the stern of a Japanese cruiser. The police warned the people that the structure was unsafe, and notices had also been posted by the ship company, but in spite of all people crowded upon the structure.

After the ceremony of christening the boat, the great iron hull, having a displacement of 12,950 tons, was plunged into the water with a mighty splash. The enormous displacement caused the water to rise on either side of the hull and sent a tidal wave that rolled across water space and completely submerged and demolished the doomed staging, precipitating two hundred persons into the water. The scene was one of indescribable confusion. The water was alive with struggling people. The accident did not attract the attention of the vast crowd and only those in the vicinity were aware of the calamity. The shrieks of the unfortunate were drowned by the cheers of the multitude raised upon the successful launch of the ironclad.

Fortunately there was plenty of help in the shape of police boats and other crafts. The ship builders with drags, and the firemen who were employed in an ornamental capacity at the ceremony, were all prompt in affording succor. Some were injured by colliding with the debris.

The Duke and Duchess of York have telegraphed assurances of their profound regret and sympathy over the sad affair.

SOUTH PERTH CROSS-PETITION.

Conservative Candidate Charged With the "Usual Things" and Others.

Toronto, June 22.—Yesterday a cross-petition was filed at Osgoode Hall against Nelson Monteith of South Perth. Mr. Monteith, the Conservative candidate, was elected by a majority of 10. Upon an appeal Mr. Justice McLellan declared Mr. W. C. Moscrip, Mayor of St. Mary's, the Liberal candidate, elected by a majority of 4. A protest was filed, and now comes this cross petition to offset it. The petitioner is Frank Morris, a St. Mary's laborer, who signs his mark. The usual charges are made, and in addition it is alleged that Monteith made use of an election fund contributed by the following prominent Conservatives: Dr. W. F. Roome, London; Mr. Thomas Beatty, M.P., London; W. R. Brock, Toronto, and Lionel H. Clark, Toronto.

FRENCH CABINET CRISIS.

M. Sarrien Has Also Failed to Form a Ministry.

London, June 22.—The Paris correspondent of the Daily Mail says: "A Cabinet has been formed with M. Ferdinand Sarrien as Premier, M. de Freycinet as Minister of Foreign Affairs, M. Theophile del Casse as Minister of Marine, M. Godefroy Cavaignac as Minister of War and M. Paul Dolombre as Minister of Finance. The foreign policy will be unchanged."

Paris, June 23.—Owing to the refusal of the former Premier, Dupuy, to accept the Foreign Office portfolio, and of M. Delambre to become Minister of Finance, M. Sarrien has decided to relinquish the task of attempting to form a Cabinet, and so informed the President yesterday afternoon.

SIR JULIAN IS MOVING.

British Ambassador Will Summer Near New London, Conn.

Washington, D. C., June 22.—The British Ambassador, Sir Julian Pauncefore, was at the State Department yesterday, and gave notice that the Embassy would be removed for the summer to Pequot, near New London, Conn. The shift will be made next Saturday, and the Ambassador and his staff will be away about three months.

Days of Spraying.

Toronto, June 23.—Provincial experimental spraying, with instructions on the preparation and application of insecticides and fungacides, will be given at the following places at 2 p.m.: St. Catherines, June 23; Niagara-on-the-Lake, June 24; Ancaster, June 25; Waterdown, June 27; Georgetown, June 28; Rockwood, June 29; Bolton, June 30; Stouffville July 2; Manilla, July 4; Aurora, July 5.

WELL KNOWN VIOLINIST

Traveled Extensively Throughout the Provinces—Interesting Statements Concerning His Experience.

STELLARTON, N.S.—James R. Murray, a well known violinist, of this place, who has traveled extensively throughout the Provinces, makes this statement:

"I was running down in health and my weight fell off from 175 to 150 pounds. Prescriptions did me but little good. My trouble was called nervous dyspepsia. I resorted to Hood's Sarsaparilla and after taking five bottles I was greatly benefited. I feel as well now as ever in my life, and have increased in flesh so that I now weigh 177 pounds. I am well known in this part of the country, having followed my profession, that of a violin musician for the last 26 years. I gladly tell my friends what Hood's Sarsaparilla has done for me. Before I began taking the medicine I did not have any ambition, but now all is changed and my dyspeptic trouble perfectly cured." JAMES R. MURRAY.

N. B. If you decide to take Hood's Sarsaparilla, do not be induced to buy any substitute. Be sure to get Hood's.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Daily Examiner.

WEDDESDAY, JUNE 22, 1898.

A RELATIVE QUESTION.

Conservative journals are unscrupulous in charging the present Liberal Government with extravagance, an unreasonable charge greatly insisted upon, being that the expenditure this year is forty-one million dollars. The Government has not had a chance to exercise much economy. They inherited a legacy of obligations, they had to carry out, from the late Government, and this prevented an exercise of economy. There was another large enterprise that effected the interests of our carrying trade directly, and the interests of of our greatest industry—the agricultural—the deepening of our canals, which had been trifled with by the late Government, had to be proceeded with. This also cost money. For the last five years of the Conservative Government there was an average annual increase in the expenditure, making a total of nearly half a million of increase, and in the last year of Hon. Mr. Foster, the Conservative Minister of Finance, the estimates were over 41 millions, while the estimates of Mr. Fielding for 1896-97 were 40 millions, and the actual expenditure only 38 millions, so that the large estimates for the present year do not mean an expenditure of that amount. The expenditure the year before fell short of the estimates by two millions, and it is drawing the long bow for Conservative newspapers to charge the Liberal Government with an expenditure of 40 millions, which has not been made, and will hardly be made.

THE HOG TRADE IN DANGER.

Mr. Wm. Davies Warns Exporters of What May Happen—Inferior Bacon as Result of Feeding Clover and Corn to Pigs.

The following letter which has been received from the president of the Wm. Davies Co. (Limited), draws attention to the danger to the Canadian export trade in hogs arising from injudicious feeding of stock:

To the Editor of The Examiner:

Sir,—There has appeared in your valuable journal and various other publications, from time to time, statements as to the superior quality of Canadian bacon, and its high standing in England, compared with American.

This is being very seriously jeopardized by the feeding of clover and corn to fatten hogs. The result is, bacon curers are overwhelmed with soft bacon, as inferior to the best American. Hog feeding has been highly advantageous to farmers, paying them well, while cattle have been a losing game, but this cannot go on, unless the feeders do their share in keeping up quality.

If farmers persist in feeding grass and corn, the pork packers will have to do one of two things: refuse to pay for them till they are dressed and inspected, then grade price according to quality, or lower the price to such a figure as will cover the loss on the poor quality.

One thing is certain, we cannot go on paying over a cent per pound more for Canadian and American unless the standard of quality be kept up.

Of course, those farmers who are feeding, as described, think they are doing a clever thing, but they are simply "killing the goose that lays the golden eggs." Canada would not be the first country to lose prestige and profit. Germany once did a large export bacon business, but it is now a thing of the past. The Irish feeders have been criminally careless in this regard, and their trade in bacon has dwindled to small proportions, and appears to be a dying industry. Denmark is losing its reputation by similar carelessness, and if Canadian hogs are not kept up to the highest standard, Canadian bacon will quickly return to the level of American, from which by painful and labourious effort it has been lifted. Inspired wisdom wrote: "A word to the wise is sufficient." We hope it will be in this case.

NORTH MONAGHAN.

Council Meeting.

From Our Own Correspondent.

The council met in the town hall on Monday afternoon, June 20th, all the members being present; the reeve, Mr. J. McIntosh, presiding.

The minutes of the previous meeting and of the Court of Revision were read and confirmed.

Communications were received as follows:

From J. R. Stratton, President Trent Valley Canal Association, showing action taken by that Association at their meeting in Peterborough on June 1st.—Received.

From James Graham, enclosing a statutory declaration of his not owning a dog in 1897 and asking a refund of dog tax.

Accounts were presented and certified to as follows:—W. Whitfield, disbursements postage, $1; A. Comstock, funeral attendance Jas. Roberts, $14 50; Nicholls Hospital, care of Jas. Roberts, $4; Sawyer & Massey, repairs for grader, $2 40; Thos. Brioux, rebuilding culvert on 10th concession, $5.00; M. Clarke, testing for gravel and opening pit in district No. 3, half cost, $4.75.

Reports from committees were presented and read by Mr. Bradburn for committee appointed to make estimates of the receipts and expenditure of the township for 1898 and to strike a rate to raise a sum to meet such appropriation:—

RECEIPTS.

Statute labour commutations	$550 00
Dog tax	125 00
Licenses	25 00
	$700 00

EXPENDITURE.

Charity	$ 40 00
Board of Health	10 00
Printing and stationery	34 00
Salaries	310 00
Roads (grants and culverts)	400 00
Road grader	50 00
Roads (commissioners)	550 00
Miscellaneous	100 00
	$1,494 00

To be raised by taxes $794.00. On a total assessment of $611,450.00, a rate of 1 2-5 mills on the dollar will raise $856.26. The public schools require $560.00 from the township. A rate of 9-10 mills will raise $549.00.

As yet the county and public school trustee boards have not presented their estimates. We therefore cannot strike rates necessary to raise the amounts raised for county and school purposes.

From Mr. Bradburn, also a committee appointed to confer with the Cavan council re dividing the boundary, stating that an agreement had been arrived at to divide this line as soon as the present grants were expended and returns made.

From Mr. Madill for committee to arrange for gravel in road division No. 3, stating that a satisfactory pit had been found in lot No. 1, concession 8. Those reports were adopted.

Moved by Messrs. May and Bradburn that orders be drawn to pay the accounts as presented.—Carried

Moved by Messrs. Bradburn and Hunter that an order be drawn for the sum of $1 00 refund of James Graham's dog tax, 1897.—Carried.

Moved by Messrs. Bradburn and May that the resignation of Thos. Brown as collector of taxes, as presented at last meeting, be accepted and that an order be issued for $41.00, salary and postage 1897.—Carried.

Moved by Messrs. Hunter and May that the Reeve and Councillor Madill confer with South Monaghan to arrange a division of the boundary line.—Carried.

Moved by Messrs. Madill and Bradburn that a supplementary grant of $50.00 be given to each commissioner to be expended upon the highways of their respective divisions.—Carried.

Mr. Galloway, road commissioner, district No. 1, presented his time sheet, showing the expenditure of $197.25 in his division. An order was drawn in his favour for that amount.

Moved by Messrs. Bradburn and May, that as the position of collector of rates in the municipality is now vacant, the clerk is authorized to receive applications for such office up to 1st of August, 1898. Applicants are to furnish a joint and several bond with two reliable sureties in the amount of $3,000 each, all applications to be signed by the sureties in signification their consent to act as such.—Carried.

Moved by Messrs. Hunter and May, that the commissioner in District No. 2, be directed to expend the sum of $35, and the commissioner in District No. 3, the sum of $40 upon the Cavan boundary, providing the Cavan council expend an equivalent—Carried.

Moved by Messrs. Hunter and May, that the commissioner in District No. 1, be authorized to rebuild the cribbing of spring at trough on gravel road—Carried.

Moved by Messrs Hunter and Bradburn, that the reeve and Councillors Madill and May examine the drain on con. 10, and if necessary to have it cleaned out, and also to put in a culvert opposite lot 17—Carried.

Bylaw No. 456 was passed, authorizing the reeve and treasurer to borrow money to pay the statute labour commissioner as required by pay sheets.

Council then adjourned.

Rev. Chas. Fish, Methodist Minister, 192 Dunn Ave., Toronto, Cured of Eczema.

About ten years ago I felt the beginning of what is commonly known as eczema. The disease commenced in my ears and spread entirely over both sides of my head and also developed on my hands. During those ten years I was a great sufferer. Specialists on skin diseases treated me. As I write this I am just commencing on the fifth box of Dr. Chase's Ointment, and judging from the rapid improvements effected, I am certain that before the box is used I shall be completely cured.

JUDGE LISTER.

The Well-Known Q.C. and M.P. Appointed a Judge of the Court of Appeals of Ontario.

Ottawa, June 22.—Mr. James F. Lister, Q.C., M.P., has been appointed a Judge of the Court of Appeals of Ontario.

Mr. Lister has an established reputation in Parliament as a lawyer and publicist, and his appointment will cause no surprise. His wide experience at the bar and in Parliament qualifies him for the position, and he is thoroughly well acquainted with the law practice of the Province of Ontario. His services in connection with the investigating committees of the House of Commons during the past ten years stamped him as a man of rare gifts in a legal sense, and his appointment will be regarded as a recognition of the leading position he occupied. An effort was made to promote a Judge from one of the Divisional Courts and thus create a vacancy, but it is said that the Judges of the lower courts were averse to any promotion. There are several precedents for appointments from the bar direct to the Court of Appeal, notably Judge Maclennan. Chancellor Boyd was appointed from the bar to the position he now holds.

GIBSON, PROCURER,

Arrested in the Company of Two Canadian Girls, Who Will Testify Against Him.

Niagara Falls, Ont., June 22.—Chief of Police Young hauled in a nefarious man to society yesterday afternoon by the name of Gibson, who, it is said, runs a sporting house in Lockport and Tonawanda, N.Y. The man was arrested by the American police from information received from Chief Young, being caught in the act of procuring Canadian girls for immoral purposes. With him when arrested were two girls hailing from Hamilton, who have made statements as to what they were in his company for. The prisoner was locked up and the girls held as witnesses. Gibson will have a hearing before United States officials today, as the case is one that comes before a Federal court.

LIQUOR MEN AT LONDON.

Their Solicitor Talks About the Revenues From Liquor Traffic.

London, June 22.—The hotelmen throughout the province, under the name of the Ontario Licenseholders' Protective Association, are holding their fifth annual convention in London, the opening session having been held yesterday morning in the Knights of Pythias Hall on Dundas street. Between 100 and 200 delegates have arrived and each incoming train brings its quota. The deliberations will be of a private nature and means and ways devised to defeat prohibition. His Worship Mayor Wilson addressed the meeting, welcoming the convention to the city. Mr. J. A. Haverson of Toronto, the solicitor of the association, delivered an address which was vigorously applauded. He said since Confederation the enormous sum of $212,000,000 was paid by the liquor men into the Government coffers. The President of the Association, Mr. H. Maxey of Hamilton, occupied the chair.

TOO WEAK TO WORK.

A Collingwood, Ont., painter tells how Milburn's Heart and Nerve Pills strengthened his heart, invigorated his nerves, and restored his health.

Weak heart and weak nerves mean weak body. No one can be strong and vigorous with the heart and nerves disordered or diseased. Milburn's Heart and

Nerve Pills not only overcome all danger due to irregularity of the heart beat, but through regulating that organ, strengthening the nerves and enriching the blood they give new vitality and energy to the whole system.

Mr. Geo. Gray, the well-known painter, corner of Napier and Simcoe Sts., Collingwood, Ont., says: "For fifteen years past I have been afflicted with very weak nerves and heart trouble. I never could obtain sufficient sleep and felt as tired when I got up in the morning as when I went to bed. In addition to this I suffered much from palpitation of the heart and shortness of breath. My blood was thin and watery and I soon lost flesh and became debilitated. It was a great task for me to walk any distance or follow my usual occupation.

"In March last I got a box of Milburn's Heart and Nerve Pills and they did me so much good that I bought another box. The great change for the better they have worked on me is wonderful. My nervous system is now as strong as ever, my blood has been enriched and my heart beats strong and natural. I now walk and work as well as ever I did and am only too glad to recommend these pills to all who suffer as I did."

Milburn's Heart and Nerve Pills 50c. a box or 3 boxes for $1.25, at all druggists. T. Milburn & Co., Toronto, Ont.

INSPECTION OF CANALS

Ministers' Party Continues Its Trip Down the St. Lawrence.

ROCKLAND'S STRIKE SETTLED.

The Men Granted Their Demands by Mr. W. C. Edwards—A Ten Hour Day—Payments Twice a Month Instead of Monthly—Cash and No Store Orders—Ottawa News.

Cornwall, June 22.—The Government party, composed of the Hon. W. S. Fielding, Minister of Finance, and acting Minister of Railways and Canals in the absence of Hon. A. G. Blair; Sir Louis H. Davies, Minister of Marine and Fisheries; Hon. R. W. Scott, Secretary of State; Hon. Clifford Sifton, Minister of the Interior, and Mr. Collingwood Schreiber, Deputy Minister of Railways and Canals, arrived here yesterday forenoon on the Government yacht Alert. They had been at Iroquois the previous day inspecting the Galops Canal, and on the way down the river had taken a look at the canal works at Cardinal, where Messrs. Davis & Sons and M. A. Cleveland have big contracts; at Morrisburg, where the work of deepening and widening is going on on a smaller scale, and at Farren's Point, where the Canadian Construction Co. are building a canal about three-quarters of a mile long. At the latter place the foundation stone of the miltrod sill in the big lock was laid by Hon. Mr. Fielding with appropriate ceremonies. The work at every point was found to have made good progress, and the contractors were pushing forward to completion at a rapid rate. Mr. Fielding said that the Government expected the fourteen-foot channel to Montreal to become a fact early in 1899. Continuing down the river from here, the Ministers inspected the dredging which is going on at several points on Lake St. Francis, where the channel needs deepening and straightening, and wound up their tour at Cascades Point, where Messrs. Manning & MacDonald are engaged in the construction of the magnificent public work to be known as the Soulanges Canal, extending from Coteau Landing to Cascades Point, which is to take the place of the Beauharnois Canal on the opposite side of the river. Everything was found progressing satisfactorily, and the contractors were complimented on their work. From Cascades the party drove to Vaudreuil and caught the evening train to the capital.

The Rockland Strike Settled.

Ottawa, June 22.—The strike is over at Rockland.

Mr. Edwards has agreed to the men's requests. The working day in the future is to consist of ten hours. The wages are to be paid twice a month instead of monthly as heretofore. Wages are to be paid in cash. No more orders on the company's store are to be given instead of cash.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

There was a big meeting yesterday morning attended by over 400 men. Addresses were delivered by Fauteux and Macoun of Ottawa, and others, and a good organization was effected, but fortunately no further trouble was ahead. The new union, however, is firmly established, and another mass meeting was held last night. The men resume work at the mills this morning.

Personal and General.

Sir John Mitchell, Governor of the Straits Settlements, is here on his way to England.

The news of Senator De Blois' death reached here yesterday. This makes four vacancies in the Senate, one in each province, Quebec, Ontario, Prince Edward Island and Manitoba. It is stated that the most probable candidates for the Quebec vacancy are Mr. Lalibeite of Quebec and Mr. Arthur Paquet, the latter being the most popular amongst the young Liberals. Senator De Blois leaves some $200,000, which, it is stated, is left to Sir Adolphe Caron, the nephew of the deceased.

It is stated that Dr. Guay, M.P., will be the new medical officer at the quarantine station at Gros Isle, and Dr. Montizambert will remain as superintendent of the quarantine service.

Capt. McLean, A.D.C. to Major-General Gascoigne, will be shortly appointed an officer of A. Battery, Kingston.

Mr. Edward R. Cameron of London, a member of the law firm of Meredith, Cameron & Judd, is said to have been offered the position of Registrar of the Supreme Court of Canada, vacant through the death of Mr. Cassels. Mr. Cameron is a gold medalist of Toronto University.

BRITISH STEAMER CRUSHED.

Para Sank Within Two Hours After Entering an Ice Floe.

St. John's, Nfld., June 22.—The British steamer Para, Captain Gansden, from Dunkirk, for Tilt Cove, to load copper for Swansea, entered an ice floe off the mouth of Notre Dame Bay on Saturday and was crushed, sinking within two hours. Her crew of 21 launched the boat and pushed their way through and over the floes to land, a tedious work, and which took all night, and arrived at Tilt Cove Sunday afternoon, after many hairbreadth escapes during the darkness. They report that the ice is unusually heavy and in immense quantities, rendering navigation very unsafe.

ZIG-ZAG.

Although on the Up Turn Wheat Markets Were Uncertain — Big Decrease in World's Visible Supply—Prices.

Tuesday Evening, June 21.

The Chicago wheat market was again irregular to-day. Shortly after the opening there was a break, amounting to nearly a cent per bushel, but on covering by shorts the cereal became strong, and all deliveries advanced. At the close June wheat showed a gain of 2c over yesterday's final quotation, July a gain of 2⅛c, September one of 1⅛c, and December one of 1⅞c.

The big decrease in the world's visible supply and reports of damage to Western crop were factors which influenced the situation and led shorts to cover.

Other American markets advanced correspondingly. At Toronto some trades went through on a basis of 80c for red winter and $1.05 for No. 1 Manitoba hard on track here.

British wheat markets showed an improvement to-day. All future deliveries advanced, July closing 2¼d higher than yesterday, September 1¼d higher and December 1d higher. Spot wheat at the same time declined 4d to 6d per cental. At Paris wheat rose 60 to 85 centimes for the day. Antwerp markets remained unchanged. In Chicago to-day corn failed to accompany wheat and ruled rather weaker than yesterday.

According to Bradstreet's, the world's visible supply of wheat during the past week decreased 2,734,000 bushels. The visible supply of corn increased 1,365,000 bush, and that of oats decreased 718,000 bushels.

Toronto St. Lawrence Market.

Receipts of grain were not large to-day—1000 bushels.

Wheat easier; 200 bushels sold as follows: White 80c, red 79c to 80c, and goose 70c.

One load of barley sold at 34c per bush.

Oats steady; 600 bushels sold at 32c to 33c.

Peas easier; two loads sold at 48c to 49c per bushel.

Hay sold at $7 to $8.50 per ton for 25 loads.

Straw; six loads, sold at $5 to $6.50 per ton.

Dressed hogs, deliveries light and prices firmer at $6.50 to $6.65.

Hides were firmer; cured sold at 9½c; No. 1 green, 9c; No. 2 at 8c, No. 3 at 7c per lb.

Pelts, 20c to 25c each.

Potatoes easy at 50c to 60c per bag.

Toronto Live Stock.

Receipts of live stock at the Cattle Market to-day were fair—72 carloads—composed of 1280 cattle, 150 sheep, 75 calves and 1000 hogs.

Exporters were firmer, selling at $4.50 to $4.80, and in one instance for something choice a trifle more was paid, the bulk going at from $4.60 to $4.75; export bulls sold at $3.50 to $4.

Butchers' cattle were firm at Friday's quotations; loads of good butchers' and exporters sold at $4.37½ to $4.45.

Prices for feeders and stockers were firm, heavy half-fat feeders selling at $4 to $4.25, and light Buffalo stockers sold at $3.60 to $3.85.

About 25 milk cows were sold at $26 to $45 each, average price $36.

Prices for calves, sheep and lambs unchanged but firm, with supply about equal to demand.

Hogs—Deliveries were not nearly heavy; prices unchanged, with best selections selling at $5 to $5.20; thick fats, $4.90, and light fats, which are not wanted, at $4.80. To bring the highest price hogs must weigh from 150 to 200 lbs., not too fat, and be unfed and unwatered off cars.

East Buffalo Cattle Market.

East Buffalo, June 21.—Cattle—The fresh receipts were very light, but a number of loads held over from yesterday's trade. Nothing of consequence was done, buyers and sellers being apart in their views.

Veals and Calves—Supply light. Market ruled steady to firm, and all were sold. Good to prime veals sold at $6 to $6.25, with fair to good at $5.25 to $5.75, and light thin lots at $4.25 to $5.

Hogs—Receipts light. The trade with the light supply on sale and stronger reports from other points ruled higher here for the few handy grades on offer and full strong for others. Yearling lambs, choice to extra, $5.50 to $5.60; fair to good, $5.25 to $5.45; culls to common $4.25 to $5.15. Native clipped sheep, choice to selected wethers, $4.75 to $4.80; good to choice mixed sheep, $4.50 to $4.70; common to fair, $4 to $4.40; culls to common sheep, $3.25 to $3.85.

Cheese Markets.

Campbellford, Ont., June 21.—At the Campbellford cheese meeting, held here to-night, 1250 were boarded—1170 white and 80 colored. Watkins bought 720 at 7 9-16c, Margrat 100 at 7⅛c; balance unsold.

Belleville, June 21.—At our Cheese Board to-day, 10 factories offered 1380 white and 175 colored cheese. Sales: 515 white at 7⅛c, and 135 white at 7 13 16c, and 175 colored at 7 13-16c.

Ingersoll, June 21.—Offerings to-day, 1523 boxes. Sales, 575 at 7⅛c. Small attendance of salesmen, majority having sold through the week.

British Markets.

Liverpool, June 21.—Spring wheat is quoted at 7s; red winter, 6s 10d; No. 1 Cal., no stock; corn, 3s 2¾d; peas, 5s 1½d; pork, 51s 3d; lard, 29s 9d; tallow, 19s 6d; heavy, l.c., 32s; light, 31s; do., short cut, 31s; cheese, white, 35s; colored, 35s.

Liverpool—Close—Spot wheat dull, with No. 1 Northern at 7s and red winter at 6s 10d. Futures quiet at 6s 5½d for July, 5s 11¾d for Sept. and 5s 9½d for Dec. Spot maize steady at 3s 2½d; futures quiet at 3s 2½d for July and 3s 4¼d for Sept. Flour, 27s.

Fred Currie Drowned.

Owen Sound, June 22.—Fred. Currie, aged 17, son of Neil Currie, was drowned yesterday afternoon. He was riding a bicycle on the C.P.R. dock, close to the water's edge, and tumbled in. He never rose to the surface. The body was recovered in about half an hour afterwards.

Teething Babies'

Thousands of them die every summer of Cholera Infantum who could be saved by the timely use of Dr. Fowler's Extract of Wild Strawberry.

There is not a mother who loves her infant but should keep on hand during the hot weather a bottle of Dr. Fowler's Extract of Wild Strawberry. Thousands of babies in Canada are sacrificed every year owing to neglect of this simple precaution.

There is no remedy so safe and so effective for the diarrhœa of infants as Dr. Fowler's Extract of Wild Strawberry. No remedy has the endorsation of so many Canadian mothers who have proved its merits, and therefore speak with confidence. One of these is Mrs. Peter Jones, Warkworth, Ont., who says: "I can give Dr. Fowler's Extract of Wild Strawberry great praise, for it saved my baby's life. She was cutting her teeth and was taken with diarrhœa very bad. My sister advised me to get Dr. Fowler's Extract of Wild Strawberry. I got a bottle and it cured the baby almost at once."

There can be no doubt about it. Over forty years experience has proved Dr. Fowler's Extract of Wild Strawberry to be the best remedy for Diarrhœa, Dysentery, Colic, Cramps, Cholera Infantum and Summer Complaint. Sold by medicine dealers at 35c a bottle. Always insist on the genuine. Many of the imitations sold are positively dangerous, as they often check the diarrhœa too suddenly and cause inflammation.

The Steamship Toronto.

Toronto, June 22.—From the Bertram shipyards yesterday there was successfully launched the largest boat ever built in this city. The craft is named Toronto and was so christened by Madame Forget, the wife of the President of the Richelieu & Ontario Navigation Co., for whom she was built. Her dimensions are: Length over all, 278 feet; length keel, 270 feet; beam, moulded, 36 feet; beam, over guards, 62 feet; depth, moulded, 14 feet. Among the speechmakers on the occasion were Sir Oliver Mowat, the Lieutenant-Governor, and Mr. George H. Bertram, M.P. A very large crowd witnessed the launch.

He Was Acquitted.

Montreal, June 22.—Ferdinand Cloutier, the Winnipeg merchant who was brought here for trial on a charge of obtaining $10,000 worth of goods from Montreal firms under false pretences, was acquitted yesterday morning.

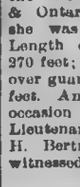
Weak Heart.

"For years I suffered from weak action of the heart, dizziness and a watery condition of the blood. Milburn's Heart and Nerve Pills have made my heart strong and enrichened my blood so that now I am free from the troubles that formally distressed me." B. A. ROSS, Alice Craig, Ont.

Baby Brightness

Soon fades when diarrhœa seizes on the little form. Dr. Fowler's Extract of Wild Strawberry has saved many infants' as well as adults' lives. Mrs. W. Walters, Richmont Street, Hamilton, Ont., Says:—"I cured my baby of a bad attack of cholera by using Dr. Fowler's Extract of Wild Strawberry. Nothing else did any good, but the baby improved from the first dose of the Wild Strawberry."

Hagyard's Yellow Oil cures all pain in man or beast; for sprains, cuts, bruises, callous lumps, swellings, inflammation, rheumatism and neuralgia it is a specific.



Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other as all Mixtures, pills and imitations are dangerous. IMPORTANT SALE OF LANDS

In Peterborough and Ashburnham.

PURSUANT TO THE ADMINISTRATION Order made by the High Court of Justice in the matter of the Estate of the late John Burnham, there will be offered for sale, by Public Auction, with the approbation of the Master at Peterborough, at the MORGAN HOUSE, in the Town of Peterborough, on

Monday, the 27th day of June, 1898

at 2 p.m., by Charles Stapleton, Auctioneer, the Lands following, namely:—

IN THE VILLAGE OF ASHBURNHAM.

PARCEL 1—Block I, according to the Village Plan and Lot "B", north of Douro street, and west of Grand Trunk Railway track, according to Plan 15 of said village. Upon this property is a two story brick dwelling about 32x42 with a two story kitchen and shed with cellar under the whole house and kitchen. Dwelling is heated with hot air. The land contains about two acres. The property is occupied by a tenant whose lease is determinable on 2 months notice.

PARCEL 2—Lot "A." on Plan 15, Ashburnham, situate on the north side of Douro street and facing Brown street. On the property is a two story brick house. The property is occupied by a monthly tenant at a rental of $10 per month.

PARCELS—Part of lot 8, south of Elizabeth street, and east of Mark street, described as follows:—Commencing at a point on the northern limit of the lot 85½ links, east from the north west corner of the lot, thence southerly (along a line drawn from the said point to a point in the southern limit of the lot distant one chain twenty one and a half links from the south west corner of the lot) to where the northern boundary of a portion of the said lot belonging to one Dawson, being produced would strike the said described line, thence west along the said northern boundary produced to the eastern boundary of the land owned by the said Dawson, thence south, along the eastern limit of said land to the southern limit of said lot 8, thence easterly along such eastern limit to the south east corner of the lot, thence northerly along the eastern limit thereof to the north east corner thereof, thence west to the place of beginning. Upon this parcel is a two story 8 roomed brick dwelling. The property is now rented at $100 per annum, by lease determinable in 6 months notice. There is a stable, etc., on the property belonging to the tenant which could be acquired by the purchaser if required for $125.

PARCEL 4—The south west part of lot 126, north of Robinson street, containing about one third of an acre on which there is a small frame house.

IN THE TOWN OF PETERBOROUGH.

PARCEL 5—Park lots 1 and 2, in Towaship lot 16, in the 12th Concession of the Township of North Monaghan containing about 19 acres. This land is within the limits of the town and is immediately north of the "Driving Park." Upon the property is a dwelling house and stable, etc. Full possession to be given on the 1st October. The north 33 feet of Park lot 2, is subject to an agreement with the owner of Park lot 3 for the opening of a road from George street to Park street across said lot. Park lot 2 has been sub divided into small lots as shown by plan registered which may be altered or entirely dispensed with by the purchaser.

PARCEL 6—Lot number 45, south of Crescent street. On this lot is a frame dwelling house (street number 17). The property is held by a monthly tenant.

PARCEL 7—Lot number 51, north of Ware street. There is on the lot a frame dwelling house (street number 57), occupied by a monthly tenant.

PARCEL 8—Part of lot number 1, south of Sherbrooke street and west of George street, described as the north 48 feet thereof. Upon this Parcel is a two story frame building, occupied as a store and dwelling, by a monthly tenant.

PARCELS 9 and 10.—Building Lots 18 and 19, south of Sherbrooke street and west of Park street. These lots have each a frontage on Sherbrooke of 75 links and a depth of 3 chains and 33 links.

PARCEL 11.—Building Lot 46, south of Crescent street, having a frontage thereon of about 90 links and a depth of about 2 chains 90 links.

PARCELS 12, 13, 14 and 15.—Building Lots Numbers 52, 54 (except the west 33 feet), 55 and 57, north of Ware street. These lots have each a frontage of 80½ links and a depth of chains and 80 links.

PARCELS 16, 17, 18 and 19.—Lots 2, 4, 9 and 10, south of Ware street on Plan 62. These lots are 75 links wide and 3 chains 28 links deep.

PARCELS 20 and 21.—The south half of lot "D" and all lot "E" in Plan 37. These lots are situate on the east side of Lock street, and are 1 chain 12½ links wide, by 3 chains 41 links deep.

PARCEL 22—Lot "F" and that part of lot "G" not conveyed to Midland Railway on said Plan 37. These lots are situate on the east side of Lock street.

PARCEL 23—30 Building Lots situate on Gladstone Avenue, between Lock street and Haggart street, to be sold en block.

TERMS OF SALE—10 per cent. down, and the balance in one month thereafter without interest.

There will be a reserved bid upon each Parcel. In other respects the conditions of sale will be the standing conditions of the court.

Further particulars can be obtained from Messrs. Hall & Hayes, Solicitors, or from the undersigned.

Dated 27th May, 1898.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,201.50, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $3510.00, or a Life Annuity for $401.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

Yours truly,
A. P. COCKBURN.

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has influenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

THE QUEEN-REGENT A-WEARY OF WAR.

Spanish Sentiment in Favour of War.

BRITISH BOTTOMS FOR TRANSPORT.

Don Carlos, the Pretender, a Troublesome Element—Peace, the General Cry in Spain—Twenty-five Transports Offered by British Ship Owners.

Special 3 p. m. dispatch to the Examiner.

The Queen Regent Weary of it All.

New York, June 22.—A Madrid despatch says: Anxiety over the war and the political situation in Spain has so preyed upon the Queen that she looks weary, preoccupied and sick.

Peace Desired in Spain.

The most significant articles have appeared in several financial papers of Madrid, and in the Diaro de Barcelona by well-known politicians and financiers, advocating peace rather than a prolongation of a useless, hopeless struggle which they say if prolonged, will end in the total loss of Spanish colonies and ruin Spanish finances, even if it does not lead to a revolution and civil war on the Peninsula. Spain has been advised to give in by all foreign Governments, including Austria and the Pope.

Even Government Journals cry for Peace.

Madrid, June 22.—The Ministerial El Carrvio, without openly championing peace, which would be considered unpatriotic, calls attention to the injury the war is causing trade and industry.

London, June 22.—Madrid correspondent of the Standard says: Nobody except his followers believe Don Carlos can do no more than to disturb the peace of the realm and to aggravate the difficulties of Spanish finance so long as the present monarchy and dynasity are supported by the army, the navy and a majority of Spaniards. But undoubtedly he might become a powerful adversary to any other regime and springing upon the country by revolutionary parties, as unfortunately the reorganization of the Carlist forces all over the peninsula has been much ignored by the Madrid Government of the past twenty years.

Another Cry for Peace.

Diaro Da Barcelona, one of the most influential of the provincial newspapers strongly urges the immediate conclusion of peace.

British Ships Offered as Transports

Washington, June 22.—Twenty-five British bottoms have been offered to the War Department by their owners and agents for transport purposes.

MUSIC UNDER GOOD CONDITIONS

The Godfrey Band Will be Heard to the Best Advantage.

The Charlotte street rink, which has been selected for the Godfrey Band concert, will afford those attending the best facilities for hearing the celebrated musicians. The acoustic properties of the rink will be a great improvement on the Opera House, where Sousa was heard and and those who attend will hear the music under the best conditions, for attention will be paid to this feature and the desire of Lieut. Godfrey will be carried out.

Peterborough should give England's greatest Bandmaster and its finest band a recognition that will be in keeping with the town and in keeping with the magnificent audiences that have been delighted by their music in other places.

The plan is now open at Ormond & Walsh's drug store.

PERSONAL.

Mrs. McCarty is visiting her sister, Mrs. (Dr.) Coughlan, Hastings.

Mrs. T. Craig, Toronto, is visiting relatives in town for a few weeks.

Mr. J. T. Middleton, ex-M. P. P., of Hamilton, is in town on business.

Mr. John Barkey and Mrs. Jacob Barkey, of Peterborough, visited friends in Lake-Sunday.

Mr. Otto O'Boyle has returned to the Business College after spending a holiday in Lindsay.

Miss Mabel Warne has returned home after a visit with friends in Bowmanville and Guelph.

Mr. and Mrs. Jas. Lewis and Master Arthur, of Peterborough, were visiting friends in Lakefield Sunday.

Mr. R. M. Roy, Jr., formerly of town, who is connected with the Hamilton Bridge Works was in town to-day.

Mrs. John Chrow and her daughter Mildred, of Victoria, B. C., are visiting with Mrs. W. R. Turner, Water street.

At the annual meeting of the Canadian Bank of Commerce held on Tuesday, Hon. G. A. Cox was re-elected president.

Mr. John E. Frith and wife, of Toronto, were visiting last week with Mr. Wm. Buller. Mr. Frith is an old Peterborough boy and used to be one of the mainstays of the Fire Brigade Band. He is now with W. B. Hamilton in Toronto.

At the annual distribution of prizes at St. Michael's College, Toronto, the name of Mr. W. Tuopey, son of Mr. Michael Tuopey, Douro, appears as a prize winner for "excellence"—the highest merit—in belles lettres.

THE EXCHEQUER COURT.

Evidence Still Being Taken as to the Depreciation in Value Caused by the Canal.

The Court of Exchequer is still in session in the case of Chief Justice Armour vs. Dominion Government in the matter of expropriating a portion of his farm for canal purposes, for which he claims $20,000 damages. A large amount of evidence is being taken from farmers and others living in the vicinity of the Armour farm as to the values of farm lands in Otonabee, and expert evidence is also being adduced.

S. H. Janes, real estate agent, of Toronto, expressed the belief that the big hill on the property was a distinct advantage to it for building purposes. The presence of the canal depreciated the front half about $7,000 in value and the rear portion by about $7,200. He had viewed the property and this was his opinion as an expert.

Geo. E. Case, real estate agent, of Toronto, also spoke of the hill as being an advantage to the property for villa lots. The presence of the canal would depreciate the property in value for building purposes.

Edward Galley, real estate agent, of Toronto, had viewed the premises and estimated the depreciation in the value of the property caused by the presence of the canal to be fully fifty per cent.

John Gow stated that he had worked the Armour farm eleven years. All but four acres had been under cultivation. The back farm or rear half was the best farm in the county. This property would now be greatly reduced in value as the occupant would be forced to go half a mile around to get into town.

Mr. Heap being on an adjoining place, valued his land at $100 an acre. The canal also affected him, as he could only have three loads a day to town from his brickyard, where he used to have four.

John Butcher in purchasing an adjoining property had paid $100 in cash for it. The canal made a difference to him also of one trip a day to the town.

Frank Weir, owning a property three miles from the town in Otonabee, placed a value of $50 an acre on it.

Jos. Ball, owning a piece of land next to that of Mr. Armour, had sold a portion of it to him at $100 per acre.

David McMahon had bought five acres of land alongside that of the farm in question for $100 an acre. He purchased a second lot the same size at $120 an acre. His land was at the rear end of that of the Chief Justice. It was the same kind of land.

Mark Curtis in purchasing land in the vicinity had given $180 per acre for it. This of course was clay land suitable for brickmaking. There was the same kind of clay in land he bought from Mr. Armour.

Henry Cox, tenant on the farm, gave evidence that he realized from three to four hundred dollars a year on the farm by renting a portion of it out as pasturage before the canal cut it off from the town. He conducted a milk business which was damaged by the distance he would now have to come to the town. As a farm property the premises were damaged in his opinion to the amount of $25,000. The canal would be a constant source of danger to his animals.

A BUFFALO MURDERER ARRESTED.

Stowed his Victim's Body in a Trunk.

Special to The Examiner.

BUFFALO, N. Y., June 22. — Antonio Baroni and his wife were arrested this morning for the murder of Philip Farestano whose dismembered body was found in a trunk yesterday morning floating in the canal. Baroni admits purchasing the trunk in which the body was stowed.

THE SICK MAN'S SISTER SPIRITED AWAY.

Brigands Capture and Abduct a Sister of the Sultan of Turkey—A High Figure Likely to be Demanded for her Return.

Special to the Examiner.

London, June 22.—A band of brigands, according to a special despatch from Constantinople, has abducted a sister of the Sultan. The princess was seized while she was out walking at Kizit Toprak, a few miles from Constantinople, where she resided. Doubtless a big ransom will be exacted for so valuable a prize.

CHILDREN ABDUCTED.

Two Little Boys Carried Sixteen Miles Into the Country.

Mrs. McIntee, 317 Smith street, reports to the police that a farmer took her son, aged six years, and a son of Mrs. John King, Park street, into his wagon and drove them sixteen miles near the Indian Village. This took place yesterday afternoon and the mothers were almost frantic till they learned the whereabouts of their children. Mrs. McIntee and Mrs. King were driving from midnight till eleven o'clock to-day before they found out the youngsters, who had been sent by the man, who took them away to a neighbour. Mr. Edgar, milkman, who saw the children in a wagon, gave a clue to their possible whereabouts. It was a cruel and thoughtless act to take the children so far away from home. Even if it was only a joke, it was a very ill-timed one, and the perpetrator should at least pay the cost to which a lone widow was put, to hire a horse and buggy.

THE MEET COMMITTEE.

Everything Reported in Readiness for Receiving the Visitors and Conducting the Parade.

At a meeting of the Wheelmen held last evening in the Victoria Club Rooms, Mr. J. S. Knapman, chairman of the Parade Committee, reported arrangements having been made to have a large number of fancy dress costumes on hand from Toronto for Dominion Day.

The parade will form at the Nicholls Park track and leaving there at 10.30 a.m. sharp on the morning of the 1st., will proceed across Smith street to George, down to Dalhousie, across to Aylmer, up to Hunter and across to the P. A. A. A. grounds, where the lacrosse match between the Perth and Peterborough teams will begin at eleven o'clock.

Mr. A. H. Stratton reported having his Reception Committee formed and ready for work.

The Canadian General Electric Works will be closed all day on Saturday, July 2nd, which will give the employees three full days to themselves.

Arrangements are being made to have the principal streets raked clear of stones for the 1st.

DECORATION DAY.

The usual decoration services take place on the evening of Tuesday next, June 28th. All Oddfellows are requested to meet at the hour of 6 p.m., sharp, at the Central Park and proceed thence to the cemetery, where short speeches will be delivered after the completion of the decoration of the graves by the ministers of the town. Parties having flowers to donate will please leave them at the Oddfellows' hall as early in the day as possible. Visiting brethren are particularly invited to take part on the occasion.

FIRST YEAR OF Y.M.C.A. IN THEIR NEW HOME.

SUCCESSFUL CELEBRATION OF THE FIRST ANNIVERSARY.

Gratifying Progress and Prosperity to be Recorded—The "At Home" in Celebration of the First Anniversary—An Excellent Programme Presented.

Last evening the first anniversary of the opening of the Y. M. C. A. building was fittingly and successfully celebrated. After a period of a year, evidence in abundance was not lacking to testify to the increased interest in the new building and the work connected with it, the results of which have thus far been undoubtedly gratifying.

During the association year now closing in no department has its members worked so faithfully and so well as in the Ladies' Auxiliary. The task of furnishing the building undertaken a year ago has been crowned with success and the Peterborough Y. M. C. A. can boast of as finely furnished and attractive a building for young men as can be found.

Last evening the ladies, marshalled by Mrs. Sheriff Hall, took possession of the building and the spacious rooms presented a pretty appearance, tastefully decorated with flags and flowers.

In the audience room the wall back of the platform was festooned with bunting and from the centre hung a large portrait of the generous lady—the late Mrs. Charlotte Nicholls—by whose will the building was erected. On the right was a large picture of the Queen and on the left one of the Prince of Wales.

Delicacies of all kinds were in abundance. A committee composed of Mesdames Mason, Nugent, J. C. Brown and Kendry, assisted by young ladies, had charge of the ice cream department in the reading room. Mesdames McAllister and Hamilton had charge of the lemonade and coffee, and a well laden candy table was in charge of Mesdames P. Campbell and Carton and Miss A. Hall.

All met with liberal patronage. The Sons of England Band enlivened the programme with a number of well rendered selections.

In the audience room fully 300 assembled to hear the musicale which was given by some of the leading vocalists of the town. Everyone present was pleased with the selections.

It will be impossible to comment on each of the selections, but all who took part are deserving of the highest praise.

Mrs. Sheriff Hall presided. The following was the order of the programme :

PART I.

Piano solo	Miss Dennistoun
Solo	Mrs. Parker

THE JUNE SESSION OF THE COUNTY COUNCIL.

REPORT OF THE COMMITTEE ON WARDEN'S ADDRESS.

Chief of Police Rossel's Action in Regard to the Arrest and Capture of McDonald Eulogistically Referred to.

WEDNESDAY, JUNE 22ND.

At this morning session the Warden occupied the chair, all the members present.

After routine,

On motion of Messrs. Casement and Hawthorne, the Committee on the

WARDEN'S ADDRESS

reported as below :

The special committee adpointed to consider the Warden's address, beg leave to report as follows :

1. Your committee feel assured that there are most hopeful prospects of an abundant harvest throughout this county and also throughout the Dominion. There is no question that the increase which has already taken place in prices of agricultural products, coupled with the present firm tone of the market, has given a stability to real estate values and to farm products which is most gratifying, and your committee have reason to congratulate this county on the bright outlook for the farmers, merchants and working men of our Dominion.

2. Your committee feel that in the past the mineral wealth of this county has never been properly investigated or justly realized, but that it is becoming day by day more apparent that there is a wide field for the successful investment of capital in our immediate neighbourhood, and measures should be taken to make more widespread advertisement of the undeveloped mineral resources of this county.

3. Your committee join with the Warden in expressing the hope that the present Cuban war may soon be at an end and that an honourable peace, accomplishing the reforms for which the war was started, may soon be effected. Your committee also join with the Warden in expressing his gratification at the friendly feeling which is now being exhibited amidst the various members of the Anglo Saxon race.

4. Your committee are also pleased to note that Steele's bridge in Asphodel has been built, and that the improvement at Hales Bridge has been fully completed.

Your committee recommend that the matter of repairing or rebuilding Burns' bridge in Douro, and Comstock's bridge in Asphodel, be referred to the Committee on Roads and Bridges.

6 Your committee approve of the action of this county and of the council of the town of Peterborough in sending a deputation to Ottawa for aid towards re-building the Mud lake bridge, and at the favourable response granted to their application by the Dominion Government. Your committee are pleased to note the special appropriation by the town of Peterborough towards the temporary repair of the Mud lake bridge, and your committee recommend that the whole matter in relation to the bridge be left in the hands of the Road and Bridge Committee.

7. Your committee join with the Warden in expressing the hope that statute labour will soon be abolished in the older townships, and that more attention will be paid to movements in favour of better roads and more modern methods and appliances for building them, and your committee are pleased to note that the township of Asphodel is among the pioneers in this good movement.

9. With respect to the House of Refuge, your committee beg to refer this matter to the Finance Committee for further consideration.

All of which is respectfully submitted.

W. H. CASEMENT,
Chairman.

County Council Chambers, Peterborough, June 22, 1898.

THE CHIEF OF POLICE.

Mr. R. E. Wood, County Crown Attorney, addressed the council. He appeared, he said, at his own instance and not at the request or intimation of the Chief of Police or any other person. He wished to and did point out in terms of warm commendation the course adopted by the Chief of Police in the identification of McDonald, who burglarized the Norwood post office and went into detail of the energetic and intelligent course taken in attaining this result. His energy in his recapture also deserved special mention and the whole course of the Chief in connection with the affair developed so much activity and intelligent interest that he thought special recognition should be made by the county council. The action of the Chief of Police in connection with the circumstances cited, had been so conspicuous as to receive the warm commendation and warm praise of the Provincial, Dominion and railway detectives, who spoke of him as one of the leading officers in his profession. While the chief was not a party to his (Mr. Wood's) request, he was sure to appreciate any action the county council might be good enough to take.

The Warden remarked that Chief Rossel's course in the matter was worthy of credit and if it had not been for his clever work in securing the photograph of McDonald and thus establishing his identity, he would not have been recaptured,

The motion was referred to the Finance Committee.

MOUNT JULIAN WHARF.

Moved by Mr. Eastland, seconded by Mr. Shaw, that the council send a memorial to the Dominion Government asking for a grant of $100 to build up the approach to Mount Julian Wharf on Stony Lake which has just been built, principally by aid from the government, but which without the approach is not easy of access.—Carried.

Council adjourned.

BATTALION NOTES.

WEDDING BELLS.

Marriage of Miss Alberta Carey, Formerly of Town.

Prof. Arthur Allen, M.A., Ph.D, professor of Psychology and education of the State University of Colorado, Boulder, Colorado, was married yesterday evening in the McCall street Methodist church, Toronto, to Miss A. M. Carey, daughter of Mr. Johnston Carey, of Beverley street, formerly of Peterborough. The bride wore a handsome gown of ivory white duchesse satin en train, trimmed with chiffon, and she carried a lovely bouquet of white roses in her hand. The ceremony was performed by the Rev. W. J. Barkwell, M.A., assisted by the Rev. E. J. Bridgley, M.A., LL.D., and the Rev. L. E. E. Shore, B.A., B.D. The bridesmaids were Miss Laura Acheson of Goderich, and Miss Ethel McKinley, of Orillia, who wore gowns of white silk organdie over yellow, and white leghorn hats, and carried bunches of crimson roses. Miss Maud Carey, sister of the bride, the maid of honour, looked very charming in a gown of white silk, with a large picture hat. Prof. J. E. LeRossignol, Ph. D., professor of ethics and psychology in the Denver University, Denver, Col., was the groomsman. Mr. A. C. Carey, brother of the bride, and Mr. A. S. Pearce acted as ushers. After the ceremony a reception was held at the house of the bride's parents on Beverly street. The presents were handsome and numerous, including a check from the bride's father and also an opal ring surrounded with diamonds from the groom. The bridesmaids and maid of honour were each presented by the bridegroom with hand-some gold crescent pins set with pearls. There were guests present from many parts of the States and Canada.

Dr. Evans and the Emperor Frederick.

Dr. Evans was more than a friend of the late Emperor Frederick and his wife. But he was annoyed at the confidence they placed in Sir Morell Mackenzie, about whose treatment he had strong views. Evans' opinion greatly influenced the opinion of the old emperor and empress, of Bismarck and of the Berlin physicians about the throat doctor from London. Evans was originally a Quaker. The theatrical and society tastes of Sir Morell Mackenzie were repugnant to him. His feeling about them made him scrutinize keenly the man and his treatment. But the crown princess had a strong bias and followed it. Dr. Evans was given impressions of all the photos taken of Frederick during his illness. The later ones, which were signed by him, were inexpressively sad. The signature was bold, free, characteristic and written slantingly in gold ink across the lower part of the image. Above it were a few friendly words. In the photos taken at San Remo martyrdom was stamped on the face. The crown prince then could not speak. He generally wrote on a slate.

Dr. Evans asked him to write on black cards or tablets the size of a slate when he had occasion to communicate with him. "Why?" asked the prince. "I want to have them as a precious relic for my wife." The request was complied with. Very seldom, indeed, did the handwriting betray weakness, but it became sharp and attenuated.—London Truth.

The Tea Cup Test

It is well enough to talk about the good qualities of a tea, but after all it is what is shown by brewing that is the final test. The number of cups of good tea that can be brewed from a single pound has as much relation to economy as the price per pound. From a pound of Ram Lal's Pure Indian Tea, 200 cups of tea can be made. Beside, the strength there is the quality of the brew, and in this Ram Lal's stands above all others.

YOU CAN IF YOU WISH.

RESTORE THE SNAP,
VIM, ENERGY AND STRENGTH
YOU HAVE LOST.

Dr. Ward's Blood and Nerve Pills have been a great boon to my daughter Maggie. Prior to taking them she had been suffering from excessive nervousness for a long time, and her nerves were in a terribly shattered condition. The action of her heart was so weak that it did not have strength to perform its functions, causing violent palpitation and smothering after retiring. Frequently, on account of this suffocating sensation she was afraid to go to bed. Slight exertion exhausted her and caused shortness of breath. Her blood was impoverished and lost vitality, and she had no appetite. She was wasting away and was very hypochondriacal, feeling dejected all the time. Last December she began taking Dr. Ward's Blood and Nerve Pills, and she improved at once. Her blood became healthy and strong, and in six weeks her impaired nervous system was restored to its normal healthy condition. Her heart responded to the healthy condition of her blood and nerves and resumed its strong and healthy functions. She now sleeps without any of the dangerous, distressing, smothering and choking spells; her appetite is good, and she has gained in flesh. Healthy color has replaced pallor, and she is now well and strong, thanks to Dr. Ward's Blood and Nerve Pills. I thank you, gentlemen, for the remedy that has restored my daughter to health. A. GUNN, Baggagemaster, Grand Trunk Railway, Oshawa, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

PARRIED A CHALLENGE.

How a Clever Young Lawyer Got Out of Fighting a Duel.

A good story is told of a young lawyer in this city. One of his first cases was a claim against a creole gentleman, who agreed to pay a certain amount each month. The first of the first month after the agreement came and went, the creole gentleman forgetting to remit. The young lawyer waited several days, and then wrote a letter. It had one virtue—it was emphatic. It was not so polite as it was emphatic, however, and within an hour of its delivery to the creole gentleman two of his friends called upon the young lawyer with a message, which, freely translated, meant "You have the privilege of naming the weapons."

For a moment the young lawyer was genuinely alarmed. He had heard that the creole gentleman was a dead shot and equally fatal with the sword. He wanted to avoid trouble, but did not feel that the circumstances justified him in pleading professional privilege when he had virtually called a man a beat. Then there came to his mind that he had somewhere read that a gentleman could not grant a duel to any one who owed him money, and he haughtily said so to his callers.

They instantly withdrew. An hour passed. It was an hour of anguish to the young lawyer. Then there came again the cards of the two friends of the offended creole gentleman. A minute later they were in the lawyer's office, and he had written out a receipt for the full amount of the claim against the creole gentleman.

"And now, sir," said the chief second of the creole gentleman to the young lawyer, "what is your answer to our principal's demand?"

"My answer, gentlemen, is this: I formed the hasty conclusion that your principal did not intend to pay what I considered a just debt, and I so expressed myself. He has paid the debt. I recognize the seriousness of my misjudgment of him as a gentleman, and I beg to assure him, through you, that I will willingly offer him any apology which a gentleman may see fit to require of a gentleman."—New Orleans Times-Democrat.

Britain's Prudent Policy.

London, June 21.—Replying to a question in the House of Commons yesterday, the First Lord of the Admiralty, Mr. George J. Goschen, said the annual naval manoeuvres had been abandoned in consequence of the serious character of the strike of coal miners in Wales, although, he added, the British Admiralty never possessed a larger stock of coal than at present. But it was thought prudent to husband it.

SCOVILL ACQUITTED.

The Celebrated Brockville Sessions Fire Case Ended.

Brockville, June 21.—At the Brockville sessions, before His Honor Judge McDonald, the trial of Thomas K. Scovill, pursuant to the direction of Chief Justice Armour, for being an accessory to the burning of Scovill's buildings at Portland, was proceeded with, and after two days' hearing, the jury found the prisoner not guilty. He was tried at the last Brockville Assizes for conspiracy, with two men named Layng and Johnson, to burn the buildings, and was then acquitted. Two actions are pending for the insurance moneys, amounting to about $4,000, and these will likely be tried at the next assizes. Mr. Scovill is now free from any imputation of a criminal character, and the only question left is the liability of the insurance companies to pay the money.

ACCEPTED MR. TARTE'S PLAN.

Montreal Harbor Will Now Be Very Greatly Improved.

Montreal, June 21.—The Harbor Commissioners held a private meeting yesterday to consider the plans of the Minister of Public Works for the improvement of the harbor known as No. 12A. The commissioners accepted the plans. At the public meeting to-day the commissioners will formally adopt the whole plan submitted by Mr. Tarte.

Ruling in Favor of the Spaniards.

Montreal, June 21.—Judge Mathieu gave judgment yesterday morning, striking out the ninth paragraph in the declaration filed by Detective Kellert's lawyer, which alleged that Carranza and Du Bose were at the head of a Spanish spy system. His Honor ruled that the accusation was irrelevant to the case. His Honor also fixed Thursday next for hearing evidence on the capias.

Carranza and De Bose have deposited one thousand dollars with a prothonotary as security, and also renewed the security deposited with the sheriff.

Livonian in Trouble.

Quebec, June 21.—The steamship Livonian, Captain Whyte, one of the Allan Line, from Montreal for London, which passed outward at 4 p.m. yesterday, is ashore on Red Island. She is reported to have gone on at high water during a dense fog, and has sustained some damage, but to what extent is not yet known. Mr. G. T. Davies' wrecking steamer Lord Stanley, with schooner, steam pumps and other appliances, went to her assistance last evening. She carries a general cargo.

Drowned in a Diving Bell.

Milwaukee, Wis., June 21.—Word was received here last night of the drowning of George Campbell and Peter Olsen at Thunder Bay, while engaged at work in a diving bell recovering the cargo of the sunken steamer Pewabic, which was lost about a year ago. When the bell was raised it was found both men had been drowned by water which burst through one of the glass windows.

Port Arthur's Blaze.

Port Arthur, June 21.—Fire destroyed several buildings here at 2 o'clock yesterday morning, viz., the Aitken House, loss $4,000; Terry & Bowell, blacksmiths, loss $1,500; W. C. Dalton, furniture, loss $2,000; John Love, $1,000; S. Cunningham, $2,000; Mrs. Williams, $1,000; Mike Sullivan, $1,500.

A Terrifying Wig.

Many extraordinary and several very ludicrous incidents are described by Captain Arthur Cuninghame in his "Recollections of Service In China." One day while stationed in Nankin a friend of his stepped into a barber's shop, and by way of employing his time he desired the barber to shave his head. This gentleman wore a wig, but which, for the sake of coolness, he had placed in his pocket. This operation of shaving, so common in China, was speedily and quickly executed, the barber seeming to be delighted with the honor of shaving one of the illustrious strangers. Previously to his leaving the shop and while the man's attention was called in some other direction my friend replaced his wig upon his head, little thinking of the result of this simple process. No sooner, however, had the barber turned round and observed him whom he had so lately cleared of every vestige of hair suddenly covered with a most luxuriant growth, than, taking one steady gaze at him, to make sure he was not deceived, he let fall the razor, cleared his counter at a bound, and running madly through the crowd, which was speedily collected, cried out that he was visited by the devil.—Nuggets.

A Cultured Monarch.

The Pall Mall Gazette says that King Oscar of Sweden and Norway is probably the most cultured prince now sitting on any throne. Besides being a great linguist speaking no less than seven languages perfectly, he is a poet and writer of great ability, and his poems are not only widely read throughout Sweden, but have been translated in several foreign tongues. A first rate musician, with a beautiful voice, an eloquent orator and an enthusiastic sportsman, the Swedish king is all of these. But in spite of his many interests and accomplishments he has kept his duties and responsibilities ever before him and has been true to his motto, "Brodrafolken val (the brother people's good).

The Roman writers on agriculture allude to butter only in the most incidental way, and there is reason to believe that, even in the third and fourth centuries, it was used solely as an ointment.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

The things that people see are inside of them and not outside of them. No two people see the same thing exactly alike. One woman may look at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Medical Adviser," profusely illustrated.

General Augusti's Plight.

Madrid, June 21.—The belief is expressed in Government circles that Captain-General Augusti will ask the foreign warships to land detachments to occupy Manila, on the ground that he is no longer able to resist the insurgents.

The trouble with most men is not that they do not know how to work, but that they do not know how to rest. If a man knows how to rest and how to take care of his health, there is hardly a limit to the amount of work that he may accomplish without doing himself injury. The trouble is that men not only overwork, but that they neglect to rest at the proper hours and neglect their health.

A man passes a restless, sleepless night, gets up dull and headachey in the morning, goes to the breakfast table without an appetite, bolts what little he does eat and rushes away to business. He is drowsy and nervous by turns all day and forces himself to work against his will. He takes five minutes for lunch and not a minute to rest afterward. He goes home at night utterly fagged out and with no appetite for supper. The idea of taking medicine or even taking a little rest never enters his head. Some night his wife finds him in the rocking-chair before the fire-place—dead. The doctor will call it nervous prostration or heart trouble or something of that kind. Dr. Pierce's Golden Medical Discovery is the best medicine for hard working men. It restores a keen edge to the appetite. It facilitates the flow of the digestive juices and makes the digestion and assimilation perfect. It invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and nerve-tonic. Medicine dealers sell it.

N. Gaddis, Esq., of No. 313 South J Street, Tacoma, Washington, writes: "I was taken ill in February 1892. My lungs hurt me and I got so poor that I was just skin and bone. I thought I was going to die. I tried Dr. Pierce's Golden Medical Discovery and it saved my life."

Pierce's Pellets. For sick headache, biliousness and constipation, Dr. Pierce's Pleasant Pellets are the most rational cure known. They are mild but thorough and effective. They regulate and invigorate stomach, liver and bowels. Never gripe. No other pill is like them.

SOMEWHAT MIXED.

An Enigma Which Broke Up the Answers to Correspondents Editor.

"Mister, do you write the 'Answers to Correspondents' for this paper?" asked the stranger with the despondent countenance as he leaned across the desk and heaved a rye tinged sigh through the atmosphere.

"Yes, sir. What can I do for you?"

"Can you answer a little question of relationship?"

"Give me the facts, and I'll try."

"Here you are: When I was a baby, my mother, a widow, married the brother of my father's first wife. He was my uncle, of course, but that made him my father, didn't it?"

"Your stepfather, you mean."

"Yes. Well, mother got a divorce from my uncle-father, and then she married the oldest son of my father's first wife. He was my half brother, wasn't he, and also my stepfather, wasn't he?"

"It looks as if he was."

"That made mother my half sister, didn't it?"

"I—I—I guess it did."

"That's what I thought. Well, you see, my uncle-father had a daughter before he married mother. She was my half sister, too, wasn't she?"

"I—I—I—I guess she was."

"That's the way I put it up. Next thing was my mother got a divorce from my brother-father, and he—my half brother, you know—married my half sister. That made her a kind of stepmother of mine, didn't it?"

"I—I—I"—

"Well, never mind answering yet. My half-brother-stepfather died, and now my half-sister-stepmother and I want to get married, but we can't figure out if we can without being arrested for some kind of thingamy. We don't want to have our tire punctured just as we get to scorching on the matrimonial tandem. What I want you to tell me is what is my relationship to my brother, my uncle, my stepfathers, my half-sisters, my mother, my half brother, my stepmother and myself, and if I can marry her without—why, what's the matter?"

The "Answers to Correspondents" editor had become unconscious.—San Francisco Examiner.

ARC LIGHT AND EYESIGHT.

Gray and Blue Eyes Are Most Susceptible to Injurious Effect.

One effect of the advent of the X ray has been to direct closer attention to the influence of the electric light on the eyesight. It has recently been stated that sailors suffer much in their eyesight from the brilliant electric lights used on shipboard. Gray and blue eyes are the most subject to injury, not being heavily charged with pigments. The men who work the searchlights already wear dark blue glasses, but it is found that these only mitigate the intensity of the light and do not absorb the source of the trouble, the ultra violet rays. These rays, however, can be intercepted by goggles or screens of uranium or yellow glass, and with these it is understood the sailors of the French navy are soon to be provided.

Another interesting case bearing on this subject is reported from a British warship. It seems that two stokers on the ship, having a little spare time, became engrossed in the operation of an electric drill which was burning out holes in a hardened steel plate. Both men declared they only watched the arc for about three minutes, and at the time felt no ill effects, except that all objects appeared to be of a deep gold color. At night, however, both men were aroused by intense pain and partial blindness for the time being, but both recovered quickly after treatment. The electric drill acts by fusing a hole through the steel, and the intensity of the light is greatly increased by the rays of light thrown off by the molten metal. The fact, too, that the work is carried on chiefly in the daylight is apt to deceive the casual onlooker as to the degree of brilliancy of the light, and it is not until the after effects begin to assert themselves that he is aware of anything out of the common. Dark glasses are now used by all the men on the electric drilling shifts. A singular feature of this affection is that it is analagous to snow or desert blindness, and as in them the pernicious effects of the electric light are probably due to the ultra violet rays of the spectrum.—Pittsburg Dispatch.

A DOG HERO.

He Lost a Leg, but Saved the Colors of His Regiment.

This story about a dog who was a hero is worth reading. Moustache was a French dog, and the story of his heroism is told in The Outlook:

He managed to attach himself to a company of grenadiers who were about to start for Italy. His new friends trained him to carry a gun, to act as sentinel and to keep step. It was in Italy, in the vicinity of Alessandria, that Moustache rendered his first distinguished service to the French army.

A detachment of Austrians was concealed in a neighboring valley and advanced at night to surprise the Frenchmen. The plan would have succeeded if Moustache, going his rounds with his nose to the wind, had not scented the enemy and given the alarm. He uttered cries of warning, and when the Austrians found that they were detected they beat a retreat.

Again, some time before the battle of Austerlitz, the dog did valuable service. A spy had penetrated into the French camp and had deceived every one, so that he would have returned to tell all he had learned if Moustache had not again been on the scene. He scented an enemy and hurled himself upon the intruder with a howl. His warning was not disregarded. His friends had faith in his sagacity, and the stranger was put on trial and convicted of being a spy.

In one battle Moustache saw the standard bearer of his regiment fall, wounded and dying. He tried to defend the body and lost a paw in the encounter. But this did not daunt him. The enemy having been swept aside by a discharge of grape shot, the gallant dog tried to secure the colors, but the dead man's hand had stiffened around the staff. There was nothing to be done but to detach the flag in shreds, and this the dog succeeded in doing, returning to camp lame, bleeding and exhausted, but triumphantly bearing the colors.

For this brave deed he was awarded a medal that bore the inscription, "He lost a leg at the battle of Austerlitz and saved the colors of his regiment," and on the reverse side: "Moustache, a French dog. Let him be everywhere respected and cherished as a hero."

Moustache served with the dragoons in ten campaigns and fought in all the battles. He was killed by a cannon ball at the taking of Badajoz in 1811, and was buried on the field of battle, his collar and medal being buried with him.

A GLOBE REPRESENTATIVE

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

Toronto, June 20.—(Special)—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parnham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other Kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

GUNNERY PRACTICE.

An Occasion When Quickness of Action Prevented a Fearful Disaster.

An officer of the United States navy relates the following as illustrating some of the perils of gunnery at sea:

"I came very near going up into the air in small bits on this last squadron cruise. We were at heavy gun practice at sea and but for the quickness of a gunner's mate would never have returned. As you probably know, the heavy guns in the turrets are fired by electricity, the gun being discharged simply by pressing a button. The officer in command of the forward turret on our ship during rapid firing practice was just about to press the button to fire one of our big guns when a gunner's mate was seen to grab at something on the wall of the turret and then fall in a heap on the floor. The officer pressed the button, but the gun was not discharged. When the mate came to, he was asked what had happened, and he informed the officer that the breech of the gun had not been locked and that what he grabbed at on the wall was the wires forming the electric firing circuit.

"When he saw that the officer was preparing to fire the gun and at the same time observed that the breech of the gun was not locked, the only thing that occurred to him to prevent the gun being discharged was to destroy the circuit, which he did promptly and effectively. When all this occurred, there was a charge of 250 pounds of powder in the gun, another charge of the same size in the turret ready to be served, and the passageway leading to the powder magazine was wide open. But for the quickness of the gunner's mate the gun would have been blown out inside the turret, the gases from the burning powder would probably have ignited the charge lying in the turret, this explosion would have ignited the powder in the magazine, and the chances are that the whole ship, crew and all, would have gone up in the air. A thought that has occurred to me is this: Suppose the accident had occurred, what do you imagine the verdict of a board of inquiry as to the cause of the loss of the ship would have been? Since his experience the department has adopted electrical means to prevent the discharge of any of the large guns until the breech is locked."—San Francisco Chronicle.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

WOULDN'T BURN HIS BOOTS.

Though He Didn't Mind the Effect on His Stomach.

After he had sold his load of wood and had received $4.25 for it he strolled over to the little combination billiard parlor and barroom on the other side of the square. His faded old eyes lighted up and his new cowhide boots, larded generously in grease, squeaked exultantly as he thought of that drink he had been planning to get ever since he left the farm at daybreak.

"Jest one old snifter
Of that good old lifter,"

he cooed to himself, "and I'll be primed ter start fer home.

"About one finger of that old red eye will do the bizness, I calculate," he confided to the bartender, as he pulled a feverish red mitten from his right hand and jammed it down in his "pants" pocket. "I ain't a drinkin man—never was—but when it's so cold outside yer breath freezes ter t'waggin wheels ye's got ter resort ter some powerful remedy ter thaw it out."

The bartender agreed with him. For months he had watched the old farmers come in, order just one finger of whisky and drink a whole handful of fingers for the manifestly unfair expenditure of 10 cents. He had decided to put a stop to it, and the farmer with the new cowhide boots was the first victim.

The remedy he placed before him was powerful enough to thaw the Yukon. The old man poured his glass full—just as the bartender knew he would—and gulped it down in one big swallow. The effect was instantaneous. The victim gave one convulsive shudder, looked reproachfully at the bartender and whirled around four times. Then he sat down and hastily began to pull off his cowhide boots.

"What the mischief are you doing that for?" inquired the astonished bartender.

"Can't ye see them's brand new boots?" gasped the victim. "D'ye think I'm goin ter let them burn up tew?"—New York Press.

Impure blood is an enemy to health, and may lead to serious disease. Hood's Sarsaparilla conquers this enemy and averts danger.

The late Archbishop Benson was fond of a little joke. Once in addressing a meeting he remarked, "You must know that, at my age, I cannot be in two places at once."

The captain of a big Atlantic liner, after many calculations, has come to the conclusion that the general size of a fog in the Atlantic is about 80 miles in diameter.

Neither Did He.

"Lester dear," said Mrs. Giddings anxiously to her husband, "I don't like that cough of yours."

"I'm sorry," replied Giddings, "but it is the best I have."—Harper's Bazar.

The Ways of Wives.

Beware of the wife who as she kisses you goodby slips a bit of paper into your pocket, saying:

"There's a list of a few little things I'd like you to get on your way home. Please don't overlook any of them. It will only take you a few moments, and I want all of them today. There's a dear."

Jenkins has such a wife. He takes the little slip and says:

"Yes, my dear; I'll get them."

He gives himself ten minutes to catch the train for home, and this is the list:

"Six lemons, a dozen oranges, yard of blue ribbon, dozen shirt buttons, bottle of ipecacuanha, bunch of celery, bottle of vanilla extract, pound of almonds, pound of moist sugar, yard of white cambric, shilling's worth of chamois leather, box of glycerin jujubes for baby's cough, card of hooks and eyes, figs, dates, yard of lace like sample, shoestrings for Johnnie, packet of pins, piece of blue dress braid and something for baby."

He arrives home with two lemons and an orange and looks unutterable things when Mrs. Jenkins says:

"You didn't have time to get the other things? Why, my dear, I could have bought them all in ten minutes."—Pearson's Weekly.

Accounts Squared.

Hicks—I owe you an apology. The fact is, it was raining, and I saw your umbrella, and supposing you had gone home for good I took it.

Wicks—Don't mention it. I owe you an apology. You left your new hat, you know, and wore your old one. As I had no umbrella and as I didn't want to wet my hat I put on yours. Hope you don't mind.—Pearson's Weekly.

CROP PROSPECTS.

Never Anything Like the Present Promise of a Big All Round Crop.

It has been the practice of the EXAMINER to get from the members at the County Council session in June a summary of the crop prospects in the several townships. But this year this is unnecessary; they all have the same tale to tell. The prospect of a magnificent yield of all kinds of crops is at present unprecedented. Fall wheat, as well as barley, is into a head and is filling finely and before long will be ripening. The yield at present promises grandly. Spring wheat and barley are also shot out also promise a great yield. Of course the yield in all these crops is subject to the condition that the weather from this to harvest will be as favourable as it has been the past of the season. Hay will be an immense crop, never having been surpassed perhaps in the history of the county. Clover made a splendid catch and the growth has been simply tremendous. All other crops promise magnificently, and with favourable conditions the country will have a crop never equalled, and there is danger of the barns literally bursting with plenty. Indeed it is doubtful if the barns will hold half the crop that is usually housed. With good prices, the present promise of grain will bring great prosperity to the country.

Mr. and Mrs. Knox spent Sunday in Marmora.

On Thursday night, of this week, there will be a grand garden party in Mr. Alex. Mathieson's grove. There will be an abundance of strawberries, ice cream, etc. Norwood brass band will be in attendance. Proceeds in aid of St. John's church.

Mr. C. Denike wheeled to Campbellford on Tuesday.

Rev. Mr. McQuaid intends spending a month in Manitoba and Northwest Territories during the summer months.

The Masonic brethren of Havelock intend attending divine service with Marmora Lodge on Sunday, the 26th inst, at Marmora.

Rev. Mr. Hamilton intends spending July in Western Ontario.

Havelock Council met Tuesday night.

There is good fishing at Round Lake and Trent Bridge.

The Baptist church is nearing completion and promises to be a fine structure.

A new gentleman's furnishing and tailouring establishment is opened at the corner of Orange and Ottawa streets. Mr. McComb, late of Trenton, the present occupant comes well recommended.

Some of our juveniles broke into Mr. Mollot's orchard, stealing his cherries and damaging his trees. We believe it is Mr. Mollot's intention to punish the culprits.

YOUNG'S POINT.

From Our Own Correspondent.

Mrs. M. Blewitt is in Toronto undergoing an operation.

The following guests are registered at the Lake View: Messrs. Maurice Benjamin, Alfred Benjamin, John Speir, Joseph Schlesenger, George Jennie, F. P. Begy, W. S. Firman, H. M. Webb, F. Sprey, Fred Allbright, of Rochester, N.Y., J.J. Schneider, of Buffalo, F. F. Buell, of Troy, N.Y., Mr. and Mrs. Percey Hunter, of Port Huron, Mich.

Mr. Clem Gordon, who is foreman on the government works, passed through here with the steam drills and cleaners.

The roads all around this neighbourhood are being repaired now, so that when the gravel is beaten down there will be good roads for vehicles and bicycles. Mr. W. J. Young is pathmaster on the front road in the village here and has made quite an improvement.

The Rev. Father Fitzpatrick visited Chandos last week.

Mr. Harry Stevens and Richard Crawford having completed Mrs. Jas. Kearney's building, have gone to Stony Lake to build a cottage for Mr. J. B. McWilliams.

There was a wedding celebrated in Lakefield on Tuesday, one of the contracting parties being a resident of Youngs Point—Mr. Richard Reid, who is on the shady side of eighty, being a resident here for over forty years, married Mrs. J. Blewitt. The boys are very peaceable here for there was no charivari.

CENTRAL CANADA EXHIBITION.

Bigger and far better than ever before. That is what the Central Canada Fair for 1898, to to be held in Ottawa, commencing Sept. 16th, is going to be.

Only two years ago the directors expended $50,000 in erecting new stock buildings and otherwise improving the grounds for the benefit of their constantly increasing patrons. This year they have obtained $80,000 from the corporation of Ottawa, and the money is being spent in further improvements.

In the first place the grounds have been greatly enlarged; the addition is between seven and eight acres. Besides purchasing property the directors have filled in the bay near Machinery Hall, and what was once a big stretch of water is now simply a beautiful and picturesque lake with a running fountain in the centre.

A new iron main building, 310 feet long, is being constructed, and all exhibits, including those in the ladies' and fine arts departments, will be on the ground floor.

Big additions are being made to the agricultural implement building and to the poultry building. The rows of posts that were a great obstruction in the machinery hall have been removed. The extension of the poultry building is great enough to permit the doing away of the second story of coops, although many new classes have been added to the department.

Another improvement is the building of a wharf near the Elgin street gate.

And there has also been an increase in the prize list. New classes have been added in every department, and in several the value of the prizes have been greatly augmented.

Thirty-two gold medals are offered as special sweepstake prizes for horses and cattle, and as usual there is a special prize for a milk test. The fact that the accommodation for live stock at the Ottawa grounds is superior to anything in America, is know to everybody.

A gold medal is offered this year for Kensington embroidery (ladies' department.) Altogether the list of special prizes is far larger than that offered by any similar association in existence.

As usual there will be a night entertainment, and the very best special stage attractions will be secured. The night show will include the presentation of that thrilling historic spectacle. "The Siege of Delhi." With pyrotechnics it is possible to present the dread conflicts of armies in such a realistic manner that the beholder forgets for the moment that it is simply the work of clever artists. By the use of fireworks and the assistance of Ottawa's crack soldiers, the famous siege of the Indian mutiny, in which another striking example of British valor and endurance was given, will be vividly portrayed.

What is undoubtedly the wonder of the period has already been secured to surprise and delight patrons of the fair. Horses that dive from a platform 40 feet high and race against each other without drivers. Just think of it! Don't fail to see these performances.

Taken in all the Central Canada fair this year will undoubtedly be superior in every respect to any yet seen in Canada and will certainly well repay a visit.

WHENCE THE CAT!

Probably Adopted by Man Subsequent to the Hunting Age.

It is impossible to trace the origin of the domestic cat with certainty to any existing species or variety of wildcat. Indeed the time at which the cat was first domesticated and introduced to human society is simply a matter of conjecture. Professor Shaler expresses the opinion that the domestication of the cat must have been much later than that of the dog, while naturalists give reasons for believing to the contrary.

Some people agree with Professor Shaler and for this reason: That dogs were probably first domesticated in order to assist in hunting, and therefore probably in what is called the hunting age of human society; whereas the cat has nowhere been generally used as a hunting animal. The dog is essentially gregarious. He loves to hunt in packs, and when introduced to a human family he regards the family as his pack and hunts accordingly, so that he is easily made serviceable by the human hunter. The cat, on the contrary, is unsocial. It lives alone and hunts alone, so that it could not be expected to be easily trained to hunt, either with men or for men. In fact, the only member of the cat family that is known to have been trained to hunt is the cheetah, though an ancient Egyptian painting, which may be seen in the British museum, represens a cat which is apparently assisting a hunter to catch birds.

There is another reason for thinking that the cat must have been adopted by man after the hunting age—namely, the cat's wonderful attachment to localities. Animals like the wolf, with which the dog is most closely allied, follow their prey over vast tracts of country and seem to be entirely destitute of local attachment. The wildcat, on the contrary, settles down in a particular spot and waits for its prey to come. When removed from its accustomed habitat, it seems to lose its skill, and therefore would be useless to men in a hunting age, because in that age men seldom had fixed habitations, but roamed abroad wherever game was to be found. Of course much of this is conjecture. Whether the cat or the dog was first adopted by man cannot now be certainly known, but the cat was well known as a domestic animal at an early period of human history.—Boston Journal.

MANGLED BODY IN A TRUNK.

Gruesome Find in the Blackwell Canal at Buffalo.

Buffalo, June 22.—A trunk containing the dismembered body of a man was found floating in the Blackwell Canal yesterday. The man's head had been cut off, both legs had been severed at the knees and both arms and hands were terribly mangled, but were attached to the body by the tendons and muscles. In his breast were a number of stab wounds, one of them a great, gaping wound, extending through the right lung. The man was apparently an Italian, about 30 years of age, and weighed about 175 pounds. His features were regular. His eyes were blue and his moustache and hair were black. The pieces of clothing found on the body showed that before mutilation the man had been dressed in a brown and black checked suit. There is no clue whatever to the murderer or to the identity of the victim.

Late in the afternoon the body was indentified as that of Phillippo Forestino, a strolling Italian musician. The trunk in which the body was found has been identified by a city trunk dealer as one sold by him Monday morning to an Italian. The crime therefore must have been committed that afternoon or night. The weights attached to the trunk by the murderer or murderers were not heavy enough to prevent its floating. The head and legs of the murdered man were packed underneath his body in the trunk. There is no clue to the authors of the crime or as to its motive.

MAGOWAN'S DIVORCE VOID.

The Ex-Mayor of Trenton Reattached to His Former Wife.

Trenton, N.J., June 22—The decision of the Court of Chancery, holding to be legal the Oklahoma divorce obtained by ex-Mayor Frank A. Magowan from his wife, was yesterday reversed by the Court of Errors and Appeals. The court filed no opinion in the case. The announcement was made, however, that the Court of Last Resort did not find that Magowan had a legal residence in Oklahoma Territory, and that consequently his divorce was illegal.

Mrs. Barnes, the wife of Magowan's former manager at the Eastern Rubber Company, whom he married after obtaining the decree in Oklahoma, by this decision is not Mr. Magowan's wife. Some time ago Mrs. Barnes-Magowan left this city for the home of her parents in Canada.

LANDING THE TROOPS

Disembarking Begun at Daiquiri and Aguadores.

CAN CABLE TO NEAR SANTIAGO.

Official Despatches Received From Admiral Sampson and General Shafter—Latter Reports Little Spanish Resistance—Cabanas Bombarded and One Man Killed on the Texas—Cervera's Plan.

Daiquiri, south coast of Cuba, June 23.—The vanguard of the American army of invasion, numbering three thousand men, began landing at this place yesterday, which is seventeen miles east of Santiago. The landing is being made in the small boats of the transports and warships, and the soldiers are going ashore near a deserted steamship pier. When the word was given that the landing was to begin to-day there was much enthusiasm among the troops, who had feared that they would be compelled to remain for days aboard the transports, a not very agreeable outlook in such hot weather as is now prevailing here. Then, again, the men are anxious to begin active land operations against the enemy, and it would have been trying upon them if they had to remain cooped up on the troopships with the Spaniards ashore in sight. Never did soldiers spring more gladly to their work than did those who were selected to be the first to land. Everything moved rapidly, yet in perfect order. There was a Spanish blockhouse on a high cliff to the right of the place selected for the landing, and also a fort and earthworks on a hill to the rear. Some little time before the boats started for the shore the fleet began to prepare the way for the landing by bombarding the Spanish defences. While some of the vessels attended to the fortifications at Daiquiri, others attacked Aguadores, Cabanas, Seboney and Juragua, fortified places to the east and west of Santiago, it being necessary to reduce them before the troops can advance on Santiago. Simultaneously with the bombardment a thousand Cubans ashore, under command of General Demetrio Castillo, covered the disembarkation of the troops on the land side. These Cubans were transferred by the navy yesterday from Acerradero to Sigua, where they will be joined by five hundred others. The fire from the ships and the Cuban allies was very heavy. From their positions the Cubans commanded the Spanish defences, and they poured into them a constant hail of bullets from the Mauser rifles. The ships also made things so lively for the Spaniards that they had very little time to devote to preventing the landing of the troops.

WITH LITTLE RESISTANCE.

War Department Receives Messages From Gen. Shafter and Admiral Sampson—Some Mines Removed.

Washington, D.C., June 23.—Official despatches received last night by both Secretary Alger and Secretary Long indicated that the landing of troops near Santiago was progressing most favorably. The first landing was effected at Daiquiri yesterday morning, and met with comparatively slight resistance. This was stated in a despatch received last evening by Secretary Alger, which, though brief, was full of news and meaning. It follows:

"Playa del Este, June 22.

"Secretary of War, Washington, D.C.

"Off Daiquiri, Cuba, June 23.—Landing at Daiquiri this morning successful. Very little, if any, resistance.

"(Signed) Shafter."

Shortly after Secretary Alger received his despatch Secretary Long received a more extended cablegram from Admiral Sampson. It, too, was dated at Playa del Este at 6.50 last evening. The text of the despatch, translated from the Navy Department cipher, is as follows:

"Landing of the army is progressing favorably at Daiquiri. The New Orleans, Detroit, Castine, Wasp and Suwanee shelled vicinity before the landing. We made a demonstration at Cabanas to engage the attention of the enemy. The Texas engaged the west battery for some hours. She had one man killed. Ten submarine mines have been recovered from the channel at Guantanamo. Communication by telegraph has been established at Guantanamo. (Signed), Sampson."

In both army and navy circles the information contained in the despatches of General Shafter and Admiral Sampson was received with intense satisfaction.

Fishing Up Submarine Mines.

Playa del Este, Cable Station, Guantanamo Bay, Province of Santiago de Cuba, June 23.—The launches of the cruiser Marblehead and the gunboat Dolphin yesterday, by command of Commander McCalla, dragged the channel leading to the town of Caimanera, and turned up seven contact mines, each containing 112 pounds of guncotton.

CERVERA'S DESPERATE PLAN.

The Spanish Admiral Will Make a Dash to Get Out of Santiago.

Kingston, Jamaica, June 23.—Some Cubans who arrived from the rear of Santiago have reported to Admiral Sampson that it is well understood in the blockaded city that on the first dark or stormy night Cervera intends to dash through the channel past Morro and attempt to evade Sampson's fleet. Cervera's ships are coaled to the utmost capacity. There is no shore leave for the crews, and each night the ships drop down the bay awaiting the wished-for opportunity of escape. Before dawn they return to their previous anchorage. Cervera is prepared to give a desperate battle to any American ships that bar his way when he once tries to run the blockade.

Cable Connection Near Santiago.

Washington, D.C., June 23.—The War Department at 4 o'clock yesterday afternoon received a despatch from Belaya Del Este, 29 miles from Santiago, and midway between Guantanamo and Santiago. It was from Captain Allen, in charge of the signal serivce in Cuba, and merely announced that nothing official had been received from Sampson or Shafter. Its importance lies in establishing the fact that cable connections have been secured close to Santiago.

PROMPTED BY JEALOUSY.

Antonio Baroni Arrested for the Murder of Forestano—The Evidence Is Irrefutable.

Buffalo, N.Y., June 23.—Antonio Baroni was arrested at an early hour yesterday morning for the murder of Philip Forestano, whose dismembered body was found in a trunk Tuesday morning, floating in the canal. Baroni's wife and two children were also locked up, and the former may be held as an accomplice. Baroni admits purchasing the trunk in which the body was stowed. Forestano, it is alleged, had been on intimate terms with Mrs. Baroni for a long time, and it is the opinion of the police that she was compelled by her husband to lure the victim to their home in Olga street, where he was attacked and murdered by Baroni. The murder occurred between 8 and 10 o'clock on Monday morning, and the trunk with the body was placed in the canal that night.

Baroni's motive in killing Forestano was jealousy. Forestano was a frequent visitor to Mrs. Baroni's, and was lured to the little house at East Buffalo Monday morning by the jealous husband, and slaughtered in cold blood. After committing the deed, Baroni kept the body in his house until 11 o'clock Monday night. Then he placed it in a trunk, and, accompanied by another Italian, now under arrest at police headquarters, drove out to a lonely spot and dumped the trunk into the canal.

An Italian woman, who occupies rooms in the tenement house under those of Baroni, said that she saw the murdered Italian, who is a wandering musician, enter Baroni's place at 9 o'clock on Monday morning. After he had been there a little while, Baroni made his appearance. The woman then heard sounds of a scuffle above. She rushed to the stairs and tried the door. It was locked. Sounds as though a man were choking to death were heard; then a peculiar, gurgling sound, a cry of horror from Mrs. Baroni, the sound of a man tumbling, then all was quiet. She heard Baroni talk in an undertone to his wife. She heard Baroni and wife scrubbing the floor for two hours afterwards.

WHEN DOING WRONG.

Le Page Killed While Climbing Through a Window—Blow Would Not Have Been Fatal to a Sober Man.

St. Hyacinthe, Que., June 23.—The Crown concluded its case yesterday afternoon in the Court of Queen's Bench against Victor Claing, on a charge of murder. Fourteen witnesses were examined. Testimony for the defence will be heard to-day, and it is expected the trial will be concluded before adjournment. An equal number of witnesses will be called.

There was no conflicting evidence; it all tended to show that Ovila Le Page, the young victim, and three companions had hired a rig in St. Hyacinthe on the 7th instant and driven to Claing's humble dwelling five miles away. By the time the young men reached their destination they were in a very intoxicated condition. The quartette were friends of Claing and his family; they had visited the place a few evenings previously. An unceremonious demand to open the door at midnight was refused. Le Page, more persistent than his comrades, pounded away in vain, despite a warning from within, and finally sought to effect an entrance through a window. According to all the evidence he succeeded in getting his head within, when he was struck a blow by an individual inside the dwelling. The next moment he was prostrate on the ground.

Dr. Emile St. Jacques, Dr. Ulric Jacques and Dr. Oliver Jacques were also called. The latter, who made the autopsy, said the wound on the head received by the deceased would not necessarily have proved fatal to a sober man.

Canada and the Spaniards.

London, June 17.—In the House of Commons yesterday, replying to a question relative to the power of the Government of Canada to expel Spanish agents from that country, Sir Richard Webster, the Attorney-General, said that under ordinary circumstances the power to deal with such matters was a prerogative of the Crown, and that the Colonial Government would not be liable to be sued for damages for expelling such persons.

CHIEF JUSTICE ARMOUR CLAIMS $20,000.

EVIDENCE BEING TAKEN IN THE CASE.

The First Witness for the Dominion Government Took the Stand at Eleven O'clock This Morning.

The evidence is still being taken in the Court of Exchequer concerning the damage done to Chief Justice Armour's farm by the presence of the canal. The first witness for the Government took the stand at eleven o'clock this morning. Yesterday afternoon the following evidence was taken:

Frederick Edwards testified to having sold 5¾ acres for the canal for $1,500. He had wanted $1,600 for the lots. The government took off a three cornered lot. The price did not include injury to value of remaining property.

D. Oliver sold 2 33-100 acres on Norwood Road to government for $1,250. He asked $1,500. There were buildings on the land he valued at $900. The land cost $545 seven years previous.

Mr. Armstrong had sold 33-100 acres for $350.

Jas. May, living near the Little Lake, sold 14-100 acres for $700. He had to move his house to another part of his lot which was left in a three-cornered shape.

Mr. McEachern, government valuator, stated that his general business was railroad contracting and farming. He was one of the three valuators on the canal work. He began work three years ago at Balsam Lake and came down to the Peterborough section in 1896. His judgment was asked on all the valuations which had been made. A fair selling value was the basis of valuation. He allowed so much per tree in orchards, $8, $9 or $10, as the case might be. Witness then went over the land in the vicinity, which he had valued. In regard to the farm of the Chief Justice, he had valued it all as farm property, not as town lots. It would have been different probably if it had been staked out in town lots. The reason why the Burnham lots sold at a high figure were because they were on Maria street, a main highway.

C. J. Rykert, of St. Catharines, gave it as his opinion that severance by a canal is much more injurious than by railway. The presence of the canal on Justice Armour's land would mean a reduction in its value of 50 per cent.

J. R. Secord, of St. Catharines, stated that the Welland canal passed through his farm. He considered that a canal alongside of land injured it to the amount of 25 per cent exclusive of severance damage. The soakage from a canal damaged the land considerably. It sometimes affected its value to the amount of 30 or 40 per cent.

J. Carlisle, owning land adjacent to Mr. Armour's, stated that he had paid $1,150 for four acres. His land altogether averaged $130 an acre in value. He considered Armour's Hill too steep to lay out in building lots.

A. F. Wood, M.P., stated that he had thirteen years' experience in canals in connection with the Dominion Government. People would not now buy land along the Welland canal. This was the same case with the Cornwall canal. The leakage from the sides of the Lachine canal was becoming very serious. There was a subway at Cornwall. It was a wrong way to get from one side of the canal to the other. He thought Mr. Pope very reliable as a valuator. Witness valued the west 110 acres at $22,000 and the East 110 acres at $8,800. This was without making allowance for town lots. He valued it as farm property.

Judge Clarke, of Cobourg, estimated the damage to the property, which he knew well, at $16,000.

B. R. Matthews, who owns land in the vicinity, placed the depreciation at 40 or 50 per cent. He considered the land could have been sold as village lots at $400 per acre.

D. W. Dumble gave evidence concerning the sale of lots within the same distance of the centre of the town as those in question. He estimated Mr. Armour's loss at $13,000 by reason of the increased distance from town caused by a portion of the farm being cut off and the presence of the canal.

A. P. Poussette stated that he had advanced a number of loans on lands and had valuated property in the vicinity of Justice Armour's property. He estimated the depreciation in his property at $16,525. He had acted in the purchase of the Carlisle and Bellwood properties in the neighbourhood. The Gordon McKee farm had been purchased at $100 an acre. This was not an uncommon price for farm lands. He would value the Armour property at $30,000.

Geo. Edmison stated that he had dealt to a considerable extent in both town and farm lands. He owned some property north of the centre of the town, and had refused an offer of $4,000 for 7 acres. He had sold some lots for a client for building purposes at $600 an acre, which bore the same relation to the centre of the town as the lots on Mr. Armour's property. He knew land belonging to Mr. Armour well, and estimated the damage caused by the presence of the canal to be $14,500 or $15,000. He would be perfectly satisfied to trade some of his land for that of the Chief Justice. It should sell for $100 an acre.

W. H. Moore stated that for the past thirty years he had bought and sold considerable real estate for clients. He estimated that the depreciation in Justice Armour's land on account of the presence of the canal would be $14 862. As farm land he would value the east half at $100 an acre. The whole place was worth in 1884 or 1885 about $30,000.

William Milburn had recently purchased twenty acres at $200 an acre. He did not know a farm within a mile of the town which could be bought for $100 an acre, or $150.

Geo. Dunsford had formerly owned land adjoining that of the Chief Justice. He estimated Mr. Armour's actual loss at $16,000. He had sold his land at from $55 an acre to $100 an acre. This was about forty years ago.

Perfectly Cured

Weak and Low Spirited — Nervous Prostration — Appetite Poor and Could Not Rest.

"I take great pleasure in recommending Hood's Sarsaparilla to others. It has been the means of restoring my wife to good health. She was stricken down with an attack of nervous prostration. She suffered with headaches and her nerves were under severe strain. She became very low spirited and so weak she could only do a little work without resting. Her appetite was poor, and being so weak she could not get the proper rest at night. She decided to try Hood's Sarsaparilla, as we had heard it highly praised, and I am glad to state that Hood's Sarsaparilla has perfectly cured all her ailments." G. THIS IS THE FARMER'S YEAR

THE AGRICULTURAL SITUATION DISCUSSED BY MR. B. E. WALKER.

The Manager of the Bank of Commerce Speaks on the Farming Situation.

The opinions of Mr. B. E. Walker, General Manager of the Bank of Commerce, upon financial matters, are always respected and well worth reading. At the annual meeting of the bank on Tuesday, he made the following remarks in reference to the agricultural interest.

As we all know, the sub-stratum of our commercial well-being is agriculture, and this has truly been the farmers' year. Indeed, I believe that many of the farmers of Canada are willing to admit that they have had a good year, and such an unusual admission is significant of a good deal. Wheat has not been sown freely in Ontario for many years, but with a steadily advancing market, ending with phenomenal prices, it is not surprising that in sweeping up the floors of the granaries such an extraordinary quantity turned out to be in the farmers' hands. Many having held their wheat two, three, and even four, seasons, under the charm of "dollar wheat," actually realized in some cases this time. In Manitoba the yield per acre was disappointing, being about fourteen bushels, but the quality was so good that 92½ per cent. of the crop graded equal to No. 1 and No. 2 Hard, while the price was so high that the province has added another year to its recent

HISTORY OF UNIFORM PROGRESS.

The railways claim to have moved 19,000,000 bushels, which would mean in money to the farmers of the Northwest over $14,000,000. It is no longer a province to which the East finds it necessary to extend its sympathy as well as its financial indulgence. It has, instead, become the object of our admiration and sometimes of our envy. Immigrants are now rapidly settling in Manitoba, while at the same time farming operations are being extended in Ontario. Indeed, the high price for all kinds of farm products has done much to arrest the withdrawal of men from agriculture to mining and other more precarious pursuits. A greatly increased acreage of wheat has naturally resulted, but with empty granaries in America and low-stocked mills throughout the world, it would seem that we may hope with some confidence for a reasonable price for wheat during the ensuing season. Until the world's stock of wheat again reaches the normal quantity, we seem entitled to a price larger than the average of recent years. As far as mere prospect of growth is concerned, the season thus far has been most favourable to grain, hay and fruit, and

EVERYTHING PROMISES WELL

for a most bountiful harvest.

The farmers during the past winter were in an unusually good position to fatten cattle, the supply of coarse grains and other food being very large, but as we intimated a year ago, the demand which sprang up so suddenly, both in the United States and Canada, for young cattle to feed, put up the price to a figure which in some cases left little or no profit to the feeder. For the same reason the number of cattle being fed or grazed is in some parts not as large as it should be. But as a whole the condition of the cattle is much improved from the recent years of low prices. The trade in special types of horses for shipment to Europe continues to grow, and to be profitable to those who undertake it intelligently. There has been a large and satisfactory business done in Canada in all kinds of hog products, with a healthy increase in volume over last year. The farmer has received a price for the product which must pay him quite as well, if not better, than the other products of his farm. There are

STRONG COMPLAINTS

in some quarters as to the use of corn in feeding, although other packers think the warning uttered a year ago by those interested has had its effect. Still, it can do no harm to say again that the high reputation of our bacon, however much due to superior methods of curing, is mainly based upon the methods of feeding which have prevailed in the past, and this reputation may be ruined in a very short time by the use of corn. We may as well understand that we cannot both force the feeding and the early marketing of the hog on the one hand and continue to obtain the high price on the other.

The season closing 31st March last has been another banner year for cheese, It was felt that the excellent pasturage of 1897 would result in a larger yield, but we were hardly prepared for an output of nearly 200 million pounds. The precise figures are 189,250,000 pounds, against 162,844,000 for the previous year. The price, too, has been very satisfactory, nearly one cent per pound higher on the average than the previous year. The result in money was $17,900,000, against $14,316,000, a

GAIN OF ABOUT 25 PER CENT.

Cheese is being produced in new districts in Canada every year, and the promise for pasturage in 1898 could hardly be better. It is, however, questionable if another great increase for the coming season will be an unmixed blessing. The Canadian farmers did well last year, but we are told that the English dealers lost money, and we may not find a market this year quite so willing to consume all that we may make. We are improving our exports of butter, although we are far from taking the important position in this trade which seems within our power. We apparently send Great Britain more than 60 per cent. of the cheese she imports, but only about $2,000,000 worth of butter, out of imports amounting to $85,000,000 or thereabouts, a trifling proportion of less than 2½ per cent.

On the whole, it is impossible to resist the conclusion that the farmers throughout Canada have had one of the best years for a long time, and have a prospect ahead of them for the next year which has perhaps never been better. They have been paying remarkably well for all debts such as store accounts, implement notes and interest on mortgages. They have in numerous cases either paid off mortgages entirely or made large reductions, in many of the latter cases demanding a reduction in the rate of interest in consequence. Those who were not in debt have largely increased their savings, much of which is reflected in the increased deposits in banks. They have certainly become good buyers again from the implement companies, but whether from the shop keepers is not so clear. With another prosperous season, however, we cannot doubt that the farmers generally will be able to spend money more freely than for some years.

INSURANCE RISKS.

An Icehouse Said to Be More Dangerous Than a Planing Mill.

"Speaking of fires," said the insurance man, "they are the queerest things in the world. A fire will sometimes take infinite pains to burn up everything indestructible in sight and leave an inflammable article untouched. I have run across all sorts of queer pranks played by fires in my time.

"Some years ago the insurance companies established a rule that all bessine rags in printing offices must be put into closed metal cans during the day, and that these cans should be emptied into the furnaces at the close of business each evening. Shortly afterward there was a fire in a printing office on Randolph street one night. We tried to find out the cause of it and finally concluded it must have originated from spontaneous combustion of oiled rags. The printer insisted that every rag was burned each night and called his errand boy over to corroborate his statement that they could not have 'spontaneously combusted.' The boy looked crestfallen and said that he had forgotten to take them down the night before. But the theory was knocked out when he undertook to show us where he had left them, for there under a heap of burned rubbish was the rag receptacle with the lid securely fastened down and every rag safe.

"In another printing office fire every case was charred and every line of metal type was either melted or warped so as to be of no further use, but the only font of wood type in the office turned up all right, and when the linseed oil which had boiled out of the wood and stood all over it in beads was wiped off it was as good as ever.

"I once canceled a policy on a rickety old frame planing mill which I knew would burn up inside of a year or two. That was 25 years ago. Since then every brick planing mill that I have insured has been burned, but the old frame shed stood until last year, when it was torn down and replaced by a new brick building.

"Icehouses would seem to be good risks, but they burn more readily than match factories, and when the fire is over the contents are usually a total loss. I would rather insure gunpowder than ice any day."—Chicago Record.

PLACING HIS TALENTS.

The Shrewd Old Farmer Saw Where His Son Properly Belonged.

"Father, I'm vanquished," sighed the young man in soft raiment and long hair who had just come from the city to the old homestead. "The world is too much for me. I wrote. My poems and my stories were rejected. I painted. There was no market for my pictures. I lectured on scientific subjects. The expenditure was always more than were the receipts. I flirted with fortune on the market. She jilted me. I tried a clerkship. My mind was not on my business, and I was discharged. I became an insurance agent. Not a policy could I place. In sheer desperation I became a politician. I failed and paid all attendant expenses. I loathe the past. The future offers me nothing."

"My poor, poor boy," said the fond mother as she wiped her glasses. "You know the home is always here."

"You bet it is," from the father with square jaws and snapping blue eyes. "It's been here all the time you've been spending our hard earned money trying to do something easy that you're not fitted for. I don't want no healthy young man that weighs 180 pounds whining around me, throwing up his hands and saying there's nothing in the world for him to do. I'll show you different. Go up stairs and get into that old blue jean suit of yours, change that white linen for a hickory shirt, put on them cowhide boots you left in the closet when you went out to conquer America and grease 'em. Then go along with me. I'm breaking up that ten acre field of stump land, and I'll start you on an honorable career that you're liable to succeed in. No coaxing now, mother. What this young man needs is sand, and I'll have him pumped full of it by fall. Get into your uniform, my son."—Detroit Free Press.

GEORGE JACK KILLED.

A Peculiar Accident on the Erie Ry. at Niagara Falls.

Niagara Falls, N.Y., June 23.—Engine No. 397 of the Erie Railroad, standing in the Grand Trunk yards at the Canadian end of the big railway bridge spanning Niagara's gorge, was bumped into by a freight train last night, and the jolt threw the throttle wide open. Engineer George Jack was standing on the tender, and the sudden jar threw him between the engine and tender, where he was so badly crushed that he died shortly afterwards.

The engine dashed across the bridge at a high rate of speed and tore through the city yards, until reaching the tunnel district junction, where the telegraph operator, having been advised of its coming, ditched it.

MR. LISTER'S PROMOTION.

A Surprise to His Constituents—Candidates for West Lambton Vacancy.

Sarnia, June 23.—The announcement of Mr. Lister's appointment to a Judgeship in the Ontario Court of Appeal caused much surprise here, as there had been no previous intimation of his desire or intention to retire from political life. The appointment itself is regarded as the promotion of the ablest and most successful lawyer in Western Ontario to a Judgeship in the highest court in the province. Mr. Lister's withdrawal from the political field will be seriously felt by his constituents, but West Lambton has able men in the Liberal ranks to choose from, notably Mr. Charles Mackenzie, and Dr. Johnston, either of whom would make a worthy representative and could carry the constituency with ease.

Will Chamberlain Resign?

London, June 23.—It was rumored that Mr. Joseph Chamberlain, Secretary of State for the Colonies, will shortly resign from the Ministry, in order to assume the leadership of a large number of Unionists in the House of Commons who are discontented with the foreign policy of the Government.

There seems to be no doubt that Mr. Chamberlain is dissatisfied with his present position, and if affairs in the far East and in West Africa take the turn he expects, his friends believe that he will not remain in the Cabinet to share the shipwreck of a policy he never approved.

Whatever may be the outcome, the disquieting idea is undoubtedly prevalent in Conservative circles that Mr. Chamberlain contemplates some sensational move, and the extent to which this is credited shows how little Mr. Chamberlain can count upon Tory confidence.

Welland Opera House Burned.

Welland, June 23.—The Orient Hall and Opera House Block, owned by O. A. Garner, was burned yesterday morning. The fire was discovered about 5 p.m. Part of the stationery owned by Garner & Robins was removed, but a larger portion was destroyed more by water than fire. Loss on building about $8,000, partially insured; loss on stock, $2,000 to $3,000, partially insured. None of the stock of O'Neil & Hobin, hardware, was removed. This is greatly damaged, partially insured.

Her smile is, perhaps, a trifle more pronounced than usual, but that is because she is immensely pleased with the easy running qualities of the Lady's Red Bird Special she rides.

It is the new caged bearings that make her wheel run easy, for with Red Bird Special bearings every ball runs in a separate cage, never coming in contact with its fellows. The result is an entire absence of friction and an ease of propulsion impossible with bearings that have the balls all jammed in together.

The improved bearings, however, are by no means the only important feature of the Red Bird Special. It is high grade from the pedals to the handle bars, combining beauty, strength and easy running qualities rarely found in a bicycle. Price, $100.00.

Rev. Chas. Fish, Methodist Minister, 192 Dunn Ave., Toronto, Cured of Eczema.

About ten years ago I felt the beginning of what is commonly known as eczema. The disease commenced in my ears and spread entirely over both sides of my head and also developed on my hands. During these ten years I was a great sufferer. Specialists on skin diseases treated me. As I write this I am just commencing on the fifth box of Dr. Chase's Ointment, and judging from the rapid improvement effected, I am certain that before the box is used I shall be completely cured.

CANADA'S FISHERIES.

Agreement Reached by the Conference at Ottawa.

CANADA MAKES REGULATIONS,

But the Provinces Will Hereafter Grant the Leases—The Question of Fees Refund to Ontario and Quebec Allowed to Stand Over—Results of the Conference.

Ottawa, June 23.—The fisheries conference between representatives of Canada and the Provinces of Ontario and Quebec terminated here last evening. The Dominion was represented by the Minister of Marine and Fisheries, Sir Louis Davies, and the Minister of Justice, Mr. Mills; Ontario by the Premier and Attorney-General Hardy and Mr. Aemilius Irving, Q.C.; Quebec by Premier Marchand, Hon. S. M. Parent, Commissioner of Lands, Forests and Fisheries, Hon. E. G. M. Decbene, Commissioner of Agriculture. The latter were assisted by Messrs. Machin, Assistant Treasurer, Cannon, Assistant Attorney-General, and Joncas, a fisheries official. The question of the ownership of the lakes, rivers and foreshores of the country and of the fish therin, and of the right to lease, license and regulate fishing privileges and fish, was submitted to the Supreme Court a few years ago and the case taken to the Judicial Committee of the Privy Council, which announced its findings a few weeks ago. The whole question was regarded as very complicated, and it was said that it would need another bench of Judges to interpret the judgment of the board in England. Instead of allowing the thing to drag along in doubt for another five or ten years, with litigation and all sorts of trouble, this conference was held, and it is pleasing to announce that without procrastination or red tape or standing on dignity an understanding of the meaning of the decision of the Privy Council has been reached and a clear definition agreed to of the respective jurisdictions of the Federal and Provincial authorities.

The results of the conference may be summarized: The sole and exclusive power of making regulations, with the times, seasons and manner of fishing belong to the Dominion, and any regulations on the subject, affecting the time for fishing or the manner, made by the Provinces, are void. The right, heretofore exercised by the Dominion, of leasing defined areas to fishermen for pound net licenses on salmon stands or for other fishing purposes, is ultra vires of the Dominion, because it interferes with the jurisdiction of the Provinces, and hereafter these rights will be exercised by the Governments of the respective Provinces of Canada. The question as to whether Ontario and Quebec have any claim against the Dominion for refund of money already received by the Dominion for these licenses in the way of fees was discussed, but no agreement come to. The matter was allowed to stand over for further consideration, but the department at Ottawa does not admit that there is any ground whatever for such claim. Both authorities have the right for the purpose of revenue to levy a tax by way of a license fee, the Provinces in order to raise a revenue, and the Dominion under its general taxing power. It was therefore agreed that the Dominion will not grant any further licenses this year. This refers chiefly to pound net licenses and salmon stands. The Provincial Governments will confirm and ratify the leases already granted by the Dominion this year. Applications which have been already made to the department at Ottawa will be forwarded to the Provincial Governments and dealt with by them. Officers to be appointed for the enforcement of the regulations hereafter to be made by the Dominion will probably be appointed by the provinces. While the Dominion will continue to frame regulations for the control of the fisheries it will in all probability leave the enforcement of these regulations to the Provincial Governments, with the exception of inland waters and lakes of a commercial or international character. The control of public oyster beds remains in the Dominion, because of the power to determine the close seasons, but the leasing of private oyster beds for the propagation of the oyster passes to the Provincial Governments exclusively.

ANGLO-AMERICANISM.

The Marquis of Lansdowne Endorses the Recent Speech of Joe Chamberlain —No Idle Dream,

London, June 23.—The Marquis of Lansdowne, Secretary of State for War, addressing the Conservative Unionists of London last evening, endorsed the recent Birmingham speech of the Secretary of State for the Colonies, in which Mr. Chamberlain expressed the hope that the day would come when the Stars and Stripes and the Union Jack would wave together over an Anglo-Saxon alliance.

Lord Lansdowne said he found nothing in Mr. Chamberlain's speech to offend the common-sense or patriotism of the people of Great Britain.

"We should be wanting in forethought," he continued, "if we failed to realize that the time might come when our revenues would no longer flow freely, when the British taxpayer would grow weary of building more and more battleships and raising more and more battalions, and when, whether we liked it or not, we might have to consider whether we could afford to stand alone.

"Depend upon it," said Lord Lansdowne, in conclusion, "these are no mere idle dreams or hazy aspirations. The change which has come over the sentiments of each country toward the other during the last year or two is almost immeasurable. One can scarcely believe they are the same United States with whom, only two years ago, we were on the verge of a serious quarrel. The change is not an ephemeral understanding between diplomatists, but a genuine desire of the two peoples to be friends, and therefore it cannot be laughed out of existence by the sort of comments we have lately heard."

Newfoundland May Cause Trouble.

St. John's, Nfld., June 23.—Trouble is expected to occur on the west coast owing to a French fishing syndicate bring out from Fecamp, France, buildings in sections which they are erecting at various points along the coast, contrary to the treaties between England and France. British warships will probably insist upon their removal.

A SLUMP IN WHEAT.

Further Declines in the Price of the Cereal at Liverpool and Chicago—A Partial Recovery

Wednesday Evening, June 22.

On Liverpool's failure to respond to yesterday's American advance in wheat, the Chicago market opened weak this morning, all future deliveries selling off a couple of cents per bushel. Bullish reports of damage to growing crop were circulated, but without avail. Traders have not yet recovered from the scare administered by the recent phenomenal breaks, and the market, therefore, has no buoyancy. There was some covering by shorts around the lowest points, and futures recovered somewhat late in the day. At the close cash wheat was quoted at 82½c, July at 74c, September at 67⅝c, and December at 67⅞c.

Other American markets covered a small range, and at Toronto prices were unchanged, with Ontario red quoted at 80c north and west, and Manitoba No. 1 hard at $1.05, Toronto and west.

On the Liverpool market to-day, wheat futures continued weak. The July delivery declined ¾d per cental, and the September and December options ⅝d.

A few sales were reported on curb at 7 3-16c, and 7 13-16c. Nine buyers present, and bidding was spirited. The board met for organization, adopting the same rules as did London two weeks ago, to sell on the board and nowhere else.

Napanee, Ont., June 22.—There were 560 white and 700 colored boarded; 125 colored sold at 7⅞c, 575 colored sold at 7 13-16c; 75 white sold at 7 13-16c.

East Buffalo Cattle Market.

East Buffalo, June 22.—Cattle—Fresh receipts light, but several loads were still unsold that had held over from the opening of the week, and for these the market was slow and lower.

Hogs—Receipts very light, and with a good demand. The market for Yorkers, pigs and light grades ruled excited and higher, while the other grades were slow and lower. Good to choice Yorkers, $4.15 to $4.20; light to good Yorkers, $4.15; mixed packers' grades, $4.15 to $4.17; medium weights and heavy hogs, $4.13; roughs, $3.50 to $3.60; stags, $2.75 to $3.10; pigs, $3.40 to $4.05.

Sheep and Lambs—Receipts exceedingly light, and for the light supply on offer prices ruled about steady. Yearling lambs, choice to extra, $5.50 to $5.60; fair to good, $5.25 to $5.45; culls to common, $4.25 to $5.15. Native clipped sheep, choice to selected wethers, $4.75 to $4.80; good to choice mixed sheep, $4.50 to $4.70; common to fair, $4 to $4.40; culls to common sheep, $3.25 to $3.85.

A Wolseley, N.W.T., Tornado.

Winnipeg, June 23.—A small tornado visited Wolseley, N.W.T., Monday night and demolished a skating and curling rink, overturned three freight cars on the track and blew down three walls of the brick store in course of erection by A. Grand. The main part of J. H. Dill's fine large stable was destroyed, and a number of smaller stables and outbuildings were overturned or demolished.

He Is the Villain.

Hamilton, June 23.—The news of the arrest of Daniel Gibson of Tonawanda was received with pleasure by the local police. Gibson, it is said, has taken over twenty girls from Hamilton to Tonawanda and Lockport for immoral purposes. The three girls whom he took away with him on Tuesday were Clara McCusker, Mary Heintzmen and Nellie Butcher.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

EVERYONE SUFFERING WITH TOOTHACHE or NEURALGIA Can get INSTANT RELIEF by a SINGLE APPLICATION of NEUROLINE

Without burning or injuring the mouth. In use over 25 years. Ask your druggist for J. O'Donnell's TOOTHACHE REMEDY and see that his signature is written on each bottle TAKE NO OTHER. THERE CAN'T BE ANY SUBSTITUTE. Prepared by J. O'Donnel, L.D.S., Peterborough, Ont. Price 25 cents.

I have used NEUROLINE, the remedy for toothache and neuralgia prepared by Dr. O'Donnel, for a number of years, for myself and family and have no hesitation in pronouncing it the greatest remedy for the immediate relief of toothache I ever came across or heard of and cheerfully recommend it to all sufferers. I always keep a supply on hand. I also gave a lady up the back lakes a bottle, who said it relieved her instantly.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.98, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6510.00, or a Life Annuity for $401.96, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

Yours truly,

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has fin, fluenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

—Fresh berries from the grower every day, low prices, "Spot Cash."

A Musical Review.

The advanced class of Miss McCabe's pupils held a "Review of Music" yesterday evening in the hall over the Peterborough Music Store. They showed by the clever rendering of their selections the marked progress they had made during the past year.

Hand Crushed.

Yesterday afternoon Mr. Hesb. Mowry, 171 Perry street, while operating a beam planer in the Peter Hamilton Agricultural Works had his left hand drawn in the machine. The thumb was crushed and the palm of the hand badly lacerated. The attending surgeon found it necessary to amputate a part of the injured thumb.

Dan Caught it.

Mr. P Clunan, of the Clunan House, this morning received a 24½ pound lunge which was caught yesterday by Mr. Dan Foley at Jubilee Point. The fish is on exhibition to-day at the Clunan House. Dan is getting to be quite an expert fisherman since he took charge of the Jubilee Hotel.

In Summer.

Warm weather suggests fans, hammocks, croquet, tennis and summer reading. At the Peterborough Bookstore you can buy fans from $1.00 down to 2 cents each. Croquet sets at quick selling prices. Hammock at lowest prices anywhere, and summer reading at about the cost of the paper in the books—four books for 25c in some cases.—A. H. STRATTON & Co.

—Hot times in Cuba, and busy days from popular prices at the "Spot Cash."

The O. M. B. A.

At a special meeting on Wednesday evening of the local Branch, Mr. T. Cahill, President, occupied the chair. Amongst other business transacted, a committee was appointed to draft resolutions embodying the views of the local branch upon matters held to affect the interest of the Order, to be presented by Mr. Jas. Bogue, representative at the forthcoming meeting of the Grand Council to be held in the city of Quebec beginning the last Tuesday in August.

Weight Counts.

In buying strawberries see that you get weight and quality, rather than quantity. Messrs. J. B. Oke & Co. have been selling freely a superior sample of strawberries, 13 boxes for the dollar, while others on the street sold 16 boxes for the dollar. Notwithstanding the difference in the number of boxes, Messrs. Oke & Co.'s customers have had a substantial advantage. When weighed each box of Oke & Co.'s berries was six ounces heavier or 78 ounces more berries in the 13 boxes for the dollar than in the 16. Buy your berries from Oke & Co. and get better weight and quality.

The Last Week the Best Week.

This is the last week of the dissolution sale at Clarke & Gibson's jewelry store. The opportunity this sale has afforded for buying standard goods at very unusual prices, has been seized by many who may have felt restricted in their purchases at the regular selling figures. There has also been the assurances of reliability in purchasing, and this confidence in the integrity of the firm and general character of the stock has largely influenced sales. The last week of this sale at the reduced prices ends with June, so there still remains time enough for all who wish to avail themselves of the chances of bonafide bargains in jewelry, watches, clocks, silver plate and artistic novelties, which are embraced in this very large and exceedingly well assorted stock of handsome goods. It is not likely that a similar opportunity will present itself for some time, and lovers of the beautiful in these lines of goods will miss very substantial advantages if the neglect to attend the remaining days of this sale.

Crews of Foreign War Ships Occupy Manilla—Combination of South American Republics to Resist United States Aggression.

Special 3 p. m. dispatch to the Examiner.

Manilla Occupied by Foreign Forces.

London, June 23—The Daily News publishes a statement, alleged to come from a correspondent having access to government information, that the occupation of Manilla by parts of the crews of foreign warships there is an accomplished fact, although it may probably be three or four days before the official news arrives by way of Hong Kong.

London, June 23—The Vienna correspondent of the Daily Telegraph says: All the information that reached here from Madrid proves beyond a doubt that the position of the Queen Regent has become altogether intolerable; that Her Majesty will resign the reign, and that in a very short period.

6,000 U. S. Troops Land on Cuban Soil.

On board Associated Press Despatch boat Wanda, Daiquiri Harbour, Cuba, June 22, via Kingston, Jamaica.—At five o'clock this afternoon 6,000 trained American soldiers are encamped on the hills in and around Daiquiri and 10,000 more rest on their arms on board transports off shore, ready to debark as soon as the available launches and small boats can carry them ashore. The Navy and the Army co-operated splendidly during the landing of the invading army.

5000 Insurgent Troops at Hand.

The Cuban insurgents bore their share in the enterprise honourably well. Some 5000 of them lay all last night on their guns watching every road and mountain patch leading from Santiago de Cuba to Guantinamo. A thousand of them were in sight of Daiquiri, making the approach of the Spaniards under cover of the darkness, impossible.

The Spanish Fire the Town and Flee.

The Spaniards fired Daiquiri and fled. The flames were watched with interest from the ships. At 9.40 a.m. the ships opened fire. In five minutes the sea was alive with flotillas of small boats, headed by launches, speeding for Daiquiri. Each boat contained 16 men, every one in fighting trim and carrying three days rations, a shelter tent, a gun and 200 cartridges, ready to take the field at once.

The firing of the warships, however, proved to be a needless precaution, as their shots were not returned and no Spaniards were visible. General Shafter closely watched the landing of the troops. Brigadier General Lawson led the way in a launch, accompanied by his staff, and directed the formation of the line of operation.

There was great good-natured rivalry among the boats to be the first, and their occupants scrambled over one another to be the first ashore.

Republican Combine Against the United States.

London, June 23.—The Madrid correspondent of the Daily Mail says:—Reliable information has been received in diplomatic circles here from South America that preliminary stages are being taken to summon a conference of all South American republics to consider the advisability of adopting defensive measures against future aggression by the United States.

HONOURABLY DISCHARGED.

George Moncrief Did Not Abduct the Child from the Nicholls Hospital.

George Moncrief was before the Magistrate this morning charged with the abduction of a child from the Nicholls Hospital. When placed under arrest Moncrief was identified by three of the nurses from the Hospital as the man who had taken the child away, but this morning, just as the trial was about to commence, Mrs. Arscott, the foster-mother of the child, entered the court room and stated that the little one had been recovered, having been in the possession of her brother.

Moncrief was honourably discharged, but his counsel, Mr. E. B. Stone, states that the case will not end here, as his client resents the course which has been pursued towards him.

JUNE WEDDINGS.

Nuptials of Miss May Coulter and Mr. T. H. Martin, and Miss Elmira Argue Mr. Granville B. Richardson.

MARTIN—COULTER.

A very wedding took place last evening at the residence of Mr. John Donnelly, No. 313 Bethune street, when Miss May Coulter, daughter of Mr. Thos. Coulter, Cartwright, was united in marriage to Mr. T. H. Martin, the ceremony being performed by Rev. Dr. Torrance, of St. Paul's church.

The bride looked most charming in a stylish travelling costume of blue covert cloth with black satin trimmings. She was assisted by Miss Mina Milne, of Toronto, who was attractively gowned in blue cloth with silk trimmings.

The groomsman was Mr. Wm. Martin, of Toronto, brother of the groom.

At the conclusion of the ceremony a most tasty dejeuner was served and partaken of by the members of the families of the contracting parties, beyond whom the list of invited guests did not extend.

Mr. and Mrs. Martin left on the 9 o'clock Grand Trunk train for Rochester, via Port Hope.

St. Paul's church branch of Christian Endeavour provided a most handsome bouquet of roses for the bride, both Mr. and Mrs. Martin having been active members of that organization. Many valuable presents were received, amongst others being a beautiful parlour lamp from the employees of the Review and a marble clock from the Review Publishing Coy. A novel present from Miss Quinn, of China, was a Chinese Bible, bound in wooden covers and enclosed in a box of wood, both the covers and the box being curiously carved by Chinese workmen.

On the return of Mr. and Mrs. Martin they will take up residence at No. 215 Park street.

RICHARDSON—ARGUE.

An interesting event took place in Cavan yesterday afternoon at 2 o'clock at the residence of the bride's father, Mr. Charles Argue, when his eldest daughter, Miss Elmira B. Argue was united in marriage to Mr. Granville B. Richardson, of the Canadian General Electric Co.

The ceremony was performed by Rev. L. Phelps.

The bride was assisted by her sister, Miss Mamie Argue, and the groomsman was Mr. H. B. Russell, of Millbrook. The ceremony was performed in the presence of a large number of the relatives and friends of the interested parties, who partook of a bounteous wedding repast, which was served during the afternoon. The bride was the recepient of an unusually beautiful array of valuable presents.

THOMPSON—PADGET.

On June 22nd the home of Mr. Henry Padget, North Emily, was the scene of an interesting event, it being the marriage of his daughter Susana to Mr. George A. Thompson, of Peterborough, Rev. Mr. Marsh, of Lindsay, officiating.

The bride was attired in a costume of white lawn trimmed with Valenciennes lace and moire ribbon to match, and wore the conventional veil and orange blossoms. She was assisted by a cousin of the groom, Miss Sanderson, of Uxbridge, who was also attired in white. The groom was supported by Mr. Geo. Padget, brother of the bride.

The presents were numerous and handsome.

Among those present were Mr. and the Misses. Thompson, of Springville, Mr. and Mrs. Robt. Welsh, Mr. and Mrs. English, Fenelon Falls; Mr. and Mrs. Jos. White, Gravenhurst; Mr. and the Misses Stewart, Mr. and Mrs. Sanderson, of Verulam; Miss Gussie Dobson, Mich.; Mr. and Mrs. Riley, Lindsay; Miss Lee, Peterborough; Mr. and Miss Udy, Bridgenorth; Miss Ferguson, the Misses and Mr. Elliott, of South Emily, and others. About seventy guests partook of a bountiful repast which had been prepared. The newly married couple will take up their abode on Sherbrooke street, Peterborough.

Injured His Hand.

Wilfred Sutton, an employe of the Canadian General Electric Works, severely injured his hand yesterday through its being caught in a milling machine at which he was working. Dr. Young is in attendance.

McDONALD'S SAWMILL BURNED LAST NIGHT.

NOT A POST OF IT WAS LEFT STANDING.

The Firemen Confined the Flames to the Mill but the Loss will be a Very Heavy One.

Mr. Alfred McDonald's large sawmill was completely destroyed at an early hour this morning by a fire which broke out at about one o'clock this morning.

How the blaze originated is not known, but a spark was probably smouldering in some corner for many hours, as when Mr. McDonald went through the mill at half past ten, there was no evidences of smoke or fire.

The fire brigade turned out promptly and owing to the fact that there was no wind, succeeded in confining the flames to the mill and not allowing them to spread into the lumber piles.

The mill is insured in the Gore Mutual for $3,000. The fire occurred as the most inconvenient season of the year for Mr. McDonald, as the mill was running overtime to keep up with its orders. As soon as the loss has been adjusted, an effort will be made to recommence sawing at once, which can be done in the open air until the mill is rebuilt.

THE BANK OF COMMERCE.

The banking interests appeal to all the people, and attention is directed to the report of the Bank of Commerce, one of the best known financial institutions of Canada. The annual meeting on Tuesday was attended by Senator Cox, the President, who took charge of the proceedings and many other gentlemen prominent in the business world. The directors' report shows net profit for the year amounting to nearly half a million dollars, and after paying dividends, providing for pension fund, and writing off an ample amount for depreciation in value of furniture, etc., there is a balance carried forward of nearly $43,000. The Bank of Commerce has been appointed to handle the Government business in the Yukon district, has opened branches in other places in Canada during the past year, and in addition has important connections in the United States, from which the general manager announced, some $3,000,000 had been brought in last year for use in the Canadian business of the bank.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

The senior team will soon have reached its full strength. Phelan is getting into good shape, and is expected to settle the home field down into championship shape.

Lynch will have sufficiently recovered from his Orillia accident to play against Perth on July 1st.

The local team will have to be in the best possible shape for their game on the morning of July 1st against Perth, as the visiting team is reported to have a zig-zag combination unsurpassed by any in the East. The game is to start at 10.30 a.m., or thereabouts, and will be over by noon.

The following team has been picked to go to Hastings to-morrow: Goal, Robinson; point, Wilson; cover point, McDonough; 1st defence, Mein; 2nd defence, King; 3rd defence, Hogarth; centre, McClelland; 3rd home, Rickey; 2nd home, Babidge; 1st home, Galley; outside home, Dolan; inside home, Logan; field captain, Walter Phelan.

BASEBALL.

The Auburn Baseball team wishes to challenge the team from the Wm. Hamilton Co. to a game on Saturday, or on a week from Saturday.

GODFREY'S BAND AT POPULAR PRICES.

A CHANGE IN PRICES THAT WILL ALLOW ALL AN OPPORTUNITY TO SECURE GOOD SEATS.

The Ground Floor is Thrown Open at Seventy-Five Cents so That Peterborough can Give This Fine Organization a Popular Reception.

By special arrangement the local management is enabled to make an announcement of a change in prices for Godfrey's band concert.

It is most desirable that Peterborough should turn out a crowd that will give to the famous bandmaster and his band of British Guardsmen the same enthusiastic reception that he has received elsewhere. With this in view, all the seats on the ground floor have been reduced to 75 cents each. There are 1,080 seats on this floor and a small crowd would not appear to advantage, but with such excellent seats to be had for 75 cents there should be a general demand that will allow the band to appear before a large audience of Peterborough citizens.

The reserved seats in the gallery front row will remain at one dollar, and any who have marked seats there and desire to change on account of the change in prices can do so. Those who purchased seats on the ground floor at $1 will have the difference returned to them.

It is most desirable that Peterborough should make a showing worthy of the town when this famous band, the finest in the world, comes here and it was with this in view that the charge was made so as to allow everyone an opportunity to secure seats on the ground floor.

Reserved seat plan for $1 and 75c seats at Ormond & Walsh's. Mark at once, the date is Monday evening, June 27th.

No one should miss this opportunity of hearing such a body of musicians. They are all Guardsmen who have made names as soldiers and as musicians. Let Peterborough give them a rousing reception. Prices $1, 75c and 50c.

PETERBOROUGH CRICKETERS WIN.

Went to Port Hope and Defeated the T.C.S. Team Yesterday.

The Peterborough cricket club played the return game with the Trinity College School at Port Hope yesterday, and succeeded in defeating the school by 26 runs.

Capt. Ray lost the toss and the School batted first. The feature of the School innings was the splendid stand made by D. Saunders, of the International, and Cumberland, the professional.

Peterborough opened with S. Ray and Miles Hamilton putting on 36 for the first wicket, when Sam Ray was out for a well-played 13. J. H. Burnham followed, and runs came quickly, he being bowled by Cumberland after a well-played innings of 23 runs.

The best exhibition of batting in the game was made by Miles Hamilton, who played in perfect form for his 30. Hollingshead also played a fine innings for 22.

The team was entertained to tea at the School in the afternoon, and in the evening were the guests of Mrs. Montizambert, when the team enjoyed a social hop. The score was as follows:

OTTAWA UNIVERSITY MEDALS.

Peterborough Boys Capture the Two Best Prizes.

Messrs. P. Galvin, of Ennismore, P. J. Kelly and "Jack" Ball, have returned home from Ottawa University, bringing their schoolastic spoil with them.

Mr. Galvin won Rev. Father Fitzpatrick's silver medal for excellence in English. He took the highest percentage in the intermediate (2nd year) examinations. Mr. Kelly took a silver medal, also taking the second highest percentage in the intermediate. Mr. "Jack" Ball captured a prize in Latin of the first form. The boys are heartily to be congratulated.

Have You Bought Your Wheel

... FOR THE ...

C. W. A. MEET

At Peterborough, July 1st and 2nd 1898,

If not, is it not time to consider what and where you will buy? It is only about two weeks now before the 1st of July—the biggest Bicycle day of the season—and if you are going to buy a Wheel this year, we say buy now, and you will double your interest and pleasure in the Meet. But to get the fullest satisfaction from wheeling, you must have a good, reliable mount—one that you may depend upon under any circumstances. We attribute our success in the Bicycle Department to the Wheels we sell, for they represent the very best that brains and money can produce. We could not afford to sell any others. Our aim has always been to give a little better value in our Wheels than you can get elsewhere; and buying as we do, in large quantities, and for Spot Cash, and handling them in connection with our regular business, thereby reducing the expenses of doing business to a minimum. We believe we have been able to do this in the past, and can guaranteed the same in the future. Briefly told, these are the wheels we sell:—

$100--E. & D. SPECIAL—

Famous the world over for its Four-point Bearing and easy running qualities—Is positively Dust-proof, and oil-retaining—requires oiling but once a year—Is fitted with the Frost Gear Case and Doolittle Brake, and is the only Wheel on the Market that is sold on a THREE YEAR GUARANTEE

$85--E. & D. ROADSTER—

The same in every respect as the above with the exception of Gear Case and Brake.

$75--THE GENDRON—

Easy running always—Light, strong and honestly built—It has won and holds more Road and Track Records than any other Wheel made—With or without Walter's Brake.

Second Grade Gendron—Arch Crown, Drop Frame and Buck Eye Tires—$45.00.

$50--THE TRIBUNE MODEL 40—

The best $50.00 Wheel that money will buy—All the Bearings of this Wheel are made of Tool Steel finished in oil—has Drop Frame, Arch Crown, Square Cranks and Dunlop, Hartford, Vim or Gooderich Tires—Ask to see the parts of it.

$40--OUR SPECIAL—

This is a Wheel we have had built specially for our own trade, and to see it is to know that it is not "a Cheap Wheel, but a good Wheel cheap"—It is thoroughly up to date in every respect, and is fitted with Dunlop or Hartford Tires. Res-Flex Sampson or New York Tires—$37.50.

Our show rooms are open to visitors and intending purchasers at all times, and we will be glad to show you our wheels, whether you buy or not.

THE COUNCIL IN COMMITTEE.

Meeting of the Committee of the Whole Council Last Night—Several Important Recommendations Made

At a meeting of the Committee of the Whole Council last night the following Councillors were present:—Mr. Mayor Davis and Messrs. Best, Dawson, Robertson, White, J. H. White, Allen, Best and Cobb.

It was resolved to recommend: That Z. Blodgett be required to water all the streets included in his contract without extra pay.

That the application of the Times Printing Company for the council to take 2,000 copies of "Picturesque Peterborough" for use on the 1st of July be not entertained, the time being too short.

That in respect of the letter of Rock Gordon in reference to the dangerous proximity of the buildings of the Royal Oil Company to his residence on Perry street, the Street Inspector is required to measure the distance between the buildings in question and submit his report to the town solicitor to ascertain the legal liability involved.

That the application of Mr. R. H. Green for a rebate of $97 on his liability in respect of his last year's contract for the market tolls, be not entertained, as the granting of it would have a tendency to cause reckless bidding and would be unsound in principle.

That the application of the Auburn Woolen Mills Company to receive the price of a couple of hydrants in view of the amount paid for private waterworks, be referred to the special committee appointed to deal with the matter.

That in respect of the application of the Peterborough Light and Power Company for rebate of their rent on poles, no action be taken.

That the application of Messrs. Montgomery and Lawrence, fire horse drivers, for increase of salary, be entertained to the extent of increasing the salary of each to $375 per year, from the 1st of July, prox.

THE STREET RAILWAY FRANCHISE.

The letter of the Town Solicitor, in reference to the matter of the forfeiture of the franchise of the Street Railway Company, was read. The letter recounted the circumstances of the contract and the manner in which the railway had complied with its conditions, and his conclusion is as follows:

"I am of opinion (1st) that there has been no absolute and complete forfeiture of the franchise of the company; (2nd) that the company has forfeited the franchise of that part of Park street from Charlotte to McDonel street, and of that part of McDonel street from Park to George street; (3rd) that the company has forfeited the franchise of that part of George street, Lake street and Lock street, south of Charlotte, on which there has been a failure to regularly use the railway for over three months and that the rails thereon have become the property of the corporation. This would include the part from Charlotte street to King street which has not been regularly used for a fifteen minute passenger services, although it may have been used for the passage of cars to and from the company's barns; 4th, that with regard to the part of the line which has been operated, and with regard to the streets on which the company has not yet been notified to build a railway, the franchise is still in force."

It was decided that no action be taken in reference to this letter of the town solicitor.

The matter of special constables to serve during the days of the Wheelmen's Meet was left in the hands of the mayor and chief of police.

C.P.R. AND THE TOWN.

The matter of the C.P.R. and the town in reference to lands now occupied by their lines or buildings, etc., came up.

A resolution was adopted instructing the town solicitor to take the necessary steps to maintain the town's rights in Island No. 1 in the river, now occupied by the spur line of the railway company.

RIGHT REVEREND MONSIGNOR McEVAY.

MGR. McEVAY, OF HAMILTON MADE A PRELATE.

He is Advanced to the Dignity of Domestic Prelate.

Rev. Father McEvay as he is best remembered by his many friends in Peterborough, Mgr. McEvay as he is entitled by the new dignity conferred since his departure from Peterborough, has received another mark of the esteem of the Holy Father.

His Lordship Bishop Dowling, of Hamilton, yesterday received from the Pope, through the Cardinal Prefect of Propaganda, the papal brief or official document announcing that his Holiness, at an audience given Cardinal Macchi on May 17, was pleased to promote Mgr. McEvay to the dignity of Domestic Prelate, in recognition of his distinguished services to the diocese of Hamilton, his devotion to his Bishop and his loyalty to the Holy See. Hitherto Mgr. McEvay has ranked simply as Private Chamberlain to his Holiness, a title which dies with the Pope. He now takes higher rank as Prelate, and the title is permanent. The Cardinal Prefect of Propaganda sends his congratulations to the Bishop and the Monsignor, whom he knows personally. Rt. Rev. Monsignor McEvay as he will be hereafter entitled, will receive the cordial congratulations of his hosts of friends and admirers in Peterborough, town and diocese, on the signal honours which his piety and zeal have won.

OBITUARY.

Death of Lucinda Braden, wife of G. W. Mann, of Smith.

The demise occurred last evening of Lucinda Braden, aged 47, wife of Mr. G. W. Mann, of lot 14, concession 8, Smith Township.

The deceased had been an invalid for some years, being a sufferer from lung trouble, and her death was, therefore, not unexpected. She leaves a sorrowing husband and eight children to mourn the demise of a faithful wife and loving mother. The deceased was a daughter of the late Andrew Braden of Smith.

The funeral will take place Friday, at 2 p.m., from the family residence to the Little Lake Cemetery.

A NEWSPAPER MAN PASSES AWAY.

Death of Mr. M. W. Williams, Proprietor of the Cobourg World.

Mr. M. W. Williams, proprietor of the Cobourg World, and a cousin of Mr. J. B. Oke, town, died at Cobourg on Wednesday, June 22, aged 49 years. He has been ill for some time of an affection of the stomach. He was very highly respected not only among his confreres of the press, but by the public at large. The funeral takes place on Friday, June 24th, to the Bowmanville cemetery, the former home of the deceased.

A MARKED GAIN.

GENTLEMEN,—I have been a great sufferer from nervous dyspepsia, with the usual symptoms of stomach weakness, loss of appetite and flesh, accumulation of gas, sour risings, and heartburn. I used various patent medicines and other remedies without any favorable results. They would give temporary relief sometimes until the effects of the medicine wore off, but Dr. Ward's Blood and Nerve Pills overcame all these obstacles. I am better in every way now and have gained several pounds in weight.

ANIMALS UNDERGROUND.

Burrowing as It Is Performed by Various Species of Mammals.

Ventilation, or rather the want of it, must be a difficulty in the underground life of almost all mammals. The rabbit and the rat secure a current of aid by *forming a bolt hole* in connection with their system of passages, but the fox, the badger and many of the field voles and mice seem indifferent to any such precaution. There is no doubt that whatever gave the first impulse to burrow, many animals look upon this, to us most unpleasant exertion, as a form of actual amusement. It *also confers* a right of property.

Prairie dogs constantly set to work to dig holes merely for the love of the thing. If they cannot have a suitable place to exercise their talent in, they will gnaw into boxes or chests of drawers, and there burrow, to the great detriment of the clothes therein contained. In an inclosed prairie dog "town" they have been known to mine until the superincumbent earth collapsed and buried the greater number. A young prairie dog, let loose in a small, gravel floored house, instantly dug a hole large enough to sit in, turned round in it and bit the first person who attempted to touch him. Property gave him courage, for before he had been as meek as a mouse.

It is noticeable that the two weakest and least numerous of our mice, the dormouse and the harvest mouse, do not burrow, but make nests, and that these do not multiply or maintain their numbers, like the burrowing mice and voles. But the fact that there are members of very closely allied species, some of which do burrow, while others do not, seems to indicate that the habit is an acquired one.

In this connection it is worth noting that many animals which do not burrow at other times form burrows in which to conceal and protect their young, or, if they do burrow, make a different kind of a more elaborate character. Among these nursery burrows are those of the dog, the fox and sand-martin, the kingfisher and the sheldrake. Foxhound litters never do so well as when the mother is allowed to make a burrow on the sunny side of a straw stack. In time she will work this five or six feet into the stack and keep the puppies at the far end, while she lies in the entrance. Vixens either dig or appropriate a clean burrow for their cubs, which is a natural habit, or, at any rate, one acquired previously to the use of earth by adult foxes.—London Spectator.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

A PRISONER'S RUSE.

HOW ROC ESCAPED FROM THE SPANISH PRISON BY A TRICK.

A Clever Pirate Who Won Freedom For Himself and His Companions by Forging a Letter and Playing on His Captor's Fears.

Mr. Frank R. Stockton, telling St. Nicholas readers about "The Buccaneers of Our Coast," describes the clever escape of Roc, the Brazilian, a famous pirate, from captivity among the Spanish at Campeachy. Mr. Stockton says:

When he was coming into the bay, Roc had noticed a large French vessel that was lying at some distance from the town, and he wrote his letter as if it had come from the captain of this ship. In the character of this French captain he addressed his letter to the governor of the town, and in it he stated that he had understood that certain companions of the coast, for whom he had great sympathy—for the French and the buccaneers were always good friends—had been captured by the governor, who, he heard, had threatened to execute them.

The French captain, by the hand of Roc, went on to say that if harm should come to these brave men, who had been taken and imprisoned when they were doing no harm to anybody, he would swear, in his most solemn manner, that never for the rest of his life would he give quarter to any Spaniard who might fall into his hands, and he moreover threatened that any kind of vengeance which should become possible for the buccaneers and French united to inflict upon the Spanish ships, or upon the town of Campeachy, should be taken as soon as possible after he should hear of any injury that might be inflicted upon the unfortunate men who were then lying imprisoned in the fortress.

When the slave came back to Roc, the letter was given to him with very particular directions as to what he was to do with it. He was to disguise himself as much as possible, so that he should not be recognized by the people of the place, and then in the night he was to make his way out of the town, and early in the morning was to return as if he had been walking along the shore of the harbor, when he was to state that he had been put on shore from the French vessel in the offing with a letter which he was ordered to present to the governor.

The slave performed his part of the business very well. The next day, wet and bedraggled from making his way through the weeds and mud of the coast, he presented himself at the fortress with his letter, and when he was allowed to take it to the governor no one suspected that he was a person employed about the place. Having fulfilled his mission, he departed, and when seen again he was the same servant whose business it was to carry food to the prisoners.

The governor read the letter with a disquieted mind. He knew that the French ship which was lying outside the harbor was a powerful vessel, and he did not like French ships anyway. The town had once been taken and very badly treated by a little fleet of French and English buccaneers, and he was very anxious that nothing of the kind should happen again.

There was no effective Spanish force in the harbor at that time, and he did not know how many buccaneering vessels might be able to gather together in the bay if it should become known that the great pirate Roc had been put to death in Campeachy.

It was unusual for a prisoner to have powerful friends so near by, and the governor took Roc's case into most earnest consideration. A few hours' reflection was sufficient to convince him that it would be very unsafe to take risks with such a dangerous prize as the pirate Roc, and he determined to get rid of him as soon as possible. He felt himself in the position of a man who has stolen a baby bear and who hears through the woods the roar of an approaching parent. To throw away the cub and walk off as though he had no idea there were any bears in that forest would be the inclination of a man so situated, and to get rid of a great pirate without provoking the vengeance of his friends was the natural inclination of the governor.

Now, Roc and his men were treated well and, having been brought before the governor, were told that in consequence of their having committed no overt act of disorder they would be set at liberty and shipped to Spain upon the single condition that they would abandon piracy and agree to become quiet citizens.

To these terms Roc and his men agreed without argument. They declared they would retire from the buccaneering business and that nothing would suit them better than to return to the ways of civilization and virtue. There was a ship about to depart for Spain, and on this the governor gave Roc and his men free passage to the other side of the ocean. There is no doubt that our buccaneers would have much preferred to have been put on board the French vessel, but Roc made no suggestion of the kind, knowing how astonished the French captain would be if the governor were to communicate with him on the subject.

He Told Them.

At a general election in Victoria a candidate who was making a speech exclaimed, "What is it that has made England what she is—mighty, revered, feared and respected?" And every one was trying to think, when a voice with a rich, sonorous brogue in the back part of the hall answered, "Oirleand."

An Explanation.

The reason for the great popularity of Hood's Sarsaparilla lies in the fact that this medicine positively cures. It is America's Greatest Medicine, and the American people have an abiding confidence in its merits. They buy and take it for simple as well as serious ailments, confident that it will do them good.

The Product of the Antwerp Shipbuilder of the Year 1585.

The "Finis Belli," built in the year 1585 by a shipwright of Antwerp, was probably the first armored vessel ever constructed. The things that people see are inside of them and not *outside of them*. No two people see the same thing exactly alike. One woman may look at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look at the same scene and see nothing. The man who is perfectly well and vigourous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it *is* the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Medical Adviser," profusely illustrated.

In the evening twilight of winter time, when the fire sparkles and glows and dances upon the hearth, there are dreams and air castles of the future in the flames for the young woman who sits and gazes into them. Whether these air castles will ever become realities, is largely a matter of health.

No woman can hope to be a contented wife, the mistress of a happy home and the mother of healthy children who suffers from weakness and disease of the delicate organs that are distinctly feminine. All the air castles that she builds will crumble into dust, unless she takes measures to correct the disorders from which she suffers. Dr. Pierce's Favorite Prescription is a positive cure for all disorders of these most sensitive organs. It makes them strong, healthy and vigorous. It prepares a woman for happy wifehood and healthy motherhood. It robs maternity of its peril and of nearly all pain. It insures children with strong, healthy constitutions. Thousands of women have testified to its marvelous merits. For nursing mothers it is the best supportive tonic.

When a dealer urges some substitute he's thinking of the larger profit he'll make—not of your welfare.

"About six years ago my wife became afflicted with displacement, causing inflammation and much pain," writes Rev. I. J. Coppedge, of Elmo, Kaufman Co., Texas. "She could not stand on her feet or get in any position but what she suffered great bearing down pain. I got her a bottle of Dr. Pierce's Favorite Prescription which she soon found was helping her; so she kept on until she had taken six bottles. Since taking the last she has not suffered a moment from the old trouble."

ENGLAND'S PREMIER.

WHAT IT MEANS TO BE THE BRITISH PRIME MINISTER.

Nowhere Else In the World Is There Any Position at Once So Powerful and So Anomalous—The Office Is Without Legal Foundation.

Nowhere else in the world is there any position at once so powerful and so anomalous. So long as he remains prime minister the premier of the United Kingdom is possessed of more real power than any single individual, unless it be the czar or the president of the United States.

Yet, great as is the power of prime minister, the office has no foundation on law. The prime minister is quite as unknown to the law as is the cabinet. If a legal pedant, blind to all facts not in the statutes or the textbooks of the common law, were asked to define the office of prime minister and to describe the cabinet, he would be utterly at a loss.

In theory the prime minister is only a privy councilor at the head of a department of state who is specially in the sovereign's confidence and who usually presides at an informal gathering of certain of the privy councilors who happen to hold offices of state—a gathering which is called the cabinet. That is the furthest which the legal pedant of our thought would dare to go. Yet, of course, the prime minister is, in fact, far more than the mere chairman of the cabinet.

The cabinet, no doubt, has a great deal of power, but even if it were true once it is certainly not true now that England is governed by a committee of 15 or 16 persons.

The prime minister, as a rule, makes his cabinet. He is commissioned by the queen to form a cabinet, because he is the man whom she considers to possess the confidence of a majority of the house of commons. He forms his cabinet by asking certain members of the two houses to hold the great offices of state. He might do this in one day and without consulting any one.

As a matter of fact, what usually happens is this: As soon as the commission to form a government has been received, the prime minister takes into his confidence the two or three who will hold the chief offices, and they talk together over the other names. When a man is decided upon, he, as a rule, joins the conclave and helps to consult as to men and places, and so the cabinet gradually evolves itself. No doubt, as generally happens in this world, the prime minister's choice is never really free.

Certain men must be in the cabinet, whatever happens, and hence they may be said not to be chosen by the premier, but to be ministers in their own right. In spite, however, of this, the fact that they are asked to serve by the premier makes them feel his superiority. When the cabinet is made, the theory of the unwritten constitution is that the cabinet governs. In reality it seldom does anything of the kind.

Each cabinet minister has very great power in his own department, but the cabinet as a cabinet can do little. Since, however, it knows everything that is going on it can exercise a great deal of indirect power. The previous knowledge that the majority of the cabinet would like or dislike a particular policy has a great influence, but still the cabinet does not rule. The prime minister summons, presides over and largely controls the cabinet meetings. If a vacancy occurs, he fills it up, and so can promote from the lower to the higher offices.

Then he can and does confer with his colleagues in regard to the business of their departments, and so has a hold upon the whole machine of government. Sir Robert Peel saw every member of his cabinet separately every day. Again, if there be a difference between two other members of the government, the premier decides. If there be an irreconcilable difference between himself and a minister, it is the minister and not the premier who resigns.

Lastly, the prime minister can, by resigning himself, dissolve the whole ministry. These things, small in themselves, taken together, make the prime minister's position what it is. He makes and can unmake a cabinet. He presides over it, and he has the right to advise in regard to every department, though this right is of course seldom exercised, and he has secured to him beforehand the support of the rank and file or of any cabinet if it comes to a struggle between him and a colleague, because the rank and file know that if the premier is beaten he has it in his power to upset the whole machine of government.

Hence the voices of those who want to keep in office are always found on the side of the premier.—Pearson's Weekly.

A GLOBE REPRESENTATIVE

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

Toronto, June 20.—(Special)—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parnham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

THEY WERE POLITE.

And the Farmer Did Not Wish to Have Them Caught.

A Philadelphia detective while in Camden the other day heard that a farmer living on the outskirts of that town had been bunkoed out of $50 in the Quaker City the day before, and he went over to get a description of the men.

"But I don't want 'em hetched," said the farmer after he had told the story.

"You don't?" asked the detective in astonishment. "Don't you want to get your money back?"

"Waal, yaas," he rather grudgingly admitted, "but I don't want them fellers in jail over it."

"But—but why not?"

"Waal, becus they treated me so durned perlite an nice. Say, yoou jest orter seen how they acted. Why, every time they bumped inter me or stepped on my corns they begged my pardin jest as if I wus the president."

"Humph!" grunted the detective. "That's part of their business."

"Mebbe it is, mister," replied the farmer, "but I can't git over it. Their room wus way up in a big, high building an wuz purty nigh empty, but durned if they didn't hunt me up a cheer an made me take it, while they had to stand. Then they brung out a box o' cigars an told me to take one."

"But they're thieves, man, and robbed you!"

"I know, but see how nice they wus. After a bit they brung out a bottle an told me to take a swig, an bimeby they told me to take another cigar. Durned if I wus ever treated so nice before!"

"And for that reason you won't make any effort to have them captured, eh?"

"That's about the size o' it, mister. If they hadn't bin so durned nice to me, I'd had 'em jugged or busted. Say, neow, but when I riz up to go they told me to take another cigar an another drink, an as I wus leavin I'm durned if they didn't tell me to take the elevator! O' course I didn't want to lug that big thing home, but it wus kind o' them to offer it to me jest the same, wasn't it, b'gosh!"—New York Journal.

Russian Dissenters.

The so-called Greek-Orthodox population of Russia is permeated with sects of Dissenters of all possible denominations. It is estimated that one-third part of that population belongs in reality to some branch of Nonconformists, Lutherans, Rationalists, Sabbatarians, Baptists, and Anabaptists are represented in various ways among these Dissenters, many of whom strive to return to the principles of primitive Christianity, or even to still more ancient forms of society represented in the Old Testament. The right of free interpretation of the Bible is thus carried on all over Russia, and there is no force which could limit it.

Every village has its own teachers—men and women—who interpret the Bible in their own ways, almost always hostile to the present State and to the official Church. A powerful religious movement is thus growing in Russia, and it is bound to work in a not remote time as a powerful force against autocracy.—Prince Krapotkin, in the Outlook.

DYING BY INCHES!

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They *have cured* thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of *people are dying on their feet, but do not realize it.* They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their only hope is Dodd's Kidney Pills. They won't fail. They never do.

Nature makes the cures after all.

Now and then she gets into a tight place and needs helping out.

Things get started in the wrong direction.

Something is needed to check disease and start the system in the right direction toward health.

GREEN BADGES OF COURAGE.

Sashes Worn by Army Surgeons and Their History.

A great many people do not know why army surgeons wear green sashes. It is not so much an insignia of rank as it is a protection to the wearer. According to the code of war, surgeons are never shot or taken prisoners. To deliberately shoot a surgeon while he is wearing his sash is considered a violation of the code, punishable by death.

Because of this provision surgeons of one army never refuse to look after the wounded of the other army if it is possible for them to do so. During the civil war it was often the case that after a battle the field hospitals would contain almost an equal number of men dressed in blue and gray. The Federal army had the best surgeons and the best stores, and a wounded Confederate considered himself in great luck if he was removed to a Federal hospital to be cared for by Federal surgeons and physicians.

But in the heat of battle a green sash is not much protection, and surgeons were often wounded or killed. But this did not keep the surgeons at the rear until the battle was over. They were often found in the thick of the fray, dressing wounds and sending the wounded to the rear. Theirs was a perilous as well as a noble duty, and they performed it well.—Omaha World-Herald.

A Popular Choice.

Lady Castlerosse heads the list of the newly elected poor law guardians of Killarney. She was nominated by her father-in-law, the Earl of Kenmare. Her election, it is said, has aroused the greatest interest among Ireland's poor, who hope that if members of the aristocracy take up such duties larger measures for the relief of distress will follow.

USE NO LATHER.

Chinese Shave Frequently With a Wet Towel to Soften the Face.

Considering that the inhabitants of the middle kingdom use the razor more than any other nation in the world, it is passing strange that they never discovered the advantages of lathering first, says the Windsor Magazine. Dabbing a warm wet cloth on the chin or the scalp is a poor substitute for soap. Hair cutting, as we practice it in the west, is to them "all unknown," except in a few localities where foreigners are numerous. A traveler when in the province of Kwantung sent for a man to shear his locks, and he began nibbling away at his scalp without troubling about such a trifling as a comb. At the third snip the man stopped him and asked him if he had ever cut a foreigner's hair before. Oh, yes. When was that? Oh, last year, when he cut the hair of a German customs officer who had died.

But in the matter of shaving there are few more deft—considering the clumsy way he does it and the fact that he uses a little three cornered soft iron knife as a razor—than the Chinese figaro. Was not the chief of all his tribe ennobled by an emperor ages back for dexterously cleaving a mosquito that had settled on the imperial nose? One advantage gained by patronizing the Chinese barber—in the case of Europeans—is he doesn't mind coming to your room every morning and shaving you before you wash and dress. But the native also generally waits to be razed before washing, even if he has to wait a week.

COULDN'T GO NEAR THE STOVE.

Treated by Different Doctors.

CURED BY DR. CHASE.

The most intractable and distressing skin diseases which defy all manner of treatment—even the best medical skill—are readily cured by Dr. Chase's Ointment.

MRS. JOS. QUERIN, hotelkeeper's wife, at Ethel, Ont., was troubled with Eczema of the Head and Face for about 9 years, and was so bad at times she could not go near the hot stove to do her cooking. Her head was one mass of scabs, and although she treated with doctors it kept getting worse. On hearing of Dr. Chase's Ointment, she got some, and was delighted to find the first application do her good. She used two more boxes of the Ointment, is now free from disease, can do her own cooking, and would not begrudge $200 for the good it has done her.

MR. A. F. WOOD, Ex-M.P.P., SPEAKS ON GOOD ROADS.

HIS EXPERIENCE IN THE HASTINGS COUNTY COUNCIL.

Many Valuable Hints Given to the Local County Council in the Matter of Constructing and Maintaining a System of Gravel Roads.

Mr. A. F. Wood, of Madoc, M.P.P. for North Hastings, who was for twenty years a member of the Hastings county council, and with ten years' experience as Warden, addressed the members of the local county council last evening, giving the experience of Hastings County in road-making and imparting much valuable information in the matter of improving thoroughfares.

Warden Pearce introduced Mr. Wood as the man to whose energy Hastings was indebted for its excellent system of roads.

The speaker in opening expressed his pleasure at being in a position to impart such information in regard to road making as must necessarily occuppy the attention of every county council which was interested in the improvements of its roads.

On learning that Peterborough County still adhered to statute labour, the speaker expressed his surprise that the systematised roadmaking had not been seriously entered into. When he was in Parliament the question of good roads came up frequently and he was often consulted on the subject. He found that even in small matters many members had not the courage of their convictions. There seemed a natural tendency on the part of all to oppose any forward movement which would entail additional taxation for fear it might imperil their seats. All agreed that

ROAD MAKING WAS NECESSARY

but they hesitated in bringing about a state of affairs which would turn the labour into a tax and ensure their defeat.

Assuming, said he, that you are now desirious of establishing a system of gravel roads in your county and you are anxious to learn of the experience of the county of Hastings in the matter, I will explain to you that when I went into the council, the road from Madoc into Belleville was obstructed by rocks of such a size as to make teaming a perilous enterprise. It used to take five days to go to Belleville and return. There was no source from which money could be drawn to improve the state of affairs. The county council in those days did not make grants for roads. A number of short roads had been built, radiating out of Belleville, by private companies who erected toll gates on them. Finally an agitation commenced for better roads. The first thing was to secure these short lines of roads, which were built of plank. They were superseded by gravel roads and extended to Trenton, Shannonville, Canifton and Stirling.

A bylaw was introduced into the council which had to be submitted to the people in order to raise the money to purchase and extend these roads. The bylaw was defeated by a big majority, but on being revised so as to interest the more thickly populated portions of the county, by giving them special favours, their support was won and the bylaw was passed when submitted a second time. The council then borrowed fifty thousand pounds from the Municipal Loan Fund. One of the conditions was that toll gates be established. We had not got as far in

POLITICAL ECONOMY

as we are now. The people soon became thoroughly dissatisfied with toll gates. The objected to paying the direct tax. The engineers estimated that it would cost $2,000 a mile to build gravel roads, but we built them for $1,000. These, understand, were not macadamized roads, but gravel roads. It was decided to borrow more money and buy up the company roads as the toll gates were felt to be a nuisance. The roads were then bought out and put under county control. The question then arose as to how to keep these roads in repair. There were now 200 miles of them. The first idea was to let the work of repair out by contract in sections. But the evil grew out of the difficulty of compelling these contractors to keep the roads in repair as agreed upon. It was then decided to let the work out by contract by the yard and supply the material. A small army of officials, however, was necessary to watch these men. The roads were all right near the gravel pit, but farther away they were poor.

I thought of the establishment of a "gravel road committee," to be composed of seven men selected by the Warden, and that the council appoint a Superintendent of Gravel Roads, that this man be under the control of the committee, who should employ foremen, and men capable of working. They were to be paid fairly good wages, and be replaced by others if found incapable of doing good work. A competent man was employed at $700 as superintendant. A committee was appointed, with myself as chairman. Three gangs of men were employed. They worked at the places which needed them most. At the end of the year I was able to bring in a report showing that the roads were not only better kept but were kept cheaper.

When a new council came in there was considerable opposition to the manner of keeping the roads.

THE OLD PATRONAGE

had been done away with. It was arranged however, to let the roads out in blocks by contract. This did not work right and the following year the right system was again re-introduced and has been followed for the last twenty-five years with the most gratifying success.

The necessaries are a good superintendent and live men on the Gravel Road Committee.

The effect in our county is that we borrowed no more money after the first. We have paid it all back and have kept on increasing our good roads every year until we have now over 400 miles of gravel roads and we now have a most complete system, with no part neglected. To-day we have the great satisfaction in being able to say that not ten men in the county will tell you that the general roads are not of supreme importance to us.

Our first principle has always been: "If you want a good road take the water from it."

The advantages from good roads are that you equalize the values of property. It has made the property in our back country more valuable. Madoc, which is 26 miles from the Belleville market, is now one of the richest townships in Hastings. Where would it have been without the gravel roads?

The difficulties are to educate the people up to think that there is just as profitable investment in roads as in anything else.

We used to think that broken stone or screened gravel was the proper material to put on roads. We know better now. If a mouthful of broken stone is disturbed and cut through, it can never be fixed until it is made over again. With unscreened gravel it is different. The smaller stones bind the larger ones, and if it is cut through, it can be easily repaired without trouble.

At the conclusion of his address Mr. Wood was the receipient of a cordial vote of thanks for the many valuable suggestions thrown out.

THE JUNE SESSION OF THE COUNTY COUNCIL.

THE MEMBERS LISTEN TO THREE DEPUTATIONS.

A Second Iron Bridge Asked for at "Steele's" in Asphodel — Agricultural Societies Want Bigger Grants.

THURSDAY, JUNE 23rd.

The county council went into session at 10 o'clock, all the members being present.

ANOTHER BRIDGE AT "STEELE'S."

Mr. Jas. Moore, Asphodel, was heard in connection with the project of building a new bridge at "Steele's," over the river, west of the site of the present Steele's bridge on the sideline. He suggested the fairness of the county helping the township in the construction of an iron instead of wooden bridge at the point named; the which would probably be swept away at the first season of high water. He thought the township would be well pleased to receive at least half of the cost of the structure, though he and Mr. Birdsall, who appeared at the request of the council of the township, thought that that the county would only be doing justice to the township, if the county built the entire bridge and of iron.

Mr. Frank Birdsall said, as a ratepayer of the township, he appeared on behalf of the township to endeavour to induce the council to reconsider the decision to build only one bridge at the point known as Steel's bridge. He contended that there need have been only one bridge at this point if it had been put in the proper place. Now another bridge was necessary and it should, he thought, be built, especially since in exchanging Westwood bridge for Birdsall's the county had been the gainer by about $2,000.

Mr. Casement remarked that this was the third or fourth time the matter had come up in the council. The action taken by the council was considered thoroughly. The representatives of Asphodel had been well satisfied with the manner in which the matter had been arranged and as the councillors were all familiar with the situation, he moved, seconded by Mr. Anderson, that no action be taken in the matter urged by the deputation. The motion carried.

AGRICULTURAL SOCIETIES.

A deputation from the West Peterborough Agricultural Society, consisting of Messrs. Dawson Kennedy, T. M. Hunter, A. E. Bradburn and Harry Winch was heard before the council

Mr. Kennedy asked that the council make a grant of $200, in view of the fact that the town council would increase their grant to $200 if the county made a similar grant. The society was about $600 in debt, and bad weather at the last exhibition had not helped the finances. The society would appreciate a liberal grant in what was really the interests of the farmers generally.

Mr. T. E. Bradburn repeated the request for the grant, which would mean $200 to the society from the town. He pointed out that the directors were not acting in their own interests but for the benefit of the farmers at large.

Mr. T. M. Hunter endorsed the remarks of the other speakers, and mentioned the fact that of the large sum of $1,200 paid last year in prizes, the far larger part was paid to farmers in this county.

Mr. Harry Winch spoke briefly, endorsing what had been urged and thanking the council in advance for a liberal grant and a courteous hearing.

Messrs. Frank Birdsall and Jas. Moore appeared on behalf of a grant to the East Riding Agricultural Society. The society gave a good exhibition every year, but were badly handicapped by the absence of suitable sheds, and they would like to provide these. But without a liberal grant they were not in a position to construct them as they had expended $200 on their grounds last year.

Mr. Jas. Moore and the Warden also briefly urged the claims of the society to at least as liberal a grant as would be given to the West.

The matter of both applications was referred to the Finance Committee.

SOME HOT FIGHTING.

Spanish Commanders Admit the Success of American Arms.

CERVERA SAYS "CRITICAL."

The Outposts of Daiquiri and Puerta Berraco Destroyed by the Big Guns—The Landing of the American Troops Safely Accomplished—An Inside View of Santiago and Its Harbor.

Madrid, June 24.—The following despatch was yesterday received by General Correa, Minister of War, from General Linares, the commander of the military forces in Santiago: "A general attack was made by the American squadron at 8 o'clock this morning. At 3 o'clock this afternoon the fighting was severest. It was prolonged until nightfall about Siboney and Daiquiri. The attack was repulsed along the whole line, except on the extreme left at Daiquiri, which yielded to a flanking movement, our troops retiring in an orderly manner to the hills. The Americans landed nine kilometers to the eastward of Daiquiri, beyond range. The villages of Siboney and Daiquiri were destroyed by the enemy's fire. I am ignorant of further details, the telephone line having been interrupted."

Admiral Cervera has sent a message to Gen. Correa saying: "The enemy has landed at Puerta Barraco. As the issue is to be settled on land, I shall disembark my crew as far as gun range. The situation is most critical."

Captain-General Blanco has also cabled to the Minister of War. His despatch states that an American warship cannonaded a wooden fortress near Guajimico, on the San Juan River, on the Cienfuegos coast, destroying it and wounding slightly two officers and five soldiers. General Correa read all the foregoing messages in the Chamber of Deputies.

THE LANDING

Accomplished Without Loss of Life Under the Protection of American Warships' Fire—Spaniards Desert Daiquiri.

On board the Associated Press despatch boat Wanda, Daiquiri Harbor, Cuba, June 23, via Kingston, Jamaica, June 23.—At five o'clock this afternoon 6,000 trained American soldiers are encamped in the hills and around Daiquiri, and 10,000 more rest on their arms on board transports off shore, ready to join those who have debarked as soon as the available launches and small boats can carry them ashore.

The Cuban insurgents bore their share in the enterprise honorably and well. Five thousand of them, in mountain fastnesses and dark thickets of ravines, lay all last night on their guns watching every road and mountain path leading from Santiago de Cuba to Guantanamo. A thousand of them were in sight of Daiquiri, making the approach of the Spaniards under cover of Daiquiri an impossibility.

Daiquiri was on fire, a sure sign that the Spaniards had gone, leaving a ruin behind them. From the staff at the summit of Daiquiri the Spanish flag was defiantly floating at sunset last night, but this morning it was gone, and with it the small Spanish guard which had maintained the signal station.

A little before 9 o'clock the bombardment of the batteries of Juragua was begun by the ships of Rear-Admiral Sampson's fleet. This was evidently a feint to cover the real point of attack, Juragua being about half way between Daiquiri and Santiago de Cuba. The bombardment lasted about twenty minutes.

At 9.40 o'clock the New Orleans opened fire with a gun that sent shells rumbling and crashing against the hillside. The Detroit, Wasp, Machias and Suwanee followed suit, and soon the hillsides and the valleys seemed to be ablaze, as shot followed shot in swift succession amid the wild and excited cheering of the soldiers on the transports.

In five minutes the sea was alive with flotillas of small boats, headed by launches, speeding for Daiquiri dock. Each boat contained 16 men, everyone in fighting trim and carrying three days' rations. A shelter tent, a gun and 200 cartridges, ready to take the field on touching the shore should they be required to do so.

The firing of the warships, however, proved to be a needless precaution, as their shots were not returned, and no Spaniards were visible.

A detachment of 80 regular infantry soldiers was the first to land, followed by General Shafter's old regiment, the 1st infantry. Then came the 25th infantry, the 22nd infantry, the 10th infantry, the 7th and 12th infantry, the 2nd Massachusetts regiment and a detachment of the 9th cavalry. On landing the companies and regiments quickly lined up and were marched away. General Lawson threw a strong detachment, for the night, about six miles west, on the road to Santiago, and another detachment was posted on the north of the town, among the hills. The rest of the troops were quartered in the town, some of them being housed in the buildings of the iron company.

Others of the troops were quartered in deserted houses, while others still preferred the shelter of their tents in the adjoining fields.

The landing was accomplished without loss of life, the only casualty being the wounding of an insurgent on the hills by a shell from one of the warships. He will lose his arm.

The insurgent troops at Daiquiri are commanded by General Castillo, and are estimated to number a thousand men.

She Ran the Blockade.

Madrid, June 24.—In the Chamber of Deputies yesterday Captain Aunon, Minister of Marine, read the following official despatch from Havana:

"The Spanish auxiliary cruiser Maria Theresa has succeeded in running the Santiago blockade, and has entered Cienfuegos with a large cargo of provisions and war stores."

Testing the Peace Policy.

London, June 24.—The Madrid correspondent of the Morning Post says: The Government, it is reported, has authorised its agents throughout the country, to ascertain the opinion of the people as to the desirability of terminating the war. Senor Sagasta will announce the result after the Cortes is prorogued."

Manila Still Holds Out.

London, June 24.—The Manila Railroad Company, having offices in this city, has received a cable message saying that, though the Philippine insurgents have captured all but the inner city of Manila, they are respecting property and refraining from looting.

INSIDE SANTIAGO.

Admiral Cervera's Strength and Disposition of His Forces Known—Valuable Information Obtained.

In General Garcia's camp, Aurrenderas, Santiago de Cuba, June 22, per the Associated Press despatch boat Wanda, via Kingston, Jamaica, June 23.—A Cuban who left the city of Santiago de Cuba on Monday night arrived at General Garcia's camp on Tuesday morning with accurate maps of the harbor and of the earth works surrounding it. The ships of Admiral Cervera have moved from the positions they were in three days ago, and they now lie on almost a circle, surrounding a small island and lighthouse about half way up the four-mile harbor. The armored cruiser Cristobal Colon, which is uninjured, lies to the west, commanding with her port battery the narrow neck of the harbor, while the Vizcaya, also uninjured, lies to the east, her starboard battery looking down upon the same neck.

Both of the Spanish torpedo boats are temporarily injured, one having been struck by fragments of the shells that sunk the Reina Mercedes, and the other having her boiler tubes and engines in course of repair.

The most important statement made was in substance that the torpedo boats have not since their arrival here made any attempt to leave, being unable to do so. The ships have only half their supplies of coal, although some coal arrived by the overland route two weeks ago. The shell that sank the Reina Mercedes was fired during the first bombardment, by the Massachusetts. Beyond this loss and the quite large loss of life, there was little or no damage done. The earthworks were disturbed, and one smooth-bore gun was dismounted on the west battery. Seven new guns are being put up facing the sea, three of which, on the west side, are ship's guns of the 6-inch rapid fire variety, and automatic guns, of all descriptions, it appears, are being dismounted from the ships and mounted on the earthworks surrounding the city.

A new line of trenches has been dug about a mile and a half from the city The Spanish soldiers, known as the regular troops, are on half rations, and no rations or supplies are furnished to the local Spanish forces, numbering about 8,000 men. They are compelled to forage for themselves.

The spirit of discontent, it also seems, is very widespread among the Spanish troops, and an uprising in Santiago de Cuba is feared. There is an absolute lack of drugs in Santiago de Cuba. The crews of the Spanish warships are on half rations.

BRITAIN'S BATTLESHIPS.

Three Ordered to Proceed to Manila—Rumors of Interference by Germany in the Philippines.

New York, June 24.—A Hong-Kong special says that the British warship Pigmy cleared for Manila yesterday. It is reported that the Powerful has also been ordered to Manila, and the Centurion from Wei-Hai-Wei. It is openly stated here that the Germans will attempt to prevent the bombardment of Manila should Dewey decide at any time that bombardment is necessary.

Tommy Atkins at School.

Niagara, Ont., June 23.—Tuesday was a beautiful day to go into camp and was so appreciated by both soldiers and officers. The battalions which went into camp yesterday are the 20th, the 31st, the 34th, the 35th and the 36th.

Mr. Chamberlain Denies It.

London, June 24.—The Secretary of State for the Colonies, Joseph Chamberlain, emphatically denies the rumors circulated in regard to his contemplated retirement from the Cabinet.

OUR SOLDIERS IN THE YUKON.

Col. Aylmer Has Received a Letter From Lieut.-Col. Evans Which Gives News of the Troops and Their Doings in the Far North—Engaged in Prosaic Work.

Ottawa, June 24.—Col. Hon. M. Aylmer has received a letter from Lieut.-Col. Evans, in command of the Yukon contingent of Canadian regulars. The letter was dated June 2, and postmarked Glenora. Col. Evans writes that on May 31 he despatched the right half of No. 1 company to Telegraph Creek, with orders to push forward two miles and improve the trail and build a camp. He also ordered another section of the party to proceed a day further on and improve the trail, and there to await further orders. Part of the freight, about 25 tons, he has sent by steamer to Telegraph Creek. Captain Bennett, with the left half of No. 1 company, has been sent on to Telegraph Creek with orders to proceed a mile and a half along the Teslin Lake trail, and there to establish a base.

Col. Evans says he has decided on a base near Telegraph Creek, so as to enable the men to do a certain amount of work daily in assisting the pack trains. The trail is in a very bad state, but the contingent is making good progress.

No Truth in It.

The statement published yesterday in a Montreal evening paper that Sir Henri Joly had resigned from the Cabinet is laughed at here. Other statements in the same paragraph of impending appointments are similar to rumors published six months ago.

THE SPANIARDS IN CANADA.

Hearing the Case of Detective Kellert Against Senors Du Bose and Carranza—After Burglars.

Montreal, June 24. — Detective Kellert against Senors Du Bose and Carranza, was commenced in the Superior Court, when witnesses were examined, but no decision was given. Curzon Dobell of the Bank of Montreal, said that on the 6th of June Du Bose closed his account with the bank by getting a cheque accepted for $13,745. Since that time Senor Du Bose may have continued his account, as he did not withdraw the money.

Senor Du Bose said that the amount was the property of the Spanish Government, and that he made the cheque on the advice of his lawyer, so that Kellert would not get his hands on the money. He had absolute control of the money. He intended to leave the town before the present proceedings, but will leave at their close.

Senor Carranza was next called. He said he does not intend leaving Canada. He will go to the country somewhere near here when he leaves Montreal. He was not yet re called by his Government, and had not been told by the English or Canadian Government to leave Canada. His stay in Montreal has been disagreeable, but he had no intention of leaving Canada. The case will last until next Monday.

Hot After the Burglars.

Chief Carpenter and the men of the detective force have a big job on hand. They are almost without an exception on the hunt for the burglars who broke open the safe of the Dominion Bank at Napanee last fall and secured $20,000, together with 1,000 unsigned $10 notes of the Dominion Bank. Either the burglars themselves or their confederates are in Montreal, and these very notes, with a clearly forged signature of Mr. E. H. Baines, are being circulated throughout the city.

ABLE ADVOCATE CHOSEN.

Baron Herschell Will Represent Great Britain at the Quebec Conference.

Washington, June 24.—It is announced here that Baron Herschell, Lord Chancellor of Great Britain in 1886, and again from 1892 to 1895, has been appointed to represent Great Britain in the international conference to be held in Quebec on July 15, to discuss and endeavor to settle the questions in dispute between Canada and the United States.

The Right Hon. Baron Farrer Herschell is the son of the Rev. R. H. Herschell, was born in 1837, and received his education at University College, London, and at the University of Bonn. He was called to the bar in 1859, and in 1872 became a Q.C., and a Bencher of Lincoln's Inn. In the following year he was appointed Recorder of Carlisle, and in 1874, was returned to Parliament for Durham City, which he represented till 1885, in the Liberal interest. In Mr. Gladstone's Ministry in 1880 he was appointed Solicitor-General, and was knighted in the same year. He was raised to the peerage as Lord Herschell in 1886 and became Lord Chancellor. He took part in the Round Table Conference on Home Rule, the first meeting of which was held in his home. He was unanimously appointed President of the Royal Commission which enquired into the working of the Metropolitan Board of Works. On the return to power of the Gladstonians in 1892 he was again made Lord Chancellor. In 1880 the honorary degree of D.C.L. was conferred upon him by the University of Oxford, and in June, 1893, Cambridge University honored him with the LL.D. degree. In the same year he was made a G.C.B.

Acute Rheumatism

Pains in the Foot and Limb—A Complete Cure Accomplished by Hood's Sarsaparilla.

"For a number of years I was afflicted with acute rheumatism in my left side and all the way down my limb into my foot. I live five blocks from my work and had to stop and rest several times in going and coming. I could get no relief from my trouble and was on the point of giving up my job when I happened to hear of Hood's Sarsaparilla. I purchased a bottle of this medicine and a vial of Hood's Pills and began taking them. Before I had half finished them I was relieved and it was not long before I was completely cured. I never lose an opportunity to praise Hood's Sarsaparilla, for my cure meant a great deal to me, as I have a family and must always be at my post." WILLIAM HASKETT, yardman, Grand Trunk Railroad depot, Brantford, Ontario.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1; six for $5.

Hood's Pills are purely vegetable, carefully prepared. 25 cents.

FRIDAY, JUNE 24, 1898.

MR. JUSTICE LISTER.

In the elevation of James F. Lister, Q.C., of Sarnia, to the bench as the fifth member of the Court of Appeal for Ontario, the Minister of Justice has made an excellent selection, and has paid a practical tribute to the worth of the bar of the western part of the Province. Proverbially the wise men come from the east, but the west in the persons of Sir Wm. Meredith, of London, and Mr. Jas. F. Lister Sarnia has given two members of the bar who will give to, rather than receive distinction from, the bench by their occupancy of it.

Mr. Justice Lister was born in Belleville, June 21, 1843, and received his education at the Grammar School in Sarnia. He studied law with his uncle, Mr. F. Davis, who was afterwards appointed county Judge of Middlesex; was called to the bar in 1875, and made a Q.C. by the Ontario Government in 1890. He was first returned to Parliament in the general election of 1882, and re-elected in 1887, 1891 and 1893. His appointment to the bench is natural. He has developed in his Parliamentary career a judicial aptitude that added to his ability as a lawyer eminently fit him for discharging satisfactorily and creditably the duties of the important judicial position to which he has been elevated. This judicial aptitude was especially shown in the McGreevy investigation and in the Drummond County Railway investigation. Though party feeling ran high and the temptation to departure from the rigid line of judicial impartiality was often presented, Mr. Lister did not yield to it and no political opponent had any reason to adversely criticise the fairness of his attitude in his relation to these two important investigations. The bench has been strengthened by his appointment.

A LITTLE CONTRAST.

HON. MR. FOSTER, the financial critic of the Dominion Opposition, and his journalistic coadjutors, are dreadfully concerned over the alleged high rate of expenditure under a Liberal Goveenment. As we showed a day or two ago, a large part of the expenditure is due to the carrying out of obligations imposed by the late Conservative Government, and a large part is due to the construction of necessary public works and enterprises necessary for the development of the country. It is safe to say that the people will not unduly grumble at large expenditures so long as good value is received, especially when large expenditures are not accompanied by increased taxation. With all the alleged large expenditure of the present Liberal Government, there has been under Liberal administration a decrease in Customs and Inland Revenue taxation. In 1890, eight years ago, when the business of the country was not nearly so large as it is now, the amount raised by taxation from Customs and Inland Revenue was thirty and one-half million dollars. Now the total taxation through these two sources, with an immensely increased trade, is only twenty-nine millions of dollars, or a million and a half dollars less than Mr. Foster wrung from the taxpayers by his high taxation tariff. The taxpayer needs no hint as to how to apply the lesson.

Wood's Phosphodine is sold in Peterborough by John Nugent, druggist.

PROTECT THE BIRDS.

The law permits those afflicted with a slaughtering tendency to shoot, destroy wound or injure eagles falcons, hawks, owls, wild pigeons, black birds, kingfishers, crows, jays, sparrows, ravens and certain others not found in this region. But there is a very large number of birds which it is not lawful to touch, and the law for the protection of insectivorous and other birds beneficial to agriculture is very clear and explicit. A correspondent writing to the Ottawa Free Press complains that this law is violated to a great extent and that trapping and killing of such birds is carried on to a very serious extent in that locality. This complaint is not confined to the locality specially mentioned. From the south and west, and in Peterborough especially, the same complaint is heard and the municipal authorities will do well to use the powers given them under section 489 of the Municipal Act, and put a stop to an evil which may produce serious results to the farms, gardens and fruit trees. This is reported to be a peculiarly "good year" for insects and various form of tree pests, and there is the greater reason for not only leaving their natural enemies alone, but also for seeing that they are properly and fully protected.

A SENATOR ON THE SENATE.

The Hon. R. W. Scott, one of the oldest members of the Canadian Sente, once said: According to the history of the Senate, it is used simply for the political exigencies of the government of the day. I quite appreciate the sentiment of the hon. gentleman who has spoken before me; but if he had sat in the last parliament as I did, he would know that members of the Senate were not then quite so fair and reasonable; that this House, with its great Conservative majority, was used as an inquisitorial commission for the purpose of sending forth through this country damaging reports against the late government (Mr. Mackenzie's)—reports that to-day they would not endorse. They spent month after month procuring evidence to show how preposterous it was to make improvements on the Kaministiqua river, yet last year and this year there are votes for the improvement of that river. They said that a breakwater should be constructed at Prince Arthur's Landing, and to carry out the scheme they spent money there to no purpose. When we introduced a bill for the Esquimault & Nanaimo railway, it was thrown out of this House; when the present government introduced a bill for the same purpose it was carried here. When we introduced a bill to right a wrong in the county of Huron, to reconstruct the ridings of that county as they should be, it was scorned and thrown out; when a bill is introduced by the present Government to "hive the Grits," as they say, to alter every constituency at the beck and instance of their friends in the other House, no attempt is made to stop it, or to see whether it is fair or in accord with provincial rights or not. When the present Government took the absurd position of fighting the provinces and attempting to deprive them of their rights, when they attempted to take the licensing power from the Provincial Governments, which they had enjoyed for eighteen years, and when I raised my voice here against the bill when it came up to the Senate, who listened to me? Not a soul. Sir John A. McDonald has stated that the licensing power belonged to the Dominion, and so this House, at the beck of the Government of the day, at once accepted the proposition, and would not listen to an argument against it for one moment. What is the position of this House on that question to-day? Does it occupy a good one on a question where it should stand up for provincial rights? On every measure affecting provincial rights, it supported the Government. It was in the interest of the strong party of the House of Commons that that view should should prevail, and it did prevail. That was the way this chamber manifested its independence.

OTONABEE.

Council Meeting.

On motion of Messrs. Lancaster and Grady, Mr. Deyell was empowered to have the concession line established along the east half of lots 20 and 21, concession 15. The following communications were received: From J. R. Stratton, re Trent Valley Canal.—Received; from F. S. Rathbun, re telephone poles obstructing the highways. The clerk was instructed to say in reply that there are a number of poles obstructing the grading of the roads, also the sides of the roads used for winter travel when the snow is drifted off the graded part of the roads, and that Councillors Lancaster or Weir would go with anyone sent to go over the roads and show what poles are in the way. On motion the first sitting of the Court of Revision will be held on Monday, July 25, at 11 a.m. D P McFarlane requested the council to notify J H Taylor, Geo and Gilbert Howson to deepen the water course running through their lots to enable him to drain part of his land. The clerk was instructed to notify him that it will deepen the ditch across the road but that he will require to take the necessary steps to have the above owners deepen through their lands. The following accounts were ordered to be paid: D H Moore, gravel, $9.83; Thos McIntyre, $5, for planting cedars along the north side of the embankment at Keene bridge to prevent snow from drifting off the road in winter; Marshall Weir, fencing the above, $2.03; for gravel—Edmund Foley, $7.70; Alex Gillespie, $4 50; Donald Cameron, $6 30 E C Howson, $6.60; S Armstrong, $2 45; Wm Kemp, $5 24; Robt Nelson, $12 36; D McCarthy, $10 85; Daniel Hayes, damages, drawing gravel, $2; Andrew Eason, $2; R McIntyre, cleaning town hall, $1; cartage on revised statutes from station, 10s; St. Joseph's Hospital, Ell Timlin, 27 days' medical treatment, $10.40; burial expenses, $11; F Burnett, lumber for culverts, $70.77; Dennis Kennedy, making 14 culverts, $6. Council adjourned to 25th July.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

RECOVERING.

Wheat Has Taken on a Little New Life—Cash Wheat to Be Advanced—The Prices.

Thursday Evening, June 23.

Despite a weak opening to-day the Chicago wheat market later gained strength and all deliveries sold up from ⅝c to 1c per bushel above yesterday's close. The strength of the Liverpool market, a growing feeling that the effects of the best possible harvest have been discounted and that old wheat will bring better prices before millers will take the new were the buoyant influences. A small bullish factor is found in the usual crop damage reports. The market closed firm at near the day's best prices. To-day witnessed advances of 1c to 3c per bushel on other leading United States markets.

There is no change in the grain market at Toronto which continues dull, with Ontario red wheat at 80c, middle freights, and Manitoba No. 1 hard at 95c afloat at Fort William.

Wheat rallied in the Liverpool market to-day, and though spot sold off 2d, future deliveries went higher. The advance in July at the close over yesterday was 1½d per cental, in September ⅝d and in December ⅝d.

Armour to Advance Cash Wheat.

A Chicago despatch says: Cash wheat is to be advanced, and the millers who need it in their business will in future find but one place where it is on sale. All of the 7,000,000 bushels of choice wheat held in the Northwest has been pooled with the Leiter wheat, and it is now to be found in the strong box of Armour, in La Salle-street. The new crop will commence to move in good quantities by the middle of next month, but millers prefer old wheat to new and will pay the difference in price.

East Buffalo Cattle Market.

East Buffalo, June 23.—Cattle—Fresh arrivals, very light; only a few loads of the Monday's held-over cattle were still unsold. The market, with lower advices from the west, again ruled slow and weak.

Stockers and Feeders—The supply was lighter from Canada than last week, only 32 cars, against 44 last week, but there was a fairly liberal supply of Michigan and natives. The market ruled dull easy to lower for common and heavy feeders and stockers, but light stock steers, yearlings and good, well-bred stockers were all 10c to 15c higher. Good to best stock steers, $4.25 to $4.60; common to fair, $3.60 to $4; good to best feeders, $4.30 to $4.50; fair to good, $3.90 to $4.25; yearlings and stock calves, $4.05 to $4.90.

Hogs—Receipts light, market slow, and prices ruled lower. Good to choice yorkers, $4.05 to $4.10; light to good yorkers, $3.95 to $4.05; mixed packers' grades, $4.10 to $4.12; heavy hogs, $4.15; roughs, $3.50 to $3.90; stags, $2.75 to $3.10; pigs, $3.40 to $3.90.

Sheep and Lambs—Receipts very moderate. The demand was fair for good handy grades, and there was also a fairly good enquiry for heavy sheep for the export trade, at somewhat higher prices. Yearling lambs, choice to extra, $5.60 to $5.80; fair to good, $5.15 to $5.35; culls to common, $4.25 to $5; native clipped sheep, choice to selected wethers, $4.75 to $4.85; good to choice mixed sheep, $4.50 to $4.70; common to fair, $4 to $4.40; culls to common sheep, $3.25 to $3.85.

Montreal Live Stock.

Montreal, June 23.—There were about 500 head of butchers' cattle, 250 calves, 700 sheep and lambs, and 50 store hogs and small pigs offered for sale at the East End Abattoir to-day. The butchers were present in large numbers, but were not pleased at the very high prices being asked for all sorts of good cattle. Prime beeves sold at from 4¾c to 5¼c per lb. Pretty good animals at from 3¾c to 4¼c per lb., and the common stock, mostly grass fed, sold at from 2¼c to 3¼c per lb. Good calves were in demand at from $5 to $8 each. Common calves sold at from $2 to $4 each. Sheep sold at from less than 3c to 3½c per lb. Lambs sold at from $2.50 to $3.50 each. Fat hogs have been advancing in price, and sold at from $5 to $5.20 per 100 lbs. Store hogs sell at from $6 to $8 each, and the small pigs at from $1.25 to $2.25 each.

Cheese Markets.

Kingston, Ont., June 23.—At the Cheese Board to-day, 688 boxes white and 1068 colored were boarded. Sales, 500 boxes at 1 13-16c.

Listowel, June 23.—At the cheese fair here to-day 19 factories boarded 1111 white and 555 colored cheese, first half of June make. No sales are reported so far. At the Board to-day a resolution was adopted by which salesmen and buyers agreed to bind themselves, under a penalty, to buy cheese on market day only, and only on the Board by the call system, a fair to be held weekly, every Thursday afternoon, and the new arrangements to go into force at the next fair, on the 30th inst.

Amherstburg, June 23.—The cheese factories are receiving less milk than last season, owing, no doubt, to price of butter keeping up.

British Markets.

Liverpool, June 23.—Spring wheat is quoted at 7s; red winter, 6s 10d; No. 1 Cal., no stock; corn, 3s 2¾d; peas, 5s 1½d; pork, 51s 3d; lard, 29s 6d; tallow, 19s 6d; heavy, l.c., 31s 6d; light, 31s; do., short cut, 31s; cheese, white, 56s 6d; colored, 55s 6d.

Liverpool—Close—Spot wheat dull, with No. 1 Northern at 6s 10d, and red winter at 6s 10d; futures steady at 6s 6d for July, 5s 11d for Sept. and 5s 8¾d for Dec.; spot maize quiet at 3s 2d; futures quiet at 3s 1¾d for July and 3s 3¾d for Sept. Flour 27s.

A CARRIAGE MAKER

Suffered ten years from weak heart action and nervousness.

Cured by Milburn's Heart and Nerve Pills.

No trade or profession is exempt from disease or derangement of the heart and nerves. The pressure of work and the mental worry are bound to produce serious consequences sooner or later.

"Mr. Donald Campbell, the well-known carriage maker of Harriston, Ont., giving an account of his sickness and restoration to health, spoke as follows: "I have been troubled off and on for ten years with weak action of my heart and nervousness. Frequently my heart would palpitate and flutter with great violence, alarming me exceedingly. Often I had sharp pains in my heart and could not sleep well at night. I got a box of Milburn's Heart and Nerve Pills and from them derived almost immediate benefit. They restored vigor to my nerves and strengthened my entire system, removing every symptom of nerve or heart trouble, and enabling me to get restful, healthy sleep."

Milburn's Heart and Nerve Pills never fail to do good. They cure palpitation, throbbing, skip beats, dizzy and faint spells, nervousness, sleeplessness, weakness, female troubles, after effects of grippe and all conditions arising from disordered nerves, weak heart or watery blood. GOOD CROP REPORTS.

Province of Ontario Viewed From Farmer's Standpoint.

MANY RETURNS CONDENSED.

Out of the 45 Counties 39 Send in Reports —The Cereals Will All Run Above Average Years—The Tobacco and Bean Crops—A Fair Fruit Prospect Except in Niagara.

Toronto, June 24.—The following reports are by the Great Northwestern Telegraph Company, which yesterday received reports from all its agents in the province. *Several reports were received from some counties*, but as they were all of the same import the tenor of them in each county is given:

Addington—Crops above the average, and an abundant harvest is looked for in all departments.

Brockville—Promise of the largest yield in many years in grains, hay and potatoes. Other products of the soil are flourishing.

Bothwell—Fall wheat good. Spring grains looking well, except in odd fields of clay soil, where straw will be short. Hay prospects improved lately. Fruit only fair, except in currants and gooseberries.

Bruce—Wheat, oats, peas and barley all promise well. Large quantity of milk for the cheese factories, and a record-breaking yield of small fruits.

Durham—Fall wheat heavy, spring wheat and peas good, oats and rye heavy, corn, roots and other crops good.

Elgin—Oats, corn and hay in abundance and all fruits very plentiful.

Essex—Wheat above the average, oats and corn average; apples and pears abundant, peaches about half a crop.

Frontenac—Hay crop best seen in years. Fall wheat good, but not much sown. Peas fair and all coarse grains promise well.

Grenville—Hay crop very good, grain crops never looked better at this time of the year.

Grey—Most farmers will begin haying next week. Oldest inhabitants claim they never saw such prospects of abundance, fruit and all other products included.

Haldimand—Wheat in good condition; oats, peas and barley exceptionally fine. Roots and fruits promise well.

Halton—Fall wheat medium, spring wheat good, barley, oats and peas away above the average, hay crop exceptionally good, pasture good, all roots promise well, small fruits very abundant, apples and pears dropping badly, cherries and plums fair.

Hastings—Hay has been cut in many localities and is a heavy crop, fine in quality. All grain good except rye. Roots looking well and fruits of all kinds abundant.

Huron—Crops of all kinds never looked better—hay good, roots looking exceptionally well, and prospects of an abundance of apples and plums.

Kent—Wheat considerably above the average and a larger acreage than usual. Small fruits large yield; peaches will be good and plums promise an enormous crop; pears will be fair and apples above the average; potatoes largely planted and good yield promised, other roots above average. A good many beans have been planted and a large yield is promised. Farmers say this will be a banner year for them.

Lanark—Fall wheat as heavy as it is possible to grow, hay extra heavy, oats, peas, corn and roots good. Fruits looking well. Crops as a whole more promising.

Leeds and Grenville—Old meadows are short from lack of rain earlier in the season, but all other crops look exceedingly well. Caterpillars are numerous and have caused a good deal of damage.

Lennox—Everywhere the country has the appearance of abundant crops and good pastures. Fruit of all kinds will be plentiful.

Muskoka—Different sections report that crops of all kinds never looked so well as this year.

Middlesex—Crops will be exceptionally good, particularly oats and peas. Fruit yield promises to be much above the average.

Niagara—Wheat, oats, rye and barley exceptionally good; corn a little behind time; other crops fair. Fruit harvest will be light—peaches about one-quarter crop, plums a failure, pears and apples fair.

Norfolk—Crops throughout the county in splendid condition. A treat to drive through the different townships.

Ontario—Crops looking very well in some parts; rain needed in other sections; outlook good on the whole.

Oxford—In both the north and south ridings the prospects are for an abundant harvest.

Peel—Fall wheat good, spring grains, hay and roots fair.

Perth—Wheat acreage largely in excess of other years. Prospects are excellent. Probability is that all records will be broken.

Prescott—Orchards somewhat damaged by caterpillars—grain, hay and roots promise an abundant yield.

Prince Edward—Crops never looked better than at present. Hay, oats, barley, wheat, buckwheat, rye and, in fact, all prospects above the average.

Peterboro—Hay, fine crop; fall and spring wheat, heavy crop, but rusted a little. Peas and oats looking well; roots fair.

Renfrew—Wheat is reported in some places not quite up to average, but oats and peas promise abundant crops. Hay looks well and will be a large yield.

South Essex—Fall wheat over the average, barley looking well, peas first rate. Corn, the staple crop of Essex, is very good; hay about average. Strawberries and cherries, abundant yield; apples better than for some years, but unsprayed trees show scab. Tobacco is being cultivated largely and is doing well. Last year about a million pounds were marketed; this year it is expected from 8,000,000 to 10,000,000 pounds will be raised. Between 5,000 and 6,000 acres are under tobacco crop.

Sarnia—Grain and roots have never promised better, and fruit prospects are encouraging.

Simcoe—Never were prospects brighter in cereals and roots. Fruit fairly good in some sections and excellent in others. Farmers jubilant.

Victoria—Coarse grains promise well, clover hay heavy, timothy light. Prospects all round are good.

Waterloo—Outlook better than for a number of years—abundance of cereals and fruits promised.

Welland—Hay very heavy, corn and peas look well, root crops the same, also grapes. Peaches and plums about an average. Altogether the outlook was never more promising.

Wellington—Reports from different sections of the county indicate a large yield in all kinds of crops. Fall wheat is especially good.

Wentworth—Fall wheat in splendid condition; spring wheat looking well; too early to estimate roots; small fruits fairly good, apples fair, plums poor, peaches good.

York—Around Aurora fall wheat was winter killed; will yield about half a crop. All other crops first-class. Other sections of the county report prospects of great abundance.

A DEFINITE AGREEMENT.

The English-American-Canadian Negotiations Have Thus Terminated at Washington—Commission's Formation.

Washington, D.C., May 31.—The Canadian negotiations which have been in progress here for the last week were concluded last night, when a definite agreement was reached for the creation of a commission which shall consider all the subjects of controversy between the United States and Canada, and frame a treaty between the Imperial Government and the United States for the complete adjustment of these controversies. The agreement is now to be submitted to the British Government for its approval, and when this is given the organization of the commission will be completed.

For the present the agreement is confined to the one point, that the commission shall be created, the time and place for the commission to begin its work being left for future determination. It is understood, however, that the first meeting will be held at Quebec, probably during the coming summer.

The membership of the commission will be determined by the executive branches of the two governments. The discussions during the last week have proceeded in a manner most satisfactory to all parties concerned, it being stated last night by those participating that the spirit of good will was marked throughout. The purpose was not to arrive at final *conclusions*, but rather to pave the way for a commission which could effect the conclusions by complete examination of all the details of the several questions involved. These include the Behring Sea, North Atlantic and lake fisheries, border immigration, reciprocity, mining regulations in the Klondike and British North America possessions, and also the determination of the Alaska boundary line. While these were gone over in the conference just closed, it was a preliminary discussion, and no final agreement was reached on any of the subjects involved. The expectation is that the commission will now accomplish this general work, offsetting concessions of one question by equal concessions on other subjects involved. Those participating in the *conference* were Sir Julian Pauncefore, the British Ambassador; Sir Louis Davies, Canadian Minister of Marine; General J. W. Foster, special commissioner in charge of Canadian affairs, and Reciprocity Commissioner Kasson.

Sir Louis Davies left last night for Ottawa. The British Ambassador will forward the agreement to the British foreign office, and it is expected that it will be received as to the approval of the Imperial authorities in about a fortnight. After that the commissioners will be named and the time and place of meeting definitely determined upon.

COSTLY EXECUTIONS.

Bills For Killing Criminals That Were Formerly Paid In Holland.

Edam, in Holland, where the Dutch cheese comes from, has a museum of local antiquities, and among the not least interesting of the exhibits are the accounts of the municipal executioners during the eighteenth century, says the London Chronicle. One of these functionaries, by name Vogel, presents a detailed bill dated Dec. 19, 1718, in which he sets forth a claim for 6 florins for one decapitation and 8 florins each for a sword and winding sheet, with 8 florins 14 cents for a coffin for the decapitated one. His charge for hanging a criminal was also 6 florins, with the further addition of 3 florins for "cutting down and impaling ditto." "Breaking a man on the wheel" was a costlier luxury and ran to 9 florins, while for "supplying nine new lashes for scourge" the charge was 27 florins.

On the whole, however, Mr. Vogel was a moderate man in his charges or the value of human life went up a good deal in the next 50 years, for in the no less circumstantial accounts of Johannes Ha, presented Aug. 1, 1764, we have a charge of 12 florins for "going on board the Hans and preparing instruments of torture," with a like charge for "torturing one person." But this must have been for the lesser torture only, as on Aug. 30 the same Johannes sends in a bill for "torturing three persons at 75 florins a head"—total, 225 florins, while a few days later no less than 600 florins is charged for "hanging four persons at 150 florins each," and for "flogging two persons and burning a third" he exacts 150 florins. Clearly considerations of economy, if not of humanity, must have tended toward the reform of the criminal code in Holland.

A G.T.R. Train Ran Over a Tot of Three.

Quebec, June 23.—A most distressing accident occurred yesterday morning on the Richmond & Quebec line of the Grand Trunk. As the train was approaching St. Agapit, Lotbiniere county, the engineer was horrified at seeing a little child of about three years playing on the track in front of the cars. He made every effort to stop the train, but was unable to do so in time, and the engine passed over the little victim, completely severing the head from the body. The coroner of the district, Dr. A. G. Belleau, was notified and his deputy, Dr. Garneau, left last evening to hold an inquest.

Red Cross Society Jubilee.

Washington, D.C., June 23.—In the Senate yesterday a joint resolution was passed authorizing the President to invite the Governments of England, France, Germany, Austria, Russia, Belgium, Switzerland, Mexico and Venezuela to send details of infantry, artillery and cavalry to this country to participate in a military jubilee, to be held in Madison Square Garden, New York, by the trustees of the Red Cross Society of New York. The jubilee is to be held during the two weeks beginning December 26, 1898.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,201.93, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for *fifteen years*, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6510.00, or a Life Annuity for $401.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has in. finenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

Acknowledged Roses.

The thanks of the sanctum staff of the EXAMINER is due Mrs. Heubeck for a gift of a magnificent sheaf of crimson roses to idealise, brighten and sweeten the prosaic air of the sanctum. They are splendid specimens and indicate in themselves careful culture, besides indicating kindness of heart that is very much appreciated.

Another Old Mower.

Since the paragraph appeared in the EXAMINER regarding the venerable Noxon mower at Mr. Doughty's warerooms on Water street, other old machines are cropping up. Mr. R. Q. Dench of Lakefield, has in use a Champion Hall Works mower of Oshawa, in use since 1873, just a quarter of a century. It is so old that when Mr. Dench wished to get a part replaced, the company had none, the machine having long since passed out of manufacture.

—The bombardment of Cuba don't begin to raise any such talk in town as the bombardment of boss-prices at Geo. Ball's ladies' and gentlemen's tailoring parlours, 413½ George street. Those $10 suits, made to order, are levelling prices and demoralising high-renters.

Weight Counts.

In buying strawberries see that you get weight and quality, rather than quantity. Messrs. J. B. Oke & Co. have been selling freely a superior sample of strawberries, 13 boxes for the dollar, while others on the street sold 16 boxes for the dollar. Notwithstanding the difference in the number of boxes, Messrs. Oke & Co.'s customers have had a substantial advantage. When weighed each box of Oke & Co.'s berries was six ounces heavier or 78 ounces more berries in the 13 boxes for the dollar than in the 16. Buy your berries from Oke & Co. and get better weight and quality.

The Last Week the Best Week.

This is the last week of the dissolution sale at Clarke & Gibson's jewelry store. The opportunity this sale has afforded for buying standard goods at very unusual prices, has been seized by many who may have felt restricted in their purchases at the regular selling figures. There has also been the assurances of reliability in purchasing, and this confidence in the integrity of the firm and general character of the stock has largely influenced sales. The last week of this sale at the reduced prices ends with June, so there still remains time enough for all who wish to avail themselves of the chances of bonafide bargains in jewelry, watches, clocks, silver plate and artistic novelties, which are embraced in this very large and exceedingly well assorted stock of handsome goods. It is not likely that a similar opportunity will present itself for some time, and lovers of the beautiful in these lines of goods will miss very substantial advantages if the neglect to attend the remaining days of this sale.

On board Associated Press Despatch Boat Dauntless off Daiquiri, June 23, via Port Antonio, June 24.—Before sunset last evening 4,000 men of the 16,500 went ashore. Gen. Kent with seven transports will remain westward of Santiago as a feint until the remainder of the troops are landed, Gen. Garcia arrived at Camp before dark and 1500 of his Cubans are expected to effect a landing with Gen. Shafter's men to-day. The landing proceeded until dawn. The men sleep on the bare ground—some under tent flies and others in the open air. They awake much refreshed and are in good spirits and are anxious to get at the foe.

BOARD OF HEALTH.

The Sanitary Interests of the Town Being Guarded—Various Matters Dealt With.

A meeting of the Board of Health was called yesterday afternoon for the purpose of disposing of a grievance complained of by George street merchants on the east side, between Hunter and Brock streets, who complain that the lane in the rear of their stores, and a lane running west from Water street, just in the rear of the post office, slope to a common centre which causes water to accumulate and stagnate at that point, as there is no system of drainage.

The members of the Board present were Mr. B. Shortly, chairman, Henry Dunne, Dr. Burnham, Robt. Innes, Adam Hall, Dr. McGrath and Mayor Davis.

On motion of Messrs. Innes and Burnham, a deputation composed of Messrs. McQuay, R. J. Lane, W. Madill and Dr. Rose, was heard.

It was decided that on account of the representations made concerning the unsanitary condition of the lane that the owners of the properties be notified at once to have a drain constructed to carry off the surface water into the sewer.

Mr. Jos. Armstrong of the Bodega Restaurant complained of soakage into his sheds from a livery stable on Water street. The Sanitary Inspector was instructed to inspect the premises and to take such steps as might be necessary to have the evil remedied.

The Medical Health Officer reported the town to be almost entirely free from infectious diseases.

The Sanitary Inspectors reported their spring work almost finished, and nearly all premises found in a cleanly condition.

On account of the complaints about the G.T.R. cattle yards the secretary was instructed to notify the Grand Trunk Railway Co. to have all holes and pools in their cattle yards filled up with gravel or cinders.

Moved by Dr. Burnham and Mr. Innes, that the town council be memorialized to pass a plumber's by-law and to appoint an inspector to see that it is properly carried out.—Carried.

Moved "that this Board is of opinion that it is necessary in the sanitary interests of the western and south-western sections of the town, that a sewer be constructed on Park street from Hunter street to Rink street, and that this Board call on the Town Council to have said sewer constructed.—Carried.

The Board then adjourned.

PIANOFORTE RECITAL.

An Interesting Evening with the Pianoforte Pupils of the Misses Hurley.

Last night there was a large company present at the residence of the Misses Hurley, 282 Hunter street, to enjoy, as they very heartily did, the closing exercises given by their pianoforte and violin pubils. The company consisted principally of the parents and friends of pupils, who had an opportunity of having demonstrated the progress their children were making under capable and painstaking instruction. When it is remembered that about thirty of the Misses Hurley's pupils took part in presenting the programme given below, it will be evident that their success as teachers has gained them a popularity which the evidences of careful and painstaking instruction given last night, amply justifies.

Solo—"Home Sweet Home," Variations.....
Misses L Ostrom and Stella Stanger.
Solo—"Good Night".....*Loeschorn*

Mrs. Sanderson, who sang with much sweetness and finish, Hawley's "Because I Love you Dear," was not, of course, a pupil, but kindly assisted in relieving the programme of the monotony inseparable from a continuous succession of pianoforte selections, however well given.

Miss Lola Ostrom also relieved the programme by reciting with beautiful pathos and finish one of Eugene Field's compositions, "At Play."

Master David Parker's and Miss Frankie Burritt's simple, but tastefully and correctly played violin solos, were very pleasing numbers, as was the song given by a dozen little girls.

At the conclusion of the programme Rev. F. J. O'Sullivan, who was present, in the course of a few remarks highly complimented the pupils and the Misses Hurley upon the excellence of their respective shares in the success of the evening. "God Save the Queen," very heartily sung, brought a delightful evening to a close.

A CHANGE OF OFFICIALS.

THE PROVINCIAL GOVERNMENT TO APPOINT ALL FISHERY INSPECTORS.

Game Wardens are Selected—The Dominion Government Loses the Power of Making Appointments.

Toronto Star.

The arrangement between the Dominion Government and the Province of Ontario regarding the inland fisheries follows the line of the division of work in the legislation and administration of criminal law. The Dominion Government makes a law, and the Provincial Government enforces it.

This means that the inspectors appointed by the Dominion Government must go. The work of the position of inspector of fisheries, which is now held by Ald. G. B. Sheppard as a Dominion official at $1 500 a year, will be taken over by Game Warden Tinsley.

Very few new officials will be appointed. The provincial game wardens will become inspectors of fisheries for the districts in which they are acting. The deputy game wardens will be fish wardens for the district. Already two game wardens have been appointed inspectors of fisheries in their districts.

WILL ISSUE DEBENTURES.

The Village Council will Issue $15,000 for Waterworks.

At a meeting of the village council on Wednesday evening there were present Reeve Adams and Councillors Craig, Morgan and Rutherford.

The agreement between the village and the Peterborough Water Co. was read and approved of and the Reeve and Clerk were authorized to sign and seal the same.

The bylaw providing for the issuing of $15,000 debentures to defray the cost of putting in the water system passed its first and second readings and will be submitted to the property owners and vote upon it on July 20th.

PERSONAL.

Mr. Jack Jeffrey, of the Canadian General Electric Co. will leave in a few days to take a position with the Lachine Power Co.

Mr. Williamson, formerly of the Canadian General Electric Works, who is now one of the Lehigh University faculty, is in town visiting friends.

JUDGMENT RESERVED IN THE ARMOUR CASE.

ALL THE EVIDENCE PUT IN FROM BOTH SIDES.

Mr. Osler Argued Before the Judge Last Evening and Mr. Aylsworth's and Edward's Argument Was Heard This Morning.

Appended will be found the remainder of the evidence for the defence, and also the testimony of the Crown witnesses in the case in which Chief Justice Armour claims $20,000 for damages done to his lands by the Trent Valley Canal:—

A. E. Dixon stated that he had sold his lots at $1,800 per acre, being from two to three hundred dollars per lot according to their situation. They were further from the centre of the town than Mr. Armour's. He had given a park and laid out streets through the property. This would have to be taken into account and would lessen the net amount received per acre. He estimated Mr. Armour's loss at $14,300.

Mr. H. B. Meharry had sold his farm of 166 acres for $11,000. He estimated Mr. Armour's loss at $14,300. Mr. Armour's farm was nearer town by a good deal than that of witness.

The first witness for the Government was Geo. A. Pope, Government Valuator, who also acts as valuator for the Grand Trunk Railway from London East. He acted as adjuster on the Canal work from Balsam Lake to Lake Simcoe and on portions of the Lakefield section to this point. He had acted as valuator on the Iroquois and St. Lawrence canals and also up the Ottawa river. He and Mr. McEachern had seen Mr. Armour in April, 1896, and told him the canal would take 19¼ acres, describing where it would run through the farm. Mr. Armour said the Government should take all the west half of the farm. If they came there with the canal it would cost them $21,000. Witness placed value of land taken at $6,800. The land falling east on the hillside would not bring $75 00 an acre. He considered the canal no detriment to the lots on the west slope of the hill.

Mr. H. T. Strickland claims 30 years' experience in the valuating and selling of land. He estimated Mr. Armour's land as worth $75 an acre for farm land. It was not in a first-class state of cultivation. It was weedy, dirty land, with plenty of mustard in it, which greatly reduced its value. The Burnham lots sold for more because they were laid out as part of the original corporation.

Mr. McKibbin, county valuator, stated that land had depreciated from 20 to 40 per cent. since 1890. The Chief Justice's farm was in a very poor state of cultivation. If a subway was put under the canal the east half would be very little damaged.

J. J. Hartley, contractor and town assessor, stated that he had been unable to sell his lots for the last eight or nine years. There were so many lots in the market that there was no demand. Land in Ashburnham was not nearly so valuable as that in Peterborough. It would take twenty or twenty-five years to get rid of the front sixty acres of the farm in building lots. When Mr. Dixon sold his lots he gave a lot when a lot was purchased. No such price as Mr. Dixon spoke of yesterday could be realized now.

Wm. Langford stated that he had been a valuator for 17 years. Land had been worth a good deal in Peterborough some eight years ago when the Edison Works first came to town people lost their heads and gave extravagant values. The growth of the town was north, south and south west. He had examined Mr. Armour's farm. It was a good one, but the back portion was not suitable for building purposes. The farm was worth about $15,000. He estimated the damage to be about $6 500. The 20 acres taken at $150 would be $3,000. It would take six acres at the same price to straighten the lanes, etc., and the severance would be worth $3,000 more. In making this valuation he had considered the subway.

John Carnegie stated that the Hilliard estate was valued at $12,000 for 60 acres. There was a street railway to the property. The farm of the Chief Justice was not to be compared to this. He could not sell. He had it for six years and had advertised it unsuccessfully several times.

Wm. Aldridge, town assessor for twelve years, valued Mr. Armour's farm at $24,400 and the total damage caused by the canal at $6,400.

Mr. Thompson, Ashburnham, assessor, valued Mr. Armour's land at $21,500. It would be hard to sell at any price. The R. Hall farm was held at from $45 to $50 an acre.

Rich. Errett, valuator for loan companies for 30 years, placed the value of the Chief Justice's farm at $22,000 and the damage done by the canal at $5,000.

David Conroy gave evidence as to the difficulty in selling village lots.

Mr. Jas. Stenson mentioned land which he held near the Edison Works which he could not sell at $150 an acre. This could be compared to the land of the Chief Justice.

Mr. Casey, living on the Norwood road stated that he was offering his land at $125 an acre and could not sell it. It was known that he wanted to sell.

Mr. Fitzgerald, of Ashburnham, stated that he would not give more than $50 an acre for the land as a farm. He knew of a farm in Smith two and a half miles from town, which was in A1 shape and was sold for $9,000. There were forty acres.

W. G. Ferguson stated that he had laid his property out in lots, but could not sell it. There had been no demand for some time past. He only sold six out of 151 lots during six years.

Dr. Fife gave evidence as to money advanced on houses in the village, which proved a poor investment, as in foreclosing he was unable to get his money out of the property.

Mr. Osler's argument was heard by Judge Burbidge last evening, and that of Mr. Edwards and Mr. Aylsworth this morning.

Mr. Henry Cox, the tenant of Mr. Armour's farm, has been allowed $100 by the Government for damages done to his crop, and Chief Justice Armour allows him $1200 and valuable concessions in regard to his lease.

Judgment is deferred in the matter of the expropriation proceedings and the Chief Justice's claim for $20,000.

THE NINETY-SIXTH ANNUAL MEETING.

PETERBOROUGH ASSOCIATION OF BAPTIST CHURCHES.

A Highly Successful Sitting at Wicklow, Northumberland County—Encouraging Reports Presented—Good Progress in the Bounds of the Association.

WICKLOW, June 23rd.—The ninety-sixth annual meeting of the Peterborough Baptist Association was begun here on Monday evening by a prayer and praise meeting, led by Mr. Platt. The church with which the association meets this year has just celebrated its one hundredth anniversary and is one of the historic landmarks of Canadian Baptist history.

After devotional services, the Moderator, Rev. V. H. Cowsert, B.A., of Belleville, was introduced, and after the vacancies on committees were filled, called on Prof. A. E. Norman of the Grand Ligne Mission, to address the meeting on the work of the mission in Quebec.

Mr. Norman stated that work was being prosecuted in twelve of the sixty-two counties of the Province. Out of the one-million and a half of population only 196,000 were nominally Protestant. When these are subjected to an evangelical test that number will be reduced by one-half. Only one in every seven in Quebec is Protestant. By a number of personal experiences he justified the necessity of work among the devotees of Rome. The work was necessarily slow, because the workers were only a handful against a mighty power, whose means were even greater than the most prosperous bank in the country. The souls of the French Canadians were valuable in the sight of God, and he appealed to all present to aid in the work of sending the truth to them that would set them free from sin.

The Moderator then called upon Rev. A. P. McDiarmid, Secretary of Foreign Mission Board, who gave an address on the Foreign Mission work. He pointed out that the Holy Ghost had laid down the plan of campaign for the church in the book of the Acts. Centres were established, from which ever widening circles of Christian influence were sent out. This was the plan of the Foreign Mission Board in India, and also in the new mission just opened by Rev. A. B. Reekie in South America. He congratulated the Peterborough Association on the splendid record of the past year. They had been one of the two Associations that had, with two exceptions, contributed to the missions and he urged the representatives of the church to see that the coming year was even better than the past. 407 had professed faith in Jesus and were baptized in the Indian mission fields. Many others were desirous of following Jesus, but as the missionaries refrained from doing so, because they had been distributing relief to the famine stricken. There would be too great a temptation to uniting with the church from mercenary motives. The result of the famine would be beneficial, he believed, by showing the heathen Telegu the care of God for His children.

With the singing of a hymn and prayer the meeting adjourned until Tuesday morning.

TUESDAY MORNING.

The number of delegates were augmented by many new arrivals since last evening. The attendance at the devotional meeting, conducted by Pastor A. K. Scott, was very large, and the meeting, though brief, was inspiring and was a fitting commencement for the day's work.

The moderator then took the chair and called upon the Nominating Committee for their report. They reported, recommending that the officers for the ensuing year be as follows:

Moderator—Rev. R. Wallace, Marchmont Home, Belleville.

Clerk—Rev. C. E. McLeod, Peterborough.

Preacher of annual sermon—Rev. T. Watson, Colborne.

Alternate Preacher—Rev. J. W. Kirkpatrick, Ballilleboro.

Nominating Committee—Revs. Dayfoot, Dykeman, McLeod, Messrs. P. Hinman, J. Raddon, V. Faulkner and Major Caswell.

Committee on Resolutions—Revs. Wm. Peer, H. S. Erb, Wm. Nicholls.

Committee on Obituaries—Rev. S. Weaver and Messrs. White and T. R. Mann.

Home Mission Band—Revs. Watson, McLeod, Dayfoot, Dykeman and Mr. P. Hinman.

Foreign Mission Secretary—Rev. P. K. Dayfoot, M.A.

Grand Ligne Secretary—Rev. A. T. Dykeman.

Manitoba and Northwest Secretary—Rev. V. H. Cowsert, B.A.

Educational Secretary—Rev. J. R. Boomer.

Young People's Union Secretary—Rev. C. E. McLeod.

In response to an invitation from the Park street church, Peterborough, the Association decided to meet in Peterborough next June.

The committee having in charge the revision of the constitution and bylaws, then reported several needful changes, which were approved of by the Association.

Rev. P. K. Dayfoot, M.A., of Port Hope, then gave an address on Manitoba and Northwest Missions, arguing from the following reasons that Baptists should be more aggressive. The contributions last year for this work were $8,100, and in sending this amount they acknowledged indebtedness to that work. The first reason was one of kinship. Ontario is pouring in her best blood into the northern provinces. Second—We owe it to the 17,000 native Indians. The only one he had heard speak well of these besotted individuals were the Christian workers. The only hope of saving the Indians from extinction by civilization was to civilize them, and there was nothing that could civilize them like the Gospel of Jesus Christ. Third.—There was a denominational reason. At a recent meeting of one of the large evangelical denominationt it was said that the denomination that captures the country will own the cities and towns. We will have to send the very best men we have to this work. The fourth reason was the national one. We owe it to our country to evangelize the foreign element that is pouring into our Northwest country. Canada has territory unoccupied. The United States has not, and we had now reached the place where we could say to the nations of the earth "Come!"—and they can find here elbow room. The last reason was that of the great commission. Jesus said: "Go ye into all the world and preach the Gospel to every creature;" and the speaker did not know of a place where this commission could be more easily carried out than in Manitoba and Northwest Territories. The whole world was going in there, and we should go in and with them possess the land.

The Rev. Geo. Cross, M.A., who spent some time in Manitoba as a pastor, then gave a brief address. He said there was territory enough to be the home of a young nation. He pointed out the danger of a foreign population, an example of which we could see among the nation to the south of us. If the European element was not Americanized then the Americans would be overwhelmed with European ideas. Again, the immigrants settling in our Canadian Northwest were of the northern races. It was a fact of history that the northern races were the conquering races and the religion of any people affected their social and religious life. Those foreign elements should be evangelized and we owe to them the Gospel. In order to overcome them spiritually and nationally we would need to be stronger than they spiritually. He believed that British Columbia would also be settled by the reflex of the present Klondike excitement, just as California was settled. We owed it to these people to send them the Gospel.

An application from the Bewdley Baptist church was referred to a committee composed of Mayor Caswell, Rev. Wm. Peer and Deacon Graham.

A committee appointed to supervise evangelistic work in the association then reported the work that had been done by them at Havelock, North Hastings and several other places. Three stations were now in charge of Mr. J. McIntosh, a McMaster student. He was doing able work. The meeting then adjourned for lunch.

TUESDAY AFTERNOON.

The afternoon session was begun by a devotional meeting, conducted by pastor, Rev. H. S. Erb, of Lakefield. The minutes of the previous meeting were read and adopted.

A resolution of sympathy with Mr. G. W. Mann, of Peterborough, who, through illness in the home, was passing through trial.

The committee to whom the application of the Bewdley church was referred to, reported favourably and the moderator extended the hand of fellowship on behalf of the Association to the pastor, Rev. J. W. Kirkpatrick.

The church letters were then read by the clerk, after which, several new pastors were introduced.

The Associational Home Mission Board was then presented, showing the financial assistance that had been given to a number of the weaker churches in the association.

Rev. S. S. Weaver, of Brighton, then delivered an able address on the "Fuller Life and Larger Service," which was very much appreciated by all who were present. After adjournment through the invitation of the ladies of Colborne Baptist church, the pastors and deacons present sat down to tea with Rev. T. W. Jolliffe, President of Bay of Quinte Conference, Rev. Mr. Lord, of Colborne Presbyterian church, Rev. J. Robinson, of Salem Methodist church, as guests.

NO 1 WATERING CART AGAIN HORS DU COMBAT.

One of the Wheels Collapses—Driver Thrown to the Ground Violently.

This morning about 10 o'clock the watering wagon for No. 1 Ward—Mr. M. Bolton's beat—suddenly came to grief. It had just been filled at the corner of Dalhousie and Stewart streets, and had only gone a very few feet when one of the hind wheels collapsed. Mr. Bolton, the driver, was thrown violently to the ground and received a severe shaking up. It is said that the street in the vicinity of the standpipe was in a very bad condition and was too much for the practically rotten condition of the wheel. This special watering machine has already been three or four times to the repair shop this season. Our street sprinklers do not give much help to the plebiscite cause. It appears that cold water has a most demoralizing effect upon them. If they are not drunk and disorderly, they are dry and out of order a good deal of the time. Attention has been called to the state of the street at the stand-pipe several times without result.

GODFREY'S BAND PROGRAMME.

The Concert on Monday Evening will be a Popular One.

The programme that will be rendered on Monday night next by Lieut. Godfrey's Band in the Charlotte rink has been received and it will give general satisfaction to know that it is varied in its character, thus giving those in attendance an opportunity of hearing the band in the rendition of various classes of music. The programme opens with an overture, and includes a selection of Scottish National music, a medley of martial melodies, the British Army quadrille and the Geisha. The solos include the saxophone, the flute, the cornet and bassoon.

Such a concert given by such a world-famed band has never been heard here, and the enterprise that brought them here at considerable expense should be supported, and the band given an audience that their name and music merit, and the town's importance would warrant one in expecting.

Reserved seats on the ground floor are all 75 cents. Front row in the gallery is $1. General admission 50 cents. Plan at Ormond & Walsh's.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Lieut. Godfrey's band on Monday evening next. Secure your seats at Ormond & Walsh's. Reserved seats on the floor of rink 75c. Front row in the gallery $1.

—At the auction sale of the Fortye residence, corner of Park and Gilmour streets, yesterday afternoon the reserved bid was not reached. Mr. Haggart sustained his reputation as a hustler by running off the large amount of fine furniture at good prices in short order.

—The Charlotte street rink is being prepared for the Godfrey band concert. There will be room for thousands, and it is hoped that the Peterborough citizens will respond to the occasion and give the famous band the large audience it deserves on Monday evening next.

—To-day was a busy day at the Court House. The central point of interest was justice and the Chief Justice, at that, fighting for his farm: on the one side the county councillors were struggling with the financial situation, and on the other side in the Division Court held, perforce, in the Judge's Chambers, creditors were fighting for their own. Money the basis of the greatest interest.

Why do you drink Tea?

Merely because you have become accustomed to drinking some discolored water with a bitter taste, or do you drink it for its dainty flavor, fragrant aroma, and the delightfully refreshing sensation it produces? If you relish a cup of really high grade tea, try one package of Ram Lal's Pure Indian Tea. It costs more than much that is offered, but its worth more. It will brew more liquor and the quality will be better.

Ram Lal's Tea

is for those who want *good* tea. It is not expensive because its great strength necessitates the use of less weight.

Weigh Yourself before Taking Them.

GAINED 22 POUNDS.

I have more faith in Dr. Ward's Blood and Nerve Pills than anything else I have ever used. Since using them I have recommended them to several of my friends who were troubled as I was, and now they are in splendid health. I had been a sufferer, like a great many other women, with a disease peculiar to my sex. I tried everything I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color and my friends were alarmed. I consulted a doctor of this town and he said I would never get better; that I would always be sickly and delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others, I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and eighteen pounds, and now I have a constitution that is hard to beat. I have not suffered any pain in months, and earnestly hope that Dr. Ward's Blood and Nerve Pills will reach every woman suffering as I did. Sincerely yours, MAY COLE, Simcoe, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

THE MOHAMMEDANS.

The Queer Manner In Which They Mix Up Religion and Murder.

The month of Ramadan, in which the first part of the Koran is said to have been revealed, is observed as a fast by all Mohammedans. The fast extends over the whole "month of raging heat" and involves extraordinary self denial and self control. No food or drink of any kind may be taken from daybreak until the appearance of the stars at nightfall.

The rigor with which a Mohammedan observes this fast and the great gulf between its observance and obedience to the moral code are both illustrated by a story told in the life of one of the heroes of India, Major John Nicholson.

While Nicholson in 1854 was deputy commissioner in Bannu, a native killed his brother and was arrested. He was brought before Nicholson on a very hot evening, looking parched and exhausted, for he had walked many miles, and it was the month of Ramadan.

"Why," exclaimed Nicholson, "is it possible that you have walked in fasting on a day like this?"

"Thank God," answered the Bannuchi, "I am a good faster."

"Why did you kill your brother?"

"I saw a fowl killed last night, and the sight of the blood put the devil into me."

"He had chopped up his brother, stood a long chase and been marched in here, but he was keeping the fast," wrote the commissioner to a friend, that he might know what sort of bloodthirsty and bigoted people he, Nicholson, had to govern.

One day a wretched little child was brought before the commissioner. He had been ordered by his relatives of the Wasiri tribe to poison food.

"Don't you know it is wrong to kill people?" asked Nicholson.

"I know it is wrong to kill with a knife or a sword," answered the child.

"Why?"

"Because the blood leaves marks," answered the trained poisoner.

A Pathan chief, who fell by Nicholson's side in a skirmish, left a little son, upon whom the English officer lavished care and attention. One day the 7-year-old boy asked his protector to grant him a special favor.

"Tell me first what you want."

"Only your permission, sahib, to go and kill my cousins, the children of your and my deadly enemy, my uncle, Faltri Khan."

"To kill your cousins?" exclaimed the Englishman, horrified at the answer.

"Yes, sahib, to kill all the boys while they are young. It is quite easy now."

"You little monster! Would you murder your own cousins?"

"Yes, sahib, for if I don't they will certainly murder me."

The little boy wished to follow Pathan usage and thought it very hard that his guardian should prevent his taking so simple a precaution.

Had Read About It.

"I had a distressing pain in my side and was also troubled with severe headaches. My blood was out of order and my constitution was generally run down. W. HURON'S GOOD-BYE

Lieut.-Governor M. C. Cameron Banquetted at Goderich.

FAREWELL ADDRESS WAS READ.

His Honor's Long Career Reviewed by His Political Friends, But He Found Pleasure in That Both Parties Had Assembled to Do Him Honor Upon This Occasion.

Goderich, Ont., June 23.—The citizens of the town and leading representatives from all parts of West Huron assembled last night to banquet and address His Honor M. C. Cameron, Lieut.-Governor of the Northwest Territories.

The gathering was one of the largest and most enthusiastic of its kind ever brought together in Huron. After a magnificent supper in the British Hotel banquet hall, where nearly 300 guests sat down, the chairman, Mr. William Proudfoot, read an address reviewing the long service of His Honor in the cause of his country and congratulating him on being appointed to a position so distinguished.

His Honor replied in one of his happiest efforts, reviewing his long residence here, his connection with matters local and political; and in thanking his friends for so kindly an address and so magnificent a banquet, he was particularly pleased in observing that the occasion brought together not only the old stalwarts who fought side by side with him in many a political encounter, but also his good friends the Conservatives, who nobly came forward now to do him honor upon his preferment to the position he now occupied. All political feeling had evidently taken a back seat, and the kindliest wishes and handshakes from both parties made him feel that the people were indeed his friends. He hoped to live to merit so spontaneous and friendly a good-bye.

The usual toast list followed and brought speeches from John McMillan, M.P., J. T. Garrow, M.P.P., M. Y. McLean of Seaforth and a number of others.

Piper Dan McKay of Kintail and local musicians furnished music.

MURDER AND SUICIDE.

Barnardo Boy Shoots His Employer's Son and Then Kills Himself.

Winnipeg, Man., June 23.—A despatch from Austin, Man., says: Johnnie Powell, a Barnardo boy, 13 years old, working for Mr. E. C. Wheeler, shot and killed Mr. Wheeler's four-year-old boy, Charlie, and then committed suicide Tuesday night at Mr. Wheeler's farm about two miles east of Austin. Mr. and Mrs. Wheeler drove into Austin in the evening, leaving the two boys at home alone. Mrs. Wheeler returned first, and missing the boys, went to a neighbor's to enquire after them, but before she got back Mr. Wheeler had arrived home, accompanied by Mr. James Walker, a neighbor. Mr. Wheeler went to the house for a lantern, and in the meantime Mr. Walker lit a match in the stable and saw the two boys lying there dead. The younger boy was shot in the left temple and Powell through the head. The revolver was lying at his feet. When Mr. Wheeler left home he left Powell minding the cows, but as soon as he was gone Powell must have gone in the house and thrown the milk pail on the floor, then upset nearly everything in the house and broken the windows. He then went upstairs and got Mr. Wheeler's revolver, also some cartridges from a bureau drawer, and loaded the revolver. After shooting the little boy he took out the empty cartridge, then opened the breast of his shirt and deliberately shot himself through the heart. The only motive known for the crimes are that Mr. Wheeler refused to allow him to go to a picnic which was to be held at Moose Lake, near Sidney, yesterday.

LICENSED VICTUALLERS OFFICERS.

Result of the Election at London—Kingston Next Favored.

London, June 23.—The principal item of business at the Licensed Victuallers' Convention was the election of officers, which resulted as follows: President, Harry Maxey, Hamilton; 1st vice-president, John Coffey, Barrie; 2nd vice-president, D. B. Birrell, York Mills; treasurer, William Armstrong, Toronto; secretary, E. Dickie, Toronto; auditors, A. S. Smith, St. Thomas, and James McPartland, Kingston; solicitor, James Haverson, Toronto; Executive Committee, F. J. Collins, Dundas; F. X. St. Jacques, Ottawa; E. Sullivan, Toronto; D. Sare, London; J. McCarthy, St. Catharines; A. S. Smith, St. Thomas; J. J. Banfield, Niagara Falls.

The association decided to go to Kingston for their next annual convention. Some private matters were discussed, and the association adjourned.

RAIN RATES ADJUSTED.

Joint Traffic Association Agree on a Uniform Tariff to the Seaboard.

Montreal, June 23.—The freight traffic departments of the Grand Trunk and the Canadian Pacific Railway received word yesterday that the cutting in grain rates which has been going on for some time among the American roads, in which, of course, the Canadian lines had to participate, has been stopped and through the joint traffic associations a new basis of rates has been made.

Beginning yesterday a rate of 18c per bushel from Chicago to New York, and of 16c from Chicago to Montreal will go into force. This is 2c a bushel less than has hitherto been the rating, but the railways are willing to accept a lower rate in the hope of securing uniformity.

DID THE GIRLS PAINT?

How the Question Was Decided and a Bet Paid.

Two well known society swells went to the Imperial theater one afternoon when "East Lynne" was the bill. A few evenings before there had been discussed at their club the subject of women painting their faces. Several girls were mentioned who were suspected by their admirers of wearing an artificial carnation bloom. Others defended the young damsels and said it was natural.

How to find out and win a wager that was laid then and there was the subject of the young men's visit to the Imperial.

"East Lynne" is a play which ought to make all women cry, they reasoned, for it makes even men's throats grow thick. They sent tickets for reserved seats to the girls under discussion, begging them to invite whomsoever they pleased of their acquaintances, as they, the donors, would not be able to escort them.

The ruse was successful. In an upper box sat the young men ready to win or lose the wager, and right below, in the parquet, where they could see their faces and every move of their hands, were the young women. There were six of them, two of whom shed copious tears and hesitated not to wipe them away with their handkerchiefs, while the other four never winced. Among those who did not cry were the girls suspected of laying on the red pigment, and it was on just that evidence that the bet hinged. That night the wager was paid with a supper at the University club

The things that people see are inside of them and not outside of them. No two people see the same thing exactly alike. One woman may look at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look at the same scene and see nothing. The man who is perfectly well and vigourous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Medical Adviser," profusely illustrated.

The Master Key.

A doctor who prescribes a dozen different remedies for the *symptoms* of one disease is like an old-time turnkey lugging about a ponderous bunch of keys, each one to open a different door. When anyone's blood is thin and watery and poisoned with bilious impurities this condition will show itself in every part of the body and the average doctor gives one medicine for the stomach, another for the head, a third for the lungs and so on; as if each particular *symptom* was a separate dungeon of misery to be unlocked with its own particular key; but the scientific, experienced physician looks deeper and seeks the one master-key which unlocks them all.

Thirty years ago Dr. R. V. Pierce, of Buffalo, N. Y., found the wonderful "Golden Medical Discovery" which has since made him famous: It is the perfect master-key which unlocks every torture chamber of weakness and pain caused by faulty action of the digestive system. It gives the stomach and blood-making glands power to produce the healthy blood which drives out all impure disease germs and waste products, and builds up healthy tissue, solid muscular flesh and nerve energy.

Mr. J. W. Brittin, of Clinton, Dewitt Co., Ill., (P. O. Box 475), writes: "For over a year I was troubled with 'liver complaint,' had no appetite, could keep nothing on my stomach and had severe pains in my stomach and bowels. I doctored with home doctors but did not obtain relief until a friend advised me to take Dr. Pierce's Golden Medical Discovery. After taking four bottles I think myself cured, as I can eat anything I want and my food never hurts me. Thanks for your medicines. I cannot say too much in favor of them."

For constipated conditions Dr. Pierce's Pleasant Pellets are the best simple, comfortable laxative. They never gripe. Accept no substitutes or imitations.

ANCIENT TRICKSTERS

QUEER CONJURING FEATS OF THE SEVENTEENTH CENTURY.

Little Experiments In Which Boiling the Heads Off Living Animals Was a Necessary Adjunct—How They Killed a Horse and Cured Him Again.

Conjurers in ancient times were not very respectable members of society—when successful, they enjoyed the reputation of having sold their souls to the evil one, and when of inferior ability they gained notoriety by being either drowned or burned. The medieval magicians as well as the Egyptian magi and the Chaldean sages were only a strange mixture of chemist, conjurer and charlatan, and as these gentlemen were in the habit of using their supposed occult powers to their own advantage they were naturally unpopular. The feats of jugglery performed by these craftsmen were intended for the mystification and not the amusement of the public, and for centuries conjuring had to it only a black side.

The amateur conjurer of today is not always a popular individual, save with children and the unsophisticated yokel. To the general public he is merely a bore of greater or less magnitude, whose performance is so obvious as to deceive no one. It is hard to realize that this person is no mere mushroom growth of modern society, but in point of fact his role is one of a respectable antiquity, for he is to be found treading close upon the heels of the magicians and in the days when witchcraft was still rampant. This is significant of his reputation even in those early times, for had any one taken his tricks seriously he would doubtless have been run to earth and done to death as a wizard.

In the middle of the seventeenth century, in the earliest years of the restoration, a number of tricks were published in one of those facetious books which seem to have occupied the press to a great extent at this time, but which, owing to their popularity, have for the most part perished. The chief recommendation to the greater number of these tricks is that no apparatus beyond the utensils of everyday life is necessary. Also it is suggested to the performer that he can make some small profit out of his entertainment by prevailing on his audience to bet with him on the result of the trick.

"To set a horse's or an asse's head upon a man's head and shoulders" seems impossible out of the land of Faery, but we are informed that by boiling the head cut off from a living animal, "the flesh boyl'd may runne into oyle," and then by mingling the hair beaten into powder with this oil and anointing the heads of the standers by, "they shall seem to have horses' or asses' heads"—a costly experiment and fearsome if successful.

But, besides this, one can "make people seem headlesse," and this without bloodshed and by the following simple receipt: "Breake arsenick very fine, and boyle it with sulphur in a cover'd pot, and kindle it with a new candle, and the standers-by will seem to be headlesse." Doubtless a strong imagination is necessary for success.

Some of the tricks are such as would nowadays cause the performer to be disliked, to put it mildly. For instance, "have a nut filled with ink, and give this unto another and bid him crack it and see what he can find in that," which being done "will cause much laughter."

"To keep a Tapster from frothing his Pots" must have been an amusement to the wags of the period, and for this "provide in readinesse the skin of a red Hering, and when the Tapster is absent do but rub a little on the inside of his pots, and he will not be able to froth them, do what he can, in a good while after."

"To counterfeit a diamond with a white saphir" is a most useful accomplishment, but the fraud is likely in these days to be discovered and is more a chemical experiment than a trick.

Several tricks are recommended which have animals as their subject and are for the most part brutal to our modern ideas. Perhaps the least objectionable is "to seem to kill a Horse and cure him again," which may be thus accomplished:

"Take the seed of henbane and give it the Horse in his Provender, and it will cast him into su a deep sleep that he will seem dead. If you will recover him again, rub his Nostrils with Vinegar, and he will seem to be revived." The "seem to be revived" sounds rather ominous, and it is to be noted that the correct quantity of henbane is not mentioned, so that it might be best to try this experiment on some one else's horse.

"To make a shoal of Goslings draw a Timber logge" sounds interesting, but unfortunately the directions are vague. "To make a shoal of Goslings or a Gaggle of Geese to seem to draw a Timber logge is done by the verie means that is us'd when a Cat draws a fool through a Pond, but handled somewhat further off from the Beholders." — London Standard.

A GLOBE REPRESENTATIVE

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

Toronto, June 20.—(Special).—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parnham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

Good Veal.

Ella Morris Kretschmar, writing of "Dainty Dishes From Milk Veal" in The Woman's Home Companion, gives these practical directions for recognizing a good article:

"'Milk veal' is the only good veal, and the best period is from 4 to 6 weeks old. The flesh is then a delicate pink, the fat white and clear. If the flesh has a blue tinge and is flabby, it is too young and therefore unwholesome. If it is white, it has been bled before killing and likewise unwholesome. It is very easy to learn to recognize veal at just the right age and in the proper condition. One or two careful inspections and comparisons with that which is undesirable fixes the matter in the mind. Surely it is worth while for every housekeeper to learn this simple lesson, the starting point of so many delightful dishes. Not to learn it simply means disappointment whenever veal is served at one's table, unless the pleasure and convenience of the butcher happen to combine favorably to one's advantage."

Preparing Gold Powder.

Finely powdered gold may be prepared by a most simple process. Fill a small, unglazed, earthenware bowl with common kitchen salt, cover it and expose it for some hours to heat. The stove oven is a good place for it. When the water has all been dried out, put equal quantities of this salt powder and honey on a glass grinding plate and mix in with it the necessary quantity of gold leaf. Grind this up very gently, being careful not to press hard on the mass. The salt acts as a disintegrator, and the honey is used because it will not dissolve the salt. When the gold is reduced to the finest possible powder it must be thoroughly and carefully washed with an abundance of pure water to remove the salt and honey.—New York Ledger.

You will not know how much good Hood's Sarsaparilla will do you until you try it. Buy a bottle today and begin to take it.

Warts.

These are better left alone than treated injudiciously. They may be safely and certainly cured by keeping them constantly damp with rag dipped in vinegar, then slicing them off thinly day by day and applying powdered alum to the fresh surface. Another plan is to touch them every second day or so with the pointed end of a slate pencil or match dipped in acetic, glacial acetic, muriatic, nitric or sulphuric acid or a mixture of chromic acid, one part to four parts water, daily. All these demand great care. A safer though slower process is to moisten each wart with a drop of water or the tip of the tongue, then well rub it with lunar caustic. Next day or in two days carefully remove the black surface with a knife, repeating the caustic, and so on as may be necessary.—New York Ledger.

Cuba.

Cuba is known in history under several names. The first was Antilla; then Juana, after a Spanish prince. Fernandina came third, followed by Santiago and the isle of Ave Maria. The original Indian name, Cubanacan, signifying "where gold is found," was finally adopted, and usage shortened it to the first two syllables.

A clever mot was made by a member of parliament during another member's prosy speech. The latter happening to yawn during his remarks, the other commented, "This man is not without taste, but he usurps our privilege."

Australia could be made to support 400,000,000 inhabitants of the black or yellow races, who would be able to endure the climate.

Nature makes the cures after all.

Now and then she gets into a tight place and needs helping out.

Things get started in the wrong direction.

Something is needed to check disease and start the system in the right direction toward health.

Scott's Emulsion of Cod-liver Oil with hypophosphites can do just this.

It strengthens the nerves, feeds famished tissues, and makes rich blood.

CHINESE MEDICAL SCIENCE.

Has Not Improved Any Since the Time of Confucius.

Chinese surgeons should delight the heart of the American surgeon who is wedded to the "ethics" of his profession. One of them was called to attend a patient who had been hit with an arrow, which was sticking in the wound when the surgeon arrived. That gentleman tried to pull it out, but succeeded only in breaking it off, leaving the point in his patient's interior. Then the *surgeon* declined to do anything more, saying that all ailments of the inner body were in the field of physicians and not of surgeons, and he stuck to it.

The Chinese physician does not know enough to give him a headache. He has no curiosity and never peers into the inner life of a subject. He is content to practice medicine as his predecessors did, and in his science the liver still is the seat of the soul, as it was in the days of Confucius. Therefore, from the liver come all the noble and generous sentiments that make life worth living, and no self respecting surgeon or physician would probe this seat of mystery rudely.

Ideas of pleasure have their origin in the pit of the stomach. Naturally it would be impious to prod that place with knives, so stomach troubles are treated with incantations. The gall bladder is the place where a man keeps his courage, and the head is a solid bone.

These remarkable teachings have been handed down through generations, and the number of Chinese books on medicine is astounding, but each book contents itself with repeating the things that the first Chinaman discovered, so they do not shed much light. Lancing is the favored and, indeed, almost the only operation. A Chinaman thinks that he cannot get to heaven if his body is mutilated, and he will not let a surgeon cut off even a little finger if he can help it.

The Chinese are not the only people who object to amputation through religious scruples. Turks will endure anything rather than to be barred from paradise, which they know will happen if they arrive at the gates in a cut up condition. In Burma a king died recently because he would not allow the touch of a surgical instrument to pollute his royal body.—New York Press.

Vigor for Heart and Nerves.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

GRANDPA'S WAY.

Somehow, of all the day we children used to dread
When night would come, and mother'd say,
"Now, children, go to bed,"
Till grandpa came to visit us. He was a soldier, and you see
He's just as good and pleasant as ever he can be.
The very first night he asked mother, with a smile,
If the children ever marched to bed in good old soldier style.
Then he commenced to count, "One, two, one, two." I tell you, it was fine,
And you don't know how quickly we all fell into line.
Since then, all day we kind of look ahead
For night to come, when we, like soldiers, can march away to bed.
And grandpa says, if we've a task, we'll find it just the same—
It's so much easier to do if it has a pleasant name.
—Florence A. Hayes in American Agriculturist.

Whitehead Torpedoes.

A Whitehead torpedo carries 220 pounds of wet gun cotton and weighs ready for service 1,160 pounds. Its maximum length is 16 feet 5 inches and its greatest diameter is 17.7 inches. At a speed of 28 knots per hour it has a range of about 850 yards. The torpedo is driven by compressed air at a pressure of 1,350 pounds per square inch, which operates a three stage engine.

LACROSSE.

The Orillia Packet has the following to say of last Thursday's match: "The lacrosse match between Peterborough and Orillia on Thursday was not by any means so brilliant as was expected. It was a hard fought battle, rather rough, with a lot of loose and illegal play, relieved by occasional brilliancies. As compared with the previous match it was remarked that the Orillia defence played with much more effect than in Peterborough, whereas the home was not so fast. But altogether the home team earned its victory, proving itself decidedly superior on the larger field. They scored the first game in half a minute, Armstrong doing the trick. The second and third were longer and slower, lasting twenty-one and thirty-four minutes respectively. Wilkinson and Armstrong scored. In the fourth the quality of the lacrosse had improved, and Grant scored in three minutes. The fifth was Peterborough's own and only game. Lipsett getting the ball past Hanley on a shot made half a minute after play began. Wilkinson got the sixth by lightning play, in thirteen minutes, and in the three minutes that remained neither side scored. Towards the end of the match, there was some fine combination work on both sides. Boyd did excellent work for Orillia; so did Churchill. Watson is in his right place on the defence, and at point Quinn played a clean, sure game. Honours were evenly divided on the home. For Peterborough, Dobbin, who is a marvellous goal-keeper, Lynch at point, and Lionel King were the stars. The low accurate passing of the Peterborough twelve was much admired. The casualities were:—W. Dunn, face cut; G. Armstrong, ditto; M. Connors, hurt by a blow on the head; and Lynch badly cut about the right eye. The latter had to leave the field in charge of Dr. Partridge. The Peterboroogh papers charge the Orillia twelve with slugging and general rough play in the lacrosse match last Thursday. This is all nonsense. Though certainly too rough, the game was not unusually so, and the fault was by no means confined to one side. Lynch, the only Peterborough man disabled, had himself played a very rough game, and hurt several of the Orillians before he received the blow that stopped him. Almost as reprehensible as rough play, and the animus unfortunately shewn on the field, is the spirit which refuses to acknowledge defeat, and when the score is against one's side seeks to fasten upon opponents the stigma of foul play. The Orillia club has no excuse to offer for defeat in Peterborough, except that Peterboroughs on their own grounds were *too* much for them. Peterborough may as well make the same admission with respect to Orillia, for it is the truth manifest to all spectators of the match here."

The Orillia Times makes the following notes on the game in that town on June 16th: At noon on Thursday last the Peterborough Lacrosse Club arrived in town, accompanied by about sixty ardent admirers, and the talk was all of the easy way they were going to repeat the dose they had given to Orillia the week before. But the best laid schemes "gang aft agley." They not only failed in their anticipations, but came very near returning home without a game to their credit. There was not much choice between the combination work of the two homes, but Orillia did the most shooting, and Dobbin was called on to stop four shots to Hanley's one. That he did so, and that he played a most remarkable game both in and out of the flags is due in a large measure the fact that the score was not larger. Lynch, who was playing "a horse of a game," (as one of his admirers expressed it) laid Armstrong out with a bang over the head, as the latter attempted to dodge by him, and some time was lost getting him fixed up. Armstrong followed the ball to the fence with Lynch at his heels, but Bunty got it and was moving away along the fence when Lynch tapped him across the shins, bringing him to the grass. Mickey O'Conner had followed out with the apparent intention of helping Armstrong, and seeing him go down he sailed into Lynch, banging the latter into the fence. When the players were disentangled it was found that Lynch had a severe cut over his right eye, which required the attention of a surgeon. The cut was bound up and the injured player taken down town and properly looked after. Grant went off to even up, and O'Connor was put out of the game by the referee for unnecessarily rough playing.

AGAIN THE CATERPILLAR.

Why the Campaign Should be Continued—A Word About Weeds.

Nothing but the necessity of exterminating as far as possible this disgusting and dangerous insect nuisance could form an excuse for constant references to its destructive work, and for urging the public to take more than a passing interest in its abatement. It is a pity that those who are practically anxious for the destruction caterpillars, and who destroy these pests about their own premises, should be subjected to the continued presence and ravages of the caterpillar from the negligence of unneighbourly neighbours. In passing some grounds one feels tempted to shake the careless owners or custodians for permitting caterpillars to infest the trees and cluster on the trunks unmolested, ready to enter the chrysalis state and to be the source of millions the next year.

Just now is the time to renew the campaign. Every caterpillar not killed within the next few days enter the chrysalis state and in a short time develop into a butterfly, small and ugly in appearance but capable of deadly and destructive work. This butterfly will, before long, hatch, and about September will deposit some 300 eggs in the form of a bracelet, on the twigs of trees. Next spring these eggs will hatch, and, behold, we have the caterpillar again ready for destructive work on our fruit and shade trees. It will be noticed that the caterpillars become sluggish and slowly make their way to some sheltered spot under a fence, or even the under side of a tree leaf. Here it anchors, so to speak, throws out filaments and encloses itself in a yellowish, woolly loooking sheath. It then dies, or rather passes into the chrysalus stage of its three-fold existence, caterpillar, chrysalis and butterfly. Now the cure is to destroy these cocoons wherever they appear. The destruction of each one means the lessening of next spring's crop of caterpillars by about 300, the average number of eggs in a bracelet. Let every one take a little trouble and the aggregate of effort will so decrease the caterpillar pest as to largely rob it of its terrors.

There is another matter that demands attention. The town has had the weeds cut on the streets, but now attention should be paid to the weeds on private premises, on some of which there are tremendous growths of thistles, ox-eye daisies, burdocks and other outlawed weeds. The time for their destruction is at hand. If the owners of such vacant lots will not cut down these weeds the town should take the matter in hand and enforce the law. Not a little perfunctory cutting; they should be cut close to the ground. In Ashburnham, where they do things in a pretty thorough way, the burdocks are taken up, so the information is given, by the roots, and roots from one to two feet long are brought to the surface. Laws and bylaws are intended for the protection and benefit of the public, but if they are not enforced they are a mockery. In Peterborough the law in relation to noxious weeds is more honoured in the breach than in the observance. Will the authorities wake up and keep owners of vacant lots who allow weeds to grow and ripen in these neglected vacant lots up to the mark?

YOUNG'S POINT.

Obituary.

Mr. Andrew Wilson, who has been ailing for the past two years, died on Wednesday, 22nd inst. The deceased was 58 years old and for the past 30 years had been a resident of Douro, living about two miles and a half below Young's Point. The funeral took place to-day to the Lakefield cemetery for interment.

Rev. Chas. Fish, Methodist Minister, 192 Dunn Ave., Toronto, Cured of Eczema.

About ten years ago I felt the beginning of what is commonly known as eczema. The disease commenced in my ears and spread entirely over both sides of my head and also developed on my hands. During those ten years I was a great sufferer. Specialists on skin diseases treated me. As I write this I am just commencing on the fifth box of Dr. Chase's Ointment, and judging from the *rapid improvement effected*, I am certain that before the box is used I shall be completely cured.

MUNYON

HAS A CURE FOR EACH DISEASE

With Munyon's Improved Homœopathic Remedies in the House, Mothers Can Become the Family Physician.

Professor Munyon is honoured to day as the leading authority in the medical world. His new and humane methods of treatment have swept away all the old-fashioned ideas of doctoring with poisonous drugs that create a dis n diseases in the *effort* to get rid of one. He does not claim that he has one remedy that will cure all complaints, but that he has prepared a specific cure for nearly every disease. He does not claim that Munyon's Rheumatism Cure will cure consumption, dyspepsia or any other complaint, but he does assert that it will cure rheumatism. Munyon's Dyspepsia Cure is prepared expressly to cure dyspepsia; Munyon's Cough Cure to cure coughs; Munyon's Catarrh Remedies to cure catarrh; Munyon's Kidney Cure to cure kidney troubles. The same may be said of all Munyon's different remedies. They may be obtained at all drug stores, mostly at 25c a bottle.

Personal letters to Prof. Munyon, 11 and 13 Albert Street, Toronto, answered, with free medical advice for any disease.

A ROUGH RIDERS' DASH

Against a Superior Spanish Force Near Santiago.

RESULT: 13 KILLED; 50 WOUNDED

Details of a Hot Fight on the Way to Santiago—They Fell Into a Spanish Ambush in a Dense Jungle—The Landing of American Troops Completed—War News.

On board the Associated Press despatch boat Wanda, off Juaragua, Friday afternoon, June 24, via Playa del Este, Guantanamo Bay, June 24.—(8 p.m.)—This morning (Friday) four troops of the 1st Cavalry, four troops of the 10th Cavalry and eight troops of Roosevelt's Rough Riders—less than a thousand men in all—dismounted and attacked 2,000 Spanish soldiers in the thickets within five miles of Santiago de Cuba.

13 American's Killed.

The Americans beat the enemy back into the city, but they left the following dead upon the field:

Rough Riders—Capt. Allyn K. Capron of Troop L, Sergt. Hamilton Fish, jr.; Privates Tillman and Dawson, both of Troop L; Private Dougherty of Troop A, Private W. T. Erwin of Troop F.

First Cavalry—Privates Dix, York, Bjork, Koibe, Berlin and Lenmark.

Tenth Cavalry—Corporal White.

At least 50 Americans were wounded, including six officers. Several of the wounded will die.

Twelve dead Spaniards were found in the bush after the fight, but their loss was doubtless far in excess of that.

General Young commanded the expedition and was with the regulars, while Col. Wood directed the operations of the rough riders several miles west.

A Fight of an Hour.

Both parties struck the Spaniards about the same time and the fight lasted an hour. The Spaniards opened fire from the thick brush, and had every advantage of numbers and position; but the troops drove them back from the start, stormed the blockhouse around which they made the final stand, and sent them scattering over the mountains. The cavalrymen were afterward reinforced by the 7th, 12th and 17th Infantry, part of the 9th Cavalry, the 2nd Massachusetts and the 71st New York.

The Americans now hold the position at the threshold of Santiago de Cuba, with more troops going forward constantly, and they are preparing for a final assault upon the city.

Officers Wounded.

The following officers were wounded:

Major Brodie, shot through the right forearm. Capt. McClintock, troop B, shot through the right leg. Lieut. J. B. Thomas, troop L, shot through the right leg. His condition is serious.

All the foregoing officers are rough riders. Other officers wounded are: Capt. Knox, whose condition is serious; Major Bell, Lieut. Bryan. Those officers are of the First Cavalry.

Edward Marshall, correspondent of the New York Journal and Advertiser, was seriously wounded in the small of the back. It is probable that at least ten men in the list of wounded will die.

Everything possible is being done for the relief of the wounded.

The American base has been changed from Daiquiri to Siboney, and the army will advance on Santiago to-day. A number of Cubans took part in yesterday's fighting and forty of them were killed.

A number of newspaper men have gone with food and water and a surgeon to bring Mr. Marshall of the Journal to the coast.

The enemy has received reinforcements from Santiago, who brought with them ten field pieces. They are fortifying the hill at Savilla, which commands the road to Santiago.

The Rough Riders have received high praise from General Shafter for the gallant style in which they defeated the Spaniards. The enemy was utterly routed.

General Castillo, with 2,000 Cubans, reports having defeated the Spaniards at Guasima with heavy loss. The Cuban losses were less than fifty. The insurgents captured two railroad trains laden with food supplies and 100 tons of coal. Further reinforcements of Cubans are expected shortly. Transports are now en route to Cerra to get General Garcia and his forces, who will be brought here as quickly as possible.

Large quantities of supplies and a number of horses were landed at Siboney yesterday. The landing was covered by the Montgomery, Suwanee, Scorpion and Wampatuck, which shelled the woods hotly, driving out the enemy.

SANTIAGO REINFORCEMENTS.

The Yale Sails With 1,600 Men, and Also Takes Coal and Ammunition.

Newport News, Va., June 25.—The auxiliary cruiser Yale, with the Third Michigan Regiment and one battalion of the 34th Michigan, has sailed from Old Point for Santiago. The troops, to the number of 1,600, are under command of General Duffield. The auxiliary cruiser Harvard will leave Old Point for Santiago Monday or Tuesday with another expedition. Besides having on board the Michigan troops and their equipment, the cruiser carried an enormous supply of coal and tons of ammunition and supplies for Admiral Sampson's fleet. The cruiser is expected to arrive at her destination not later than next Tuesday.

PROGRESS OF INVASION.

American Troops Closing in Upon Santiago—Spaniards Fall Back.

On board the Associated Press despatch boat Dauntless, off Juarngua, Province of Santiago de Cuba, Thursday night, via Port Antonio, June 24.—The advance of the American army has reached the edge of the tableland in which the harbor of Santiago de Cuba lies. Here, seven miles from Morro Castle, as the crow flies, the main body of troops has united, and the Spaniards are in full retreat towards Santiago de Cuba. They may attempt a surprise, but a decisive engagement is not expected for several days.

The Only Landing Casualties.

There were only two casualties during the landing of the troops at Daiquiri. Corporal Cobb and Private English of troop "D" of the 10th Cavalry (colored), fell between a lighter and the pier. Captain O'Neill of Woods' rough riders plunged into the sea at the risk of his life, but the men were crushed before he could reach them. O'Neill is a former mayor of Tucson, Arizona.

THE FLAG PLANTED.

The Stars and Stripes Now Waves Upon the Top of Altares Mountains—A Lack of Rations.

On board the Associated Press despatch boat Dauntless, off Daiquiri, Thursday afternoon, June 23, via Kingston, Jamaica, Friday, June 24.—Late yesterday afternoon the American flag was hoisted upon the top of Altares Mountain, back of Daiquiri, amid wild enthusiasm. The men cheered and waved their hats, the warships and transports let loose their sirens, and the bands played "The Star-Spangled Banner." Major Lamotte, with two men of the volunteer cavalry, climbed the heights and raised the flag.

The Cubans, under General Demetrius Castillo, who entered Daiquiri after the Spaniards had deserted the town, wore little more clothing than rags, many of them being two-thirds naked. Some had no trousers and only tattered shirts, while the majority of them were barefooted. They were mostly negroes, some being boys of only 15 years of age. The guns they carried were of many models, ranging from the flintlocks to Mausers and Remingtons. All, however, were armed with machetes; the officers rode donkeys and scrub horses. The sun was blazing hot and a number of the soldiers, prostrated by the intense heat, were taken on board the hospital ships.

The celerity of the forward movement of the United States army has embarrassed the quartermaster's department. General Lawton sent back this afternoon an urgent request for more rations. The mules and stores are already ashore, but some of the trappings are still on board ship, and will be taken off during the night. Col. Humphreys says he will have a pack train loaded and on its way by daylight to-morrow. It should reach Juaragua before night. An attempt to send supplies to Juaragua this afternoon, in boats, failed.

MEN LOST ON THE TEXAS.

A Spanish Shell Kills One and Wounds Six of Her Crew.

Off Santiago, Cuba, June 22, via Port Antonio, Jamaica, June 24.—The battleship Texas to-day ran close in towards Santiago and silenced and apparently destroyed the Socapa battery, which Schley's fleet had previously bombarded without result, giving at the same time one of the finest exhibitions of gunnery in the war. She was struck by a shell and R. Blakely, an apprentice from Newport, was killed, and the following wounded: R Russell, apprentice, Philadelphia, Pa.; W. J Simonson, seaman, New York; H. A. Gee, apprentice, Philadelphia, Pa.; J. E. Lively, landsman, Norfolk, Va.; G. F. Mullin, apprentice, New York; A. Soogvist, seaman, New York. Russell is very seriously wounded. The others will recover.

BOUGHT A LINE OF SHIPS.

American Government Pays Four Million Dollars for Transports.

Baltimore, Md., June 25.—The Baltimore Storage & Lighterage Company, operating the Atlantic Transport Line, yesterday sold to the United States Government seven vessels for $4,000,000. The vessels are to be used as transports and supply ships. They are the Mohawk, Mobile, Massachusetts, Manitoba, Minnewaska, Michigan, Mississippi. The company operates a line of steamers from New York, Philadelphia and Baltimore to London. The vessels are all from the New York line. The first five in the list are large twin-screw steamers of about 8,000 tons each. The Michigan and the Mississippi are single screw steamers of 5,000 tons each. It was understood they are to be put into the Government service to carry supplies between the southern ports and Cuba and Porto Rico.

Spain to Be Attacked.

Washington, D.C., June 25.—The war is to be carried into Africa, metaphorically speaking, if Spain is foolhardy enough to send the Cadiz fleet through the Suez Canal to attack Dewey in the Philippines. It is announced on good authority that before the last Spanish vessel has passed through the canal an American squadron will be steaming at full speed across the Atlantic straight for the coast of Spain to bring the war home to the Spanish people.

Camara in the Mediterranean.

Washington, June 25.—The State Department has just received advices confirming the report that the Spanish Cadiz squadron is in the Mediterranean, moving eastward.

Hobson Not at Morro.

Washington, June 25.—The State Department has just received the following cablegram:

Playa del Este, June 24.—From a flag of truce learned to-day that Lieut. Hobson and his companions are all well. They are confined in the city of Santiago, four miles from Morro. (Signed) Sampson.

News in Half an Hour.

Washington, June 25.—Admiral Sampson is now in constant and practically immediate cable communication with the Navy Department. Six despatches were received in rapid sucession through the early hours of yesterday, the last one bringing the situation up to 13 o'clock last night. They showed that only a half hour elapsed between the filing of the message by the admiral and the receipt of it in Washington, so that the authorities here are now assured of being only a half hour behind the actual developments at the scene of action.

The Spanish Cortes Suspended.

Madrid, June 25.—The Queen Regent signed a decree suspending the Cortes read at the session last evening.

Martial at Law at Madrid.

London, June 25.—The Madrid correspondent of the Daily Telegraph says: "When the Cortes closed martial law was proclaimed. The Sagasta Cabinet will resign and make way for a new Government, which will open negotiations for peace."

KILLED AT HIS DUTY.

A London Policeman Shot by a Tramp.

DEATH WAS INSTANTANEOUS.

The Assassin of Michael Twohey Escapes in the Darkness and Confusion—Surmised That He and His Companion Boarded an Eastbound Freight Train—Detectives on the Trail.

London, Ont., June 25.—Policeman Michael Twohey was murdered while in the execution of his duty shortly after 9 o'clock last night, and the perpetrator of the awful deed is still at liberty. The murder was committed at the corner of Ontario and Ellas streets, East London, where C.P.R. Watchman Murray had trouble with two tramps whom he had ejected from a car. The tramps, one of whom had only one leg, set upon Murray and were beating him, when Policeman Twohey was called. He attempted to place the tramps under arrest, and while he was attending to one of them the other fired two shots at him from a revolver.

The first bullet entered the policeman's left hand, passing through it and becoming embedded in his watch. The second entered the officer's forehead just over the right eye, cutting into the brain and causing instantaneous death.

In the confusion which followed the murderer and his companion successfully eluded capture, and although a thorough search of the vicinity was made they are not yet caught. It is surmised that they boarded a C.P.R. freight train bound eastward shortly after the tragedy.

A description of the desperadoes was telegraphed down the line, and it is thought that they will be captured today. The fact that one of them has lost a leg forms a substantial clue for the searchers to work on.

Twohey was about 39 years of age, and was an efficient officer, having been connected with the London police force for many years. He lived at 480 Oxford street, and leaves a widow and three children.

The dead man lay where he had fallen for some time, until the arrival of the coroner, when the remains were removed to the home of deceased's family. A warrant for an inquest has been issued.

Later Details.

The Adelaide street Grand Trunk Railway watchman was knocked down by the crutch of a one legged tramp, who was attempting to walk east on the track. P. C. Twohey, who was on his beat on Dundas street, was called, and followed him to the corner of Ellas and Ontario streets. The tramp resisted arrest and shot first in the breast, the bullet being stopped by his watch, and the second in the right temple. A C.P.R. freight train was pulling out at the time—9.30—and the tramp may have boarded it. Detectives are on the track of the murderer, who wore a brown suit and a slouch hat. Deceased was 39 years of age, and has been on the force about 12 years.

ON TO KHARTOUM.

Khalifa Abandons Only Stronghold Between the Troops and That Point.

London, June 25.—A despatch from Cairo to the Pall Mall Gazette yesterday afternoon says it is reported there that the Khalifa has abandoned Omdurman, the dervish stronghold, near Khartoum, and fled southward.

Seized With Cramps and Drowned.

Alliston, June 25.—Edward Richards, a farm laborer, 33 years of age, who was married about a year ago, was bathing with a couple of companions in the Nottawasaga river, on the 5th line of Essa, about four miles north of Elm Grove, when he was seized with a cramp. His companions recognized his danger and attempted to rescue the drowning man, but he sank before they could reach him. The unfortunate man leaves a wife and infant child.

FRIENDS PREVAILED

A Nervous Toronto Woman Walked the Floor During the Night for Hours at a Time—She Makes a Statement.

TORONTO, ONT.—"I was troubled with nervousness. It was impossible for me to keep still and if the spells came over me during the night I had to get up and walk the floor for hours at a time. My blood was very poor and I was subject to bilious attacks. My feet would swell and I was not able to do my own housework. I treated with two of the best physicians here but only received relief for a time. I became discouraged. One day a friend called and advised me to try Hood's Sarsaparilla. I laughed at the advice but I was prevailed upon and procured one bottle. Before I used it all I began to feel better. I took several bottles and also several boxes of Hood's Pills. Now I can eat and drink heartily and sleep soundly. Hood's Sarsaparilla has entirely cured me and also strengthened me so that I now do all my own work. I cheerfully recommend Hood's Sarsaparilla to all sufferers from nervousness, weakness or general debility." MRS. H. F. PARM, Degrassi Street.

Hood's Pills cure Liver Ills; easy to take, easy to operate. 25 cents.

SATURDAY, JUNE 25, 1898.

THE JUNE SESSION OF THE COUNTY COUNCIL.

FRIDAY, June 24th.

The County Council went into session again this afternoon.

Mr. R. M. Denniston on behalf of the Children's Aid Society addressed the council. Other members of the Society present were Rev. S. J. Shorey, Mr. J. J. McBain. Mr. Peter Campbell, Mr. F. Miller, Mrs. Beck and Miss Clarke. Mr. Denniston in the course of his remarks, reminded the council that the county had year after year pronounced itself in favour of the erection of a House of Refuge and as the Children's Aid Society looked after the destitute of the county as well as of the town, it certainly was entitled to some aid. Miss Clarke, Secretary of the Society, gave a number of instances in which the Society had aided residents of the county, who were in destitution. Others who spoke were Mrs. Beck, Mr. Shorey and Mr. McBain.

The Warden stated that he was most heartily in accord with the objects of the society. On motion of Messrs. Brown and Middleton, the matter of giving a grant to the society was referred to the Finance Committee.

THE COMMITTEE ON SCHOOLS,

through its chairman, Mr. Hawthorne, reported as follows:

The Committee on Schools begs leave to report as follows:

That the report of the County School Inspector be received, and that the same be printed, and that 400 copies thereof be printed to be forwarded before 1st September next to the trustees for each school section mentioned in such report.

All of which is respectfully submitted.

E. HAWTHORNE, Chairman.

County Council Chambers, Peterborough, June 24, 1898.

Adopted, on motion of Messrs. Hawthorne and Anderson.

COMMITTEE ON PETITIONS,

through its chairman, Councillor Brown, reported as appended:

The Committee on Petitions beg leave to report as follows:

1. Your Committee recommend that the matter of the petition of Mr. George Stewart and others, asking this council to take the necessary steps to prosecute steamboat proprietors who run Sunday pleasure excursions on the Otonabee river be referred to the local municipalities interested. Your committee concur in the petition in so far as it recommends the desirability of putting an end to such excursions.

2. Your committee recommend that no action be taken upon the application of the secretary of the Dominion Alliance to petition the local Legislature to empower local municipalities to further restrict the hours during which liquor may be sold.

3. Your committee recommend that this council memorialise the Dominion Government to amend the Criminal Code so as to commit persons under the Vagrancy Act during the pleasure of the judge and warden, to be released or discharged on application by themselves or friends.

4. Your committee recommend that no action be taken upon the application of the County of Halton for the co-operation of this county in seeking from the Dominion Government increased pay for the militia during annual drill.

5 Your committee recommend that no action be taken upon the application of the county of Wellington, asking this county to memorialize the Ontario Legislation for such amendments to the High School Act as would afford a more equitable mode of ascertaining the liability of each county for the maintenance of county pupils in High Schools.

All of which is respectfully submitted.

J. BROWN, Chairman.

County Council Chambers, Peterborough, June 24, 1898.

Adopted on motion of Councillors Brown and Fitzgerald.

THE COMMITTEE ON PRINTING

reported as appended:

The Committee on Printing beg leave to report as follows:

1. That paragraph 2 of the report of this committee, adopted on the 28th day of January 1898, be, and the same is hereby amended, by striking out the words "and is to give the printing of the assessment and collectors roll and tax sales either to the Review or EXAMINER," and your committee further recommend that a sample of the paper for such rolls be submitted to the County Treasurer for approval and also that a sample bound book be submitted for approval, and that the balance of the order be fully according to sample.

All of which is respectfully submitted.

G. W. FITZGERALD, Chairman.

County Council Chamber, Peterborough, June 24, 1898.

Adopted on motion of Councillors Fitzgerald and Brown.

COMMITTEE ON APPOINTMENTS

reported as appended, through its chairman, Councillor Shaw:—

The Committee on Appointments beg leave to report as follows:—

1. That the County School Inspector, John I Davidson, Principal of Norwood High School, William Evans, Principal of the Lakefield Public School, and Duncan Walker, town School Inspector, be the County Board of Examiners to examine teachers and give certificates in accordance with the statutes in that behalf.

2 That the following persons be appointed nominating officers under the County Councils' Act:—

(a) J. H. Drummond, of the township of Otonabee, farmer, to be nominating officer for the first (Otonabee) county council division.

(b) George E. Elliott, of the township of Smith, farmer, to be nominating officer for the second (Bridgenorth) county council division.

(c) J. S. Calrduff, of the township of Harvey, farmer, to be nominating officer for the third (Lakefield) county council division.

(d) W. E. Roxburgh of the village of Norwood, grain merchant, to be nominating officer for the fourth (Norwood) county council division.

(e) Samuel Edwards, of the township of Dummer, farmer, to be nominating officer for the fifth (Lakefield) county council division.

3. That the county clerk be instructed to notify each nominating officer to advertise their proclamations by printed posters and not by newspaper advertisement.

All of which is respectfully submited.

R. SHAW, Chairman.

County Council Chambers, Peterborough, June 24th, 1898.

Councillor Shaw and Brown moved the adoption of the report.

Councillor Casement stated that it had been agreed between the late Councillor Moloney and himself that the position of nominating officer in the fifth district should be passed around between Douro, Dummer and Lakefield. This year it was Lakefield's turn to have the position. Seconded by Councillor Fitzgerald he therefore moved in amendment that the report be referred back to the committee, with instructions to strike out the name of Samuel Edwards, of Dummer, as nominating officer and replace it with that of Dr. Bell, of Lakefield.

The amendment was lost and the report was adopted.

THE COMMITTEE ON EQUALIZATION,

through its chairman, Councillor Peck, reported as appended:

The Committee on Equalization and Assessment beg leave to report as follows:

That all the municipalities comprising the County of Peterborough be assessed at the valuation set forth in the schedule hereunto annexed, and that such valuation be the equalized valuation for County purposes for the year 1898.

All of which is respectfully submitted.

E. A. PECK, Chairman.

County Council Chamber, Peterborough, June 24, 1898.

Adopted, on motion of Councillors Peck and Anderson.

Moved by Councillors Brown and Hawthorne, "That the application of the Reeve and Council of Belmont asking that Isaac Count of that township be sent to the Home for Incurables in the City of Toronto in accordance with the provisions of the late Mrs. A. G. Foley's will, which bequeaths the annual sum of $200 on condition of their providing, if need be, in the institution for one such incurable from the County of Peterborough."—Carried.

The council then adjourned to meet at 9 o'clock on Saturday morning.

(ASSESSMENT SYSTEM).

WOMEN OFTEN OBJECT

When the husband or son joins a Court in a Society because it takes up one or two nights a month, but when they are bereaved of their helpmeet and receive the insurance so long worked and planned for by the loved one who has been called hence, opinion changes quickly. There are no stronger friends of the **Canadian Order of Foresters** than the 3,500 widows and orphans who have been kept from possible want and poverty by the Insurance and Sick Benefit moneys paid by the Society. This is not a charity, the money is fairly earned, and not the least part of the consideration is the self-sacrificing work of the Brethren who attend lodge and conduct the business of the society without fee or price for their services. It is for the benefit of wives, sons and daughters, fathers and mothers, that the C.O.F. carries on its great work, and its noble principles have been amply sustained by Canadian womanhood.

Benefits. Each Court may provide for Sick and Funeral Benefits and the attendance of a skilled physician during illness.

The High Court gives a weekly allowance of from $3 to $5 during illness or disability as provided in the Sick and Funeral Benefit Law, and on the death of a member contributes $30 towards his funeral expenses.

After satisfactory proof of the death of a member in good standing, the wife, children, or designated payees of deceased, receive from the Order the amount of insurance provided for, as named in their Insurance Certificate or Certificates, which may be $500, $1,000, $1,500 or $2,000.

For further particulars enquire of any of the Officers or Members of the Order, or address

A CUP OF CARBOLIC ACID

Drank by the Manager of an Ottawa Saloon—Supposed Cause of Suicide Continued Ill-Health.

Ottawa, June 25.—John Baptiste La Celle, manager of the Hub billiard room, drank a cup of carbolic acid at noon yesterday, and expired in five minutes afterward.

Mr. La Celle was about 21 years of age. For two years he had been troubled with rheumatism. He had been in the hospital and had undergone two operations, but not much relief was obtained. He seemed to be in his usual spirits yesterday, and there was nothing in his manner to indicate an intention of suicideing. He went to his room at his brother's house, 67 St. Andrew's street, where he lived, and drank the acid.

Dr. Valiade was summoned, but barely arrived in time to see the young man die. A priest who was sent for did not reach the scene until too late. Coroner Freeland was notified, and decided to hold an inquest last evening.

Want Increased Rates.

A committee of the Cabinet, comprising Messrs. Fielding, Fisher, Paterson and Sir Louis Davies, held a meeting last evening in Mr. Fisher's office to consider the Bell Telephone Company's application for an increase of rates. Although the whole question was discussed at length, nothing definite was arrived at. Over a year ago the company applied to the Railway Committee of the Privy Council to be allowed to increase their rates, and the matter has never been disposed of.

Canada at Paris.

It is understood that Canada has been offered 12,000 feet of space at the Paris World's Fair for 1900, while in Chicago in 1893 Canada found over 100,000 feet not too much space. Mr. Fisher, when in Paris, will endeavor to secure more space for Canada. He will be assisted in this endeavor by Lord Strathcona and the Canadian Agent in Paris.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

MILITIA CALLED TO THE SCENE.

Rioting of the Strikers at Oshkosh—One Man Killed.

Oshkosh, Wis., June 25.—This city is in a fever of excitement. Militia have arrived from Milwaukee, and their presence has added to the tension. The strikers had planned an attack on the factory of the Paine Lumber Company, but when they reached the grounds soldiers stood ready to receive them and the mob faded away. The casualties in yesterday's fighting aggregate nine non-union men, more or less disabled, one man, 70 years old, who was struck at work in the factory, had his arm broken, and another is not expected to live. The only one killed was a striker named James Morris, who was trying to force his way into the McMillan grounds and was struck on the head by an engineer employed in the mill. The Payne, McMillan, Radford, Morgan and Williamson factories, five in all, will start up under protection of the militia.

Select Knights' Liquidation.

St. Catharines, Ont., June 25.—The liquidation proceedings in regard to the defunct Select Knights of Canada were continued before the local master here yesterday. An agreement was arrived at between opposing counsel that the case of William McLean should be taken as a representative one in so far as it covers all classes of defence. Mr. B. J. Leubsdorf, the receiver, was the only witness examined.

Nansen's Fram Off for the Pole.

Christiania, Norway, June 25.—The Arctic exploring ship Fram, having on board Captain Otto Sverdrup's expedition to the Arctic regions, sailed from here at 11.30 yesterday. Dr. Nansen, the Arctic explorer, and an immense crowd of people were present to bid the party farewell.

Double Murder and Suicide.

Oswego, N.Y., June 25.—During a dispute over the ownership and occupancy of a farm, William Cooper, 38 years old, shot and killed his father-in-law, mother-in-law and himself at Fulton early yesterday.

Young Farmer's Fatal Sleep.

Havelock, June 25.—William Johnston, a young man of 24, son of a well-to-do farmer near here, was instantly killed in the C.P.R. yards yesterday morning. He was sleeping on the track.

Alleged Letter Stealer Arraigned.

Berlin, June 25.—Edward Lyons, the alleged post-office thief, was arraigned before Judge Chisholm yesterday, and elected to be tried before a jury at the assizes.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

Her Lucky Day.

A North Carolina paper says:

"A negro struck his wife two terrible blows on the head with an ax. The negro escaped to the woods, and his wife soon revived and said: 'I mighty glad he done it, kase now he'll stay cl'ar er de neighborhood an I won't have ter suppo't him no mo'. It was a lucky day for me w'en he hit me wid dat ax!'"

Very few of us are as thankful as that for those little blessings in disguise.—Atlanta Constitution.

Mr. Brewster's Reply.

The late Benjamin H. Brewster, President Arthur's attorney general, whose face was terribly disfigured by scars, was once engaged in a case as attorney for the Pennsylvania railroad, and the opposing counsel in his closing speech made a most brutal attack on him. "The dealings of the railroad," he said, "are as tortuous and twisted as the features of the man who represented it."

Mr. Brewster gave no outward sign that he felt this cruel blow until he had finished his argument. Then he said:

"For the first time in my life the personal defect from which I suffer has been the subject of public remark. I will tell you how I came by it. When I was 5 years of age, I was one day playing with a younger sister when she fell into an open grate where a fire was burning. I sprang to her assistance, dragged her from danger, and in doing so I fell myself, with my face upon the burning coals. When I was picked up, my face was as black"—and his finger transfixed his antagonist—"as that man's heart."—San Francisco Argonaut

IMPORTANT SALE

OF

LANDS

In Peterborough and Ashburnham.

PURSUANT TO THE ADMINISTRATION Order made by the High Court of Justice in the matter of the Estate of the late John Burnham, there will be offered for sale, by Public Auction, with the approbation of the Master at Peterborough, at the MORGAN HOUSE, in the Town of Peterborough, on

Monday, the 27th day of June, 1898

at 2 p.m., by Charles Stapleton, Auctioneer, the Lands following, namely:—

IN THE VILLAGE OF ASHBURNHAM.

PARCEL 1—Block 1, according to the Village Plan and Lot "B", north of Douro street, and west of Grand Trunk Railway track, according to Plan 15 of said village. Upon this property is a two story brick dwelling about 32x42 with a two story kitchen and wood with cellar under the whole house and kitchen. Dwelling is heated with hot air. The land contains about two acres. The property is occupied by a tenant whose lease is determinable on 2 months notice.

THE LADY SMUGGLERS

Pleaded Guilty and the Magistrate Withheld Sentence for a Week.

Windsor, Ont., June 25.—All six of the smugglers, Mrs. Pappineau and Miss L. Langlois of Belle River, Miss Gignac of Sandwich, Mrs. Asa Laforge and Louis Brown of Windsor, and Mrs. Mitcheldam of Pike Creek came before Magistrate Bartlet yesterday and each in turn pleaded guilty. The big blue Customs Department bag containing the smuggled goods was produced in court, but was not opened. The magistrate withheld sentence for a week.

Priest Arrested for Begging.

Rev. Father Ryan, for many years assistant to Dean Wagner, parish priest of Windsor, appeared in the dock of the Police Court yesterday on a charge of begging. The complaint was laid by Rev. Father Beaudoin, parish priest of Walkerville, who alleged that the defendant had been soliciting alms for Catholic missions without authority. "I have never been suspended from my functions," said Father Ryan, "but the Bishop won't give me a charge, which amounts to the same thing. I can't starve." "You are charged with living by the avails of crime and being an idle and disorderly person," said the magistrate. Ryan would not plead guilty to that, and he was remanded till Tuesday so the magistrate could communicate with Bishop O'Connor.

The things that people see are inside of them and not outside of them. No two people see the same thing exactly alike. One woman may look at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look at the same scene and see nothing. The man who is perfectly well and vigourous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Medical Adviser," profusely illustrated.

She Will Teach Bonnet Making.

Mlle. Valentine About, daughter of Edmond About, the author, is going to open a "class in hat and bonnet making." Everybody in Paris is surprised at the necessity for it, as during his lifetime About kept open house in his hotel on the Rue de Donai, and a fete that he gave to the Authors' society in the chateau he had just bought at Pontoise is remembered as almost princely. By what reverse of fortune About's family were left destitute nobody seems to know. Although he himself began life humbly as the son of a grocer, his daughter was a brilliant young society woman brought up in luxury, and everybody is admiring the courage with which she has undertaken to solve the difficult problem of the "struggle for life."—Boston Woman's Journal.

VAN HORNE'S RETURN

Railway Knight Talks of His Old Country Trip.

THE RATE WAR AS WHEN HE LEFT

The Crow's Nest Pass Scandal—The C.P.R. President Says That an Investigation Will Show That the Road's Officials Did Everything That Was Possible—The Proposed Fast Line.

Montreal, June 25.—Sir William C. Van Horne, President of the Canadian Pacific Railway, returned yesterday morning from a flying trip to England. He spent most of his time in the morning in a conference with Vice-President Shaughnessy. Sir William said his trip abroad was more in the nature of a holiday trip than of a business one, although he took advantage of his presence in England to look after a few minor matters of business. He explained that he had not had time for the past three years to get across the water and he took advantage of a lull in matters of a pressing nature at home to try and shake off a cold which had been sticking to him since the spring. The weather was not very favorable for the purpose in England, and when he arrived there he noticed that the vegetation was not so far advanced as it was when he left Canada. There were no questions between the two countries—Great Britain and Canada—at the present time which were creating any particular discussion abroad, but he found the feeling there was of the most friendly kind and the people of England had the greatest faith in the future of the Dominion. Times were very good in the old country at present, and for that reason the prospects of a rush of immigrants to this country were not good, but for all that there was a steady stream of a desirable character of immigrants coming here who were going into the Northwest.

The Rate War.

"The papers have had it that when you returned you would have something important to say in connection with the rate war, after having discussed it with the English directors of the company."

"There is only one English director of the C.P.R.," said Sir William, "and I did not discuss the matter with him. I know nothing more of the rate war than when I left."

The Fast Line.

Sir William Van Horne said he was not over on fast line business. He seems to think the latest propositions had failed and, although Sir William felt very strongly on the subject, he did not think it desirable to discuss the matter just now.

Crow's Nest Pass Scandal.

When Sir William was asked if he had anything to say in regard to the Crow's Nest Pass revelations, he said: "I have not yet had an opportunity to speak to Mr. Shaughnessy regarding them, and have not yet read the report. But you will find that there is always a scarcity of feather beds on construction work. We had the same trouble when we were building the main line in the west and along the north shore. The trouble is that the men who go out do not appreciate what it means to build a railway through a new country. We cannot build big boarding houses at every few miles, and cannot supply downy mattresses for the men. I was sure the officials did all they could for the men, and you will find this to be the case when all the facts are known."

AN AGENT OF DEATH

Small and Little Headed, but Deadly in the Extreme.

Constipation a Fruitful Source of Death—But it Vanishes When Dodd's Dyspepsia Tablets are Used—They are the World's Greatest Cure for Constipation.

People often say: "Oh! Constipation doesn't amount to anything. It cures itself if you leave it alone."

But they make a terrible mistake. There is no more fruitful source of death than constipation. And the evils it always brings, cause the most agonising tortures.

Constipation paralyzes the muscles of the bowels, which are then unable to perform their duties.

Foul, decaying waste matter lies in the bowels, instead of being expelled. It causes irritation, inflamation and death.

Again, with such matter decaying in the bowels, the liver and kidneys become diseased, the blood is poisoned, heart disease and death result.

We see, therefore, how vitally important it is to keep the bowels in proper order—most particularly in hot weather.

Dodd's Dyspepsia Tablets are the only medicine on earth that does this effectively.

The large white Tablets ensure prompt thorough digestion, and a proper, regular working of the digestive organs.

The small brown Tablets reduce the waste matter, soothe and allay all irritation and inflammation, and stimulate the bowels to a regular and perfect working. Perfect health often depends on a small matter. Keep the bowels in good order.

There never was, and never will be, a case of constipation, no matter what its cause, no matter how dangerous, in young or old, that Dodd's Dyspepsia Tablets won't cure.

Bowel Complaints are doubly dangerous in this very hot weather. Dodd's Dyspepsia Tablets cure all bowel disorders, and ensure perfect health.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto. You should try a box.

WHEAT LOWER.

A Decline at Chicago—Market Closed at Lowest Prices of the Day—The Liverpool Markets—Prices.

Friday Evening, June 23.

Notwithstanding encouraging cables from Liverpool and the Continent, this morning wheat on this side of the water lost its strength of yesterday. All American markets showed recessions and all deliveries declined. On the Chicago board, cash wheat dropped 2½c per bushel, July 1¼c, September 1⅝c and December 1½c. There was no demand for the cash article, and the fact that St. Louis reports new wheat already threshed in the Southwest weakens the position of the July line. The circumstance that a lot of Letter wheat is being rushed to Paris to anticipate the re-imposition of the French import duty, seems to have no effect on the market. The general outlook for the growing crop is so bright that damage scares have so far had little effect, hence the weakness of the late options.

Wheat futures opened higher in Liverpool this morning, and, though weaker late in the day, closed at an advance of ¼d to ⅝d over yesterday. Spot wheat declined 1d to 3d. On the Paris market to-day, June wheat went off 25 centimes and September wheat rose 20 centimes. At the same place, June flour fell off 1f 85c, while September flour rose 1f 30c.

Toronto Grain and Produce.

Flour—Quiet. Straight rollers in barrels, middle freights, are quoted at $4 to $4.15.

Wheat—There is no export demand, but a little trade is being done with millers, with Ontario red at 80c to 81c, white at 76c west and goose at 73c west. No. 1 Manitoba hard is quoted around 95c afloat at Fort William.

Oats—White quoted at 27c to 28c west.

Barley—Nothing doing and prices nominal.

Bran—Sells at $9 west and shorts at $12.50 west.

Corn—Canadian, 33c west and 40c on track here.

Rye—Nominal.

Buckwheat—Nominal.

Peas—Quoted around 59c north and west.

Oatmeal—Car lots of rolled oats in bags on track at Toronto, $4; in bbls., $4.10.

Toronto St. Lawrence Market.

Wheat steady, 300 bushels selling as follows: White 75c to 78c, red 82½c to 83c, goose 70c.

One load of rye sold at 40c per bushel.

Oats steady at 32c to 33c for 300 bushels.

Hay dull, 30 loads selling at $6 to $8 per ton.

Straw sold at $5 to $6 per ton for four loads.

Dressed hogs, prices firmer at $6.75 to $7 per cwt.

Dressed meats slightly firmer in some instances.

Toronto Live Stock.

The receipts of live stock at the Cattle Market to-day were fair—64 loads—composed of 1100 cattle, 650 sheep and lambs, 100 calves and 1200 hogs.

The fat cattle were of better quality than on Thursday. Trade was fair, not quite so brisk as on Tuesday, and prices remain about the same for first-class stall-fed export and butcher cattle. Grassers were plentiful and cheaper.

Export cattle sold from $4.50 to $4.80, with one or two loads going 5c higher; the bulk of exporters sold from $4.55 to $4.70 per cwt.

Bulls, light export, sold at $3.50 to $3.90; heavy, $3.75 to $4.

Loads of exporters and good butchers' mixed, stall-fed, $4.40 to $4.55.

Butchers' cattle, choice picked lots, stall-fed, $4.45 to $4.55; loads of good stall-fed, $4.50; medium stall-fed, $4.30 to $4.40; common stall-fed, $4 to $4.20; middling and inferior stall-fed cows, $3.50 to $3.75; very inferior rough cows and bulls, off grass, $3.12 to $3.35.

Prices for feeders and stockers remain unchanged.

About 25 milk cows sold at $25 to $42 each, with an average of about $33 each, but few good cows were offered.

Calves sold at $3 to $6 each, with a few heavy weights and choice selling at $7 and $8 each.

Sheep deliveries were larger than for some time past; prices for ewes and bucks remain the same, while yearlings and spring lambs sold lower.

Ewes, $3 to $3.25; bucks, $2.50 to $2.75; yearlings, $3.50. Spring lambs sold at $3 to $4 each.

Deliveries of hogs were not heavy; prices remain unchanged at $5.10 to $5.20 for best selections; light fats, $4.50; heavy fats, $4.90.

East Buffalo Cattle Market.

East Buffalo, June 24.—Cattle—Receipts moderate and about all consigned through. The market ruled slow for the few on sale.

Hogs—Receipts moderate; fairly good demand for all grades of good hogs; market ruling stronger. Good to choice Yorkers, $4.10; light to good Yorkers, $4 to $4.05; mixed packers' grades, $4.15; heavy hogs, $4.17 to $4.20; roughs, $3.25 to $3.50; stags, $2.75 to $3.10; pigs, $3.40 to $3.90.

Sheep and Lambs—Supply fair, but not over heavy. Good demand for desirable stock, and full easy for only fair grades of spring lambs, while for sheep of all kinds the demand was exceedingly good. Yearling lambs, choice to extra, $5.50 to $5.60; fair to good, $5.15 to $5.40; culls to common, $4.25 to $5. Native clipped sheep, choice to selected wethers, $4.80 to $4.90; good to choice mixed sheep, $4.50 to $4.75; common to fair, $4 to $4.40; culls to common sheep, $3.25 to $3.85.

Cheese Markets.

Perth, Ont., June 24.—On the cheese market to-day there were 1800 boxes of white, 700 of which were sold to Warrington. The remainder went to the other buyers. All was sold, price paid being 8c.

Iroquois, Ont., June 24.—At the cheese board 873 boxes were offered, and the price reached, 7⅞c, was accepted by some factories after adjournment.

Shelburne, Ont., June 24. At the Cheese Board here to-day a resolution was passed to sell on the board only on market days under penalty of being suspended from all privileges of this board. Eleven factories boarded 1325 boxes. Two factories sold 280 boxes at 7⅝c to D. Gunn Bros. Hodgson Bros. offered 7 9-16c on selections; the balance unsold. Whittington Butter Co. boarded 100 boxes butter, for which 16c was offered; not sold. This board meets again in two weeks, July 8. There were three buyers present.

Brighton, Ont., June 24.—Fifteen factories boarded 1105 white, 212 colored. Sixty white sold at 7⅝c to Whiton. Buyers present: Cook, Bird, Whiton and Bailey. Board meets again next Friday at 1 o'clock.

Sault Ste. Marie, Ont., June 24.—Every farmer is jubilant over the outlook of crops in general this year. So far everything is growing beautifully and promises are good for rich harvests. Although there have been a few frosts in this vicinity, no apparent damage has been done.

Kemptville, June 24.—There were 1148 cheese offered for sale to-day, most of which was disposed of at 8c. Buyers present: Bissell, Webster and How.

South Finch, Ont., June 24.—At the regular meeting of the South Finch Cheese Board, buyers present were, Pruner and Birdsell. Offerings, 1243 cheese boarded; 258 sold for 8c; balance unsold on board, factory men holding out for more.

Men, Women and children who are troubled with sores, humors, pimples, etc., may find permanent relief in Hood's Sarsaparilla.

Your Pulse.

Is it regular in its beat, or is it weak and intermittent? A weak pulse indicates a weak heart. Milburn's Heart and Nerve Pills is the great remedy for weak, palpitating heart—makes them strong and steady.

Impure blood is an enemy to health, and may lead to serious disease. Hood's Sarsaparilla conquers this enemy and averts danger.

BRACKETT'S BIG SCHEME.

Wagon Road Over Chilcoot Pass Is a Railroad Foundation.

New York, June 24.—George A. Brackett went to Alaska some time ago and built what was supposed to be a perpetual wagon road across Chilkoot Pass, but it appears that he had a deep-laid scheme back of this venture, which, it has just developed, is a line of railway for which his wagon road was simply the road bed.

Steel rails and ties have been delivered at Skaguay and the work of building the railroad is now in progress. There is a suspicion that either the Great Northern or the Canadian Pacific is back of the project and that Mr. Brackett is simply acting for the road that is really concerned in the venture.

Not a Murder at All.

Toronto, June 24. — Mr. Alfred B. Owens, Superintendent of Dr. Bernardo's home, denies that Johnnie Powell murdered the little lad Wheeler, and says that the coroner refused to hold an inquest as there was no evidence to show that the affair was not the misadventure of boys playing with a revolver.

Buck's Stove Works Burned.

Brantford, June 24.—A fire broke out at Buck's stove works shortly after 5 o'clock last evening. At one time it appeared as if it was going to be a serious conflagration.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $2,901.98, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6510.00, or a Life Annuity for $401.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

Yours truly,

The picnic in the beautiful grounds surrounding St. Joseph's Hospital is sure to be liberally patronized on the First.

Fourth of July Picnic.

Commodore Calcutt is sparing no expense to make his big Fourth of July picnic at Jubilee a success. The tickets are to be printed on cards upon which the American and English flags are draped together, and will be pretty souvenirs of the day.

Have You "Cute" Children?

Have their pictures taken while they are cute. Cuteness in appearance does not last forever, you know. I make a specialty of children's photographs—taken by the instantaneous process. Preserve the little one's pictures.—ROY, Photographer, Hunter street, near Post Office. 3d1w

Indian Relics for Museum.

Mr. J. B. McWilliams, Chairman of the Executive Committee of the Victoria Museum, has received for this institution from Mr. Alex. Brown, ex-Reeve of Burleigh, a number of Indian relics, curiosities in themselves, and worthy of a place amongst the historic relics of the county.

Information Wanted

Of the whereabouts of WALLACE MCINDOO, who left his home, 12th concession of Cavan, on the evening of Thursday, June 23rd. He is about five feet six inches high, dark complexion, full beard, about 38 years of age. He wore a light brown coat, dark pants and vest, light blue check shirt, long boots and straw hat. Is slightly deranged and has a habit of picking his fingers while walking. Any information regarding his whereabouts will be thankfully received by his father, Matthew McIndoo, Mount Pleasant Post Office, and anyone keeping him will be rewarded. 3d

The Last Week the Best Week.

This is the last week of the dissolution sale at Clarke & Gibson's jewelry store. The opportunity this sale has afforded for buying standard goods at very unusual prices, has been seized by many who may have felt restricted in their purchases at the regular selling figures. There has also been the assurances of reliability in purchasing, and this confidence in the integrity of the firm and general character of the stock has largely influenced sales. The last week of this sale at the reduced prices ends with June, so there still remains time enough for all who wish to avail themselves of the chances of bonafide bargains in jewellry, watches, clocks, silver plate and artistic novelties, which are embraced in this very large and exceedingly well assorted stock of handsome goods. It is not likely that a s milar opportunity will present itself for some time, and lovers of the beautiful in these lines of goods will miss very substantial advantages if the neglect to attend the remaining days of this sale.

Wrecked Again.

The older that Smith becomes the more tomfoolery he gets into. The office juvenile caught the old relic in a festive condition returning from a fishing trip down the lake, and inveigled him into trying the bike. First giving the youngster a resume of bike history covering the present century, he drew the wheel to the edge of the sidewalk, threw his leg over the saddle with a graceful swing, and instantly followed it with his entire carcase. After wallowing in the dust till he was nearly smothered, he pulled himself together and gave the juvenile an illustrated lecture on equilibrium and gravity. Then the kid got him on again, and gave him a start. Doubled up like a wooden monkey over the end of a stick he took three wabbles, two skips and a scoot into the ditch, the wheel striking him at every point not rasped by the road. When the youngster called time, the old un straightened himself out, and more than nettled that his theories on equilibrium should work out so disgustingly, he mounted once more. This time the kid held him for a few paces, and then with an encouraging shout to strike for Home and country, let him go. He struck. So did the wheel. One leg struck for Home, the other for the country, and the bike for Hong Kong. That was the end of it. The medical attendant thinks he will be out in a few days.—Bobcaygeon Independent.

A despatch from Madrid says:—Senor Castelar says that a chapter of surprises and of decisive events in Spain, will open with the close of the Cortes and the fall of Santiago and Manilla.

Cervera's Report Brings Consternation.

The news from Santiago, especially the distressful telegram received from Admiral Cervera, reporting the situation as critical, has caused consternation. The Queen burst into tears when informed today of the condition of affairs there. The leading generals consider the situation here very grave.

British Warship Under Orders.

London, June 25.—The British first-class battle ship Illustrious sailed this morning for Lisbon, Portugal, under sudden orders received last night to protect British interests there in view of possible war developments.

Blanco's Report of a Battle—United States Troops Repulsed.

Madrid, June 25, 2 a.m.—The official report of Captain-General Blanco on the recent fighting near Santiago de Cuba, says:—Three hundred Americans attacked the Spaniards near Sibonez and Sevilla. The Spaniards had three men killed and three wounded. The Americans then attacked General Rubon's camp but were repulsed, the Spaniards pursuing them and taking possession of their ammunition and clothes. The American warships have bombarded Casilda.

Ten U. S. Soldiers Killed—Forty Wounded.

Washington, June 25.—The first despatch from General Shafter concerning the engagement between the Spaniards and American forces reached the War Department at noon to-day. He says further news from General Wheeler places our loss in this morning's firing about ten killed and forty wounded. The Spaniards occupied a very strong and entrenched position on a hill. The firing lasted about an hour and the enemy was driven from their position, which is now occupied by our troops about a mile and a half from Sevilla. The enemy has retired towards Santiago de Cuba.

A Sea Serpent.

On Saturday last while the steamer Sunbeam was leaving Bobcaygeon the crew noticed a commotion in the water a short distance from the boat. One of them started out in a boat to see what it was, but was seen hurrying back again, and when he arrived at the boat was in a terrible fright. He stated that the thing he had seen was as big as a log, and had two horns on its head about half a foot long. The boat was unable to see what it was but the last sight seen of it it was throwing up the water at a great rate. The crew was of the opinion that it was a big lake serpent. It was the first seen this season.—Lakefield News.

Embezzlement.

Henry and Charles Crawford, Manvers township, are awaiting trial in Cobourg on a charge of embezzlement. The story is this :—Some few weeks ago Mr. George Gibson had his house and contents burned. This placed the family in destitute circumstances. The Crawfords are neighbours of Gibson, and they took it upon themselves to solicit donations of money, provisions, etc. They made a complete canvas of the townships of Clarke and Manvers and many of the farmers contributed liberally. Gibson claims that the Crawfords appropriated the greater portion of the stuff collected for their own use and so had the brothers committed for trial.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

Not a player should miss a practice next week as the senior team must be in the pink of condition to play its game against Perth on the P.A.A.A. grounds on the morning of the First.

Have you one of those little diamond shaped cards in your hat? You're not in it without one.

The Hastings lacrosse team still smarting under the sting of the defeat administered to them by Peterborough Juniors at Jubilee Point a few weeks ago, took their revenge yesterday when they defeated them by the score of 7 0. The Hastings team had the local team advertised as Peterborough's senior team and had strengthened themselves for the occasion. The first five games were taken by Hastings in 3 minutes. The Peterborough defence being unable to cope with the Hastings home, who played a pretty combination game. During all this time the Peterborough home had not a single opportunity of scoring so it was thought better to change the positions of some of the players, Robinson was taken from goal and placed at point. Harry King going between the flags. Dolan and Main exchanged positions and Galley and Rickey were brought back to the defence side, Hogarth and Wilson going on the home. After this the Peterborough team appeared to pick up and had several opportunities of saving a whitewash, but luck was not with them and after 35 minutes of hard play, Hastings again scored. The last game was much the same as the one before, the game being evenly divided and some pretty combination work was done on both sides. Peterborough worked hard to score a game and time and again they brought the ball down to the Hastings flags but they did not appear to be able to shoot accurately and the ball would be transferred to the Peterborough end of the field but the defence was wide awake and playing a strong game. However after 25 minutes play the ball striking Robinson and glancing off rolled through the flags scoring the last game for Hastings. The teams and positions :

NOTES.

The Hastings grounds were in poor condition, and the local boys sustained more bruises and cuts through that source than by rough work on the part of their opponents.

McClelland and Hogarth played hard games.

The Hastings home have a first class combination and worked it to advantage yesterday.

The boys were treated well in Hastings yesterday and intend to reciprocate when Hastings plays the return match here, which will likely take place before the first or second week in July.

HALIBURTON GOLD.

What a Correspondent From the Northern Village Says.

Our gold mine in the village has been developed to a sufficient extent to establish its value. The extent of the vein of quartz has been ascertained to be very great, and its richness has been proved by tests. These facts having been proved, nothing more will be done until steps are taken to work the mine systematically by means of machinery. A ten stamp mill will probably be erected, The evidence leads strongly to the belief that similar veins of quartz are distributed throughout the entire district. It is quite within the range of possibility that this village may become the centre of one of the greatest gold mining industries in America.

SOME BICYCLE TALK CONCERNING THE MEET.

THE ENTRIES WHICH HAVE BEEN RECEIVED.

Canada's Fastest Flyers to be Here—The Prizes to be Displayed in Fairweather's Window.

The success of the Dominion Day bicycle races is assured, providing the weather is fine, as the list of entries in the different events already surpasses the most sanguine expectations of the committee. Not some, but all of Canada's best racing men are pledged to be present. In the professional one mile championship there is F. Westbrook, H. Davidson, C. W. Richards, Angus McLeod and T. B. McCarthy, also H. Carman, of Morrisburg; W. Blackwell, of Windsor.

These riders are also entered in the professional half mile championship and the half mile open, mile open, five mile championship and two mile handicap.

In the tandem (professional) the teams are Westbrook and Davidson, McCarthy and McLeod.

The amateur events are also to be well patronized. In the amateur mile championship there is Alf Sheritt, R C Axton, Allen Muir, Lawrence Smith, of Brantford; P W Barnes, Hamilton; T H Moore, N S French, Bert Coleman and Dave Wilson, Robt Mulhall and W C Baldwin, of Ottawa.

Amateur half mile championship brings out the same riders, as does also the amateur mile open. five mile amateur championship, the 2 40 class race and the amateur half mile.

The amateur two mile handicap, open, brings out a swarm including A C McKeand and John Butterfield, Hamilton; R E Axton, Allen Muir and Lawrence Smith, Brantford; Stewart T Reid, London; Robt Mulhall and W C Baldwin, Ottawa; David Wilson and T H Harrington, Toronto; J D Highley, Blythe.

The amateur one mile novice, in which all are interested, will bring out A C McKeand and John Butterfield, Hamilton; Bert Coleman, F A Harrington and W G Ashley, Toronto; Stuart T Reid, London; T D Highley, Blythe.

The amateur two mile championship tandem is to be contested for by Alf Sheritt and mate; Wilson and Mulhall, of Ottawa; Stockhouse and Baldwin, of Ottawa.

In the amateur team race there are entered the Crescents of Hamilton, the Torontos of Toronto; Wilson, Mulhall and Baldwin of Ottawa; and the Brantfords of Brantford.

The Oshawa men are going to be represented in great force. They are coming in a special car and bringing a band with them. A telegram was received yesterday asking that 50 seats be reserved for them in the grand stand. The Oshawas announce their intention of capturing the pennant awarded to the best representation in the parade. As fun makers they expect to outshine the Toronto clubs.

The gold medals for the professional and open events have been finished by Messrs. Clarke & Gibson, and will be on exhibition for the next few days in their window. The designs are most chaste and beautiful. Next week the entire list of prizes will be displayed in Fairweather & Co's window.

The Cleveland tandems, triplets and quads, to be used in pacing, will be here on Monday with the men who are to ride them. A lot of the outside riders arrive on the same day.

It has been decided by the officials that no vehicles will be allowed on the grounds on the race days, as with such a crowd of people as are expected, an unmanageable horse might spoil the days amusement for a good many. The magnificent grand stand has been erected at a cost which allows of no profit in the seats at 25 cents each. Cost has not been considered in making it substantial.

The accommodation will be sufficient for all visitors to the town. Private residences have been thrown open with the greatest readiness, which will relieve the hotels of over-crowding. Hundreds have applied for rooms and all have been supplied with a celerity which promises comfort to every visitor to Peterborough on July 1st, 2nd and 3rd.

The Trips Committee have made all arrangements for showing the visitors a good time. The Crandella is to take a jolly crowd to Bobcaygeon on Saturday afternoon. The boys will wheel to Chemong.

The Athenaeum band promises to carry everything before it in the way of fun-making. It not only plays in the morning for the parade, but monopolises all the time between the races in the afternoon with music and a variety show.

The Orillia, Beaverton, Bobcaygeon and Oakwood Bicycle Clubs arrive in Lindsay Thursday evening and accompanied by the Lindsay club, leave that town for Peterborough on the morning of the First at six o'clock.

Mr. J. S. Knapman has returned from Toronto and states that the utmost enthusiasm prevails in the city in regard to the Meet.

"Cullie" Ross has undertaken to select the costumes in Toronto to be used in the Friday morning parade. The Cleveland bicycle people guarantee to have thirty costumed riders in town. The Hamilton Crescents write that thirty-five of their members are coming to Peterborough and are bringing a couple of funny coons along. Their costumes consist of very gaily and fantastically decorated hats and they say the town will know it when the Crescents drift in.

Mr. R. M. Roy has been appointed official photographer for the Canadian wheelmen and has been instructed to take the finishes of the principal races on Dominion Day.

The Only One in Peterborough.

Ours is the only bake wagon in town which takes out a full supply of Baker's and Home made Bread, all kinds of nice buns, jelly rolls, cookies and cakes. Stop the wagon and you'll save a lot of trouble this hot weather.—WALTER BATES, Proprietor.

WEDDED IN COBOURG.

Both Bride and Groom Well Known in Peterborough.

A very pretty wedding took place at St. Michael's church, Cobourg, on Tuesday morning at 8 o'clock, when Miss Jane McCabe of Los Angeles, sister of Mrs. Geo. Plunkett of Cobourg, was married to Mr. Richard Christopher of Port Hope.

The charming bride was gowned in ivory white duchess satin with tulle veil and the regulation orange blossoms and wore a diamond pin, the gift of the groom. She carried a beautiful bouquet of bride's roses and ferns. Miss Dulce McCabe, also of Los Angeles, assisted her sister. She wore a very pretty costume of organdie muslin over pink taffeta, and large picture hat. For ornament Miss McCabe wore a splendid star of pearls, the gift of the groom. Pink roses and ferns composed the bridesmaid's bouquet. The flower girls were Mr. and Mrs. George Plunkett's little daughters, Misses Genevieve and Anna. They looked dainty and sweet in dresses of cream and green silk with pretty picture hats and carried baskets of beautiful pink and white carnations. The groom was supported by his friend, Mr. P. J. Carey. The ushers were Mr. J. B. McColl and Mr. Bert Drvidson of Port Hope.

At the conclusion of the wedding ceremony, performed by Rev. Father Murray, the wedding party repaired to the Queen's Hotel, where Mr. and Mrs. Plunkett entertained most enjoyably about fifty guests. The immediate relatives and intimate friends of the bride and groom made up the merry social party. The dejeneur was elegantly served and toasts, best wishes and congratulations came next in order, ere the newly-married couple said good bye. The wedding trip will take in Montreal, New York and other points. Upon their return Mr. and Mrs. Christopher will make their home in Port Hope. Quite a number of the elite from Port Hope were attendants at the wedding.

Many beautiful souvenirs of the occasion and of the love and esteem of her many friends and relatives will grace the bride's pretty home in Port Hope, for the wedding gifts made a most wonderful and bewildering display.

Miss McCabe was for some years a pupil at the Convent of the Congregation de Notre Dame in Peterborough, and has a host of friends in town, as has the groom, who has visited here on numerous occasions.

WEDDING BELLS.

Nuptials of Miss Florence Foster and Mr. W. Daniel Edwards.

A happy event took place at the residence of Mr. Geo. Armor, Lakefield, on Wednesday evening last, when Miss Florence Foster was united in marriage to Mr. W. Daniel Edwards, the ceremony being performed by Rev. Geo. Warren, of St. John the Baptist church. The bride was attired in a pretty dress of white, trimmed with cream, and carried a bouquet of cream and pink roses. The bridesmaid, Miss Annie Edwards, sister of the groom, wore a costume of mauve, trimmed with cream silk and lace, and the maid of honour, little Miss Gertrude Armor, was dressed in pink cashmere. The groom was supported by Mr. Harry Smith. After the ceremony the assembled guests sat down to a sumptuous wedding breakfast, the tables being very prettily decorated with flowers, and the dinning room with vines, evergreens, etc. The bride was the recipient of many handsome presents, tokens of the respect and esteem of their many friends. The happy couple start out in wedded life with the best wishes of a large number of friends.

CHARLOTTE STREET CHOIR PICNIC

A Pleasant Day's Outing Spent Down the Otonabee.

The first picnic under the auspices of the Charlotte street Methodist church choir took place yesterday on the steamer City of Peterborough to Jubilee Point and Idyl Wyld.

Over a hundred and fifty enjoyed the excursion and all speak of the picnic as being a most enjoyable one.

The weather at Idyl Wyld was a little rough for fishing or boating but the excursionists amused themselves in various other ways.

At Idyl Wyld and Jubilee they met an excursion from Bewdley, and also one from the Masonic Lodge, of Keene. A scratch band was gotten by Mr. Walter Wesley which entertained the day with various selections, and the time on the boat was most enjoyably spent in singing and listening to the music.

So pleasant a time did the excursionists have that it was decided to continue annually the choir picnic, and as years roll on there is no doubt that this annual outing will become one of the most popular reunions of Charlotte street church choir and congregation.

Those who patronized the picnic speak in terms of the highest praise of the efforts put forth by the members of the choir to make the day a pleasant one. The choir appreciated the kindly assistance lent by Capt. and Mrs. Lane and the crew of the "City" to make the occasion pass of successfully.

DECORATION DAY.

The usual decoration services take place on the evening of Tuesday next, June 28th. All Oddfellows are requested to meet at the hour of 6 p.m., sharp, at the Central Park and proceed thence to the cemetery, where short speeches will be delivered, by the ministers of the town, after the completion of the decoration of the graves. Parties having flowers to donate will please leave them at the Oddfellows' hall as early in the day as possible. Visiting brethren are particularly invited to take part on the occasion.

LECTURERS.

Rev Algernon S Crapsey, D D, Rochester, N Y.
Rev Wm Clark, M A, LL D, Trinity University, Toronto.
Rev Chas H Brent, M A, Boston, Mass.
Rev T C Street Macklem, M A, St Simon's church, Toronto.
Rev Geo Warren, M A, Lakefield, Ont.
Rev A G Dann, B A, St Paul's cathedral, London, Ont.
Rev J C Roper, M A, New York City.

EVENING CONFERENCES.

1.—The conduct of Divine service by Clergymen.
2.—Organized work amongst men.
3.—Systematic Instruction in the Sunday School.
4.—The promotion of Congregational worship.
5.—The Clergyman's work with Individuals.
6.—The Clergyman's Studies, Difficulties, Opportunities and Responsibilities.

The general excellence of the course of lectures may be observed by the recognition among the lecturers of such names as Rev. Prof. Clarke, M.A., LL.D., Trinity University; Rev. Algernon Crapsey, of Rochester, N.Y., and Rev. Chas. H. Brent, of Boston, Mass. Mr. Brent has been a student in a most practical way of the questions of social concern, and from his experience in a Boston parish much helpfulness may be anticipated from his lecture.

Rev. J. C. Roper of the General Theological Seminary, New York, is so well known to all Canadians that observation on his course of lectures is unnecessary.

The school will be held at the residence of Rev. A. W. Mackenzie of Lakefield, who has most generously placed his entire establishment at the disposal of the Managing Committee. A number of clergy from east and west have accepted the invitations issued by the secretary, and have intimated their intention of being present.

In connection with the school, arrangements will be made for visiting clergy to preach at different points in the vicinity. Rev. Chas. H. Brent of Boston, above referred to, will preach in St. John's church on Sunday morning, July 10th, and in St. Luke's church on the evening of the same day. At the Stony Lake pavilion, Juniper Island, a large attendance may be expected to hear the address by Rev. Algernon S. Crapsey, of St. Andrew's church, Rochester N.Y. Mr. Crapsey is one of the best known and most successful preachers in the United States, and is not only taking the larger share in the lectures at the school, but has also kindly consented to preach in the pavilion on Sunday.

Services will also be arranged for the Chemong Park Pavilion and other local points.

FOR MEN.

The following meetings for men will be held at the Y. M. C. A. :

Mr. T. E. Baker will lead the meeting to-night at eight o'clock.

The General Secretary will have charge of the men's meeting on Sunday at 4 15 p. m.

Last evening Master Herb Wood gave an interesting address at the boys' meeting. The study of the character of Absalom was the subject.

THE DR. WARD CO., Toronto.

GENTLEMEN,—It gives me pleasure to endorse Dr. Ward's Blood and Nerve Pills. For years I have suffered from weak action of the heart and my nerves were treacherous. I was irritable, worried, easily alarmed, and suffered greatly at times, but since taking your Blood and Nerve Pills I have felt splendid. My nerves are strong and I am free from distress and have had no trouble with my heart since using your Blood and Nerve Pills. I gladly recommend these pills to all those who suffer from any heart or nerve trouble.

GOES TO THE PEOPLE.

To Hamilton Taxpayers to Decide for or Against the Purchase of the Street Railway.

Hamilton, June 24.—The Finance Committee last evening considered the important matter of the city's purhase of the street railway. Ald. Carscallen, the chairman, favored a referenduin to the ratepayers and a recommendation on that line was submitted, including two questions, which, after some additions, were finally agreed on, as follows: 1. Shall the city now purchase and operate the Hamilton Street Railway? 2. If the city do not now purchase the Hamilton Street Railway, should the Council extend the franchise of the company for 15 years, that is, until 1923, when the other existing franchise of the city electric railway expire?

CORNELL DEFEATS YALE.

The Winning Boat a Length and an Eighth Ahead at the Finish.

New London, Conn., June 24.—The big triangular boat race between the crews of Harvard, Cornell and Yale Universities, which had to be postponed on account of bad weather, took place on the Thames River yesterday. The start was made at 12.37.02. Cornell took the lead at the half mile mark, closely pressed by Yale, with Harvard in the rear. They finished the race in this order, Cornell winning by a length and an eighth over Yale. Cornell's time was 23.40. The race was over a four-mile course.

A GLOBE REPRESENTATIVE

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

Toronto, June 20.—(Special).—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parnham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

German Marines Will Land.

London, June 24.—The Washington correspondent of the Daily Chronicle says:

"Dr. Von Holleben, the German Ambassador to the United States, has arranged for the landing of German marines at Manila to protect the German Consulate, if necessary, with American permission."

An Official Contradiction.

Washington, June 24.—The German Ambassador called on the Secretary of State yesterday, and assured him there was no truth in the report sent out from London that German marines had landed in Manila in advance of the occupation of the towns by United States troops. He also denied the intentions attributed to Germany as published in the London Daily News.

Admiral Camara Going East.

Palermo, June 24.—The Giornale di Sicilia publishes a despatch from the Island of Pantellaria, southwest of Sicily, announcing that Admiral Camara's squadron, consisting of seven warships, including three torpedo boats and convoying five transports, passed there on June 21, going in the direction of Suez.

FIELD GUNS IN WAR.

THEY ARE THE FAVORITE WEAPONS AMONG MILITARY MEN.

These Long Range Death Dealers Can Be Fired With Great Rapidity, Are as Accurate as Rifles at Their Range and Exert Tremendous Energy.

The betterment of the modern field gun is fully equal to the development of other branches of military armament. It has been especially rapid within the last dozen years. The work of specialists and the results of extended tests have ended in the production of a weapon of great accuracy and of titanic force. The field gun of today is the favorite weapon of the military man, and he expects from it some very remarkable demonstrations when opportunity to use it occurs.

Napoleon is credited with the remark that Providence is always on the side of the heavy artillery, but the artillery which Napoleon knew was not worthy to be mentioned on the same day with the light, graceful and deadly arm with which the moderns are prepared to do slaughter. The first great step forward was taken when the breechloading action was invented. Well known scientific rules of boring and the improvement in projectiles and powders have done the rest. The field gun now in use by the powers is as accurate at its range as a rifle and has tremendous energy.

The United States has no better field guns than those with which the armies of Germany and France are armed, but they are every bit as good. Like our other ordnance, they are all made on this side of the water. The American manufacturer yields to no one in ability to make a perfect weapon. Indeed many of the chief improvements in field guns and in the larger sizes, sometimes called "siege" guns, are the products of American brains.

The field guns of the United States army are made at Watervliet, N. Y., just as the large guns for the navy and for coast defense are turned out at Washington. They have a caliber of a little more than three inches, are, of course, breechloading, are rather lengthy for their width and are lightly but strongly mounted. They use a pointed shell which explodes either on concussion or by time fuse, generally the former, and are fired with great rapidity.

Each gun of a battery is in command of a lieutenant, who, under the eye of his superior, sights it and directs its working. He has his elevation, depression and wind gauge formulæ at his fingers' ends, and with him good shooting is mainly a question of care. The powder used in these guns is of the smaller grained brown hexagonal kind, though the pheroidal is preferred for some calibers.

The recoil of this gun on level ground is 26 feet, with the wheels unlocked. With the wheels locked it recoils five feet, and is run forward and resighted very swiftly. Its point blank range is 2,200 yards. It can be made effective at a much greater distance, of course, but officers prefer that range for accurate shooting.

It fell to me some seven years ago to report the first field trial given the Watervliet guns. Three of them were sent to Fort Sam Houston at San Antonio, where Light Battery F, Third artillery, was stationed under command of Major James B. Burbank, a most capable officer, now attached to the staff of the governor of New York. Major Burbank was instructed to try them out thoroughly, and for this purpose selected an ideal range on Ganahl's ranch, 60 miles north of San Antonio.

The guns were planted in line and 20 feet apart on the side of a green hill and pointed across a shallow valley. On the opposite hill, 2,200 yards away, a tent fly was put up as a target. It was 15 by 9 feet in dimension and was stretched on two poles. At that distance it looked like nothing in the world so much as a man's pocket handkerchief. One shot was fired as a range finder, and that shot proved the range was found. Then the work began.

For half an hour these guns pitched shells through or under or over the target, according to the firing directions, with as much accuracy as a man would use a Winchester rifle at 100 yards. The work was done with the precision of a clock. There was the rush of the piece into its first position, the quick command to load, the rapid aim and discharge, the faint scream of the shell, the puff of smoke and dull report as it struck and the dust rose up in a pillar.

When it was ended, we rode across the valley and up the opposite slope to the spot where the tent fly had stood. Bits of it lay about here and there. One of the poles was bitten short off. For 50 yards below the other pole, for 50 yards on either side of it and for 100 yards above it the earth was not plowed—it was harrowed. An ant could not have lived on the ground.

It was not difficult to imagine what would have become of an opposing force. Men and horses would have been dead and all guns dismounted in five minutes after the firing began. There could have been no better illustration of the absolutely fatal character of these pieces. It was found that they did not become unmanageable through heat, that the breech mechanism displayed no sign of strain, that the recoil was not greater than was calculated and that accuracy was as perfect with the last shell as with the first. These findings were reported to the Washington authorities, and the manufacture of the guns went on. The regular army is now thoroughly supplied with them.

A SOLDIER'S STORY.

Serving his Queen, in Various Countries, he Fell a Victim to Rheumatism.

Suffered Unspeakable Torture for Many Years—Every Remedy Failed Him, till he Used Dodd's Kidney Pills—They Cured Him.

Windsor, June 24.—"I have suffered for many years from chronic Rheumatism," writes Mr. F. G. Fenton, of this city. "I have seen active military service on different occasions, in different climates, and the hardships I have borne sowed the seeds of disease in my system, and nourished it till it had me completely in the toils. I went through the North-West campaign, 1885, and after my return home, I thought I would never be of use again.

"My sufferings were past the power of words to describe. Every joint was a furnace of fiery, burning pain. Every movement seemed to tear my flesh asunder. I used remedy after remedy, but always with the same result—Failure.

"Finally, thank God, I was advised to use Dodd's Kidney Pills. I did so, and the result is told in three words—THEY CURED ME.

"I have served in the 33rd (British) Regiment, through an Indian campaign, and in No. 2 Co. R. R. C. I., and my comrades in the latter corps can vouch for the truth of these statements."

Mr. Fenton is a man who has earned an honourable record in the service of his Queen and country. He knows whereof he speaks and his word cannot be doubted. Is not his experience with Dodd's Kidney Pills enough to prove beyond dispute that Dodd's Kidney Pills are the one, the only cure on earth for rheumatism?

Dodd's Kidney Pills are sold by all druggists at 50c. a box, six boxes for $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto, Ont.

Trouble in Newfoundland.

St. John's, Nfld., June 24.—The situation between the French and British fishermen on the west coast of Newfoundland is growing critical. The settlers along the coast are combining to resist French pretensions, and are refusing to leave the fishing grounds unless forced by the warships. Intense indignation has been created by the action of the British warship Pelican in confiscating lobsters packed by Newfoundlanders. The Government will urge the delegates now in England to influence Lord Salisbury with a view to a cessation of these vexatious confiscations.

Baroni Is the Murderer.

Buffalo, N.Y., June 24.—Mrs. Baroni, wife of Antonio Baroni, last night made a confession to the police to the effect that it was her husband who had murdered Phillipo Forestano on Monday last, and had afterwards sawed the victim's head and legs off, placed the remains in a trunk and tried to sink them in the canal.

There are three periods in all life—the time of the bud, of the flower and of the perfect fruit. It is thus that girlhood emerges into womanhood and womanhood into motherhood. Almost all of the ills from which women suffer have their inception in weakness and disease of the feminine organism, which bears the burdens of wifehood and motherhood. These disorders usually begin with puberty, childbirth or with the "turn of life." Thousands of women suffer silently for years in this way, rather than undergo the examinations and local treatment insisted upon by the majority of physicians. This is unnecessary.

An eminent and skillful specialist, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., long since discovered a wonderful medicine that will cure all troubles of this nature in the privacy of the home. This medicine is known as Dr. Pierce's Favorite Prescription. It acts directly on the delicate and imporant organs that make wifehood and motherhood possible. It makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and tones up the nerves. It banishes the indispositions of the period of impending maternity, and makes baby's advent easy and almost painless. It transforms weak, sickly, nervous invalids into happy, healthy wives and mothers. All good medicine dealers sell it, and no honest dealer will urge a substitute upon you.

Dr. Pierce's Pellets cure constipation.

A DRINK OF WATER.

IT MAY CARRY DISEASE UNLESS THE FLUID IS BOILED.

Methods by Which This May Be Accomplished Without Destroying the Taste of the Liquid—The Absorbent Qualities of Water.

Every housewife should make it a point to see that her family are supplied with boiled water to drink, boiled water in their food, if in any way it is used. Every person who lives or eats in town should try to know that she or he drinks only boiled water, but, oh, how hard this is when one boards or takes meals at the cafes and restaurants of the town.

There is a science in cooking water that few know or even guess. We content ourselves by grumbling at the "flat" taste, the "queer twang," the almost "oily feeling" of the water as we swallow it, and half of us try to substitute melted ice in place of the cooked water as our mainstay in the fluid world of the epicure.

This substitution is all wrong. Ice may not be purer, freezing does not kill microbes, nor does it disable germs. Fire, cleansing, purifying fire, is the only thing that will throttle incipient disease in the germ form, be it lurking in water or in clothing. In the one we may boil the harm away; in the other we must burn it away and lose the things in toto but for our chemical burning—in other words, fumigation.

Is there any one in the intelligent world who would wilfully and knowingly put on the clothes of a scarlet fever patient before they were purified? No. Still there are thousands of us who do deliberately drink up the water supplied us by the city, knowing it to be bad, probably disease laden, without the least effort to protect ourselves against the evil results.

For perfect boiled water you need a perfectly clear receptacle. Glass is the best. If you have a two quart bottle, fill it two-thirds full and cork it. Then heat it in water, of course, until the water within it is boiled and stand aside uncorked to cool.

So far this is very simple. The water within the bottle is pure; but, oh, how flat and tasteless, how unsatisfying! It is boiled, but it is not ready to be used. Take the bottle outdoors and uncork. Let the fresh air slowly fill in over the water; then cork and shake. You must repeat this operation several times, until the once lifeless water is thoroughly aired. That is one of the secrets. Boiled water is flat because the air is forced out of it, and in all moving water air is very largely present.

"But if you let the air in you fill it up with germs again," objected one woman when this recipe was given her.

Quite true, you do, but consider. The air you introduce into the water is the air you are introducing into your lungs, your blood, every nook and cranny of your being at every breath. Air, outdoor air, except in very rare cases, is health giving more than it can be harmful, and if you wish sweet, sparkling, thirst quenching water to drink at your meals, you must take the trouble to make it, just as the bread and the meats are regularly prepared.

That is recipe No. 1, the best and simplest—boil the water in a corked bottle two-thirds full and then admitting air shake several times.

In cases where a large quantity of water is needed the bottle recipe is too limited and another way is advised. Take a new tin pail or one of granite ware and fill with water. Boil it at a time when there is nothing else cooking in the kitchen. That is an absolute essential to the success of the operation. If you boil drinking water on Monday while the odor of suds is in the air, do not be surprised at a horrid soapy taste in your water at the table. That greasy quality so often found in boiled water is simply the proof that it was boiled when the doughnuts were being made or the sausage fried. Water is a veritable sponge in an inverted sense; it sucks up the surrounding atmosphere as does the sponge water that comes within its reach. So it is that if you wish tasteless water you must boil it when there is no taste in the air, so to speak. Again, the airing process must be gone through to make the water perfect, but as it has been boiled and cooled in the air, this water will not need to be shaken so much as does that cooked in the closed bottle. In this feature of this process it is simpler than the other method, but remember it takes the kitchen all to itself for the boiling—no scrubbing or sweeping or cooking of any kind and a well aired room are its requirements.

In speaking of water and its absorbent qualities it is in order to mention a fact that is too often utterly overlooked. It is that water that has stood overnight is seldom fit to drink, and that if it has been standing in a sleeping room it is positively bad, filled with the exhalations of the sleepers. It is in this quality a real disinfectant. If in case of illness water is stood in a room and constantly changed, many of the disease germs are absorbed by it and thus got rid of.

Simple as this question it, it shows most plainly in the fact that difficulty is experienced in handling it that there is a right and a wrong way of doing everything. The right way to boil water has been explained, and if the receipts are enforced by the individual interest of the mistress of the house success must be the result. Boil all drinking water. It is a little trouble, but not a hundredth part so hard as to nurse your husband through an illness or to be ill yourself. It is a big saving of time in the end.—Philadelphia Times.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

SUFFERED FOR YEARS.

Joints and Limbs Were Swollen Three Times Their Natural Size—The Sufferer in Bed for a Year and a Half.

From the Echo, Wiarton, Ont.

Mrs. Wm. Thew, who is well known in the town of Wiarton, was a sufferer from heart trouble and articular rheumatism for a period of fifteen years. Lately her condition has so much improved that a reporter of the Echo called upon her to ascertain to what cause the change was due. Mrs. Thew, while not courting publicity, consented to give a brief statement of her case in hope that some other sufferer might be benefitted. She said:—"My joints were all swollen up to three times their natural size and for a year and a half I was unable to leave my bed. I secured medical treatment and the doctors told me I would never be able to walk again. I took medicine they prescribed, but it failed to give any relief. I took patent medicines, but they did not help me. Having noticed an advertisement in a paper for Dr. Williams' Pink Pills, I concluded to give them a trial and they gave me relief from the time I commenced using them about the first of January last. I have taken ten boxes. I am now able to go around without assistance and do all my housework." Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is inclosed in a wrapper bearing the full trade mark, Dr. Williams' Pink Pills for Pale People.

THEORY VERSUS PRACTICE.

Or, There Are Occasions When Politeness Counts For Nothing.

He was a country telegraph operator, young but ambitious, and had become enthused over reading a book entitled "Politeness as a Guide to Success."

He had reached that portion where it was related how old Bonds, the millionaire, had laid the foundation for his immense wealth by an act of politeness when an old woman tapped on the counter.

Putting the book hastily aside the young operator, with the career of old Bonds in his mind's eye, hastened to obey the summons.

"Young man, if I sent a message now, when will it get there?" asked the old woman.

"Where is it going, madam?"

"Well, it is going to Aunt Jane, if you must know!" snapped the old woman.

"Yes'm, and where does Aunt Jane live?" asked the operator, resolving to be polite at all hazard.

"Well, I never saw such impudence! I suppose you'll be wanting to know if Aunt Jane is married next. Well, she is, if that is any satisfaction to you. She has three children, wears glasses, belongs to the church and expects to make jam next week. Is there anything else that you wish to know, young man?"

"Yes'm," said the operator desperately, "I would like to know where Aunt Jane lives."

"Well, I never! Why, you miserable little upstart! I've a mind to come over there and spank you! What's that, young man? Swearing? I shall see that you are reported at once!"

The door banged and the operator went wearily back to his seat and, picking up the book he had been reading, threw it into the stove.

Fifteen minutes later when an old man came in and wanted to know when the 8:30 train left the operator heaved the contents of the coal scuttle at him and immediately wired in his resignation.—Detroit Free Press.

To Make Aspic Jelly.

Aspic jelly, which is still a terrifying name to many amateur cooks, is made in a few minutes and, if necessary, out of that emergency material, a jar of beef extract. A half box of gelatin is soaked for 20 minutes in four tablespoonfuls of cold water. Meantime in a saucepan is put a level teaspoonful of beef extract and a pint of hot water. In this is simmered a slice of onion, a bit of celery, a bay leaf and a few peppercorns. When the gelatin is dissolved, it is added, the whole strained and set away in a square rimmed basin preferably, in order that it may be easily cut up into blocks. A little of this garnishes cold meats or veal loaf and other potted or pressed meats, and is effective, too, around forms of salad. It is occasionally served with lettuce and a French dressing as a salad by itself.—New York Post.

A Doubtful Assertion.

Browne—They say that drowning men catch at straws.

Towne—Yes, but I doubt it. I've seen a number of men drown, and those of them who had any preference at all seemed in favor of a plank. In fact, I do not now recall ever having been asked for a straw by a gentleman who was drowning.—New York Journal.

After coughs and colds the germs of consumption often gain a foothold.

Scott's Emulsion of Cod-liver Oil with Hypophosphites will not cure every case; but, if taken in time, it will cure many.

Even when the disease is farther advanced, some remarkable cures are effected. In the most advanced stages it prolongs life, and makes the days far more comfortable. Everyone suffering from consumption needs this food tonic.

A CONFEDERATE CRUISER.

The Amount Captured by One Privateer In Eight Months.

Just what one little privateer can do has been revealed by the short career of the Confederate cruiser Shenandoah. She was actually cruising for the destruction of Union property but eight months, and during that time she captured and destroyed vessels to the value of $1,200,000, and the United States had never been able to direct a blow against her. She had visited every ocean except the Antarctic, covering a distance of 58,000 statute miles. She destroyed many whalers in the Arctic ocean. It was there that the last gun for the southern cause was fired. It was fired from the deck of the privateer cruiser Shenandoah by Commander James Iredell Waddell on June 22, 1865, just 74 days after the surrender of Lee at Appomattox.

Commander Waddell could not persuade himself to enter an American port and for some time aimlessly scoured the seas. In August, however, he spoke the English ship Barracouta, bound from San Francisco to Liverpool, and from her received conclusive evidence of the end of the war between the states. He resolved to seek an English port, and so on Nov. 5 the Shenandoah entered St. George's channel, having sailed 22,000 miles without seeing land. On Nov. 6 she steamed up the Mersey, and the Confederate flag having been hauled down by Commander Waddell, he sent a communication to Earl Russell, English minister of foreign affairs, placing his ship at the disposal of the British government. Through Earl Russell the vessel was transferred to the jurisdiction of the American minister, Charles Francis Adams, who caused her to be conveyed to this country to be dismantled.—Atlanta Constitution.

France and Uncle Sam.

The French papers are busily collecting instances of what they consider American unfriendliness toward France, in order to bolster up their campaign of hostility against the United States. The Figaro recently published George Bancroft's letter of congratulation to Bismarck on the result of the Franco-Prussian war, and follows it up with several other incidents of a like nature, among which is General Grant's telegram of congratulation to the emperor of Germany in 1870, and the fact that Victor Hugo refused to receive him on account of it during his visit to Paris several years later

THE TYRANT OF THE HOUSE.

While baby sleeps
We cannot jump or dance or sing,
Play jolly games or do a thing
To make a noise. The floor might creak
If we should walk. We scarcely speak
Or breathe while baby takes a nap
Lest we should wake the little chap.
A strict watch nurse always keeps
While baby sleeps!

When baby wakes,
But little gratitude he shows
When other people want to doze.
At night, when folks have gone to bed,
He rouses them all up instead
To wait on him. Ma lights the lamp
And warms milk for the little scamp.
Pa walks him up and down the floor,
Sometimes two hours and sometimes more,
And nurse comes running, in a stew,
To see what she for him can do,
And Will and Harry, at the row,
Call, "What's the matter with him now?"
And I'm waked up at all the clatter
To wonder what on earth's the matter.
Such uproar in the house he makes
When baby wakes!

So, if asleep or if awake,
The house exists but for his sake,
And such a tiny fellow he
To be boss of this family!
—Eva Lovett in Independent.

The Process of Elimination.

"What makes you think you would succeed in my business?" asked the merchant of the man who was willing to accept a salary.

"I am a philosopher," was the answer. "I firmly believe that nothing was made in vain. Therefore I must be good for something, and your business is about the only thing I haven't experimented in."—Washington Star.

BABY'S SKIN

Freed from all Eruptions, Made Pure and White by

DR. CHASE'S OINTMENT.

Mothers take a pride in having their Infants' skin of that delicate pink and white—soft as velvet. When torturing and disfiguring eruptions seize upon the little body, they want a remedy that will not disappoint nor fail. Time and again Dr. Chase's Ointment has proven itself a specific for all skin diseases to which babies are peculiarly subject.

MRS. CHAS. K. MOSS, of Berlin, Ont., had a little baby 6 months old, with itching sores on her body. Dr. Chase's Ointment cured her when everything else failed.

Another mother who holds Dr. Chase's Ointment in high esteem is MRS. JAS. BROWN, Molesworth, Ont. Her baby boy was covered all over the face, sides and hips with Eczema. The first application of the Ointment stopped the itching, and 3 boxes effected a complete cure.

These are but samples of the hundreds of mothers who are delighted with Dr. Chase's Ointment.

CAUGHT A HUGE 'LUNGE.

SEIZED A HOOKED BASS AND WOULD NOT LET GO.

A Rifle Ball Finished Him—Exciting Experience During an Early Morning's Angle in a Canadian Lake.

New York Press, Sunday, June 9th.

In last Sunday's Press the story of a man's experience with a sunfish and pickerel near Middletown, N. Y., reminds me of a similar, but much more exciting adventure I had with a huge maskinonge in Canada. And it was more satisfactory in results, too, as we managed to bring the monster ashore.

We were up in Mud Turtle Lake on one of our delightful camping and fishing trips. Mud Turtle is one of the long series of little lakes that stretch for 300 miles through the Trent from a point on Lake Ontario, near Kingston, northwest to the Georgian Bay. Most of the waterway traverses a wild country, making it ideal for camping purposes.

We were on our way to the upper lakes in quest of big salmon trout, and had pitched our camp at Mud Turtle for the night only. While some of the boys were packing up in the early morning two of us rigged up a bass tackle to try for a bit of fresh breakfast. Bass and 'lunge are more or less plentiful in Mud Turtle and the lakes below it. We paddled a few hundred feet from camp and dropped bait into a likely looking hole. After a few minutes had passed I got a nibble and a strike. It turned out to be a baby bass about eight ounces in weight.

It was so small that I did not take the trouble to play it. I held the rod idly in one hand, intending to allow the little fish to tire himself out and then to throw him back into the water. While talking about other things with my side partner I felt a sudden jerk on the rod, and immediately the line whissed out from the reel like a streak, making a whirr that was positively musical. I checked it as soon as I could, and the strain doubled the rod over almost tip to butt. For a few momente I was at a loss to understand how that little bass could develop such amazing strength and agility. I kept the line taunt, and presently the water was disturbed a hundred feet away, and out jumped a 'lunge almost a yard long. He was fast, apparently, to the end of my line.

My delight at the strike was partially neutralized by the knowledge that I had only a single gut leader attached to the hook, and a 'lunge can snap off gut leaders with his teeth as easy as he can swim. So I hoped that the hook had taken hold in the hard skin in front of his teeth, in which case I had a chance of landing him. For fully ten minutes I played with him as well as I knew how, giving him not an inch of slack line. Gradually he weakened and came in closer and closer to the canoe. Then he jumped again. This time he was within twenty feet of the canoe. He jumped straight up out of the water, as 'lunge always do when hooked, and shook his head to get clear. It was only then that I saw that the giant was not hooked at all. His tremendnous jaws were fastened half way up the little bass' back, and he hung on with tenacious grip. I realized at once that it would be impossible to land him, and my keen disappointmene for the moment can be imagined readily.

But luck was with us after all. My companion had taken his rifle with him to get a chance shot at any stray loon that might get in our path. He saw the possibilities of the situation and got his rifle ready. "Waits till he jumps again" he whispered in an excited tone. We waited for what seemed like hours, the 'lunge still keeping his hold and swishing the line through the water with lightning-like rushes. Finally he jumped again. "Bang," went the rifle, the ball going through the 'lunge's head. He fell back stone dead. When we hung him on the scales the indicator showed a weight of 24 pounds. It was the biggest fresh-water fish I'd ever caught with rod and line. The most remarkable feature of the experience was the tenacity of the huge fish. All he had to do to be free was to open his jaws. But he hadn't the good sense to open them. There were witnesses enough to vouch for the absolute truth of this anecdote. If corroborative testimony is wanted I refer to the editor of the Canadian Post, Lindsay, Canada.

CHEMONG PARK.

It has been very pleasant here the last few days. There were happy crowds, delightful breezes and a clear atmosphere, so clear that grand vistas were open to the lovers of nature. The excellent cooking and tidy arrangement of the hotel was also much appreciated.

Yesterday carriages and bicycles were more numerous than ever. There were bikes—bran-new bikes, fixed-over bikes of the vintage of '96, and what was most conspicuous of all, a solid tire bike. But the crowd catching sight of it the rider became a scorcher and left no tidings of whence he came or where he disappeared to.

Football, boating and fishing were the standard attractions. Many a 'lunge was warped from his native element to be prized as a splendid specimen of its kind. Good old beads could be seen bobbing together, as some one graphically described how he had to work the lively fish before he succeeded in landing him. Under a tree a little further on, ladies with their husbands or fathers stood around a heap of the finny tribe, expressing admiration, and exchanging mirthful conversation. Others stepped off proudly with sleek beauties suspended from their troll lines, which the carried in their hands. No 20 pound fish have been brought in yet, but ad 18-pounder, captured by Mr. Sandrel, was much admired.

Every day now there is lively scenes about the cottages, furniture being unloaded and placed in its summer quarters, stovepipes are noised together and stuck out to breathe upon the pines, fish tackle polished and untangled and boats, now parched with their long term of idleness, are given a bath. Flower beds and embellishing paints are improving the pretty cottages wonderfully. Mr. M. L. Henry has treated Jubalie cottage to a fresh coat. Miss Dugan is having Prospect cottage nicely painted. Mr. Walter Hartshorn is applying his artistic brush to the interior of Rosedale cottage. Mr. W. B. Kelly has painted the interior of Hyacinthe cottage.

Mr. and Mrs. Will Sherwood have opened their cottage lately with Miss Ward, of Detroit, as their guest. Mrs. W. H. Moore is occupying Echo cottage.

The road out from town to this place is being raked free of loose stones. At this early advance of summer what is more pleasing than a spin into the country, especially when the road is in prime condition. The marguerites and butter cups along the way side, the fields of blooming clover and the woods in their new foliages are pleasing indeed; and yet, more pleasing is it to him who from the clouded sphere of business strife, turns in the evening to his retreat at Chemong.

Where the heart forgets its sorrow,
And the loftier thoughts array,
Like stars in the placid heavens,
Repelling the darkness away.

THE NINETY-SIXTH ANNUAL MEETING.

PETERBOROUGH ASSOCIATION OF BAPTIST CHURCHES.

A Highly Successful Sitting at Wick low, Northumberland County—Encouraging Reports Presented—Good Progress in the Bounds of the Association.

TUESDAY EVENING.

A good rousing devotional meeting in the open air, conducted by Pastor Wm. Peer, of Norwood, was a fitting prelude to the evening service which followed. After the usual opening exercise Rev. A. T. Dykeman, of Peterborough, preached an able sermon from 1st Thessalonians, 3, 10.

Mr. Dykeman took for his subject, "Perfecting Faith," calling attention to the fact that what was needed was a perfecting of our faith. By faith he did not mean that confiding affectionate belief in Jesus Christ, that simple trust in Him for pardon, but the essential doctrines of the religion of Jesus Christ. There was both necessity and opportunity for the perfecting and knowlege of the vital doctrines of our faith. If we were to preach these doctrines we must know them, know the spirituality of them as well as the historical knowledge of them. If we are to cultivate the Christian graces and develop well rounded Christian characters, we must have a more perfect knowledge of the graces and how we may obtain them. How could we perfect this faith? First by a study of God's word. Knowledge of the word of God expands the spiritual life and perfects its powers of service; ignorance paralyzes it. Secondly, we can perfect our faith by prayer. Communion with God was indispensable to perfection of faith. In the third place we must continually recognize the presence and office of the Holy Ghost. All the important factors which go to perfect faith are attributes of the Holy Ghost. The last great essential to perfecting faith is activity in Christian work. There cannot be spiritual growth without spiritual activity. In closing he eloquently exhorted his hearers to perfect their faith.

After sing a hymn, Rev. Mr. Jollife by request of the Moderator, gave a brief address of greeting.

Rev. J. P. McEwan, Home Mission Superintendent, then gave an inspiring addr e: on the reasons for hearty support of Home Mission work. He reviewed the wonderful progress made on Home Mission fields during a period of ten years. During the past year twelve buildiage had been erected in Home Mission fields, Eleven new churches organized. Seven churches declared for self support. Several new places have been opened.

Peterborough Association has made progress that has caused great joy in many hearts.

WEDNESDAY MORNING.

The delegates met at 9 a.m. for a prayer and praise service conducted by Rev. J. R. Boomer, of Stirling.

The Moderator opened a business session at 9 30, and after the reading of the minutes the statistics of the Sunday schools were read. They told of marked progress for the year, both in numerical and financial matters.

Pastor Marshall, of Cobourg, gave a very helpful address on "Definite aims in Sunday School work." A spirited and interesting discussion followed, in which many Sunday school workers took part. The morning session closed with a historic sketch and roll call of the first members of Haldimand church. The Haldimand church was founded over a hundred yeaes ago and the descendants of the first members gave some very interesting reminescences of the early settlers.

The afternoon session, after a service of praise and prayer, led by Mr. Graham, of Smith, was devoted largely to routine work, such as passing of resolutions, reports and unfinished business. A resolution in favour of the plebiscite was passed with great heartiness. The evening session began with a consecration service, conducted by Rev. O. C. Elliott, of Park street church, Peterborough. The Women's Mission Circles reported through their Director, Miss Walton. Dr. A. H. Newman, of McMaster University, delivered an interesting address on the educational interests of the denomination.

After prayer and singing, Rev. R. Wallace, who was introduced as the new Moderator, gave an address which all appreciated on "The Work of the Holy Spirit in relation to the world."

The meeting adjourned after prayer and the benediction to meet, God willing, within Park street church, Peterborough, in 1899.

A public meeting of an unusually interesting character will take place on Monday evening at 7.30 o'clock, when addresses will be delivered by Rev. John Hay, B.D., of Cobourg, on "The Assembly of '98—Its personnel and work"; Rev. Dr. J. K. Smith, of Port Hope, on "The Relations of Church and Home Life"; and Rev. Dr. Robertson, Superintendent of Presbyterian Home Missions in Manitoba, Northwest Territories and British Columbia, on "The Home Mission Work of the Church." A large number of the members of the Presbytery will be present and the public are cordially invited to the meeting on Monday evening.

Rev. Chas. Fish, Methodist Minister, 192 Dunn Ave., Toronto, Cured of Eczema.

About ten years ago I felt the beginning of what is commonly known as eczema. The disease commenced in my ears and spread entirely over both sides of my head and also developed on my hands. During those ten years I was a great sufferer, Specialists on skin diseases treated me. As I write this I am just com mencing on the fifth box of Dr. Chase's Ointment, and judging from the rapid improvement effected, I am certain that before the box is used I shall be completely cured.
